### SKIN IN COLD STORAGE

CUTICLE KEPT ON ICE FOR A MONTH IS STILL ALIVE.

Physicians Discover That Skin Taken from the Human Body May Be Kept in Healthy Condition Indefinitely.

Philadelphia, Pa.—Through the successful outcome of an operation, performed on 18-year-old Anna Windt, the physicians at the Samaritan hospital have made a discovery which may be of incalculable benefit in the grafting of skin. The discovery is that skin taken from the human body may be kept in a healthy condition for an indefinite period and that it may then be used to replace skin that has been burned or otherwise destroyed.

Early this year a man entered the Samaritan hospital to have an operation performed. This operation included the removal of thirty-two square inches of skin from his abdomen. Dr. Babcock had this carefully rolled up and put on ice until he should be ready for the experiment. This was made thirty-five days after the skin had been removed from the male patient. Twenty square inches were taken, smoothed out and carefully put in place on the girl's arm.

For several days the arm was examined minutely and then it became apparent that the frozen skin was "taking hold" to the natural skin with as much firmness as if it had been taken directly from living flesh.

Dr. Pierce's Pellets, small, sugar-coated, easy to take as candy, regulate and invigorate stomach, liver and bowels and cure constipation.

**The Successful Men.**  
Perhaps it is more than true that half of the great college buildings in the land are the splendid gifts from "Village Chumps," who broke away from home because they could not find a chance to expand or express themselves in their native two-by-four town, and never, or hardly ever after, got the first ghost of a show or the spare time to acquire an education.

**Log Cabin Schoolhouse in Maine.**  
Maine has one real log cabin schoolhouse, the building being situated on the estate of C. O. DeMerritt, a 1,500-acre farm in Ridge plantation, of which Ketchum is the postoffice. It is located some ten miles from Bethel, and about 50 people live thereabout. The inhabitants pay no taxes except for the maintenance of the school, and are not restricted by any special town laws.

Flies and Mosquitoes carry disease germs, especially Malaria, Chills, and Fever. Two or three drops of Hamlin's Willow Oil on the in-ect bite will take out all the poison. Stops that itch, t. o.

**Welsh Rabbit Recipe.**  
"You are a great success with a chafing dish," said the admiring guest. "Tell us how you manage it?" "It's very simple," replied Mr. Crosslots. "You take everything your wife has set out on the table for you and put it into the chafing dish. Then you light the alcohol lamp underneath and with a large spoon stir the mixture vigorously until your wife tells you to stop."

**To Stop Bleeding at the Nose.**  
Introduce by means of a probe a small piece of lint or soft cotton, previously dipped into some mild styptic, as a solution of alum, white vitriol, creosote, or even cold water. This will generally prove successful, but if it should fail, cold water may be snuffed up the nostrils. If these remedies fail, and if the bleeding is very profuse, medical advice should be obtained.

**Ahead of Optimist.**  
The man who accepts calamity when it hits him as so much necessary medicine administered for his own good, and makes no ugly face when he swallows defeat, even if he swears it is not to be classed as a pessimist. Such a man is far ahead of the optimist who insists he never had anything handed him and feels himself, as he often does others.

**After 7 Years Suffering**  
I Was Cured by Lydia E. Pinkham's Vegetable Compound  
Waurika, Okla.—"I had female troubles for seven years, was all run down and so nervous I could not do anything. The doctors treated me for different things but did me no good. I got so bad that I could not sleep day or night. While in this condition I read of Lydia E. Pinkham's Vegetable Compound, and began its use and wrote to Mrs. Pinkham for advice. In a short time I had gained my average weight and am now strong and well."  
—Mrs. SALLIE STEVENS, R. F. D., No. 3, Box 31, Waurika, Okla.

**Another Grateful Woman.**  
Huntington, Mass.—"I was in a nervous, run down condition and for three years could find no help.  
"I owe my present good health to Lydia E. Pinkham's Vegetable Compound and Blood Purifier which I believe saved my life.  
"My doctor knows what helped me and does not say one word against it."  
—Mrs. MARI JANETTE BATES, Box 184, Huntington, Mass.

Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has cured many cases of female ills, such as inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, and nervous prostration.

**Powers Will Quell Riots.**  
Hongkong—British bluejackets and marines with rapid fire guns have landed in Canton from four warships to quell the Chinese rioters there if any attempts are made against foreign residents or property. The guns are posted along the canal bank which bounds the foreign concessions, ready to open fire at the first sign of trouble. Besides the four British warships, two American and one German gunboat and two French warships are ready to open on the Chinese rebels. No Americans have been injured.

**Competition With Standard Oil.**  
San Francisco—With wells in every known oil bearing section of the world and with a capitalization of \$500,000,000, the Royal Petroleum Company, a Dutch corporation, is about to enter the local field in competition with Standard Oil. After successfully fighting the Rockefeller interests in Europe and India, the Dutch concern proposes to carry the fight home, and for this purpose will open offices in New York and San Francisco.

**Look for Jewelry Thieves.**  
New York—Customs officers, private detectives and police are searching for a band of international crooks who have stolen jewelry worth \$500,000 from Americans in Europe. Information from Scotland Yard says that the jewelry is being marketed in the United States piecemeal. Some of the gang are believed to be women.

### MEXICAN REBELS GAINING.

Many Towns Captured—Americans Flee Across Border.

Nogales, Ariz., May 3.—Almost all of Western Mexico is in the hands of the rebels. They have captured one town after another, and now besiege Mazatlan, the principal Pacific seaport, and Culiacan.

Governor Rodog, of Sinaloa, has so small a force that he can do no more than hold these two towns, and doubt is expressed whether he can hold them long. Fighting is almost continuous in Sinaloa and Sonora.

Not only is the political welfare of the Western Mexican states affected, but American interests are involved and in danger. Even the lives of Americans, hitherto held sacred by Federal and rebel, are no longer regarded as safe in the interior of Mexico.

Prominent railroad officials who reached Nogales from Mexico today brought with them the warning from the rebels to remove their families as quickly as possible into the United States and to advise all of their American friends to do likewise. Coupled with these warnings, was the threat of the insurgents that they intended, before the end of the week, to launch attacks against all the Mexican border towns. Many American families are coming along the border.

Word came from Magdalena district, southeast of Nogales, of the complete wiping out of a body of 30 Federal soldiers under Luis Estrella by a band of rebels in the vicinity of Octates. Reports of heavy fighting near La Colorado, southeast of Hermosillo, were brought across the border today. The rebels claim to have recaptured La Colorado, which has been the scene of bitter fighting during the present rebellion.

### WOMAN GRATEFUL TO EVANS.

**Life Saved By Outlaw at Cost of Capture.**  
Sacramento, Cal.—When Chris Evans, train robber, stepped out of the Folsom prison a free man, Warden Reilly handed him a package containing an old fashioned gold signet ring. Accompanying it was a note written in a feminine hand wishing him God-speed into his new life.

This was the sequel to an incident that occurred in Evans' life when he was a fugitive from justice, being tracked by men and bloodhounds. It was the reward of a woman whose life Evans had saved.

Following Evans' escape from the Visalia jail, he stayed one night at a tent in the backwoods occupied by a wood cutter and his wife, the wife lying sick on the bed. The rude shelter leaked snow and rain, while a few rods away stood a comfortable mountain cabin booded up for the winter. The owner of the cabin had asked the husband to take care of it but had commanded him not to enter the place. Evans commanded the husband at the muzzle of a rifle to break open the cabin and make his wife comfortable there. Evans and his companion spent the night in the tent.

That act saved the woman's life and made Chris Evans' capture easy for the pursuing posse. The bitter cold of the night spent in the tent so weakened Evans that he was an easy prey the next day.

### GREATEST LITTLE INVENTION.

The greatest little invention that has been given to the world is the lucifer match. It was invented in 1827. It is small, but like Portia's candle, it has shed a great light into the world. It gave man mastery of fire. Before this fire had been a contrary hired man, but now it became an obedient servant.

### A POOR JOB.

"Yes, sir," said the great financier proudly, as he flicked the ash from his 18-penny cigar, "I am the architect of my own fortune." "Well," rejoined the friendly critic, "all I've got to say is that it's a lucky thing for you there were no building inspectors around when you were constructing it."—Exchange.

### AN IMPORTANT ART.

The art of being agreeable should be instilled into every girl in the schoolroom. This is far more important to the average girl, and far more conducive to her general happiness in life than much of the useless "cramming" which forms so large a part of many a school curriculum.—Gentle woman.

### GUESSEWORK IN LIFE.

Silence and solitude are also wonderful solvers of problems and guessers of riddles. There is a good deal of guesswork to this life. It's not all logic. It's not all a choice between two goods. Many of these mysteries can never be unraveled, and we have to take a chance at them, do the best we can and let them go.

### EVER MEASURE INCREASED

A sealer of weights and measures has been visiting drygoods stores during the past few days, and in each one has purchased a spool of cotton, for which he has paid three cents, and invariably has found that the amount of cotton does not measure as much as is specified on the spool. According to specifications there should be 200 yards on each spool, but the measurements vary between 160 and 200.—Boston Transcript.

### A HARD ROAD TO TRAVEL.

A drunken man, whom a friend was trying to bring to his home some miles away, was constantly crossing from one side of the road to the other, so his friend said to him: "Come on, Pat, come on, the road is long." "I know it is long," said Pat; "but it isn't the length of it, but the breadth of it that's killing me."—Le Fann's "Irish Life."

### TO CLEAN GLOVES.

A mixture of finely powdered fuller's earth and alum is excellent for cleaning white gloves. It should be rubbed well, then brushed off, and the gloves sprinkled with dry bran and whitened.

### BIG FIRMS EVADE TAX LAWS

Receive the United States in Salary Returns—Office Boys at \$10,000 a Year.

Denver, Colo.—Somewhere in Denver there are several—maybe a score—of office boys who are drawing fabulous salaries for opening mail and running errands. The boys don't know that they are drawing these salaries of \$3,000 or \$5,000, or even \$10,000 a year, but they are just the same.

But it is only in the reports of annual net incomes that are being made to the United States internal revenue officers by Denver corporations that these salaries appear.

Under corporation tax law salaries are deducted from the net total sum taxable. Revenue officers say the total of salaries this year as shown by the returns has taken an enormous jump. If some of the reports are true, they say, there are many firms in Denver who are giving away money every day.

Then there are salaries listed for employes now living in three-room flats that if really paid, would enable them to live in mansions.

### ICE GOOD FOR HAIR.

Explorers say that the frigid zones give immunity from common colds. But no recent explorer seems to have mentioned the old belief that long sojourns among the ice are good for the hair. This was the firm conviction of whaling skippers in the days when Dundee was the port for the Arctic. It was said that even the baldest of seamen contrived to grow a passable crop of hair before returning.

### FRANCE DECLARES SHE WILL SEND AN ARMY TO 'PURIFY' MOROCCO.

President Taft declares reciprocity must be tried "now or never."  
Mexican rebels drove the officials from several towns, killing one with machetes.  
A boy lieutenant in the federal army led 30 men in battle until all but two were killed.  
Charges are made that certain firms have a complete monopoly on army and navy shoe contracts.

### CURRENT EVENTS OF THE WEEK

Goings of the World at Large Told in Brief.

### GENERAL RESUME OF IMPORTANT EVENT

Presented in Condensed Form for Our Busy Readers.

The Astoria postal savings bank opened May 1, with a good patronage. Krupp, the German gunmaker, has patented an aerial torpedo for use by airships against each other.

The accused Los Angeles dynamiter will see no delay in trial and probably will not even ask a change of venue. Madame Gaski, the world-renowned singer, is helpless with sciatica and has been taken to Europe for treatment.

Chris Evans, noted outlaw, has been paroled from Folsom penitentiary and will return to Oregon to live quietly and try to regain his health. Mexican rebels have captured Topolobampo, an important port on the western coast. This gives them a seaport for the importation of arms.

More than 25,000 skilled workmen struck in Chicago May 1, including elevated railway employes, bricklayers, marble workers, builders, etc. Fredrick Warde spoke at length to the prisoners in the Oregon state penitentiary. He says a convict in Connecticut is the best known authority on Shakespeare.

San Francisco department stores put their women employes on a strict eight-hour day May 1, although the new eight-hour law does not take effect until May 22. District Attorney J. D. Fredricks, of Los Angeles, who is conducting the prosecution of the alleged dynamiter, keeps a heavy revolver on his desk while he works, owing to the many threatening letters he has received.

The Supreme court of the United States has upheld the constitutionality of the New York statute forbidding the use of a photograph or name of another for trade or advertising purposes without the permission of the subject. France declares she will send an army to "purify" Morocco.

President Taft declares reciprocity must be tried "now or never."  
Mexican rebels drove the officials from several towns, killing one with machetes.  
A boy lieutenant in the federal army led 30 men in battle until all but two were killed.

### Alcohol not needed

Ayer's Sarsaparilla is not a strong drink. As now made, there is not a drop of alcohol in it. It is a non-alcoholic tonic and alterative. Ask your own doctor about your taking this medicine for thin, impure blood. Follow his advice every time. He knows.

### Ayer's

Ask your doctor, "What is the great fear of health?" Nine doctors out of ten will quickly reply, "Keep the bowels regular." Then ask him another question, "What do you think of Ayer's Pills for constipation?"
