A coroner's jury has found the two proprietors of the Triangle Waist Company directly responsible for the death of one of their operators in the fire which occurred in New York City recently. This girl tried to escape thru a door that was locked, contrary to fire regulations. The company is already under indictment charged with manslaughter on account of the death, in the same fire, of 144 other employees. It is hoped the blame will be put where it justly belongs and that punishment will be meted accordingly.

Forest Fires

Forest fires, one of the greatest sources of destruction to the most valuable resources of the state, will soon be restricted and their terrors largely reduced if the people will co-operate with the State Forester in the administration of the new forestry law enacted by the last Legislature, which will be ready for distribution in pamphlet form in the near future.

One of the most important provisions of the law is that making a closed season for burning from June 1 to October 1, during which period outdoor fires of all kinds are prohibited except under most stringent regulations and the probability of heavy penalties.

In this connection the State Forester urges upon everyone the necessity of doing all possible burning before the closed season begins and thus save the trouble and risk of doing it by permission during that season of greatest danger when fire spreads so easily and rapidly.

The State Forester desires the assistance and co-operation of every one in the protection of property from forest, grass or brush fires, and to this end invites suggestions and information calculated to assist in any manner in the performance of his most important duties. Copies of the law will be promptly furnished to all who desire them. Requests and communications addressed to F. A. Elliott, State Forester, Capitol Building, Salem, will receive prompt and appreciative attention.

Mrs. George Chamberlain and Mrs. Wm. Marsh were visitors in Hood River yesterday.

Mosier's Future.

Have you ever stopped to consider what the price of Mosier property will be four or five years from now?

In 1916 Mosier will be shipping at the present rate of increase, five hundred car-loads of apples. This year we shipped sixty cars and found that a town of four hundred people was too small to handle the crop. Think this over.

Then consider the very limited amount of land available for town lots in Mosier and you will easily realize that residence property in the town of Mosier is a very valuable holding.

The lots in Hall's Addition are the most reasonable priced lots ever placed on the market, but it will be but a short time until the price of these will be advanced to something like what they are worth, so if you are in the market, now is the time to make a deposit on one of these and save from 50 to 75 per cent.

Better see D. D. HAIL about this now.

Class Reception

The Eighth Grade and ex-graduates of the Mosier High School were highly entertained at the home of their teacher, Mrs. Gove, Thursday evening, April 13th. Very interesting geographical contests were given, of which the prize winners were Leodica Haacke, Clyde Root and Ray Bailey. One of the prizes was a handsome book, given by Mr. J. E. Cole. Music and games were enjoyed and light refreshments served, after which the guests departed, having spent a delightful evening.

Card of Thanks

We take this occasion to express our appreciation of the kindness and sympathy extended to us in our bereavement at the death of our son and brother, J. R. Huskey.

School Notes

Evelyn Nubendahl has registered in the seventh grade.

Cecil Sellinger stopped school this week. He has gone to Lyle. Jennie Carroll has returned after being absent on account of measles.

James Carroll was absent Monday.

Henry Page is absent because of sickness.

Great improvement can be noticed in the looks of the school grounds since the work done by the pupils last Friday. A program was given by the primary pupils at two o'clock. The visitors present were: Mrs. Root, Husbands, Kibbee, Race, Cole, Johnson, Morrison, Young, Higley, and Miss Mabel Osborn.

Mosier Defeated

The Mosier ball team met defeat at the hands of the Underwood boys, in a game played last Sunday on the local diamond, the visitors winning by a score of 18 to 8. The home team showed a sad lack of team work, though there was occasionally good individual work. They were outplayed by a heavier team that thoroughly understands the game and one that evidently puts in good time practicing.

Not discouraged by their defeat but on the contrary, spurred on to greater efforts, the Mosier team will play a return game with Underwood in the near future.

Receiver for East Hood River Fruit Company

Owing to difficulties otherwise unmanageable, Mr. Bateham, of the East Hood River Fruit Co., deemed it best to place the company in the hands of a receiver for a short time, and Mr. J. N. Mosier, of this place, was appointed to the position by Circuit Judge Gantenbein, of Multnomah County, on April 10th. Since his appointment Mr. Mosier has been investigating the affairs of the company and reports it in a perfectly solvent condition, with assets far in excess of its liabilities.

Notice to Fruit Growers

Those wishing arsenate of lead for summer spraying can obtain it at the warehouse of the Mosier Fruit Association on Saturday, April 22nd and the following Saturday, April 29.
