**Love is a Sacrifice.**  
Love is a many-sided sacrifice. It means thoughtfulness for others; it means putting their good before self-gratification. Love is impulse, no doubt, but true love is impulse wisely directed.—H. R. Haweis.

**The Uses of Adversity.**  
Still another advantage of being in adverse circumstances, such as an editor's for instance, is that you can always assist the processes of thought by absent-mindedly cutting the fringes off your cuffs.

**Hook-Throwing.**  
Smiley—"So you just got back from a two-weeks' fishing trip, eh? Have you luck?" Grafton (gleefully)—"Only cleaned up a little over a hundred—and we didn't play every night, either!"

**Which is Fortunate?**  
Conversations are fortunately forgotten as soon as they are over, otherwise people would be so mortified over their lame remarks that they would seek new friends every day, fearing to meet old ones.

**Intentional blinding.**  
Intentional blinding to escape conscription for the army is still met in Egypt. The means employed are either the placing of a hot needle on the cornea, producing a dense white leucoma, or a puncture often involving the lens, or by the introduction of lime or an irritant vegetable juice in the eyes.

**Paris is Tea Mad.**  
Paris has gone tea mad. English customs cross the channel with amazing alacrity, and now all that is said or done, all that happens in Paris, between 3 and 7 a. m., is said, is done or happens around a tea pot.—Figaro, Paris.

**Russian Footwear.**  
All Russians have a weakness for handsome footwear and the result is that there are more pairs of showy boots worn in the czar's empire than anywhere else on earth. This preference extends to the women as well as to the men.

**Makes Good Paper.**  
Tests made in Great Britain have shown that excellent paper can be made of blue gum wood. Australia possesses an enormous supply of this wood, and steps are being taken to utilize it.

**Mother Love.**  
Mother love has this uniqueness to any other love. Tender to the object, it can be infinitely tyrannical to itself and thence all its power of self-sacrifice.—Lewis Wallace.

**One at a Time, Please.**  
"Do something for the girls," is a moving plea. The best possible thing to do is to marry them.—Chicago Record-Herald.

## SHE HAD CONSTANT PAIN

Until Relieved by Lydia E. Pinkham's Vegetable Compound.

Dewittville, N. Y.—"Before I started to take Lydia E. Pinkham's Vegetable Compound I suffered nearly all the time with headaches, backaches, and bearing down pains, and had continuous pain in my left side. It made me sick if I tried to walk much, and my back was so weak that I was obliged to wear corsets all the time. But now I do not have any of these troubles. I have a fine strong baby daughter now, which I did not have before taking Lydia E. Pinkham's Vegetable Compound."—Mrs. A. A. GILLES, Route 44, Dewittville, N. Y.

The above is only one of the thousands of grateful letters which are constantly being received by the Pinkham Medicine Company of Lynn, Mass., which prove beyond a doubt that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, actually does cure these obstinate diseases of women, and that every such suffering woman owes it to herself to at least give Lydia E. Pinkham's Vegetable Compound a trial before submitting to an operation, or giving up hope of recovery.

Mrs. Pinkham of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health and her advice is free.

**Marking Linen.**  
When using marking ink to put initials, etc., on linen do your work first with an ordinary lead pencil, and then use the marking ink over the work. The pencil will prevent the ink from spreading and giving the linen a blotched appearance.

**Comfort in the Zoo.**  
If I have cares in my mind, I come to the zoo, and fancy they don't pass the gate. I recognize my friends, my enemies, in countless cages.—W. M. Thackeray's Letters.

**Extremes Equally Wrong.**  
The girl who studies her dress to the detriment of her mind is nearly as bad as the girl who polishes her mind to the neglect of her appearance.

**Stimulus Needed.**  
Human nature requires a stimulus, and the taking away of that stimulus is not the best means of keeping a man up to his best individualistic effort.

**Don't stay equal.**  
"All men," said the earnest citizen, "are born equal." They are that," replied Mr. Katerby, "but they don't stay equal after they're big enough to get together in the school yard."

**A Mean Man.**  
"Why do you argue with your wife? Don't you know it doesn't do you a bit of good?" "Sure I do. But I ain't got such a mean disposition as to deprive her of the pleasure."

**You May Need It**  
Ask your doctor about the wisdom of your keeping Ayer's Cherry Pectoral in the house. Ready for colds, coughs, croup, bronchitis. If he says it's all right, then get a bottle of it at once. Why not show a little foresight in such matters? Early treatment, early cure.

**Selling Horse Flesh.**  
Dealers selling horse flesh in Paris are required to indicate the nature of their business by placing a horse's head in a conspicuous position, so that it can readily be seen by purchasers. Annually \$25,700,000 pounds of horse and mule meat are sold, representing a slaughter of 61,000 animals.

**Only Saints Do It.**  
We can most of us do an unselfish thing now and then. If we are to have the credit of it, but it is only the saints of everyday life who can make a great sacrifice for the sake of others, and take care to prevent their doing it is a sacrifice.—J. O. Bailey.

**Always Profit in Industry.**  
If you have great talents, industry will improve them; if you have but moderate abilities, industry will supply their deficiency. Nothing is denied to well directed labor; nothing is to be obtained without it.—Joshua Reynolds.

**Mothers will find Mrs. Winslow's Soothing Syrup the best remedy for their children's teething period.**

**straight from the Heart.**  
"Lord, Miss May," said the old dandy to the young lady of the house, the morning after her coming-out ball, "you sho' did look sweet las' night. My! I hardly knowed you. Dey wasn't a thing about you dat looked unattract."

**What He Had.**  
"Well, I think the doctor is aboth through with me. Told me my ailment is practically cured." "What did you have?" "Two hundred dollars originally."

**Handy Putty Knife.**  
A putty knife with a reservoir in the handle, from which putty can be squeezed by pressing a button, has been invented as a time-saver for glaziers by a Minnesota man.

**His Place.**  
"Mamma wishes you to enter papa's factory, darling. That would do away with all his unwillingness." "But, dearest, I'm a poet." "All the better. You can write verses for our vinegar advertisements."—Flegende Buaerter.

**Gems as Poison Antidotes.**  
Poison was the terror of the middle ages; it is natural, therefore, to find many remedies among gems—the jacinth, the sapphire, the diamond, the topaz, the ruby, the agate, the lodestone, the benzoin stone were all used as antidotes to poison.

**Many Species of Shark.**  
Seventeen species of shark, some of them 25 feet in length, inhabit the far western seas, while the harking shark of the Indian ocean frequently attains a length of 50 feet.

**Look Ahead.**  
"My son, remember this; marrying on a salary has been the salvation of many a young man." "I know, dad, but suppose my wife should lose her salary?"

**The Missing Bird.**  
"How do you find the chicken soon, tonight, Mr. Newcomb?" queried the boarding house landlady. "I have no difficulty in finding the soup, Mrs. Hasher," he replied, "but I am inclined to think the chicken will be able to prove an alibi."

**8000 TRESPASSERS DIE.**  
Pennsylvania Road to Wage Campaign to Prevent These Deaths.  
Chicago—Eight thousand trespassers were killed on the Pennsylvania Railroad during the year 1910 and this enormous total has led the railroad to announce a determined campaign to keep those who have no right there off its tracks and its trains.

**Being Killed on the Pennsylvania Railroad.**  
Company was not liable for the deaths, but officials were appalled at the number. Orders have gone forth to all officials and employees of the system urging that all trespassers be kept off the company's property.

**Steal Horses' Tails for "Rats."**  
Los Angeles.—The constantly increasing demand for women for "rats," puffs and curls is responsible for a new class of criminals, according to the local police, who are seeking in vain to cut off the hair of horses' tails to get "rats." Owners of horses have reported that their animals are being mysteriously "bobbed." The owners do not want to be blamed for the clipping, as a law of the state prevents the docking of tails. In one day 17 horses were deprived of their tails.

**Carnegie Trust Company Closed.**  
New York.—The Carnegie Trust company has been closed by State Bank Commissioner Cheney. The company was chartered in 1907 and had a paid-up capital of a million dollars. Its surplus was \$500,000 and its undivided profits aggregated \$73,000. Its gross deposits amounted to \$5,500,000. The officials of the bank issued a statement saying a quiet run had been in progress for a week and ready available resources had been used up.

**Says Natives Are Good Fighters.**  
Washington.—Should an emergency arise, the United States would have to depend upon native troops to protect the Philippines, according to the annual report of Brigadier-General John G. Pershing, commander of the Department of Mindanao. The natives would respond loyally, too, the general says. Pershing suggests that the native scouts be used as a nucleus for a native standing army.

**Another Bomb for Alfonso.**  
Madrid.—King Alfonso on Monday issued an official denial of the report that an attempt to assassinate him was made recently. On board the yacht Gralida he arrived at Melilla and disembarked.

## ALIEN'S CRIMES ALARM BRITAIN

Demand Is Made for Greater Restriction of Immigration.

Tory Factions Wrangle—Turn on Balfour—Irish Bogy to Furnish Rallying Cry.

London, Jan. 7.—Though there are indications of the coming fierce political struggle when Parliament re-opens at the end of January, all topics for the moment are submerged by the recent battle in Stepney, in which all of the military forces in London were called out to capture a house held by two robbers.

Public opinion, on the whole, justifies the tactics of Winston Churchill, the Home Secretary, and the police. The British approval is made the more certain by the self-complacent criticisms of the German press.

All the same, the spectacle of two desperadoes keeping such a vast force at bay produces a misgiving amounting almost, in some quarters, to a panic. Some of the English see in every foreigner in the East of London a potential anarchist, and the mysterious murder on Clapham Common, with the initial letter "S" carved on the cheeks of the dead, increases the tendency to believe it a widespread and powerful assassin and anarchist organization.

Party politics, of course, enters into the controversy. The Tories are accusing the Liberals of reducing the act of Parliament against aliens to nothing, while the Liberals retort that the defect lies in the acts themselves, which were clumsily contrived by the Tories when they were in power.

There is a general call for a greater restriction of alien immigration, but few will attempt to answer the unanswerable objections to any possibility of such a code of restrictions as could keep out any but an infinitesimal number of real criminals without including a great mass of deserving ones and destroying England's traditional policy of offering an asylum to refugees from oppression.

Another proposal is to make more difficult the right to carry arms, and finally it is proposed to arm the police.

**VENUS HAS SNAKES.**  
Professor Pickering, of Harvard, Supports Views of Coast Man.

Cambridge.—Professor William H. Pickering, of Harvard observatory, is interested in the recent statement of Dr. J. J. See, of Mars Island observatory, that higher forms of life exist on the planet Venus.

The Harvard savant has held tentatively for many years that animal life has been in existence on Venus and that the surface of the planet is composed principally of steaming swamps which abound with reptilian creatures of antediluvian periods.

The professor also has certain theories on the geographical proclivities on the moon, but does not care to discuss them. Concerning Venus, Professor Pickering says: "Certainly there are many physical reasons for thinking that if any other planet besides the earth is inhabited, it is probably Venus. It is about the same size as the earth and its density is about the same. Venus seems more capable of supporting life than any other planet except the earth."

**Broker's Occupation.**  
A broker is a person who executes orders for the purchase or sale of stocks or other property; in other words an agent. The term brokerage is applied to the buying and selling of stocks or other property for others, and the fee charged for the transaction of such business is also called brokerage.

**Might Be Good Idea.**  
It is distressing to think of the waste of time and money, and sometimes temper, which could be avoided if education in housekeeping were recognized as a part of the school curriculum.—Exchange.

**Mexican Valley.**  
The valley in which the City of Mexico is situated is some 50 miles long by 40 broad and 7,500 feet above the sea level. It is supposed that the basin was formerly filled with water and several lakes still cover a part of it. The site is one of extraordinary beauty and impressiveness.

**Raise Cattle on Sahara.**  
The cattle raised on the fringe of the Sahara are known to be of good quality and are estimated at 2,000,000 head. With a little scientific feeding during the dry season their numbers might rapidly be increased and the Sudan region might become a sort of second Argentina.

**Dr. Pierce's Pleasant Pellets** first put up 40 years ago. They regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules.

**Lacked Atmosphere.**  
"I did hope for an artistic career," said the disappointed looking man, "but I met with difficulties I could not conquer. What I needed was atmosphere." "I see," said the same old trouble. "What were you—an author or a painter?" "Neither. I was learning to play the trombone, but I was naturally short of breath."

**An Ancient Anesthetic.**  
A Chinese manuscript lately discovered proves that anesthetics were used in China seventeen hundred years ago. A certain concoction, it states, was given by the doctors before performing an operation, which rendered the patient unconscious. The anesthetic was a simple preparation of hemp.

**Weak Heart**  
Many people suffer from weak hearts. They may experience shortness of breath on exertion, pain over the heart, or dizzy feelings, oppressed breathing after meals or their eyes become blurred, their heart is not sufficiently strong to pump blood to the extremities, and they have cold hands and feet, or poor appetite because of weakened blood supply to the stomach. A heart tonic and alterative should be taken which has no bad after-effect. Such is Dr. Pierce's Golden Medical Discovery, which contains no dangerous narcotics nor alcohol.

The ingredients, as attested under oath, are Stone root (Collinsonia canadensis), Bloodroot (Sanguinaria canadensis), Golden Seal root (Hydrastis canadensis), Queen's root (Silybia sylvatica), Black Cherrubark (Prunus virginiana), Mandrake root (Podophyllum peltatum), with triple refined glycerine, prepared in a scientific laboratory in a way that no druggist could imitate.

This tonic contains no alcohol to shrink up the red blood corpuscles; but, on the other hand, it increases their number and they become round and healthy. It helps the human system in the constant manufacture of rich, red blood. It helps the stomach to assimilate or take up the proper elements from the food, thereby helping digestion and curing dyspepsia, heart-burn and many uncomfortable symptoms, stops excessive tissue waste in convalescence from fevers; for the run-down, anemic, thin-blooded people, the "Discovery" is refreshing and vitalizing. Stick to this safe and sane remedy, and refuse all "pat" medicines offered by the druggist who is looking for a larger profit. Nothing but Dr. Pierce's Golden Medical Discovery will do you half as much good.

**Cure for Scatches.**  
Scatches are caused by exposure to cold and wet, local irritation or low condition, all of which should be avoided if possible. In simple cases apply cloths wet with a weak solution of sugar of lead and in winter cover to keep out cold. When cracks have appeared, apply a similar lotion with the addition of a few drops of carbolic acid. In case of discharges or pustules, make a lotion of chloride of zinc instead of the lead; finely powdered charcoal may be sprinkled over the soles.

**The "Country Churchyard."**  
Those who recall Gray's "Elegy in a Country Churchyard" will remember that the peaceful spot where "the rude forefathers of the hamlet sleep" is identified with St. Giles' Stoke Poges, Buckinghamshire. In the present issue of the Gazette there appears an order in council providing that ordinary interments are henceforth forbidden in the churchyard.

**Pollution of Our Streams.**  
Pollution of streams in America is rapidly getting to be grave for making graves. Things done by the old country to keep peace, public morality and health are the very things we are gradually finding out we Yanks have got to get down to and imitate, and so eat humble pie.

**Men Were Loony About Clothes.**  
Old-time ecclesiastics and mud-drenched a thick, clumsy boot, and old Yankee leather was good stuff, all right enough, but it did not agreeably lend itself either to beauty or ease. A paper of 1850 tells of a statesman going to a big ball in velvet breeches, with a scarlet satin coat lining and scarlet bows on his pumps. Men then used to be almost as loony about clothes as women are now.
