India has a larger area under cane than any other country, and yet is one of the heaviest importers of sugar. There was a time when India manufactured practically all the sugar it required, which was used in the form of molasses, but a taste for refined sugar sprang up, since which time it was found more convenient to import than to manufacture.

## DIAZ PROMISES TO RESIGN.

But insists that Revolution Must Be Ended First.

**Events Exciting.**  
Following is a resume of exciting developments in the Mexican situation, given in their proper sequence: Madero announces that in deference to United States, he will give up plan to attack Juarez, take his troops from the neighborhood of the international boundary and start south with cry, "On to Mexico City."  
Rebels apparently change plans and prepare to make midnight attack on Juarez.  
When rebel guns are trained on Juarez and attack is about to begin, the news of Diaz' announcement reaches insurrecto leaders and both attack on Juarez and expedition to south are halted. Peace is thought near at hand.

Mexico City, May 9.—General Porfirio Diaz tonight issued a manifesto to the people of Mexico declaring his intention of resigning the presidency as soon as peace is restored. In this manner the president has virtually acceded to the demands of Francisco I. Madero that he make announcement of such intention.  
As to when peace is actually restored, General Diaz reserves the right to be the judge. In the words of the manifesto, it will be "when, according to the dictates of my conscience, I am sure that my resignation will not be followed by anarchy."  
The president said his determination not to relinquish the presidency at this time was not due to vanity or love of power, because, as he pointed out, power at this time had no attraction, accompanied as it is by tremendous responsibilities and worry. He said he was prompted solely by a desire to conserve the best interests of his country.

The president made it clear he does not propose to abandon the presidency while his country is at war and that he would not do so at any time under compulsion. President Diaz' manifesto will be made public tomorrow morning, but it will not be sent officially to Judge Carbajal for formal transmission to Dr. Vasquez Gomez.  
The promise of the president is its receipt by the revolutionist will be incidental. That it will be sent to them immediately, however, by private individuals and regarded as entirely satisfactory by them is taken for granted.

**REVOLT IS IMPENDING.**  
Plan on Foot to Depose President of Venezuela.  
New York, May 9.—Plans are being formulated in New York to launch an insurrection in Venezuela to depose President Juan Vicente Gomez, by Alejandro Rivas Vasquez, a member of the Venezuelan congress from the state of Apure and a former cabinet officer during the administration of Cipriano Castro.  
In a long interview, discussing the plan, Dr. Vasquez is reported as saying that President Gomez has established a dictatorship in Venezuela more harassing to the people than that of his predecessor.  
"I have every assurance," Dr. Vasquez is quoted as saying, "that I will be given support by patriotic Venezuelans abroad and by my own compatriots in Venezuela. I have already organized agencies for our cause, but of course the principal field of operations will be in New York."

**Dates May Be Changed.**  
Washington—A change of the date of the inauguration of the president is assured of ratification by the 62d congress, and it is not improbable similar action will be taken to change the date of holding national elections. The proposal changes the date of the inauguration from March 4 to the last Thursday in April. The date of holding national elections would be changed from the first Tuesday in November to the first Tuesday in April preceding the expiration of the terms of the president and congressmen.

**People Flee From Fires.**  
Winnipeg, Man.—Forest fires are threatening settlements along Big River, north of Saskatchewan. A special train has brought all persons living in the danger zone to safety. At Clearwater Bay, 15 miles from Kenora, Ont., on the Lake of the Woods, bush fires have been raging for the last two days. There is no settlement there. Fire rangers report the country dry and small fires along the railway right of way at many points may spread to dangerous proportions.

**Crop Reports Favorable.**  
New York, May 9.—Reports of bumper wheat crops almost everywhere in the United States and in Northwestern Canada are being received by those here who make it their business to keep in touch with the grain situation. There are big yields in prospect in the Far Southwest, Texas and Oklahoma. Kansas will have a big crop. Last year's crop has ceased to be a market factor. It is probable that revised acreage figures will add further to the estimated output next harvest.

**22 Rebels Slain in Battle.**  
Puebla, Mex.—Twenty-two rebels were killed and 12 wounded Monday at San Nicholas de Los Ranchos, when a party of 70 revolutionists was attacked by a detachment of regulars. The federal loss was five killed and three wounded, according to reports. Although many rebels are raiding haciendas not far from here and attacking the smaller towns, almost always abandoning them after taking fresh supplies and what money is available.

**Train Runs Through Fire.**  
Walker, Minn.—Dangerous forest fires are raging north of here on the Minnesota & International railroad. At Spur, the St. Paul train was forced to run through the flames which are being swept northwest by a strong wind. Settlers are well protected, as hundreds of men are out back-firing. Thousands of dollars' worth of property is being destroyed.

## A New Jitrickaha.

A one-wheeled Jitrickaha, on the motorcycle principle, is being introduced among the Chinese of the Malay states. It is said to be safe, and to have many advantages over the old-fashioned vehicle. The wear and tear is reduced to a minimum, the work on the pulleys reduced and speed increased.

**America's Sweet Tooth.**  
If America's annual candy supply were loaded on one train there would be over eight thousand trucks full of boxes, buckets and glass jars. This load of sweets for the sweet tooth of the American girls costs the consumers about \$125,000,000 every year.

**Olive Oil for Leather.**  
Leather furniture, especially when placed near the register, is liable to dry and crack. An excellent method of keeping it from looking old and showing cracks is to go over the leather with a soft rag dipped in olive oil and then going over the whole surface again with a dry rag. It is not necessary to go over the leather more than once in three or four months, just enough to keep it soft.

**Examine Signatures.**  
A number of the larger banking institutions employ from one to half a dozen men whose sole duty is to examine every check that comes in through the clearing house, and vouch for the genuineness of the signatures.

**London's Water Consumption.**  
The average daily supply of water used by Londoners last year was 225,000,000 gallons, according to the official return of the Metropolitan water board. This gives an average of 31.8 gallons per head of population.

**Cause of Faintness.**

**Turkish Officials Bribed.**  
London—A letter received from Jerusalem says the Moslem sheik, the guardian of the Mosque of Omar, was given \$25,000 to permit the explorers of the Anglo-American syndicate to excavate beneath the sacred rocks upon which the mosque stands. The Turkish governor, the writer says, received a far greater sum. The Moslems were so incensed they threatened to lynch the sheik. The excavators are supposed to have obtained sacred relics buried by the Jews before Jerusalem was sacked by the Romans.

## WOMEN MARCH IN SUFFRAGE CAUSE

New York City Scene of Great Demonstration.

"Girls of '61," Babes in Arms, And All Intervening Ages Represented—Many Men in Line.

New York, May 8.—Gray-haired woman suffrage pioneers styled "The Girls of '61," dimpled, laughing girl babies of 1910, not yet out of their first long dresses, girls and women of all ages between, swept down Fifth avenue from Fifty-seventh street to Union square Saturday afternoon in an unorganized protest against denial to their sex of the ballot.

Every avenue through which woman has invaded man's field of endeavor was represented, from sculpture to the law. One hundred male supporters joined in the parade.  
Four brass bands, dozens of elaborate floats and fluttering pennants by the hundreds, with here and there a banner bearing epigrams, lengthened the line of 2,000 marchers. The ranks were separated into seven divisions and more than half the marchers were laden with camp stools, besides the regular insignia and banners which they carried.  
The camp stools, an innovation in New York parades, had served as seats for the feminine army preceding the formation. Having answered their purpose, they were folded up, tucked under arms and carried along. Every one marched with the exception of the veterans and the babies.

Mrs. Antoinette Brown Blackwell, nearly 90, Mrs. Anna Garlin Spencer and Mrs. Phoebe A. Hapford, representing "The Girls of '61," rode in open carriages. The youngest recruits were trundled in go-carts by their mothers.  
Out-of-town associations, in a separate division, consisted of delegates from Colorado, Wyoming, Massachusetts, New Jersey, and Connecticut.  
When the marchers reached Union square an open-air mass meeting was held and addresses were delivered by the leaders.  
Half a dozen floats, illustrating the progress woman has made since Eve handed Adam the pippin were interesting features of the celebration and yellow "votes for women" sashes were plentiful enough to give the moving panorama a "Mayonnaise" appearance.

**Two Trics.**  
A youth was going out to his first formal dinner party. His mother said: "Now don't forget your manners, James; be sure to say something complimentary when the food is passed." He endeavored to do so. When butter was served he remarked pleasantly: "This is pretty good butter, what there is of it." The remark was not well received; he saw that he had made a mistake, and he endeavored to correct it by saying, "And there's plenty of it, such as it is."

**Counterfeit So Good As Almost to Defy Detection.**  
San Francisco—Counterfeit \$20 gold pieces, so clever in execution as almost to defy detection, have been spread profusely over San Francisco and other cities of the Pacific coast, according to information given by the Federal authorities.  
The spurious gold pieces appear so much like the genuine that they will deceive even the most scrupulous, unless examined very closely.  
The date on the output is 1888, and it will be found on close observation that the metal is a trifle light. The ring is almost as good as in the legitimate coins, though to the experienced ear it will seem a little "brassy."  
Around the design and inscriptions a slightly irregular appearance is evident, convincing the authorities that the coin has been cast. A considerable amount of copper is used in making the bogus coin, and much gold has been employed in completing it.  
It is believed that the gang has circulated the output in several Western States and will soon be run to cover by Chief Operative Moffitt and his operatives, who are noted for their success in this line. In the meantime all merchants and business men, especially cautioned by the authorities, to be on the lookout for bogus gold pieces.

**Fez Besieged by Rebels.**  
Fez, Morocco—The arrival of Captain Brenon's column has not changed the situation here. The loose investment of the capital continues. The rebel horsemen, who are beyond the reach of the artillery, have cut off the food supplies. The sultan's troops are worn out with the constant skirmishing and watchfulness. The rebel chiefs have a growing moral advantage, now all Morocco knows that the sultan is penned up in the capital and that his troops are unable to move outside the range of their artillery.

## New Idea in Finance.

"I have found a man with eight children who has apparently grown wealthier with each addition to his family," said a lawyer who is endeavoring to build up a practice on the east side. "He is a small shopkeeper, and by diligent investigation I have found that with the arrival of every infant he has filed a petition in voluntary bankruptcy, shedding all his debts and starting life nearly as unencumbered as the child."—New York Sun.

**Time Saving.**  
A new variation of the now long familiar "while you wait" sign is found in an uptown avenue where a barber shop and a tailoring shop stand side by side. In front of the building hangs a sign on which are displayed the name of the tailoring concern and the name of the barber shop and this announcement:  
"Suits cleaned and pressed while you are getting shaved."

**Finding Pearls With Roentgen Rays.**  
According to a report from our consul in Birmingham, England, a suggestion was recently made that Roentgen rays be used to ascertain whether an oyster contains pearls. In this way, it will be unnecessary to open the oyster's shell and destroy the oyster, unless it contains pearls. If the Roentgen rays show that there are no pearls present the oyster will be put back into the water where it may continue to grow.

**Rembrandt Museum.**  
Within a short time Amsterdam will possess a new attraction to lovers of art. The house where Rembrandt lived from 1639 to 1668, and where he passed the happiest years of his married life with Sashia van Ulmenburg, is being restored and arranged as a small Rembrandt museum. The historical building, long much neglected, became the property some time ago of a society and is now being restored under the direction of a famous architect.

## Strong Healthy Women

If a woman is strong and healthy in a womanly way, motherhood means to her but little suffering. The trouble lies in the fact that the many women suffer from weakness and disease of the distinctly feminine organism and are unfitted for motherhood. This can be remedied.

**Worthy Suggestion.**  
Whatever may your faith—and every man, even so-called infidels, have a belief of some kind—I wish to make one suggestion: Keep it sweet! Rest assured that if your belief makes you crabbed and pugnacious, or critical, or morose, then it is bad. No matter what your creed it is ought to bring forth the one flower that makes any creed worth while, and that is amiability.

**Spread Wisdom.**  
"Tell all you know and you won't have any knowledge left for yourself!" is the slogan of an exceedingly small mind, which, if it could but get wise, would realize it knows nothing worth telling—men learn in the same measure that they teach or explain and make things clear to themselves.
