Commercial Club Meets

An enthusiastic meeting of the Commercial Club was held in the Sturgess building last Friday night and much business was considered and acted upon.

Present at the meeting was A. L. Mitchell, representing The Pacific Monthly. Mr. Mitchell submitted a publicity proposition to the club which was accepted. His plan was to secure twenty-five yearly subscriptions to the Pacific Monthly, the management of which magazine is conducting a general publicity campaign in the interests of every section of the state.

The money secured from these twenty-five subscriptions is to be used to defray the expenses of the representative. She will be at no expense whatever. Mr. Mitchell easily secured the required number of subscriptions and the club selected Miss Sophia Morris, stenographer for D. D. Hail, to represent Mosier. Miss Morris, while not a "native Mosierite," is identified more closely, perhaps, by reason of her duties, with the business and commercial interests of Mosier, and we are confident she will do her part in boosting for Mosier, to the entire satisfaction of the general public.

By using this means of publicity, thousands of Eastern people will learn about Mosier—where we are and what we have, and the free advertising thus secured should result in great benefit to us.

Among other things discussed at the meeting was the question of finances and it was decided to secure the services of a collector who will make a business of collecting subscriptions from those who are in arrears. It was also decided to have published, in a short time, the names of those who have paid their subscriptions up to date. Enough money has been subscribed to the fund to carry on the publicity campaign as mapped out by the club, but the subscriptions have not all been paid and business cannot be done on promises—it takes cash. Therefore, when the solicitor calls on the delinquents they should pay up, just as they are expected to pay their other obligations, and not put him off with promises.

Another matter discussed was the exhibit building. It was the general opinion that the building should have a different location from the one originally planned, and that it should be so constructed as to be available for other purposes as well, a public library being suggested, or a rest room where strangers will be made welcome and furnished with information regarding the country.

Another meeting of the club was called for Friday night, June 2nd, and it is earnestly hoped that everyone interested in Mosier district will be present. If you are not a club member it will be a good time to join.

O. A. C. College

An engineering show, patterned after the electrical shows which have been given in the large cities of the country, was recently opened by the faculty and students at the state Agriculture College at Corvallis, Oregon. The apparatus and work of civil, mechanical and mining engineers, and that relating to forestry, was exhibited, the civil engineering section being devoted to good roads, the mining to ores and processes, the mechanical engineering to shop work products and machine operation, and the electrical to exhibition of high tension current, welding processes, wireless telegraphy, etc.—Ex.

OUR PORTLAND LETTER

Portland, Or., May 2 (Special)—Representing ten Western states, the executive committee of the Western Development League met at the commercial club during the past week and mapped out a plan that promises to be a great benefit to the whole west. The purpose is to attract people from the crowded East to vacant lands of the West where there is room for millions of happy homes.

The big drawing card proposed by the League is a special train of exhibit cars that will tour the East next Fall and will give the people of that part of the country an object lesson of the opportunities to be found here. In this movement the commercial bodies, railroads, state officials and the Panama-Pacific Exposition will co-operate and share the expense. Prominent westerners will accompany the train and they plan to call on governors of the states visited and other leading men, interesting them in the campaign, which will be of such a magnitude as to be free from any selfish boosting of any narrow section. At least five cars of exhibits will be taken along, showing the products of the West in a comprehensive fashion. This will be the biggest showing ever attempted along this line and is certain to attract much attention. The exhibits will later be placed at the Eastern land shows during the Winter.

Mining men completed the organization of the Oregon Chapter of the American Mining Congress in Portland during the past week, the whole state being well represented. Steps were taken at the convention to put the industry on a better basis and considerable benefit to all engaged in the development of the state's mineral resources will result.

Oregon pioneers will hold their annual reunion and banquet at the Masonic Temple in Portland on June 21. Arrangements are now being made for this gathering by the Oregon Pioneer Association. Secretary George H. Himes is arranging a program of unusual interest and a large number of the sturdy pioneers who laid the foundations of our state will meet and recall the incidents of the past. Indian War Veterans will meet here on June 20.

Oregon jewelers will meet in Portland on June 5 and 9, these being the dates fixed for the fourth annual convention. Trade matters will be discussed and entertainment features will not be overlooked.

Portland people are making their plans for the annual Rose Festival, June 5-10, and the whole city is looking forward eagerly to the event. It will be bigger and better than ever this year and the latch string to the whole city will be out. Residents of other Oregon cities will be given a warm welcome.

Union will hold its annual horse show June 1, 2 and 3. Union County is the home of many fine horses and the exhibition will include high class draft stock, harness and fancy drivers. Some animals will be shown that will equal the best seen at national stock shows.

Portland's campaign for a big auditorium is now under way and there seems little doubt that it will be successful. Various business and improvement clubs are giving the movement their hearty support.

Red Apples Best

K. H. Day, writing in the Northwest Farmstead, says: I am still preaching the red apple as the one to grow for the New York market, and the best sizes are from 96's to 144's. The Jonathan, Winesap and Spitz are the three best selling red apples, and should be marketed in that order. The value of the red apple is that it is striking on the fruit stands and in the stores, and appears riper than the greenish yellow Newtown. Spitz should have been sold out by the fore

W. E. CHOWN,

Mosier - Ore

part of January, leaving the way clear for the Newtown, a great seller in the European market.

Newtowns by the way, are selling well, and would net the grower here about \$1.75 a box. Apples, many of which are Newtowns, are now being shipped to England and to this country from Tasmania, 60,000 boxes coming to New York just a few days ago.

One of the chief reasons why better prices were not realized for certain districts the past winter is that huge quantities were dumped into Chicago and New York at the same time when the weather was unusually warm. There is absolutely no danger of overproduction of such quality of apples as are grown in the Hood River, White Salmon, Underwood, and Mosier sections. The central selling agency contemplated will prove a good thing. As to pears, there is a promising future, the market is broadening for them, and the growers of Bartlett's, Anjou and Comice have nothing to lose.

CAN YOU TELL

At the end of any year whether you have made or lost money during that period? If a man loses money year after year then he had better quit that occupation or business. The only way to tell is to keep some record of receipts and expenditures. When this is done and a conservative invoice taken occasionally a man has a fair idea of what he is doing.

As a matter of fact most men in the ordinary walks of life make no attempt at book-keeping. If YOU don't then you should have some one to do it for you. You can get this service without charge by doing all your business through your local bank. Its records, together with your deposit receipts and checks, will give you all necessary information as to the volume of your business; also from what source your money came and for what you spent it.

SUNSET MAGAZINE FOR MAY—"Nile of the East," by S. Glen Andrus. Beautifully illustrated in four colors. "The Spell," a Western novel by the Williams. "Guests of Greater Chinatown," Charles K. Field. Automobile Section. Now on sale, 15 cents.
