No Time Wasted.

Old Larsen, working in a millinery warehouse, backed into an elevator shaft and fell down five stories with a load of boxes. Horror-stricken, the other employees rushed down the stairs, only to find him picking himself unharmed out of the rubbish. "Eas de boss mad?" he whispered cautiously. "Tal'em ay had to come down for nails anyway."—Success Magazine.

A Lost Art.

Another art has been lost! There was a time when the elegant woman took a legitimate pride in her manner of ascending a stair. In this day of elevators, if there still exist women who have the manner, there are few stairs worthy to serve as a stage on which they may exhibit it.

DEATH BEFORE 100 YEARS IS SUICIDE

Ignorance of Laws of Health Explains Early End of Life.

Noted Scientist Has Encouraging Word for Despondent Men and Women.

"Death before 100 years of age has been reached is nothing more or less than slow suicide. A man (or woman) who dies at an earlier age is simply ignorant of the laws of health."

Such was the original and rather startling statement made by Professor James M. Munyon, the famous Philadelphia health authority, who is establishing health headquarters in all the large cities of the world, for the purpose of getting in direct touch with his thousands of converts.

Professor Munyon is a living embodiment of the cheerful creed he preaches. Vitally, well-poised, active and energetic, he looks as though he would easily attain the century age limit which he declares is the normal one.

"I want the people of the world to know my opinions on the subject of health, which are the fruit of a lifetime devoted to healing the sick people of America. There isn't a building in this city big enough to house the people in this State alone, who have found health through my methods. Before I get through there won't be a building big enough to house my cured patients in this city alone."

RICH MAN COINS BOGUS MONEY

Wealthy San Franciscan Is An Expert Counterfeiter.

Formerly Accomplished Metal Worker, Claims He First Made Bad Coins As Pastime.

San Francisco—George Wilson, the most skillful counterfeiter of gold coins ever captured in San Francisco, was arrested by secret service operatives and has made a complete confession. At his home, a \$10,000 house in a fashionable street of the Richmond district, the secret service men found a complete outfit for making counterfeit \$5 coins. When Wilson was searched 15 coins of his own make were in his possession. He is reputed to be moderately wealthy.

The perfection of the molds and the startlingly fine workmanship of the counterfeiters drew from the officers the statement that the coins are the most nearly perfect ever seen. Wilson formerly was an expert metal worker.

For some time the secret service men worked quietly in tracing the authorship of the almost perfect \$5 counterfeit coins. When arrested Wilson at once confessed and led the secret service men to the hiding place of his molds and counterfeiting tools. These were kept in a desk drawer in the living room of the Wilson home.

Mrs. Wilson, a nervous woman, who has lived for weeks in terror of just such a termination of her husband's work, collapsed when the officers crossed her threshold. Wilson had not been content with the plaster of paris molds used by the unskilled counterfeiter, but constructed his of copper, cast with wonderful skill, and in both the old and new designs of the five-dollar coin.

In his confession Wilson implicated his wife, but said that she did not pass any of the illegal coins and had no part in their production. She was not arrested.

Wilson bore a good reputation. He was well-known in the Richmond district, where he had lived for some time. His handsome home is surrounded by residences of many of San Francisco's best-known business men, many of whom were his friends. Wilson said that he began making the coins experimentally, and they looked so good to him that he could not resist the temptation to make more of them.

WRECK GIVES UP BONES.

Engineers Find Relics of Maine Victims on Every Hand.

Havana—With the gas-blast apparatus installed by the engineers, the tangled barnacled mass that was once the United States battleship Maine is being dislodged from the muck of the harbor, where it was sunk by a mysterious explosion in 1898.

Within the past week almost every step taken by the engineers in the exploration of the wreck has revealed the bones of ill-fated men—warriors who went down with her.

Of the remains found this week, only one set of bones has been identified, and in this instance it is possible that the engineers are mistaken. The identification was that of the bones of Assistant Engineer Merritt, possible from the fact that the upper jaw contains two gold teeth, and from a peculiar mark on the skull.

The bones supposed to be those of Merritt were discovered at the precise spot where Midshipman Boyd testified that he and Merritt had been separated by the inrush of water while struggling to make their way from the junior officers' wardroom to the main deck.

Bones of two other men were found near the warrant officers' quarters on the port side of the berth deck, but identification is impossible. The total number of bodies recovered is 21.

Babe Falls Off Bridge.

Spokane, Wash.—While toddling at his father's side over the McKinley street bridge at Kellogg, Idaho, which crosses the main flume of the Bunker Hill & Sullivan Mining company, Sunday afternoon, 3-year-old Sula Tanti slipped through the railing, fell into the poisonous waters of the deep flume, and was drowned despite his father's frantic efforts to save him. The body was recovered 30 minutes later about a mile below. Tanti and his son were on their weekly Sunday afternoon walk.

Aviator Dives Into Sea.

Long Beach, Cal.—After thrilling a great throng of Sunday visitors to the beach here with a spiral dip close to the wave tops, Aviator Frank Champion startled the spectators with an unexpected plunge into the surf a hundred feet from shore. Bathers and life guards swam to his assistance, unfastened the straps which bound him to his seat and brought him safely ashore. He had been blinded, he said, by oil flying from the engine of his monoplane, and steered down hoping to land on the beach.

Jail Feeds Fire Fighters.

San Bernardino, Cal.—The fire situation continues to improve and within 48 hours it is believed every vestige of flames on the mountains north of this city will be extinguished. No arrangements have been made apparently to pay off the stranded fire fighters, many of whom were sent back to their city from the front several days ago. Those of the exhausted men who were absolutely penniless were fed and lodged at the city jail.

British Warship Ashore.

Halifax, N. S.—A wireless dispatch received here says the British cruiser Cornwallis is stranded on the ledges of Cape Sable, a few miles from where the Canadian flagship Niobe went on the rocks July 30. The message said that the Cornwallis was not taking water and apparently had sustained no serious damages.

The Difference.

European cities certainly have a laughing, contented air, people seem to take life easily, they have time for pleasures. If it's only a chair hired for two cents on one of the broad, shaded boulevards to watch the crowds pass of a Sunday afternoon, says Orion Sweet Marden in Success Magazine. What smiling, care-free faces! One remembers with a shiver the faces in a New York crowd—grim, anxious, frowning, self-centered.

No doubt this atmosphere of joyousness, along with the external beauty and picturesqueness of European cities, has its attraction for our hirelings, but of course, that alone would not make them live abroad and marry foreigners. There are other considerations which bring them to this important decision.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

In His Power.

"How effectively sweet that Mrs. Blonday is to you, Jonesey," said Withersell. "What's up? Any tender little romance there?" "No, indeed—why, that woman hates me," said Jonesey. "She doesn't show it," said Withersell. "No, but she knows I know how old she is—we were both born on the same day," said Jonesey, "and she's afraid I'll tell somebody."—Harper's Weekly.

AVOID LIQUID BLUING.

The reason so many housewives prefer RED CROSS BALL BLUE is because it is all blue. Liquid blue contains a large percentage of water. Why buy water when you have it by the tub full?

Buying solid RED CROSS BALL BLUE is real economy. Dissolve it as you need it. A large 4-oz. package, all blue, for 10c. Used in thousands of homes. FOR SALE AT ALL GROCERS.

Pleasure of the Children.

There should be some time during the day, even in the busiest household, an hour at least, set apart in which the older members of the family should devote themselves wholly to the children. Little object lessons or stories containing practical knowledge told in an interesting way will be sure to hold their attention. The story of the gradual formation of the fruits, flowers and vegetables will delight them and will be eagerly looked forward to and always remembered.

The Craze for the Weird.

The artistic craving today is for novelty—for new expressions of form and combinations of color, the more strange and weird the better; hence the passing fashion for post-impresionism and other kindred cults, in which neither truth nor beauty is the inspiring motive.—Connoisseur.

SAVED FROM AN OPERATION

By Lydia E. Pinkham's Vegetable Compound

Peoria, Ill.—"I wish to let every one know what Lydia E. Pinkham's Vegetable Compound has done for me. For two years I suffered. The doctors said I had to have an operation, and the only remedy was the surgeon's knife. My mother bought me Lydia E. Pinkham's Vegetable Compound, and today I am a healthy woman. For months I suffered from inflammation, and your Sensitive Wash relieved me. Your Liver Pills have no equal as a cathartic. Any one wishing proof of what your medicines have done for me can get it from any druggist or by writing to me. You can use my testimony in any way you wish, and I will be glad to answer letters."—Mrs. CHRISTINA REED, 105 Mount St., Peoria, Ill.

Another Operation Avoided.

New Orleans, La.—"For years I suffered from severe female troubles. Finally I was confined to my bed and the doctor said an operation was necessary. I gave Lydia E. Pinkham's Vegetable Compound a trial first, and was saved from an operation."—Mrs. LILY PÉROUX, 1111 Kerlerec St., New Orleans, La.

The great volume of unsolicited testimony constantly pouring in proves conclusively that Lydia E. Pinkham's Vegetable Compound is a remarkable remedy for those distressing feminine ills from which so many women suffer.

Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.

If your dealer offers something "just as good," it is probably better FOR HIM—it pays better. But you are thinking of the cure of the trouble, so there's nothing "just as good" for you. Say so.

Dr. Pierce's Common Sense Medical Adviser. In Plain English; or, Medicine Simplified, 1008 pages, over 700 illustrations, newly revised up-to-date Edition, paper-bound, sent for 21 cents stamps, to cover cost of mailing only. Cloth-bound, 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

Canadian Heroine.

Monument to Madeline de Vercheres—\$15,000. This item, which appears for the first time this year in the estimates of the public works department, marks the tardy recognition by Canada of one of the heroines of French Canadian history—the maid of fourteen, who for one long week in 1692 defended her father's seignior against the attacks of hostile Iroquois. After two centuries the little heroine of the Castle Dangerous is to have her memory perpetuated by a bronze statue to be erected at Vercheres, P. Q., on the spot made memorable by her exploit.

Dr. Pierce's Pleasant Pellets first put up 40 years ago. They regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules.

Published for Yawning.

When Henry Brown of Brockton, Mass., awoke the other day he yawned, tried to close his mouth and could not. He had fractured his jaw. With his mouth wide open he walked more than a mile to a physician's office and had the fracture reduced. As he was leaving the office his jaws unlocked again. Finally he was placed under ether and the jaw permanently fixed.

New Booklet Just Out Can Be Had for the Asking.

The Portland Young Men's Christian Association is about to enter upon a new era in its work in extending the advantage of its educational department to the entire state. While a great majority of the 1400 students enrolled in night and day classes are residents of Portland, yet a large and increasing number are now enrolling from towns and cities outside of Portland.

The different courses offered include a full Commercial course, comprising Shorthand, Bookkeeping and related subjects; a college preparatory course, a graded course in elementary subjects for boys and vocational courses such as plumbing, carpentry, sheet metal, bricklaying, electrical work, automobile repair and driving. Many students trained in these classes are now occupying important positions in the business houses of Portland.

An attractive booklet entitled "Activities" has just been issued by the association and contains a statement of all Educational Courses. The Educational Director will mail this booklet to all persons who desire it.

Classes for day school open September 25th. From present indications an unusually large registration is anticipated.
