There will be regular services Sunday.

The first of the series of entertainments given by the Menely-Lyceum Bureau will be held on the night of November 15th next, when Col. John Sobeski will be in Mosier to give one of his famous lectures. Those who have heard this noted man are loud in his praises as an entertainer. Be sure to secure your reserved seats for this and the following entertainments. Tickets now on sale at the bank, drug store, Chown's store and Bulletin office.

**Fruit Festival**

Carrying out the annual custom of giving a fruit festival, the members of Mosier Tent, No. 10377, M. W. A., and friends, met in Stroup's Hall on Wednesday evening and spent the time most pleasantly. No program had been arranged, but Mr. Wm Zolls gave several well rendered selections on the violin, with Miss Rose Whitson as accompanist. Mr. J. N. Mosier explained the custom of the fruit festival and invited those present to partake of the fruit with which the long table was loaded. With the exception of oranges and bananas, all the fruit was home grown.

The platform and walls of the hall presented a beautiful appearance decorated in vari-colored autumn leaves, while the banners of the lodge were displayed across the front of the stage.

Very few people here were aware that yesterday was a legal holiday, but it was. It is called Columbus Day and while it has been a legal holiday for years, it is now being generally observed for the first time.

C. F. Hogg, of San Francisco, arrived last week and will engage in the poultry business with his brother, O. D. Hogg, on the Columbia River View Poultry Farm. The present proprietor of this poultry farm has taken great pains and been to considerable expense to procure the best strains of laying hens from the best pens in the country, and his poultry for table use are the best. There is every reason to believe that the poultry business in Mosier can be made as profitable, for the money invested, as the raising of fine apples.

**Change in Telephone Tariff**

Through the personal efforts of Dr. D. Robinson, the telephone rates between Mosier and Portland have been reduced and are now on a very satisfactory basis. The former charges for messages between these two points were 40 cents for the first minute and 15 cents for each additional minute or fraction thereof. Under the new rate one can talk to Portland for 30 cents for the first minute and 10 cents for each additional minute or fraction.

**Hotel Changes Hands**

Last week the Hotel Pines changed hands again and is now under the management of J. P. Erhart. Mr. Erhart has already made several changes in the management of this hostelry and promises more for the benefit of the public. All the rooms will be renovated and every effort will be made to insure comfort and convenience for his guests. Particular attention will be given to both home and commercial patronage. The new proprietor assures the public that it will be treated "white" in every respect and invites the public's patronage.

On Monday evening last Mrs. J. K. McGregor held a reception at her residence at the edge of town in honor of Mrs. H. F. Bothfur, who visited her and other friends here this week. The guests who were present to welcome Mrs. Bothfur were, Mr. and Mrs. Wm N. Akers, Dr. and Mrs. D. Robinson and Mr. and Mrs. H. G. Kibbee. A most enjoyable evening was had and delicious refreshments were served, the party dispersing at a late hour. Mrs. Bothfur and little daughter returned to her home in Portland on Wednesday afternoon.

One pleasant thing about our business is the satisfaction we get from the satisfaction we give. Our customers go away satisfied. If the satisfaction does not last we want our customers to tell us so, for we want to satisfy them in every respect.

**The Size of the Oceans.**

The Pacific Ocean covers 63,000,000 square miles; and the Indian Ocean, Arctic and Antarctic Oceans 42,000,000. To stow away the contents of the Pacific it would be necessary to fill a tank one mile long, one mile wide and one mile deep, every day for 440 years. Put in figures—the Pacific holds in weight 948,000,000,000,000,000 tons. The Atlantic averages a depth of not quite three miles. Its waters weigh 325,000,000,000,000,000,000,000,000,000 tons, and a tank to contain them would have each of its sides 430 miles long. The figures of the other oceans are in the same startling proportions. It would take all the sea water in the world 2,000,000 years to flow over the Niagara.—Scientific American.

**Facts About Mastication.**

The force required to crush an ordinary nut, such as one too often sees cracked between the back teeth, has been shown to be equal to a weight of more than 110 avoirdupois pounds, directly applied. The amount of saliva daily secreted by the average male adult is about 1 1/2 liters or 1.59 U. S. quarts. In thoroughly chewing 100 grammes of "Zwieback"—a kind of sweet toasted bread—there is needed half a liter (0.53 U. S. quart) of saliva; in masticating the same amount of apples, only 1.25 liters, or 2.44 cubic inches; that is, only 8 per cent, or about one-twelfth as much.—Scientific American.

C. A. McCargar was a passenger on yesterday afternoon's local to Portland.
