HOW FAR HAVE YOU TRAVELED

If You Have Never Taken Count You Will Be Surprised at Distance Covered.

Have you ever counted up the number of steps which you have made in the course of one day—in going to business, in walking from one room to another at home, and so on, throughout the course of the day? If you will take the trouble to do so, you will be surprised to find what a distance you have covered without realizing it. Multiply thos distance by 365 and you will find that it will not require many years before you have made up the 25,000 miles which is equal to the circuit of the globe. Most people would certainly be surprised if they were informed that during the course of their lives they have walked a distance as great as the length of the equator. Yet, however sedentary we may be, however little inclined to gain the reputation of a globe-trotter or of an Alpine climber, most of us have, unknown to ourselves, covered a distance equal to the full circuit of the earth, or a climb to the highest mountain peaks in the world. More than that, we have accomplished a task still more colossal. Without having had occasion to explore the unknown regions beneath the crust of the earth, we have descended as far as the depths of the most unfathomable abysses, even as far as the very center of the earth.—Strand Magazine.

New Booklet Just Out Can Be Had for the Asking.

The Portland Young Men's Christian Association is about to enter upon a new era in its work, in extending the advantage of its educational department to the entire state. While a great majority of the 1400 students enrolled in night and day classes are residents of Portland, yet a large and increasing number are now enrolling from towns and cities outside of Portland.

The different courses offered include a full Commercial course, comprising Shorthand, Bookkeeping and related subjects; a college preparatory course, a graded course in elementary subjects for boys and vocational courses such as plumbing, carpentry, sheet metal, bricklaying, electrical work, automobile repair and driving. Many students trained in these classes are now occupying important positions in the business houses of Portland.

An attractive booklet entitled "Activities" has just been issued by the association and contains a statement of all Educational Courses. The Educational Director will mail this booklet to all persons who desire it.

Classes for day school open September 5th, night classes September 25th. From present indications an unusually large registration is anticipated.

REMARKABLE CURE FOR DYSPEPSIA

Munyon's Stomach Treatment Performing Miracles.

Munyon Tells You How to Get Well Free of Charge.

A few days ago I received a letter from a young man, who states he is 28 years of age, and has occupied several important positions, but owing to indigestion and inability to sleep he has been unable to concentrate his mind upon his work and has consequently been discharged on the ground of neglect of duty. He goes on to say that he is a young man of steady habits, but for years he has suffered from dyspepsia, which has so affected his nerves that he is unable to sleep, and that it is not neglect upon his part, nor lack of interest, but simply physical weakness. He asks my advice in this matter.

For the benefit of a large number of those similarly situated I propose to answer this letter publicly, hoping that it may be the means of helping many who may be affected in this way.

In the first place the stomach must be well before the nerves can be made strong. The nerves must be made strong before one can sleep well. No one is capable of doing his best who is in any way troubled with insomnia or any form of nervousness. The greatest generals have been men of iron nerve and indomitable will. They have had perfect digestion, being able to eat well and digest all they ate.

It is said Napoleon lost the battle of Waterloo because of a fit of indigestion. Grant's enormous reserve power was due to a well stomach. Abraham Lincoln said that "he did not know that he had a stomach." Grover Cleveland, it is said, could work 18 hours a day, eat a hearty meal at 2 or 3 o'clock in the morning, go to bed and sleep soundly until 9 o'clock and get up refreshed, ready for a new day's work.

Pres. Taft is another type of a healthy manhood. Who thinks for one moment that he would be the President of the United States today had he been a dyspeptic or affected with some nervous ailment? I claim that two-thirds of all the failures in professional and business life are due to weak and deranged stomachs.

No business house would care to employ a dyspeptic representative to sell goods for them on the road. One-half the men who stand behind counters today, earning from $12 to $15 a week, will never get beyond these figures, for the reason that they are physically weak. They lack the nerve power and commanding strength that come from a good sound stomach.

No one cares to hear a dyspeptic preacher. No matter how pious he may be, he is bound to reflect his bilious and jaundiced condition. He will unconsciously inoculate his hearers with his melancholy feelings.

No one would think of entrusting an important legal case in the hands of a dyspeptic lawyer, any more than he would care to entrust his own life, or that of a dear one in the hands of a physician who is nervous, irritable or a dyspeptic. Men must have good digestion, strong nerves and vital manhood in order to render a clean, clear-cut decision either in medicine, law or business.

I believe more than half of the divorces can be traced to ill health. I want every dyspeptic to try my stomach treatment. It makes old stomachs almost as good as new. Its marvelous power for digesting food and getting the best out of it makes for good rich red blood. This in turn strengthens the nerves, builds up the general system, and will surely prolong life and make it a pleasure to live and do the things allotted to us.

Professor Munyon makes no charge for consultation, or medical advice; not a penny to pay. Address Professor J. M. Munyon's Laboratories, Fifty-third and Jefferson Streets, Philadelphia, Pa.

Truth's Revelation.

I looked at my Brother with the Microscope of Criticism and I said, "How coarse my Brother is!" I looked at him with the Telescope of Scorn and I said, "How small my Brother is!" Then I looked in the Mirror of Truth and I said, "How like me my Brother is!"—Bolton Hall.

Businesslike.

A man at Munich who lost $10,000 in bank notes in the street a few days ago, and advertised $300 reward to the finder, received a check for $9,700 from the finder, a man of a businesslike turn of mind, who wrote that, to avoid delay, he had kept off his reward.

ENGLISH CITIES TORN BY RIOTS

One Killed, Many Injured, In Street Battle.

Extensive Movement Is Threatened—Strikers May Tie Up Entire Transportation of Isles.

London— Great Britain appears to be confronted by a grave labor movement, compared with which the London strike just ended would be a small affair.

Together with the furious street battles in Liverpool in which one constable was killed and 40 policemen, including the superintendent, were injured, and serious riots at Glasgow, comes the news of meetings of railway employes at Liverpool, Glasgow, Manchester, Bristol, Sheffield and other large cities, at which threats were made of a general strike of all railway men, transport workers and dockers, unless existing disputes are settled promptly.

In London itself both railway and streetcar strikes still threaten. The men discussed the situation but have not taken active measures for going out. As in Glasgow, London's tramway service is run by the municipality.

A serious feature of the situation is the deep resentment the speakers displayed at the employment of military and police from other towns. The Socialist party is doing its utmost to fan this resentment.

At a meeting of 2,000 railroad men belonging to the Midland, Great Central and Metropolitan lines it was decided to call a general strike on all the railways and tubes in the London district unless grievances were remedied within a week. It is rumored that the London tramway men have also sent an ultimatum to the county council.

In Glasgow, where streetcar service was discontinued, 30,000 workmen met on Glasgow green and the strike leaders threatened drastic measures if the nonunion men continued to supplant strikers.

MASTODON SKULL FOUND.

Human and Animal Bones Dug Up Are Fantastically Engraved.

San Jose, Cal.—One of the strangest relics the Santa Cruz mountains, with their 5,000-year old trees and other curiosities, have ever given up was found by R. S. McWhorter, of this city, and presented to the chamber of commerce. It is the skull of a giant mastodon, engraved centuries ago with fantastic designs of interlinked human and animal heads, or else eroded into these shapes by countless years of wear.

McWhorter exhibited the skull in the city. It is apparently only the upper part, the jaws having been worn away. It is partly petrified and has been lying partially exposed for some time in a wet spot, moss having grown on its sides. At first it appeared like an old stump, but investigation showed it to be ancient bone.

OPEN NEW POSTAL BANKS.

Pacific Coast to Get Three New Government Depositaries.

Washington, D. C.—Encouraged by the successful trial of two weeks of the postal savings bank system in the great postoffices of New York, Chicago, St. Louis and Boston, Postmaster General Hitchcock has decided to extend the system rapidly to all the large cities and disgnated as potal savings depositaries Kansas City, Pittsburg, Detroit, Buffalo, San Francisco, Cincinnati, Seattle, Wash., Indianapolis, Denver and Portland, Or.

The deposits in New York, Chicago, St. Louis and Boston for the first five days amounted to $110,000, at which rate the annual deposits for the four cities would amount to about $7,000,000.

Socialist Mayor Woeful.

Milwaukee, Wis.—Emil Seidel, Socialist mayor of Milwaukee, in reviewing the alleged wrongs that the party had suffered at the hands of local capitalists, bewailed the fact that he had been deposed as head of the police department, and acknowledged that the present city government was a machine, but explained that it was only a machine to help the workingmen. He said that when the Socialists got possession of the courts they would be used to define the law in the interests of the working classes.

North Bank Cuts Rates.

Washington, D. C.—To enable the Spokane, Portland & Seattle railway to meet the competition of a more direct line between points in California and eastern junction points in Idaho and Montana, the Interstate Commerce commission has granted to that road permission to charge lower rates on both class and commodity freight than are concurrently in effect to intermediate points. The arrangement will affect rates favorably to shippers throughout the Northern Pacific territory.

Warship Launches Crash.

Provincetown, Mass.—Eighteen officers and seamen on the battleships Nebraska and Delaware, of the North Atlantic fleet, narrowly escaped drowning a mile off shore in the darkness of night, when two launches from the ships were in collision. The launch from the Nebraska sank in 12 fathoms of water, and the men on board got to the Delaware's launch just in time. They were picked up by the Delaware.

Women Jurors Called.

Tacoma—Thirty-four women are included in the venire of 129 jurors for the September term of the Superior court. This is the first time since Washington was admitted to the Union that the names of women have been drawn on the regular venire.

BUDGET OF USEFUL HINTS

Valuable Bits of Advice for Housekeepers and Others, Given by English Magazine.

Some new hints for the housekeeper, or for any woman for that matter, are given in an English magazine called the Matron. For example, one needn't be a housekeeper, or even a woman, to be glad to know what to do when a fishbone is stuck in one's throat.

According to this authority the proper thing is to hand the sufferer a lemon. If it is sucked for a little while the bone will move on. In one case it succeeded after the bone had been in the throat two days.

Another use for lemon juice is to remove warts. This is done by dropping it on twice a day.

To retain the color and gloss of a white silk blouse after washing put a teaspoonful of alcohol into the rinsing water. This keeps it from turning yellow and gives it when ironed the gloss of new silk.

To clean the lace yoke and sleeves of waists sprinkle the lace freely with powdered borax, then roll it up and fasten with pins. Let it remain for at least twelve hours, then shake out and brush with a clean soft brush.

To remove ink stains from carpets take a saucer of fresh milk and a clean soft rag. Renew the milk if necessary and wash finally with clean water.

To take coffee stains from any material rub a little glycerine into the stain and then wash with hot soap and water.

To prevent milk from scorching when it is being boiled sprinkle a little sugar into the saucepan after the milk is poured into it. Do not stir the milk even though the pan is a very thin one. The milk will not burn, but will leave the saucepan as clean as if only water had been in it.

BLUE! BLUE! BLUE!
Blue that's all blue. RED CROSS BALL BLUE delights the laundress. A wash day necessity. Once tried always used. A standard bluing for 20 years.
More satisfactory than liquid blue and more economical because it is not 4-5 water. Easily handled and cannot spill. Price, 10 cents. ASK THE GROCER.

Not an Old Man's Game!

"I may have lost my golf ball," thought the old man, as he crept on all fours round the bush into which it had rolled, "but I will not lose my temper."

So he continued to grovel and grope, and to wear a persuasive, patient smile. His knees bagged, his back ached horribly, and the bush bestowed upon his hands a generous quantity of thorns. But he refused to discard his smile, and kept on repeating:

"No, I will not lose my temper. I will not!"

Suddenly the elusive ball caught his eye. Flopping flat, he stretched his hand towards it, grasped it among its nest of thorns, and gingerly withdrew it.

"Hoity-toity!" exclaimed an old woman behind him. "You ought to be ashamed, birdnesting at your time of life!"

And then he did lose his temper.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules. Easy to take as candy.

Young Nature Faker.

A small boy recently became the proud possessor of a donkey which was not a very young or a fine-looking animal. One day the lad was enjoying a ride on its back when the minister of the parish met him. "Hallo, sonny!" said the minister. "Quite a rare beast you have there!" "Yes," replied the boy, "but I suppose there are a great many of 'em in the theological gardens!"

Lightning Spared Them.

Three laborers engaged on a threshing machine at a farm at Malong, Austria, had a wonderful escape from being killed by lightning a few days ago. The lightning struck the sheaf carrier, shattering it to matchwood and was then diverted into the earth, which it tore up to a depth of eight inches for several yards. The men, who had camped under the machine, were considerably dased for some time.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Danger.

Elopement is becoming highly popular in certain circles in America. young couples rushing off to distant states to get married without the knowledge of their parents. "In many instances, we gather," says a writer in the London Evening News, "the greatest secrecy has to be observed for fear that the parents might hear of the projected match and give their consent."

Scientific Phenomenon.

While a plumb-line may be straight, it is, curiously enough, not always vertical. Irregularities of density in the crust of the globe may produce this phenomenon. A remarkable instance in point was found in the island of Porto Rico, where the deviation from the vertical is so great that in mapping the island the northern and southern coast lines, as shown in the older maps, had each to be moved inward half a mile.

Seize Present Happiness.

With most people happiness is something that is always just a day off. But I have made it a rule never to put off being happy till tomorrow. Don't accept notes for happiness, because you'll find that when they're due they're never paid, but just renewed for another thirty days.—Letters from a Self-Made Merchant to His Son.

Varied Instruction.

Wise men are instructed by reason, men of less understanding by experience, the most ignorant by necessity. —Unknown.

Dr. Pierce's Favorite Prescription

Is the best of all medicines for the cure of diseases, disorders and weaknesses peculiar to women. It is the only preparation of its kind devised by a regularly graduated physician—an experienced and skilled specialist in the diseases of women.
It is a safe medicine in any condition of the system.
THE ONE REMEDY which contains no alcohol and no injurious habit-forming drugs and which creates no craving for such stimulants.
THE ONE REMEDY so good that its makers are not afraid to print its every ingredient on each outside bottle-wrapper and attest to the truthfulness of the same under oath.
It is sold by medicine dealers everywhere, and any dealer who hasn't it can get it. Don't take a substitute of unknown composition for this medicine of KNOWN COMPOSITION. No counterfeit is as good as the genuine and the druggist who says something else is "just as good as Dr. Pierce's" is either mistaken or is trying to deceive you for his own selfish benefit. Such a man is not to be trusted. He is trifling with your most priceless possession—your health—may be your life itself. *See that you get what you ask for.*

Plant Feigns Death.

In South America there is a plant —a species of mimosa—which feigns death for the purpose, naturalists think, of preventing grass-eating animals from eating it. In its natural state it is bright green, but as soon as it is touched it collapses into a tangle of apparently dead brown stems.

CHANGE IN WOMAN'S LIFE
Made Safe by Lydia E. Pinkham's Vegetable Compound.

Graniteville, Vt. — "I was passing through the Change of Life and suffered

from nervousness and other annoying symptoms, and I can truly say that Lydia E. Pinkham's Vegetable Compound has proved worth mountains of gold to me, as it restored my health and strength. I never forget to tell my friends what Lydia E. Pinkham's Vegetable Compound has done for me during this trying period. Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my trouble public so you may publish this letter."—MRS. CHAS. BARCLAY, R.F.D., Graniteville, Vt.
No other medicine for woman's ills has received such wide-spread and unqualified endorsement. No other medicine we know of has such a record of cures as has Lydia E. Pinkham's Vegetable Compound.
For more than 30 years it has been curing woman's ills such as inflammation, ulceration, fibroid tumors, irregularities, periodic pains and nervous prostration, and it is unequalled for carrying women safely through the period of change of life.
Mrs. Pinkham, at Lynn, Mass., invites all sick women to write her for advice. Her advice is free, and always helpful.

Determination Wins.

The longer I live, the more I am certain that the great difference between men—between the feeble and the powerful, the great and the insignificant—is energy, invincible determination, a purpose once fixed, and then death or victory.—Sir Foxwell Buxton.

Conquer Self-Distrust.

Self-distrust is the cause of most of our failures. In the assurance of strength there is strength, and they are the weakest, however strong, who have no faith in themselves or their powers.—Bovee.

Learn How to Shake Hands.

Few people know how to shake hands well; the general run of folk either give a limp paw and allow it to be shaken, or else grasp yours in theirs and nearly dislocate it with their violence.—London World.

PACIFIC FLY REPELLANT

Drives away Flies, Mosquitoes and Gnats. It protects horses and cattle from attacks of insects, enabling them to feed and sleep in peace. It prevents loss of weight and strength from worry caused by attacks of insects, and from the irritation of their bites and stings. There is a satisfaction in the relief it affords domestic animals from the scourge of maddening parasites and flies, besides the profit in returns. Horses do more work on less feed and cows yield more and better milk when relieved from the frenzy incited by constantly fighting a swarm of voracious, insatiable insects.
