UNCLE SAM SECOND.

Great Britain Still Leads World's Naval Powers. Washington—The United States closes another year in second place among the world's naval powers. The great navy building race between Germany and Great Britain has not brought the former country up to the United States in the number of battleships afloat, but in ships projected and in the total number of war vessels of all kinds, Germany will crowd the United States to third place.

Willard Flies 55 Miles.

Los Angeles—Under perilous weather conditions, marked with shifting, smoke holding and freak air currents, Charles Willard made a most successful flight in an aeroplane over the cities of Los Angeles and Pasadena Saturday, traveling a total distance of 55 miles. His flight was witnessed by thousands of persons from the tops of buildings and streets.

Stolen Gold is Captured.

San Francisco—Six men and a woman are in the city prison here on orders of the United States secret service bureau and the local police that they are responsible for the theft of \$59,000 in gold from the shipment of gold aboard the steamer Humboldt on September 11. Gold bars valued at approximately \$7,000 have been recovered by the authorities. Papers found among the effects of two of the prisoners show that \$3,100 worth of gold has been sold. Those under arrest include E. C. Smith and his wife.

China Plans New Coinage.

Sledging Bad for Peary.

Washington—Representative Macon of Arkansas, threatens trouble for Captain R. E. Peary, Arctic explorer, when the question of making him rear admiral comes up in the house. He threatens to fight the bill to the last ditch.

Delightful Drink is Now to Be Had in Convenient Form.

The man who thinks out and brings out a new food preparation usually has to create the "long-felt want" which he fills. In tackling the pineapple juice problem, no such difficulty confronted James D. Dole, of Honolulu.

When we eat pineapple it is for the juice alone, and less bitter and more tender the fruit, the juicier it is and the better we like it.

When the doctor orders pineapple in cases of throat trouble or certain stomach and intestinal difficulties it is the pure, uncooked juice pressed from the ripest obtainable fruit which he wants his patients to have. It is this same refreshing juice which the nurse gives fever convalescents whose cooling and slightly acid drinks are desirable. So pineapple juice already had a place.

The problem then, to be solved, was how to get the pure juice of pineapple on the market in such a form that it would please the healthy lover of the fruit, and be useful to the doctor and the nurse. A syrup would not do, because of the impossibility of suiting individual tastes. Even the juice of the finest Hawaiian canned pineapple would not answer with its small quantity of preservative pure cane sugar, because the physician needs to regulate the amount of sugar prescribed. To make a long story short, Mr. Dole spent years in experiments which finally resulted in the Hawaiian Pineapple Juice which bears his name.

Dole's is the Juice of "Picked Ripe" Hawaiian Pineapples pressed out and bottled on the islands where the fruit grows. Filtered, refined, sterilized in the bottle, retaining all the natural flavor and aroma, not a bit of sugar, water, preservative, or anything else is added. It has been four months on the market. During this time the Juice has been distributed all over the United States, in some parts in ample quantities, while in others the supply has been very restricted.

Its success has been most gratifying and unprecedented.

In its favor were the previous favorable reception of Hawaiian Pineapple, the general knowledge of its high quality, the therapeutic values of pineapple juice known to the medical profession, and the remarkable product itself. So, four months have sufficed to give this new drink a large hold upon the people of the country until the demand is practically unlimited.

Was His Nest.

The Bahamas.

The Bahamas have no descendants now of the Indians whom Columbus found there. They were carried away by the Spaniards to work in mines and pearl fisheries elsewhere, whom they were not ruthlessly exterminated. Of the white population many are the descendants of the Loyalists of Georgia and South Carolina who fled hither when the United States became independent. The blacks' speech presents one especially curious feature: they exchange their vs and w, exactly as the Londoner did when Mr. Weller insisted upon spelling his name with a "W."
