A surprise party was given at the home of Amos Root on New Year's eve, when all of the family, except Leo and wife, pounced in on them and gave them a real surprise. There being a large family of them they made things hum for awhile. The nine grandchildren went to grandma's to have a good time which they did until the little fellows grew sleepy and were tucked in bed in different parts of the house. What is Home

A small part of the world which "all the world" could not buy.

The ante-room of heaven. It should be anti-trust, anti-monopoly, anti-license and anti all other forms of evil.

Home is the blossom of which heaven is the fruit.

The only spot on earth where the faults and failings are hidden under the mantle of charity.

The place where the great are sometimes small and the small are often great.

The father's kingdom, the children's paradise, the mother's world.

The jewel casket containing the most precious of all jewels—domestic happiness.

Where you are treated best and grumble most.

Home is the central telegraph office of human love, into which run innumerable wires of affection, many of which though extending thousands of miles are never disconnected from the one great terminus.

The center of our affections, around which our hearts best wishes twine.

The little hollow scooped out of the windy hill of the world, where we can be shielded from our cares and annoyances.—Ex.
