Years of Suffering

Catarrh and Blood Disease—Doctors Failed to Cure.

Miss Mabel F. Dawkins, 1214 Lafayette St., Fort Wayne, Ind., writes: "For three years I was troubled with catarrh and blood disease. I tried several doctors and a dozen different remedies, but none of them did me any good. A friend told me of Hood's Sarsaparilla. I took two bottles of this medicine and was as well and strong as ever. I feel like a different person and recommend Hood's to any one suffering from catarrh."

DYNAMITE EXPERT GOES TO DEFENSE

McNamaras Get Advisor From Side of Prosecution.

Secret Experiments Have Been Made —Miniture Times Build Will Be Built for Destruction.

Los Angeles—Another of the witnesses who was depended on by the state for important information in the coming trial of the McNamara brothers on a charge of murder resulting from the explosion in the Los Angeles Times office has gone over to the defense. John Bermingham, Jr., a dynamite expert who is known in all sections of San Francisco, and who has testified as an expert in many of the big trials in California wherein dynamite was an element, has been retained in an advisory capacity by the defense.

He was closeted for two hours or more with Clarence Darrow, chief counsel for the defense, and while Bermingham refused to deny or admit his connection with that side, it is known from a source that is reliable that he will be chief expert in matters relating to dynamite, its make-up, use and effect.

It is improbable that Bermingham will appear as a witness in the case, although it is possible that he will be put on the stand to answer hypothetical questions. His first-hand knowledge of the effect of the explosive that wrecked the Times building, the steel girders and machinery will not be questioned, according to the present plans. He is retained in a consulting capacity.

GO ALOFT DESPITE LAWS.

Female Aviator's Wrist Cut Repelling Officers.

New York—Three Long Island deputy sheriffs undertook to preserve the peace of the Sabbath by preventing Earl L. Ovington and Miss Mathilde Moisant, aviators, from attempting to make flights at the Nassau boulevard. The result was interesting.

Although the official meet of the Aero club had been declared off, following a decision by the Supreme court that Sunday meets at which admission fees were charged were violations of the law, Ovington and Miss Moisant desired to make flights on their own account. Miss Moisant flew from the Nassau field to her hangar at Mineola, and Ovington started on his proposed flight to the Pacific Coast with a package of letters, having been detailed by Postmaster General Hitchcock as the first transcontinental aerial mail carrier.

Miss Moisant landed on the property of her brother, Alfred Moisant, and immediately a trio of deputy sheriffs attempted to arrest her.

Miss Moisant's brother said that his sister had entered her automobile just after alighting from her aeroplane, and that the deputies attacked her chauffeur and severely clubbed him when he refused to allow them to take the woman from the automobile.

In the fracas Miss Moisant's wrist was cut and she was much bruised and shaken. The deputies had no warrant to make an arrest.

Fowler Prepares to Fly.

Los Angeles — The big biplane in which R. G. Fowler expects to fly across the continent has arrived from Northern California. The aviator has put his mechanics at work getting the machine together and hopes to begin the transcontinental journey within two days. Fowler's machine is unusually heavy. With the aviator, it weighs more than 1,500 pounds.

Fowler is confident that his motor can develop more power than it did when he was forced to abandon the proposed flight over the wall of the Sierras near Colfax, and that he can make the aerial trip to New York in 25 days.

Rodgers In Illinois.

Chicago — Aviator Rodgers, flying from coast to coast, left Hammond, Ind., 26 miles east of here, at 11:25 o'clock Monday morning, following a delay of two days, and 5:45 o'clock alighted at Bruce, Ill., near Dellwood Park, 35 miles south of here. He had planned to fly to Joliet, but darkness and a high wind forced him to stop within three miles of his goal. The first stage of his journey was made at better than a mile a minute, the 26 miles from Hammond to Chicago being covered in 24 minutes.

College Wives Faithful.

Northampton, Mass.—The latest evidence of one of the accompanying benefits of a college education for women has just come to light in an investigation conducted by the alumnae of Smith college, who find in cases they have observed that out of 57 marriages of college girl graduates there is only one divorce. In contrast to this percentage is that disclosed by the investigators, who have found that there was one divorce out of every 10 or 12 marriages of non-college women.

War Minister Castro Out.

Lisbon—The minister of War, General Pimanta Castro, has resigned. The government has decided to ask President Arriaga to summon Parliament in an extraordinary session to secure its consent to certain measures for the speedy trial and punishment of the conspirators in the attempted revolution. Contradictory reports are being received here regarding the situation in the North. The Monarchists, do not appear to be making headway.

Duel Fought With Sabers.

Havana — Major Armando Andre, editor of El Dia, and Dr. Miguel Mencia, director of customs, fought a duel with sabres, Mencia being severely wounded. Mencia challenged Andre on account of attacks in El Dia, charging him with gross frauds in the management of the customs house.

Fine Care Fine Hair

It's fine care that makes fine hair! Use Ayer's Hair Vigor, new improved formula, systematically, conscientiously, and you will get results. We know it stops falling hair, cures dandruff, and is a most elegant dressing. Entirely new. New bottle. New contents.

Deceitful

"Sister Henderson," said Deacon Hypers, "you should avoid even the appearance of evil."

"Why, deacon, what do you mean?" asked Sister Henderson.

"I observe that on your sideboard you have several cut glass decanters and that each of them is half filled with what appears to be ardent spirits."

"Well, now, deacon, it isn't anything of the kind. The bottles look so pretty on the sideboard that I just filled them half way with some floor stain and furniture polish, just for appearances."

"That's why I'm cautioning you, sister," replied the deacon. "Feeling a trifle weak and faint, I helped myself to a dose from the big bottle in the middle."

FACTS ABOUT BLUING.

Since the placing of RED CROSS BALL BLUE on the market there has been a rapid falling off in the sales of all liquid bluing. Why buy water containing a small percentage of bluing when you can get a solid package and dissolve it as needed. Makes clothes whiter, lasts longer, and is cheaper. Large package, 10 cents. ASK YOUR GROCER.

Vigorous.

Facts About Motherhood

LYDIA E. PINKHAM

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at the time of child-birth, but many approach the experience with an organism unfitted for the trial of strength, and when the strain is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother results.

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, women will persist in going blindly to the trial.

It isn't as though the experience came upon them unawares. They have ample time in which to prepare, but they, for the most part, trust to chance and pay the penalty.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy, and strong.

Any woman who would like special advice in regard to this matter is cordially invited to write to Mrs. Pinkham at Lynn, Mass. Her letter will be held in strict confidence.

"I've just been reading about the power of the will. It's a wonderful thing."

"Yes; a millionaire friend of mine left a will that makes six children and 17 grandchildren be good."—Kansas City Journal.

PISO'S Best for COUGHS & COLDS

ITALIANS LEVEL FORTS OF TRIPOLI

Turks Offer Slight Resistance, But Refuse to Surrender.

Governor's Palace in Ruins, But Consulates Are Spared—Pillage of City Threatened by Arabs.

Djerba, Tunis—Tripoli has been bombarded twice by the Italian fleet. The first shot was fired shortly after 3 o'clock Wednsday afternoon. Shelling was resumed early Thursday after a quiet night.

There was a steady, but slow, fire from the warships until dusk, and shots also came from the forts in the town. The French steamer Lafana took a delegation from Djerba to the scene of hostilities. Among the party was the French consul general, M. Leon, who made several ineffectual attempts to land.

The white buildings of Tripoli could be seen plainly and the whole field of operations was unfolded before the watchers. Officers of the Varese explained that the bombardment had been delayed because Admiral Aubrey, commander of the Italian fleet, had received a request from the Tripoli garrison for another day of grace and gave the garrison an extra few hours.

The battleship Benedetto Bren and armored cruisers Giuseppe Garibaldi and Francesco Ferruco drew up in line opposite the harbor. There were no small craft in the battle line and the Varese stood off to keep back intruders. There was no sign of life in the city, which appeared deserted, but the Turkish flag flew from the castle and forts. The first shots were directed toward Charchatti fort and later Kerkerche fort was shelled.

As the shells burst over Tripoli the garrison seemed to awaken. It returned the fire with vigor and energy. A heavy cannonade was kept up on both sides for a few minutes and then the firing became desultory. So far as could be seen no warship was hit.

Fortifications were razed, the forts suffered severely and the lighthouse to the northwest was destroyed by shells from the Garibaldi. There was no means of knowing what the loss of life was in Tripoli, but ample opportunity was given the defenders to escape.

When the Lafana left the scene no landing had been attempted by the Italians and it was feared that at night the town would be pillaged by nomad Arabs, who had been hovering in the vicinity for days.

BULLETS FLY IN RIOTS.

Striking Railroaders Attack Strikebreakers and Wound Three.

Augusta, Ga.—While a Georgia & Florida freight train was passing through the Chicago Southern yards at Hamburg, S. C., just across the river from Augusta, Thursday, strikers attacked the strikebreaking crew, seriously injuring two and perhaps fatally injuring a third.

Water Valley, Miss.—In an exchange of shots with Sheriff Smith and two deputies Thursday night, a member of the special force of guards stationed at the Water Valley shops of the Illinois Central railroad was wounded. The wounded man was carried within the shop enclosure.

Jackson, Miss.—Four more state militia companies and a troop of cavalry were ordered to McComb City late Thursday by Governor Noel. They are the companies at Jackson, Greenwood, Macon and Shubata, and the cavalry troop at Macon. With their arrival there will be ten military companies on duty at McComb City.

Cotton Corner in Court.

Washington, D. C.—The legal contest before the Supreme court of the United States over the question whether a corner on the cotton market is a violation of the Sherman anti-trust law began Thursday, when Solicitor General Lehmann filed a brief contending that it so applies. The point arose from the appeal of the government from the action of the New York Federal court in quashing certain counts of an indictment against James A. Patten, Eugene G. Scales, Frank B. Hayne and William P. Brown.

Irish Strike is Settled.

Dublin—The strike declared on the Irish railroads by the Amalgamated Sociey of Railway Servants September 21 has been amicably settled. The strikers abandoned their original grievance, which was their original objection to handling lumber shipped by a firm which was having trouble with its employes. The companies agree to reinstate 90 per cent of the strikers at once and the remaining 10 per cent when vacancies occur. They will not dismiss the new men taken on during the strike.

No Demands to Be Made.

Denver—No demands will be made at this time upon the association of general managers of Western railroads by the western association of chairmen of the allied trade crafts This statement was given out Thursday at the conclusion of an extra session of the delegates. This decision affects all railroads between the Missouri river and the Pacific Coast. The trainmen formally ended their conference Friday.

Island Capital is Captured

London — A news agency dispatch from Vienna says it is reported from Constantinople that an Italian squadron has bombarded and occupied Mytilen, capital of the island of Lesbos, in the Grecian archipelago, belonging to Turkey. It is reported from Rome that negotiations for the surrender of Tripoli have been begun.

Spaniards In Civil War.

Madrid—The governor of Badajose reports a violent engagement between Royalists and Republicans of Saint Elino.

Wild Oats.

Arthur Lefevre, the well-known Texas author, said in Victoria, according to the Kansas City Star, apropos of the Texas prohibition campaign:

"That reminds me of a happening at the University of Virginia during my student days in '84.

"There was a Baltimore freshman at the varsity whose father got several letters about his boy's wild ways—about his fondness for peach-and-honey and such like heavy drinks. These letters grieved the old man to the heart. He wrote to the freshman and in reply got a general denial of all the charges.

"Evidence, however, continued to pour in, and finally the father decided on a secret journey to Charlottesville. He timed himself to arrive late at night. It was, in fact, 2 o'clock in the morning when he rang the bell of his son's boarding house.

"In response to his ring a woman in a yellow bath robe appeared, lamp in hand.

"'Madame,' said the amateur detective, 'is this the residence of——?' And he mentioned his son's name.

"The woman's grim look relaxed, and she answered indifferently: "'Yes, he lives here. You can carry him right in.'"

Household troubles; Headache, Toothache, Earache, Stomach ache. Hamlins Wizard Oil cures these aches and pains so why don't you keep a bottle in the house.

French Honor.

The French playwright had begun the third act of his latest problem drama. It was to be a great act, an act that required expression, repression, even suppression.

The heroine had just fallen across the threshold she had disgraced, and was about to utter her first impassioned speech, when the playwright's valet appeared in the doorway.

"M'sieur no doubt remembers that he has to fight M. Rene Slosh at 3 o'clock?"

The dramatist threw down his pen.

"No; I had forgotten."

Casting a look of poignant regret at his manuscript, he sought the field of honor and almost immediately jabbed his rapier through the waistband of his opponent.

Then he returned home. Again he took up the pen. The valet reappeared.

"M'sieur fights the Duc de Mushead at 3:40."

Sighing heavily the goaded playwright stalked back to the same field of honor and promptly shot the little duke through his title.

Once more he took up the pen—only to throw it down. At 4:20 he had to fight the Marquis de Weeshbon; at 4:45 he met the feuilletonist, M. Guille Gazook; at 5 o'clock he shot up the Count de Bute; at 5:30 he perforated the pompadour of the Prince of Poompernique.

Then he spent the entire evening at the clubs and cafes, giving and receiving insults.

At midnight he was free again. Once more he raised his pen—and dipped it recklessly in the mucilage pot, being too sleepy to note the difference.

"Playwrighting in France," he drowsily murmured, as he slipped from the chair to the hearth rug, "is no idle pleasantry, believe me!"—Cleveland Plain Dealer.

Ties That Bind.

A Philadelphia clubman, engaged in buying a necktie for himself, turned the pile over and over and at last put aside two as not worthy of further consideration. The salesman placed the rejected ties in a separate box. The clubman asked whether they had been placed by mistake with those he had been examining.

"Oh, no," was the response; "but we have orders when five or six men turn down a tie to take it out and put it aside."

"What becomes of them?"

"We sell them to women who come in to buy ties for men." — Harper's Monthly.

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets. The favorite family laxative.

"Where was he struck by the automobile?" asked the coroner.

"At the juncture of the dorsal and cervical vertebrae," answered the surgeon.

"Will you please point that out on the map?" asked the coroner, indicating one that hung on the wall.—Housekeeper.

"What are you looking so glum about, old man?"

"Somebody stole Dawson's umbrella."

"But why should that worry you?"

"It was stolen from me."—Boston Transcript.

Laugh Was on Father.

Young Richleigh's father allowed him to take a trip to Europe this summer, says the San Francisco Argonaut. Before starting the youth made up a cable code of his own for possible use while abroad, and handed a copy to his father, who locked it up in his desk without looking at it. A month later the elder Richleigh received a cable consisting of one word, "Laugh." He laughed. It seemed to be something quite pleasant. His code was at the house. He went up there in the best of humor. He got out the code and read:

"Laugh—Send me $500."

Near-Sighted.

"Good morning, Mrs. Simpkins!" said a suburban lady who is very short sighted. "Your husband must be very fond of gardening. I see him the first thing every morning down at the bottom of the garden. And how well he looks, to be sure!"

Mrs. Simpkins slammed the door in her neighbor's face. The later went to tell her daughter.

"And you said, mother, that the—the thing in the onion bed was her husband."

"I did."

"Ah, well, that explains the matter! What you took for Mr. Simpkins is a scarecrow."

"A penny stamp, please—and, by the way, haven't I seen you before?"

Yes, madam, I had the good fortune to save your life last week."
