Fresh Air in Winter

In winter, it is hard to get fresh air in certain rooms. Some rooms in a house are usually colder than others, and if you open the windows it is hard again to heat the room properly.

If you keep the windows closed you don't get fresh air; if you keep them open you cannot quickly reheat the room. The

PERFECTION SMOKELESS OIL HEATER

Absolutely smokeless and odorless

solves the difficulty. You can leave the windows in a room open all day in winter, and when you close them apply a match to a Perfection Oil Heater and heat the room to any temperature you desire in a few minutes.

The Perfection Oil Heater is finished in japan or nickel. It burns for nine hours. It has a cool handle and a damper top. It has an **automatic-locking flame spreader,** which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so that the wick can be quickly cleaned. An indicator always shows amount of oil in the font

The filler-cap does not need to be screwed down. It is put in like a cork in a bottle, and is attached to the font by a chain.

The burner body or gallery cannot become wedged, because of a new device in construction, and consequently, it can always be easily unscrewed in an instant for rewicking. The Perfection Oil Heater is strong, durable, well made, built for service, yet light and ornamental.

TWELVE KILLED IN EXPLOSION

New York Central Power House Completely Wrecked.

Trolley Car Hurled on Top of Auto By Blast—Children In Hospital Narrowly Escape.

New York, Dec. 19.—Twelve persons were killed, two of them women, and 30 were injured in a double explosion of gas and dynamite in the new electric power house of the New York Central Railroad, shortly after 8 o'clock this morning.

The force of the explosion shattered hundreds of windows in the big hotels and apartment houses in the neighborhood of the railroad terminal, causing alarm among the guests. The dynamite blast picked up a northbound trolley car, lifted it in the air and sent it crashing down upon an automobile which was passing along the other side of the street. Four of the passengers were killed, and every one in the car was injured.

The railroad service was only temporarily interrupted. The new sub-station power house, where the explosion occurred, is at Fiftieth street and Lexington avenue, which is half a dozen blocks north of the Grand Central station.

The explosion partly wrecked the engine house near by and prevented the firemen from gtting their apparatus into the street. Monsignors La Pette and Hayes and Fathers O'Connor, McQuade, Sinnott and Byrnes, of St. Patrick's Cathedral, hurried to the scene and administered the last rites of the church to the more seriously injured.

At the postoffice substation at Fortieth and Madison avenues, the explosion slightly injured several clerks and threw the mail all over the floor. In the New York Nursery and Child's Hospital ceilings were partly shaken down, and the windows broken, but fortunately none of the 300 children there was badly injured.

The power house, which is built of stone and brick, and is six stories high, took fire after the explosion, and the interior was practically burned out. Just what caused the double explosion may probably never be known. Fortunately for the thousands of commuters on the New York Central lines, the force of the dynamite blasts was directed in an opposite direction from the railroad tracks, otherwise the loaded incoming trains might have been wrecked.

Officials of the railroad learned that there were many workmen in the building at the time of the explosion, and that but few of these had been accounted for. In the Bible Teachers' Training School, on Lexington avenue, directly opposite the power house, 125 men and women who were on their way to breakfast, were thrown to the floor by the blast. Many of the men and women were injured, and several of them were taken to hospitals. All the windows in the building were blown in and the ceilings fell.

The damage to the power house and other buildings has not been estimated, but it was stated that it will likely exceed $500,000.

The employes of the railroad have been unable thus far definitely to assign the cause of the explosion, but it is believed a large quantity of dynamite stored in magazines close to the substation was responsible for the greater part of the damage.

Wireless Stops Train.

Ottawa, Canada.—Drawing a train of twelve cars and rushing over the rails at a speed of forty-five miles an hour on a stretch of track near the city of Toronto, a powerful engine on the Canadian Pacific railway service was brought to a quick standstill, with the throttle wide open, and the engineer standing in his cab, a mere spectator, like those present with him to view the wonder.

The brakes had been applied on the big locomotive and train of cars by a wireless wave of electricity. It seemed as if a giant had seized the equipment and held it with ease.

Experiments with a wireless train-control system have been quietly conducted by the Canadian Pacific Railway company since last May, and this demonstration was the culmination of a long series of successful tests.

Balloonist's Body Found.

Bremen.—A fishing cutter has found in the North Sea the body of Lieutenant Lange, pilot of the balloon Saar. The Saar and eight other balloons started in a race from Essen-on-the Ruhr, Rhennish Prussia, November 13. Seven of the balloons made safe landings the following day and later the Hessen descended in North Germany. The Saar never was heard from again, although the 22 German torpedo boats and other craft watched the North Sea for several days. Lieutenant Lange, Lieutenant Rommeler and a civilian, Herr Zimmerman, were on board

Tube 1000 Miles Long.

Chicago.—The Record-Herald tomorrow will announce the completion of an engineering project for the construction of a tunnel between here and New York and other Eastern cities. According to the plans, the tunnel will be of sufficient dimensions to carry telephone and telegraph wires and a pneumatic tube for the transmission of packages. "Terminals here and in New York have been constructed," says the report, "and in a short time men will be placed along the proposed route to begin the actual work of excavation."

Chinese Royalty Balks.

Pekin.—The throne has issued an edict refusing to create a constitutional cabinet in compliance with a memorial recently presented by the national assembly and also declining to accept the resignations of the grand councillors. The imperial senate also adopted a resolution praying for the immediate creation of a cabinet, and it was believed the throne had decided to accede. The national assembly will soon meet and the whole subject will be discussed.

Hebrews Are to Convene.

DRINK 4 O'CLOCK COFFEE

More New Yorkers Now Go In for What Used to Be Foreign Custom.

When he first got back from a trip abroad, the young man felt strongly the need of his afternoon coffee and cake when 4 o'clock came around. The New York Sun says this was not only custom, but a bit of medical advice, because the doctor at Carlsbad had told him that Americans didn't eat enough and that was a reason why they were so nervous.

The young man expected when he went into one of the small lunch places downtown that his request for coffee and cake might be looked upon as something odd, as typically foreign. It was to his surprise then that he found that he was not by any means the only person in the lunch place who was there with such an object.

There was a fair crowd, each man taking his coffee and cake. Some of the men appeared to be clerks and others were just office boys. So the young man spoke to one of the men behind the counter.

"Oh, yes," replied he, "there is always a good crowd in here at this hour. I think you will find the same thing in other food places. People seem to come in here just naturally for that mid-afternoon food, and with these fellows it isn't a case of a deferred luncheon either. They do it because they are hungry and they don't want too much. The habit has come up very strongly in the last few years."

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Something of a Joke.

A good example of the kind of story Mark Twain used to like to weave into his after-dinner speeches was the tale of the drinker who unwillingly put in an application for membership in a temperance society, sailed the next day on a three years' voyage, on which he kept the pledge in spite of longing and temptation, and returned to resign only to find that his name had been blackballed originally.—Buffalo Commercial.

Eager for an Education.

A Poltava, south Russia, paper recently published an advertisement from a Jew who offered to pay the fees at a local gymnasium of three Christian children. The reason for the offer is obvious. By the admission of the three Christians an extra place, under the percentage form, would be provided for a Jew, and the advertiser hoped by this desperate means to secure the admission of his son.

His Parting Shot.

A local minister had had a serious time in fighting the saloon element in his town and had not been backed up in his efforts by the members of his own church. This with other troubles had led to his resignation, and in announcing his departure at his farewell sermon he said: "I am going to do something the devil has never done. I am going to leave C——."

A Famous Fair.

In a vast country like Russia, hardly yet opened up by railway communication, it is not surprising that there should still be a great fair like that of Nishni Novgorod. This town forms the meeting place of Russian and Asiatic traders, and the amount of business done there is probably equal to that of half a dozen of the largest fairs of the middle ages. Vast quantities of skins, iron, tobacco and cheap manufactured goods lie about in great heaps, and surrounded by the waters of the Volga and the Oka on the great market place arise shops and booths to the enormous number of ten thousand, while the visitors exceed half a million. The total business transacted at each fair is said to be about two hundred and fifty million dollars, and the credits opened there exceed this figure.

Black Paper Protector.

Wrap gold or silver trimmings in black paper and you will find that they will remain untarnished through many seasons. All frocks should be wrapped in black paper also. A good quality of tissue paper should be used, and if this is not practicable, use a heavier grade.

Good Manners a Requisite.

A brilliant mind, the possession of unusual talents and worldly success are all to be desired, but nothing will compensate for a lack of good manners, while the possession of good manners will frequently make amends for a certain lack of book knowledge, talent and world success.

Got Nothing From Legacy.

The deacons of a Baptist chapel in Cheltenham, England, got a shock when they heard the contents of the will of one of the chapel trustees, who died in December, 1908. By a codicil he left a hundred pounds to the chapel for each deacon who attended his funeral. There were nine deacons, but not one of them attended; so instead of the £900 by which the chapel might have been the richer, the legacy was void.

Appeal Made Effective.

A certain Harford (Md.) farmer has hit upon a mode of relief from trespassing fowls belonging to his neighbors. On one end of a thread four inches long he fastened a grain of corn and on the other end a tag inscribed "Please keep me home." These were scattered where the trespassers were usually found, and a score or more of hens carried home the appeal.

Many Enemies of Beauty.

Really, when we come to think how numerous are the enemies of beauty—fear, sorrow, worry, disease, dust, wind and all the unfavorable influences of work—it is not after all surprising that so little of our childish beauty remains in later life.—London Daily Mail.

The Ancient of a Future Day.

People are always talking of the study of the ancients; yet what does this mean but apply yourself to the actual world and seek to express it since this is what the ancients did when they were alive?—Goethe.

Feminine Moods.

"Women will go far in certain moods, far beyond their own fears and nearer to the dictates of temper than a man would dare. Let the stress be great enough, and the kindest of them will become as the most cruel, the gentlest as the actually criminal."—"The Girl With the Red Hair," by Max Pemberton.

Stops Hair Falling

Ayer's Hair Vigor, new improved formula, will certainly stop falling of the hair. Indeed, we believe it will always do this unless there is some disturbance of the general health. Then, a constitutional medicine may be necessary. Consult your physician about this.

Does not change the color of the hair.

Ayer's Formula with each bottle. Show it to your doctor. Ask him about it, then do as he says

The reason why Ayer's Hair Vigor stops falling hair is because it first destroys the germs which cause this trouble. After this is done, nature soon brings about a full recovery, restoring the hair and scalp to a perfectly healthy condition.

PORTLAND CHAMBER OF COMMERCE

U. S. Cashier Co. Portland, Or., Nov. 3, 1910.
Dear Sirs—I have the pleasure in notifying you that at a meeting of the Board of Trustees of the Portland Chamber of Commerce, held Nov. 1st, 1910, I was directed to state that the demonstration of your automatic coin paying machine convinced the Trustees of its excellence, that they consider it perfect in every way, and that a factory for the manufacture of these machines would be an unusually desirable industry for Portland. I am, yours respectfully,
(Signed) E. C. GILTNER, Secretary.

LADD & TILTON BANK, PORTLAND, OR.

A device of this character has long been desired by the banks and is thoroughly practicable. I can readily see that with a machine as perfect as yours is at the present time that the natural evolution of the machine would evidently be something startling.
