Years of Suffering

Catarrh and Blood Disease

Doctors Failed to Cure.

Miss Mabel F. Dawkins, 1214 Lafayette St., Fort Wayne, Ind., writes:
"For three years I was troubled with catarrh and blood disease. I tried several doctors and a dozen different remedies, but none of them did me any good. A friend told me of Hood's Sarsaparilla. I took two bottles of this medicine and was as well and strong as ever. I feel like a different person and recommend Hood's to any one suffering from catarrh."

Get it today in usual liquid form or chocolated tablets called Sarsatabs.

Silent Forests of Cuba. Silence reigns in the vast forests of Cuba. Says a traveler: "No beast crashes through the undergrowth, no bird sings in the branches, no wind sighs through the mighty tops. The living creatures of that world glance noiselessly through the air or glide stealthily through the heavy, sounddeadening verdure." Cuba has practically no song birds; they are merely gaudy creatures of the ballroom. She is happy also in having no venomous makes and few pests of any sort.

To Judge Its Own Needs. With intelligent guidance the child can be made the judge of what his body needs in the amount of food. If the child be taught-carefully - to chew every mouthful of food thoroughly, and to swallow it before taking another mouthful, and if he is denied any fluid to drink at meals, then he cannot overeat, for appetite will be satisded before he has swallowed too much.

A Modern Problem.

The paragraphers are still keeping in circulation that paragraph about the judge who ruled a man need not support his mother-in-law. What is it, impecuniosity, tight-waddedness or fust pure cussedness?

Eye Books and Eye Advice Free by Mail. o smooth the surface of the furrows o encourage the germination of weed amount of cultivation must be deter-nined by the condition of the soil, but let the thought enter your mind that hould be sufficient to work up a good study alone will lead you to the hights nulch of loose earth. Deep cultivation s not desirable. Up to the first day May the land should be given suf-cient cultivation to preserve the ulch, and to prevent weeds from seiring too much of a start. About the rst of May the final preparation for

eding should be given. or to the first of May little more an a single harrowing may be needed. at the aim should be to secure a well alverized seed bed of two or three aches depth with the bottom of the owing, the firming of the furrow may brought about by the use of a roller, anker or other compacting tool. 'Soils west of the Cascade moun-

ins seem to require inoculation for accessful alfalfa production. This is est accomplished by harrowing in at the final preparation for seeding, a ight sprinkling of soil taken from some ld alfaifa field where the crop has rown successfully. Soils secured from ersons in this region who have suc-eeded with alfalfa would do admira-

for this purpose.
'In securing seed, be very careful purchase seed possessing high vital-and free from the seeds of noxious ds. It is more important to be sure these two points than to seed alalfa of a certain strain. Persons who re not able to determine the purity f samples furnished them should send amples to the botanist of their state eriment station, who will examine ee of charge, and report the results. "If good seed is secured, ten pounds

er aere seeded broadcast on very thoraughly prepared soil and well harrowed in will be ample. The Washington exriment station has secured better suc ess by seeding with a grain drill, slipping the spouts of the drill off the grain box and attaching them to the grass seed box, so that the seed will conducted into the shoes of the drill, s in the case of wheat and oats. Set ing the shoes of the drill to run shalw will result in the seed being placed

Don't make your children blase by giving them too many treats. Young children do not need amusements; the more simply and quietly they live the he plant needs an opportunity to de-clop its root system. If weeds are apt more chance is there that they will relep its root system. If weeds are apt o seed run a mower over the piece with the cutter bar tilted to cut high. There is no advantage in clipping back the alfalfa if weeds do not become trouble to the alfalfa if weeds are apt if lines blur or run together, you need alfalfa if who was in the office of the building, was slightly injured. Windows of the adjoining plants of the Lacy Manufact. grow up strong and healthy. Overamused children are never happy; they are always craving for more excitethe alfalfa if weeds do not become trou-blesome. After the alfalfa has thoroughly established itself, it may be moved or pastured off. Each spring soon as the ground is fit to work, it is best to give the soil a thorough working with a spring tooth harrow and se, or some other effective tool."

In an address recently given to the tudent body of the State Agricultural ollege at Pullman, President Howard Elliott of the Northern Pacific Railvay, said that one of the greatest needs of the present day is an appreciation of the values of country life. In part

"The railroads are interested in the eneral subject of education, and parmarked drifting away from the country to the city. In 1800 only 3.1 per ent of the people of the United States yed in cities, and the census just aken will probably show over 35 per

ent living in towns and cities. "A great work is being done by the gricultural colleges of the country in sirable, how to make better use of e land. Especially is this a great ork when it in an educational way eaches young men and women of the arming communities. We must have country. We must have country life made more pleasant. There is no better fe for the young man or young woman ann a home in the country. They can better for themselves there. Scienfic farming is just as important, and time will produce just as good re-ilts as scientific work in any other

Sugar Trust to Pay Back. New York - The American Sugar Refining company will shortly hand to the United States government a check for \$700,000 in settlement of a further series of customs frauds, according to the Herald.

This will bring the total amount from this company up to nearly \$3,-000,000. This latest settlement is in connection with the so-called "drawback" frauds, which have been under investigation since the original customs frauds were detected two years ago, as a result of the Parr disclosures.

Steel Men in Rebellion. New York-The rebellion in the steel trade last week against the policy of restricting competition and maintaining rigid prices was expressed in concessions of \$1 a ton or more prices of steel bars, structural shapes, plates and steel pipe by some of the independents in the interior and by exceptionally low prices on fabricated steel in the Eastern territory. The holiday spirit was against any important expansion in the business.

Many Killed in Indies. San Domingo— News has reached here of an engagemensent along the Dominican and Haytian borders. Several are reported killed. A gunboat will be dispatched with troops to be sent to the scene of the trouble.

The dose of Ayer's Pills is small, only one at bedtime. As a rule, laxative doses are better than cathartic doses. For constipation, billousness, dyspepsia, sick-beadaches, they cannot be excelled. Ask your doctor about this.

No Man is Stronger

Than His Stomach

A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man "doesn't feel just right," when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is !-nguid, nervous, irritable and desponent, he is losing the nutrition needed to make strength.

Such a man should use Dr. Pierce's Golden Medical

Such a man should use Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood, Invigorates the liver, strengthens the kidneys, nourishes the nerves, and so GIVES HEALTH AND STRENGTH TO THE WHOLE BODY.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit. Ingredients printed on wrapper.
