

Good Spring Tonic

"We have taken Hood's Sarsaparilla for a spring tonic and as a blood purifier. Last spring I was not well at all. When I went to bed I was tired and nervous and could not sleep well. In the morning I would feel twice as tired; my mother got a bottle of Hood's Sarsaparilla, which I took. I felt like a new person when I had finished that bottle. We always have some of Hood's medicines in the house." Hively Roselle, Marinette, Wis. "There is no just as good" medicine. Insist on having Hood's. New Sanitary Devices.

Water used in sprinkling the streets of Poughkeepsie, N. Y., has with it a certain amount of chloride mixture by which it is hoped to check the spread of infectious diseases. The experiment will be continued long enough to determine the value of the scheme, and if any material benefit is observable this disinfection of the streets will be continued.

Alcohol not needed

Ayer's Sarsaparilla is not a strong drink. As now made, there is not a drop of alcohol in it. It is a non-alcoholic tonic and alterative. Ask your own doctor about your taking this medicine for thin, impure blood. Follow his advice every time. He knows.

NEW KIND OF APPLE PIE

Use of Molasses as Sweetening Makes Delicious Dessert—Nice Hot or Cold.

Apple pie sweetened with molasses made as follows is delicious: Take a baking tin (ten by six) and about an inch and a half deep. Line with pastry in which a little soda and cream of tartar have been used. Leave enough around the edge to turn up over the top crust to keep the juice in. Fill with quartered Baldwin or Greening apples, a pinch of allspice and a large pinch of nutmeg. Use the molasses according to the size of the tin. Enough to sweeten. Shave salt pork just as thin as possible and lay over the apples, nearly covering them. Make a few slits in the top crust, brush over with cold milk and bake very slowly three hours. Afternoon is the best time to bake, as the temperature is more even. When removed from the oven cover with a cloth to stew a little while. The juice will be thick like sirup if just a sprinkling of flour is used. Nice hot or cold.

100 YEARS OLD QUICK RELIEF FOR ALL TROUBLES

RAM'S HORN BRANDS A WARNING NOTE TO THE UNREDEEMED.

It is the man who fools with danger who helps the doctor to pay for his automobile. Don't go through the world snapping caps. Try to hit something.

Men no doubt lived on earth a thousand years before they saw the stars, and thousands of years before they knew they were stars.

The only real giver is the cheerful one.

When love is hard at work it never looks at the clock.

A lie is always blacker than the sin it tries to hide.

People who have no faults do not have many friends.

Every finger-board pointing toward heaven says, "Start now."

The man who runs away from God is not to be trusted anywhere.

The shadow of a trouble is always blacker than the trouble itself.

No prophet has ever lived who could tell what a boy would do next.

Love is the only thing that can lighten his burdens by adding to them.

A telegraph pole is taller to a little boy than the Washington monument is to his father.

If more serious thinking had been done yesterday there wouldn't be so many red noses to-day.

Women are to this world what the stars are to the heavens, for they do about all the shining when the dark hours come.

The usands of Consumptives die every year. Consumption results from a neglected cold on the lungs. Hamlin's Wizard Oil will cure these colds. Just rub it into the chest and draw out the inflammation.

The Nursery Window. If the nursery window is not protected by outside bars, hammer a large screw or nail into the groove of the lower sash, so that the window cannot be raised more than six inches. If the top sash is drawn down, this is quite enough for ventilation, and no matter how ingenious or venturesome the little ones may be they cannot wriggle through the small lower opening.

No Lazy Children. It is no asserted that there is no such thing as a lazy child. There is always some other explanation of the backward child, generally sickness or hunger.

Limit of Trouble. Three times a day in between Worthing and Shoreham the beautiful prima donna's nearly new car had broken down. Ultimately coaxing it to enter Brighton, the fair lady received in the hotel porch the solicitude of a sister artist who had passed her on the road. "Much trouble with my car, dear," she echoed, bitterly. "Why, I couldn't have more trouble if I was married to the bluest machine!"—Spartan Times.

Can Courtship Be Lured? Let us see if there be aught which may be condensed. May we cut short the length of the courtship? Not in these days, for it requires more time than ever to amass means sufficient for marriage. Thinking upon the matter, point by point, we are unable to discern any sweet pleasure of courtship which could advantageously be abbreviated.—Index.

Life Without Food.

How long is it possible to live without food? We have all read of a case not many years since, where some French miners were entombed for twenty-one days, and rescued alive, though after everyone thought they must be dead; of course they were in a very weakened condition, and required the utmost care before they were out of danger. This, however, is by no means the longest time that a human being is known to have existed without food, and in a recent issue of the British Medical Journal, there is the record of a woman suffering from cancer, who could take neither food nor drink of any kind, yet she existed in that condition for fifty-six days, and was, moreover, quite conscious till her death. In India the fakirs include among their wonderful performances abstention from food for a very long period, but when they do this they put themselves into a condition closely resembling sleep, and, of course, during that time the body is called on to perform none of its usual functions, and wasting of tissue is reduced to a minimum.

Good Reasoning.

"I wish Cousin Jim and Miss Jones would get married," pondered eight-year-old Nadine. "Cause, why, mamma?" "Oh, I don't like either of them, an' if they'd get married to each other an' go off on a long, long wedding journey, I wouldn't be seein' any more of them, an' they'd ought to be happy. So it would be killing two birds with one stone!"

DYSPEPSIA

"Having taken your wonderful 'Cascares' for three months and being entirely cured of stomach catarrh and dyspepsia, I think a word of praise is due to 'Cascares' for their wonderful composition. I have taken numerous other so-called remedies but without avail, and I find that Cascares relieve more in a day than all the others I have taken would in a year."

Art Criticism.

"I rather like the motif of that picture," said Mrs. Oldcastle, after she had carefully inspected the new work of art. "Yes, so do I," replied her hostess, as they were passing from the gallery, "only both me and Josiah thought the artist meant it for a cow." Chicago Record Herald.

SHE GOT WHAT SHE WANTED

This Woman Had to Insist Strongly, but it Paid

Chicago, Ill.—"I suffered from a female weakness and stomach trouble, and I went to the store to get a bottle of Lydia E. Pinkham's Vegetable Compound, but the clerk did not want to let me have it—she said it was no good. I insisted on trying something else, but knowing all about it I insisted and finally glad I did, for it has cured me."

"I know of so many cases where women have been cured by Lydia E. Pinkham's Vegetable Compound that I can say to every suffering woman if that medicine does not help her, there is nothing that will." JANEZETKI, 2903 Arch St., Chicago, Ill.

This is the age of substitution, and women who want a cure should insist upon Lydia E. Pinkham's Vegetable Compound just as this woman did, and not accept something else on which the druggist can make a little more profit.

Women who are passing through this critical period or who are suffering from any of those distressing ills peculiar to their sex should not lose sight of the fact that for thirty years Lydia E. Pinkham's Vegetable Compound, which is made from roots and herbs, has been the standard remedy for female ills. In almost every community you will find women who have been restored to health by Lydia E. Pinkham's Vegetable Compound.

Washington loggers declare that all small operators will be put out of business by the new state law requiring that all lands must be cleared of brush and rubbish after the logs are taken off.

The Japanese diet defeated a motion condemning the government's foreign policy which conflicts with the foreign policy of England and America.

Mexican Minister Limantour declares no overtures for peace have been made or will be made to the rebels, and that they must be conquered at any cost.

Washington loggers declare that all small operators will be put out of business by the new state law requiring that all lands must be cleared of brush and rubbish after the logs are taken off.

Has Been at Work Long. In Shunbrook, Canada, a power company began work on a dam, and in the bottom of the river discovered a perfect well, round and smooth bored. The engineers followed it down and found the well was 30 feet deep and still boring. A round stone, whirled by the rush of the river, had been boring—for how many million years? It was still whirling, turbine-like, and still boring.—New York Press.

One Point Lacking. The story is told in Barry O'Brien's book on John Bright how, on one occasion, Sydney Smith, while looking critically at the unfinished portrait of a celebrated Nonconformist divine, said to the artist: "Do you not think you could throw into the face a strong or expression of hostility to the established church?"

CURRENT EVENTS OF THE WEEK

Doings of the World at Large Told in Brief.

General Resume of Important Event Presented in Condensed Form for Our Busy Readers.

Tacoma has passed an anti-treating ordinance.

Iowa legislature defeated the woman suffrage bill.

Natives of the New Hebrides islands are in revolt against the white residents.

California has adopted a law forbidding aliens to acquire, sell, bequeath or inherit lands in that state.

Unless rains come soon, forest rangers will be put into the field in Washington two months earlier than usual.

The parents of Vincent Walsh McLean, the world's richest baby, are trying to insure him against kidnaping.

Unsatisfactory business conditions have caused two big manufacturing firms of Fall River, Mass., to reduce their dividends.

Sunday work in postoffices throughout the country is to be discontinued, except where absolutely necessary in transmission of mail.

Women of Hunnewell, Kansas, have nominated a full ticket of women officers, believing that the men are running the city "wide open."

Policy holders have begun suit against the Northwestern Mutual Life Insurance Company, of Milwaukee, alleging the directors are getting away with the capital stock.

A rate war has begun in coastwise shipping trade on the Pacific coast.

China has conceded the demands of Russia that she live up to the treaty of 1881.

Large forces of Mexican rebels advance on Hermosillo, capital of Sonora province.

Premier Stolypin, of Russia, has resigned on account of the defeat of his reform measures.

Heirs of the late E. H. Harriman have started a bank in New York to perpetuate his memory.

Taft asserts the Mexican ambassador that troops were only sent to the border for maneuvers.

The Japanese diet defeated a motion condemning the government's foreign policy which conflicts with the foreign policy of England and America.

Mexican Minister Limantour declares no overtures for peace have been made or will be made to the rebels, and that they must be conquered at any cost.

Washington loggers declare that all small operators will be put out of business by the new state law requiring that all lands must be cleared of brush and rubbish after the logs are taken off.

Future of Unesmaking.

Cheesemakers of the next century, maybe sooner, will have a seed germ laboratory attached to their factory. In which pure cultures of the cheese bacteria, germs responsible for the flavor of each kind of cheese, will be grown and nursed, and instead of fromage de Brie, Stilton or Gorgonzola, coming from different parts of the world, they will all be turned out from one factory, and no telling how cheap.

To Poison Furniture.

For furniture there is nothing to equal olive oil or raw linseed oil, rubbed into the wood, according to the grain. The woodwork may require retreating as well. Ordinary oil oak is always improved by rubbing it with warm beer. It should be remembered that linseed oil has the effect of darkening mahogany.

The Preacher's Lads.

If the minister knows nothing about politics let him keep clear. But if he knows, and knows what he knows, and how to say it, let him do that thing. His utterances then will trouble some brother of course. But what of it? To trouble human conscience is the preacher's trade.—The Continent.

Dr. Pierce's Pleasant Pellets first put up 40 years ago. They regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules.

"Black Lightning."

In photographs of lightning, streaks of "black lightning" are often seen branching out from the main white flash, and people have long wondered what these were. It is now found, says the Scientific American, that they are due to the over-exposure of the photographic plate and the "reversal" of the negative into a positive.

Sardine Industry.

The sardine industry gives employment in the Spanish port of Vigo, to 23,000 people, of whom 8,000 are women. The wages of the men range from 80 cents to \$1 a day and of the women from 25 to 35 cents. The value of the preserved sardines exported last year was \$2,203,500.

Beautiful Labrador Coast. Doctor Grenfell says that the Labrador coast, which he knows so well, is every whit as beautiful as that of Norway, and he is working on a chart which will be accurate enough to guide pleasure craft through the bays and channels of that shore. There is really nothing to go to Europe for but the ruins.—Youth's Companion.

Life Too Cluttered.

Our modern life is too cluttered. We are everlastingly doing things. We chatter and work and play, and if we have an hour of leisure we fill it with the rattle of a paper. We are prone and helpless when any story to read or person to talk to or thing to do. We do not understand the lost art of doing nothing. We cannot, we dare not, just sit down and think.

Illuminating Tunnel.

An ingenious way of illuminating a tunnel has been devised by a Parisian inventor. Reflectors throw the light from many electric lamps sixteen feet above the rails to the sides of the tunnel, where it is again reflected by burnished tin, giving a soft and agreeable light. The trains automatically turn the current on and off when entering and leaving the tunnel.
