Thicker Than Water.

Rather significant was the celebration of the Fourth of July in Honolulu, with two British cruisers to participate in the exercises and with British officers in attendance upon an official public reception of Independence day.

This is strongly indicative of the brotherly feeling existing between the two countries, of the oft-quoted sentiment that "blood is thicker than water," and of the kinship of the English-speaking people.

The mingling of the British army and navy officials with the Americans in celebration of the anniversary of this country's independence is suggestive of the old soldiers' reunions in which veterans of the Union and Confederate armies fraternize and march together in procession and are brothers under the skies who have forgotten any past differences that estranged them for a time.—San Antonio Express.

A slight cold is not taken seriously enough, and too often neglected. Isn't it better to cure it at cold right up with Hamlins Wizard Oil than to let it run in to Pneumonia or Consumption?

Strauss Has New Orchestral.

Richard Strauss is writing a new orchestral work to be called "An Alpine Symphony." The development of the motives parallels the journeys of an Alpine climber, who hies to the mountains to be away from the cares of the world.

Musical description is to be given of the characteristics of the ascent, a waterfall, a deep gorge and a mountain thnuder storm. At the summit the climber raises his voice in praise of the splendors of Alpine scenery.

The descent is occupied with the struggle in the wanderer's heart between the feeling of Nature alone and the higher feeling for the divine, each feeling being represented by its own melody.

Finally the melody of faith dominates the other, and the symphony concludes with a hymn praise to God.

He Wanted a Permanent One.

Joshua was buying a field glass.

"This one," said the clerk, "is just what you want. Its magnifying power is twenty-five times."

"No," Joshua replied, "I want to use it oftener that that." — Success Magazine.

Joan of Arc's Sword.

A sword in the Dijon museum has just been identified as that used by Joan of Arc and presented to her by Charles VII. of France. On one side of the hilt, says the London Mail, is engraved a figure kneeling before a cross, and the inscription: "Charles VII.," while the other side bears the name "Voucouleurs." The sword also bears the arms of France and of the town of Orleans, and the date 1419.

THRONGS COME TO SEE MUNYON

Surprising Number of Visitors Shows Interest in Expert.

Local Folk Testify—Stomach Trouble Conquered and Rheumatism Pangs Overcome.

One of the most remarkable features about Prof. J. M. Munyon is the extraordinary amount of attention he has attracted. Here and all over the country, the immense crowds that have been flocking to see him, and the large quantity of mail he receives daily at his headquarters, Munyon's Laboratories, 53d and Jefferson Sts., Philadelphia. He receives mail and visitors from ever city in the United States and Canada. Most notable is the fact that rich and poor come to him alike, and a few hours spent at the side of the physician is a most interesting study in human nature.

Many remarkable cases of relief secured were related at the store this week.

One was that of a man who had suffered from indigestion and stomach trouble for more than ten years. He said:

"I think I had one of the worst cases of stomach trouble on record. I could not digest anything I ate. Food fermented in my stomach and formed gas, which passed out in the abdomen and up under my heart, and at times made me suffer so badly I expected to die. I had intense headaches and frequent attacks of dizziness, and I grew short of breath when I attempted to walk up stairs. I was also much constipated. I came here a short while ago and took Munyon's full course of stomach treatment. Now I must admit I feel like a new man. I can eat anything I want with no distress afterward, and all of the other symptoms of my trouble have disappeared. I notice particularly that my head is much clearer and my brain works better. I am full of ambition and energy and enjoy life hugely. I can never tell how glad I am that I had the good sense to try this Munyon treatment."

Another enthusiastic visitor was a woman who declared that her mother had been relieved of rheumatism in a most remarkable manner. She said:

"My mother was flat on her back in bed with rheumatism, sciatic, muscular and inflammatory. Doctors had pronounced her case almost incurable and we had about given up hope of her ever being able to walk again. I procured a treatment for her from one of these Munyon doctors, and today she is able to get about the house with perfect ease and can go out doors, and in fact, do anything that a woman of her age might be expected to do. The rheumatic pains and inflammation have entirely disappeared. I think this Munyon treatment is a positive wonder-worker."

Letters addressed to Prof. J. M. Munyon Personally, Munyon's Laboratories, 53d and Jefferson Sts., Philadelphia, Pa., or callers who apply at that address, will receive free medical advice. There is not a penny to pay for the fullest and most painstaking medical examination. You are made to feel, whether by personal interview, or letter, that the advice is absolutely free and you are not under any obligation to follow it.

HARRIMAN LINES REJECT DEMANDS

Absolutely Refuse to Recognize Federation of Employes.

Kline, for Men, Makes Plea on Economic Grounds—Officials Say Duty To Public Prevents.

San Francisco—The Southern Pacific company, through Julius Kruttschnitt, vice president and director of maintenance of the Harriman lines, absolutely rejected a demand for recognition of the Federation of Railway Employes, composing five shop trades and 25,000 men. This would hamper the company in performing its duty to the public, was the position taken by the officials. Union leaders asked for it on grounds of economy and expedition and admittedly because of a feeling that greater centralization of capital and power made corresponding centralization among various unions desirable.

The unions involved had asked permission of their general officers to strike in event of the refusal of recognition.

A conference lasting three hours and 20 minutes was terminated by Mr. Kruttschnitt's final answer and following it the union representatives, sober-faced, went into session themselves, to consider the strike vote, which they may accept as binding, or may reject, refusing to sanction a strike.

"Our meeting with Mr. Kruttschnitt was without result," said J. W. Kline. "Neither side would concede anything. The demand that he recognize the Federation was presented to Mr. Kruttschnitt, but he refused to grant it. However, we still have hope of avoiding a strike."

Mr. Kline said later:

"Owing to the deadlock between the committee and Mr. Kruttschnitt, it is practically certain that the officers and members of the unions involved will be called to San Francisco immediately for consultation.

"The international officers now here have not receded from their demand that the Federation be recognized.

"The railroads recognize and deal with collective transportation organizations. They should receive the shop trades on the same basis," Mr. Kline added.

"Joint action is recognized on 14 railroad systems with entire success, and the Harriman lines will have to come to it."

FRANCE IS NERVOUS.

Business Interests Feel Tension of War Situation.

Paris—The nervousness of the business world over the unsettled Franco-German negotiations relative to Morocco reacted Saturday on the Bourse. Transactions were limited, nearly the whole list being weak.

Much uncertainty has been caused in official circles here by the action of the Spanish government in choosing the present time to occupy Sainte Croix la Mineur, on the Moroccan coast, 58 miles south of Agadir, under the terms of the treaty of 1860 with Morocco.

The French foreign office continues to assert confidence in an early settlement, because of the extent of the compensations offered to Germany, but the real difficulty in the way of an early settlement, it is believed, lies in the special commercial and mining guarantees which Germany may seek in Morocco, as nothing can be given Germany in Morocco which Great Britain does not possess. Besides, anything like special privileges would afford endless occasions for the reopening of the controversy on questions of interpretation.

Cough Permit Granted.

Denver—Ole Skinden, a victim of asthma, who came here for his health from New York, appeared before the health officer and requested a permit to cough in Denver streets. He said that when he sits on the curb and begins to cough the firsst policeman who comes along arrests him and sends him to jail in the ambulance, charging him with disturbing the peace. The health officer issued an order authorizing him to cough in the street and told him to have the captain of police O. K. it.

Mark Twain Home is Gift.

Hannibal, Mo.—The boyhood home of Mark Twain on High street, built by his father, John M. Clemens, in 1839, was bought by George A. Mahan, a wealthy attorney and his wife, and was given by them to the city of Hannibal. The old home is a two-story frame house in good state of preservation. It is only a few feet away from the alley where "Tom Sawyer" had the boys paint the fence. "Huckleberry Finn" lived at the other end of the alley. Across the street was Tom's father's newspaper office.

Mexicans Shout Fraud.

Mexico City—Jose Pino Suarez had 615 votes as a result of the progressive convention's first ballot for a vice presidential candidate. Dr. F. V. Gomez received 600, Fernando Iglesias Caldron, 321, and Alfredo Dominguez 319. Shouting charges of corruption and yelling that the supporters of Suarez had bought votes, the supporters of Gomez marched out of the convention, stopping the balloting for the time.

New Revolt Breaks Out.

El Paso, Texas—According to a special from Hermosilla, the state of Sinaloa, Mexico, is in rebellion against the Mexican government. Governor Juan Banderez heads the revolt, declaring for an independent state.

No Help.

A St. Louis traveling man, making his first trip through North Dakota, woke up one May morning to find the ground white with snow.

"For Heaven's sake," he asked the hotel clerk disgustedly, "when do you have summer out in this God-forsaken country?"

"I don't know," replied the clerk, "I have only been here eleven months."—Success Magazine.

Easy Way Out.

The day was sultry, the spectators were restless, and the judge irritable.

"The next person," he said, "that disturbs the order of this court will be sent home to stay."

"Hurrah! Hurroo!" yelled the prisoner on trial, jumping up and down in the witness box.—Success Magazine.

The Beautiful Women of Today.

Work In Harmony.

In Brazil monkeys and parrots not only roost in the same trees but work for mutual benefit. The parrots gnaw the big nuts loose from the tree, let them fall in order to crack them and the monkeys tear the husks asunder, gather the nuts and divide them with the parrots.

Altered His Plans.

"Is he?" said the caller, surprised. "I was thinking of that myself, but now I shall bring you a box of sweets."

Same Girl.

"Dad, I want to marry Tottie Twinkletoes. I hope you won't blame me for wanting to marry a chorus girl."

"Not at all, my boy, I wanted to marry her myself when I was about your age."

A Packing Hint.

When traveling it is a good plan to line the trunk with a large sheet or piece of muslin. When all the clothes are packed the ends of the sheet are folded across the top of the clothes and pinned firmly with safety pins.

Be Honest.

Honesty is also one of the fundamental principles it never pays to break. If to be a good fellow means you are to sneak, or steal, or lie, then you dig a pit into which one donkey certainly will fall, and his name will be spelled just like yours.

Function of Religion.

"Religion within those souls which it really invades is—one may say—a value that is unique and infinite; attributed not by imagination, but by consciousness, properly so called, to certain ideas, to certain feelings, to certain actions with a view to ends which surpass humanity."—E. Bontroux.

Laid the Foundation.

March 24, 1811, which saw John Jacob Astor's brigantine Tonquin enter the Columbia river, was a great date mark in American history. Around the fur trading post which his men established near the mouth of that stream, close to the present Astoria, was built the first American settlement seen on the Pacific.—Leslie's.

Medicines for Plants.

"The general public are not the only users of patent medicines," said a florist as he opened a box of small metallic pills. "Lately we have adopted the French custom of feeding our plants whatever element they happen to need in this shape. The pills are buried in the soil and are slowly absorbed, and the resulting growth is remarkable."

Still In Funds.

Joe Rank of Atchison tells this story: "A colored man was charged with stealing $9.70. His lawyer, after a long fight, succeeded in securing his acquittal. After the acquittal the lawyer told the darkey that he ought to have some pay for his hard work. 'Have you got any money at all?' inquired the lowyer. 'I've still got that $9.70,' said the negro.—Kansas City Journal.
