Prayer Unanswered.

It had been raining all day and little Mark, shut up in the house, was anxious to get out and play. His mother, in another room, thought that she heard him talking, and presently inquired to whom.

"I was talking to God, mamma," the child replied. "I asked Him to make it stop raining so I could go outdoors, but—I don't think He was very p'lite about it. He never let on that He heard me at all!"

IN THE HOME OF PELICANS

Studying the Huge, Ungainly Birds at Close Range and Observing Their Method of Feeding Their Young.

The first time I ever saw a motley crowd of half-grown pelicans I thought nature had surely done her best to make something ugly and ridiculous. It was a warm day, and the birds stood around with their mouths open, panting like a lot of dogs after a chase, their pouches shaking at every breath. When I went near the youngsters went tottering off on their big webbed feet with wings dragging on this side and that, as if they were poorly handed crutches. The youngsters huddled together by hundreds in a small place. Those on the outside pushed and climbed to get near the center, till it looked worse than any football scrimmage I ever saw.

In this wide area of low islands and water it was necessary, since we wanted to study the pelicans at close range, to adopt some method of hiding. We took a large wagon umbrella covered with a piece of green canvas, that hung down around the sides. This we planted among the tules at the edge of a large colony, and covered the top well with reeds. The whole thing soon passed as part of the environment, while from the inside the camera man could point his camera out through a narrow slit in the canvas, take pictures and make observations at will.

One might wonder how such a huge billed bird as a pelican could feed a helpless chick just out of the egg. It was done with apparent ease. The old bird regurgitated a fishy soup into the front end of the pouch, and the baby pelican pitched right in and helped himself out of this family dish. As the young bird grew older, and larger, at each meal he kept reaching farther into the big pouch of his parent until finally, when he was half grown, it was a most remarkable sight. The mother opened her mouth, and the whole head and neck of her nestling disappeared down her capacious maw while he hunted for his dinner in the internal regions.—Collier's Monthly.

Yield of One Pennsylvania Oak.

The largest oak tree in Huntington township, Adams county, was cut last week on the farm of John R. Sadler. The tree was five feet across the stump and took the men several hours to place it prostrate. Eleven hundred and three large wagon spokes were taken from the trunk and twelve cords of wood were cut from the top and branches.—Philadelphia Record.

Takes the Right View.

Don't go through life looking for trouble, for faults, for failures, for the crooked, the ugly and the deformed; don't see the distorted man—see the man that God made. Just make up your mind firmly at the very outset in life that you will not criticise or condemn others or find fault with their mistakes and shortcomings.—Orison Swett Marden.

Sore throat is no trifling ailment. It will sometimes carry infection to the entire system through the food you eat. Hamlins Wizard Oil cures Sore Throat.

Saintliness Unpopular.

That state of mind, which let us call the ignominy of the virtuous, is not entirely confined to boys of nine years. I have seen grown men and women, being accused of saintliness, over whose faces passed an expression of mortification. They would accept with more complacency the tribute that they were getting to be devils in their old age.—Max Eastman, in the Atlantic.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Oranges in Place of Soap.

Many of the women in Florida scrub their floor with oranges. In almost any town in the orange-growing district women may be seen using them exactly as many housekeepers use soap. The acid in the oranges does the cleansing, and the boards are as white as snow after the application.

Thoughtfulness.

Thoughtfulness is always doing little kindnesses; thoughtfulness has an instinct for seeing the little things that need to be done, and then for doing them.—Ruskin.

THAT AWFUL BACKACHE

Cured by Lydia E. Pinkham's Vegetable Compound

Morton's Gap, Kentucky.—"I suffered two years with female disorders. my health was very bad and I had a continual backache which was simply awful. I could not stand on my feet long enough to cook a meal's victuals without my back nearly killing me, and I would have such dragging sensations I could hardly bear it. I had soreness in each side, could not stand tight clothing, and was irregular. I was completely run down. On advice I took Lydia E. Pinkham's Vegetable Compound and Liver Pills and am enjoying good health. It is now more than two years and I have not had an ache or pain since. I do all my own work, washing and everything, and never have the backache any more. I think your medicine is grand and I praise it to all my neighbors. If you think my testimony will help others you may publish it."—Mrs. Ollie Woodall, Morton's Gap, Kentucky.

Backache is a symptom of organic weakness or derangement. If you have backache don't neglect it. To get permanent relief you must reach the root of the trouble. Nothing we know of will do this so surely as Lydia E. Pinkham's Compound.

Write to Mrs. Pinkham, at Lynn, Mass., for special advice. Your letter will be absolutely confidential, and the advice free.

IN LATE WINTER AND EARLY SPRING
We seldom feel JUST RIGHT

At such a time KASPARILLA is the best and safest Blood Purifier, the most successful prescription for spring humors and such disorders of the blood as boils, pimples, pustules, blotches, sores and cutaneous eruptions. Kasparilla is admitted to be the best remedy for that lack of energy and the peculiar debility so prevalent during the close of winter and the opening of spring. For derangements of the digestive organs it is a natural corrective operating directly upon the liver and alimentary canal, gently but persistently stimulating a healthy activity. Its beneficial influence extends, however, to every portion of the system, aiding in the processes of digestion and assimilation of food, promoting a wholesome, natural appetite, correcting sour stomach, bad breath, irregularities of the bowels, constipation and the long list of troubles directly traceable to those unwholesome conditions. Kasparilla dispels drowsiness, headache, backache and despondency due to inactivity of the liver, kidneys and digestive tract. It is a strengthening tonic of the highest value.

TROOPS RUSHED TO BORDER LINE

Threat of Foreign Intervention Makes Big Stir.

England and Germany Want Their Interests in Mexico Protected—Taft Takes Action.

Washington, March 8.—The most extensive movement of troops and war vessels ever executed in this country in time of peace is now under way by order of the president, the objective being the country north of the Mexican boundary and the waters of the two oceans at either end of it.

Twenty thousand soldiers — more than one-fourth of the army of the United States—of all arms of the service are moving toward the Mexican border. Four armored cruisers comprising the fifth division of the Atlantic fleet, have been ordered from Northern waters to the naval station at Guantanamo, Cuba. Most of the Pacific fleet is, or shortly will be, on its way to assemble at San Pedro and San Diego, Cal., and 2,000 marines are preparing to make the Guantanamo station their temporary headquarters.

It was officially announced at the White House and at the War and Navy departments that the purpose of this great mobilization, unprecedented save in war times, is the training of officers and men under service conditions and practice in co-operation between the land and naval forces. Other pains were taken by all officially concerned in the matter to give this color to the sudden activities; but these statements were accepted with increasing reserve. The executive offices were steeped in mystery; the entire morning was given over to conference with officers of the War and Navy departments.

This thick atmosphere of mystery, and the efforts to minimize the importance of the business, lent a significance to the fact that Major General Leonard Wood, chief of staff of the army, in an effort to elude interviewers, slipped out of one of the rear windows of the president's office and beat a retreat through the secluded portions of the White House grounds to a rear entrance of the War department.

The real significance of this activity, which has been confined apparently to the last 48 hours or less, is thought to relate very directly to conditions in Mexico, and to the growing belief that the situation there is by no means as satisfactory as the Mexican government would have it believed. There are persistent reports that the physical condition of President Diaz has lately become such as to alarm his adherents and that momentous developments are to be prepared for.

One report current here today was that the Pearson syndicate, heavily interested in enterprises in Northern Mexico, had appealed to the British government for adequate protection of its own and other foreign interests in preparation for the chaotic conditions that would almost certainly follow any serious loss of prestige, to say nothing of the collapse of the Diaz government.

SIRE IMPERSONATES SON.

He Takes Civil Service Job Boy Won. Both Are Arrested.

San Francisco—Because he took a position in the postoffice here which his son had won by competitive civil service examination, George J. Regley Sr., was arrested on an indictment charging him with conspiracy to defraud the United States governmment. Regley's son, George J. Jr., was arrested on the same charge.

The son passed the examination some time ago and was placed on the eligible list. When a position became vacant, his father appeared at the postoffice to claim the place. The father filed a bond and assumed the duties of the position before it was discovered that he was impersonating his son.

Many Seeking Benefits.

Washington — Relatives dependent on those who lost their lives in the forest fires which swept the West last summer will receive the $15,000 appropriation made by the last congress for their relief, as soon as the officers of the department of agriculture and forest service can formulate plans for its distribution. A number of claims already have reached the department. A date will be fixed limiting the time in which such claims can be filed and will be given consideration.

Bill Leads to Arrest.

Sacramento—After listening spellbound to the discussion and hearing the assembly pass a bill abolishing capital punishment, Joseph W. Cooney, wanted as the murderer of his cousin, walked over to the senate chamber and gave himself up to Senator Thomas Finn, who is also sheriff of San Francisco city and county. "I'm Joe Cooney and they want me, Tom," he said when the senator appeared. "All right," replied Finn, "come along." The two left the senate chamber without attracting notice.

$30,000 is Boy's Profit.

New York—W. J. Ronan, a telephone boy in the office of James R. Keene, made $30,000 in a Wall street speculation, according to his testimony in the bankruptcy proceedings of Lathrop, Haskins & Co., one of the stock exchange firms caught in the collapse of the Hocking pool. Creditors are endeavoring to show that Mr. Keene was responsible for the failure of the pool and that young Ronan turned his knowledge to good account.

Rebels Fight With Dynamite.

El Paso, Tex.—Mail advices from Torreon say that American Consular Agent Carothers has received official advices of severe fighting at Tapia, Durango, in which dynamite was used. The rebels left the city after many had been killed on both sides, and then destroyed the water works.

HAVE THEIR OWN SYSTEMS

Business Secrets That Seem Unimportant, but Are Guarded With Much Jealousy.

"Since I began to meet people who won't let anybody see how they do a thing because they have a secret method which they are not ready to divulge just yet I have been like a crazy woman," said the housekeeper. "There are plenty of those budding geniuses doing odd jobs about town. One of them came to our house the other day to mend a suitcase. It was an easy job. He could have taken the thing into the storeroom and mended it in half an hour, but instead of that he insisted upon taking it home. He had a secret process for doing things like that, he said, and preferred not to work where anybody else could find out how he did it.

"While my curiosity over the suitcase was still seething a woman who was quite handy at draughting patterns stirred it still more by refusing to cut out a waist pattern at my house because she has her own method of cutting that she isn't ready to advertise just yet.

"Right on the heels of that a carpet renovator was proof against all blandishments to come to the house to take spots out of a rug. He has a cleansing formula which he will not take chances on giving away by doing work outside of his own shop, so the rug went to him.

"The other day a man came around to fight water bugs. In a sense I had him at my mercy because he couldn't take the bugs home, but he did the next best thing and ordered me to stay out of the kitchen while the process of exterminating was going on. Was the process dangerous? I asked. No, it wasn't dangerous, but it was a secret which he didn't wish to reveal, not even to an innocent housekeeper like me.

"And so they come and go through all the trades, every man studying out a system better than anybody else's. When all those geniuses let their ideas loose upon the world something like a revolution ought to take place."

Dictionary's Defect.

The occupant of the fourth floor flat was looking through the pages of the dictionary the agent was trying to sell him. "No," he said, closing the book and handing it back, "I don't want it. It's 20 years behind the times. It defines 'janitor' as the 'caretaker' of a building. He's the caremaker!"

To Mend Tablecloth.

To repair a tablecloth lay it quite flat with the hole uppermost and cover it with a piece of plain brussels net, tack it on and darn with fine flax. When ironed it will scarcely be noticeable. It the tablecloth is beyond repair cut squares from the best part of it and hem round. These will answer as serviettes for everyday use.

Remedies are Needed

Were we perfect, which we are not, medicines would not often be needed. But since our systems have become weakened, impaired and broken down through indiscretions which have gone on from the early ages, through countless generations, remedies *are* needed to aid Nature in correcting our inherited and otherwise acquired weaknesses. To reach the seat of stomach weakness and consequent digestive troubles, there is nothing so good as Dr. Pierce's Golden Medical Discovery, a glyceric compound, extracted from native medicinal roots—sold for over forty years with great satisfaction to all users. For Weak Stomach, Biliousness, Liver Complaint, Pain in the Stomach after eating, Heartburn, Bad Breath, Belching of food, Chronic Diarrhea and other Intestinal Derangements, the "Discovery" is a time-proven and most efficient remedy.

The genuine has on its outside wrapper the Signature

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicine OF KNOWN COMPOSITION, not even though the urgent dealer may thereby make a little bigger profit.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

Take the Game Seriously.

Girls play a strenuous game of hockey in Australia. In a recent game between the Waratah and Thistle clubs the casualties were one finger broken and another severely crushed, an eye blackened and a face irretrievably damaged, a knee bruised and shin cut so badly that the blood saturated a boot, several mouths cut and a number of shins sliced through shin pads.

Prize Horseshoe Collection.

On the walls of the old castle at Oakham, England, is a great array of horseshoes. Every peer of the realm visiting the town of Rutland gives a horseshoe, and many of these shoes have histories.

Dr. Pierce's Pellets, small, sugar-coated, easy to take as candy, regulate and invigorate stomach, liver and bowels. Do not gripe.

To Soften Glue.

When one is in a great hurry to use the glue, invariably it is found to be hard and impossible to use. It may be softened by heat or by adding a teaspoonful or more of vinegar to the bottle, and allowing it to stand for a few minutes. If the bottle can be kept in a warm place all the time it will stay soft as long as there is any left.

If They Had Their Deserts.

Only Real Need for Competence.

The pursuit of wealth is not the aim and end of existence. For whether it be laborer at his bench or the managing director at his desk, the accumulation of a competence is only desirable in that it allows each to enjoy his life in his own way.

The Impassive Talleyrand.

Talleyrand's face was so impassive that it is impossible to interpret it. Lannes and Murat used to say of him jokingly that if, while he was speaking with you, somebody kicked him from behind, his face would show nothing.—Napoleon (Quoted in "The Corsican").

Only a Temporary Advantage.

The gift of good looks is of such primary advantage to every man, that it seems a wonder how ugly people manage so frequently to excel those who have it in the battle of life.—Payne.
