**The Easiest Way.**  
A steam heating plant had been installed in the house of the new president of a small, conservative college. The president, started by a break in the steam pipes, went in search of the college janitor. Being unfamiliar with his new surroundings, he entered the library.  
"Dr. Soandso," he inquired, his breath coming in gasps, "how can I find the janitor?"  
"Well," the librarian replied in a slow drawl, "I find the surest way is to send him a postal card."—Success Magazine.

"No," replied his friend, but you carried it as if you were afraid some one would decipher it."  
"It read," chuckled the professor, "The men vote—why not we?"—Success Magazine.

"He ain't exactly ill," responded the unmoved woman, "but, between you and me, sir, no stomach ain't goin' to stand nine doughnuts!"—Success Magazine.

## DOCTORS FAILED TO HELP HER

**Cured by Lydia E. Pinkham's Vegetable Compound**

Pound, Wis.—"I am glad to announce that I have been cured of dyspepsia, indigestion, and general debility by Lydia E. Pinkham's Vegetable Compound. I had been troubled with both for fourteen years and consulted different doctors, but failed to get any relief. After using Lydia E. Pinkham's Vegetable Compound and Blood Purifier I can say I am a well woman. I can't find words to express my thanks for the good your medicine has done me. You may publish this if you wish."  
—Mrs. HERMAN SIETH, Pound, Wis.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, fibroid tumors, irregularities, indigestion, backache, bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. All of these were sent on their way. Those more seriously injured are being cared for at the Army hospital at Fort Crook, under the same treatment.

For thirty years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills, and suffering women owe it to themselves to at least give this medicine a trial. Proof is abundant that it has cured thousands of others, and why should it not cure you?

If you want special advice write Mrs. Pinkham, Lynn, Mass., for it. It is free and always helpful.

## SEVEN DEAD IN TRAIN WRECK

**Passenger and Freight Meet Head On In Nebraska.**

Twenty Injured—Army Corps Aids Rescue—Engineer Says He Had No Orders.

Omaha—Seven persons were killed and 20 injured, four of them seriously, in a collision between Missouri Pacific passenger train No. 105, north bound, on route for this city, and a fast freight train.

The wreck, which occurred at Fort Crook, ten miles south of here, is believed to have resulted from a misunderstanding of orders on the part of the freight crew. A passenger train due to leave this city for the South about the time of the accident, was converted into a relief train and sent to the scene of the accident, and later returned here with the uninjured and several of those who were slightly injured. All of these were sent on their way. Those more seriously injured are being cared for at the Army hospital at Fort Crook, under the same treatment.

Passenger train No. 105, out of Kansas City, in charge of F. R. Travers, conductor, was running late. L. P. Gross, conductor of the freight passed South Omaha at 8:30. He had "signed off" but evidently did not check the train register as to the whereabouts of No. 105.

At the point of collision the track make a sharp curve, shutting off the view of the Fort Crook station. It was at this point that Engineer Crawford of the freight sighted No. 105, which was coming at high speed. Engineer Crawford, it is said, had no orders in regard to No. 105, but he whistled and slackened speed. When the passenger did not answer he continued to whistle from the adjoining Burlington tracks.

When within a few car lengths of each other, both engineers realized the danger and reversed their engines. The momentum of the passenger train however, was so great that in a moment it was piled high upon the freight engine, which had almost stopped. The crews of both engines jumped.

Dr. John Collier, of Los Angeles, a passenger in the Pullman, rushed to the front and worked heroically to assist the injured.

The crew and uninjured passengers formed themselves into a band that worked under the direction of Dr. Collier until the arrival of the Army medical corps, from Fort Crook, under Major Dale and Lieutenant Clark.

A call was sent to Omaha for medical assistance. The engineer of the passenger declared he heard no whistle from the freight train. He said he was not going over 25 or 30 miles.

**ATTACKING TURKS LOSE.**  
Invading Force Leaves Behind One Dead and Field Gun.

Tripoli—Before dawn Sunday morning 200 Turkish infantrymen attacked the entrenched advance posts of the Italians, west of Boumeliane.

After an hour's fighting, the Italian infantry, backed by field guns landed from the fleet, forced the Turks to beat a retreat, leaving one dead, a quick firing gun with ammunition and various supplies.

Four Italian soldiers were wounded.

Constantinople—The Turkish parliament was opened Saturday afternoon, the Sultan's speech being read by the grand vizier in the presence of the sultan, the oldest Turkish princes, the foreign diplomats and the heads of the foreign banks.

The speech declared that Italy opened hostilities before the expiration of 24 hours after the ultimatum was given and was springing upon Tripoli boats in the Adriatic when they were saluting, ignorant that hostilities had broken out.

**Carmen Standing Firm.**  
Kansas City—"We will never give in," was the reply made by M. F. Ryan, international president of the Brotherhood of Carmen, when asked if the unions were going to give up the strike against the Harriman lines.

"Everything is peaceful, so far as the unions are concerned," continued Mr. Ryan. "I am receiving daily reports from various towns saying that the men are perfectly satisfied with the money they are receiving from the benefit fund. They receive from \$6 to \$7 a week while they are on strike."

**President "Sets 'Em Up."**  
San Francisco—Every officer and enlisted man on the flagship California drank, the president's health in California champagne, the treat being provided by the president. Although other naval formalities were duly observed when the president came over the side of the flagship, it was noted that the regulation salute of 21 guns was not fired. It was learned that the salute had been omitted at the special request of the president, who desired that no avoidable noise be made on Sunday.

**Quake Kills in Sicily.**  
Catania—An earthquake of brief duration occurred in Sicily. The strongest shocks were felt at Giarre, at the east base of Mount Etna, Macchia, Guardia, Rondinella and Santa Venerina. At Guardia and Santa Venerina several houses collapsed and two persons were killed. At Macchia a church was demolished. Considerable damage also was done at Rondinella. Late reports indicate that many persons were killed.

**Weather Delays Rodgers.**  
Vinta, Okla.—Aviator Rodgers, who arrived here on his trip across the continent, was detained by adverse weather conditions. He will leave for Fort Worth, Tex.

**Uncle Sam's Restaurant.**  
If you visit the Isthmus of Panama you will eat at a government table. Not content with managing the transportation, not satisfied with being a landlord, the Isthmian Canal commission has the charge of a restaurant keeper, waiter and cook.

Here is a statement of the length to which this heretical tendency has been carried. The cost of running the messes for "gold," European and negro employes during the six months ending December 31, 1909, was over \$700,000, and the receipts and expenditures practically balanced.

It is an eloquent tribute to the government's cuisine that 3,375 of the 4,800 European laborers—who are free to eat where they will—prefer the mess-halls to anything which "individual initiative" has to offer. There are three "club" messes run by unmarried white men in opposition to the commission hotels. Perhaps a hundred canal employes use them.

But in spite of the large income from the "bar" these private messes are more expensive and very little better than the government's meals. No private contractor in the world feeds his employes as well as the Isthmian Canal commission. There are very few of the employes who ever eat better meals, slept in cleaner, more comfortable beds, or amused themselves in more wholesome clubs than those furnished by the government.—Success Magazine.

**Distemper**  
In all its forms, among all ages of horses and dogs, distemper is the same. It is prevented from having the disease with Spohn's Distemper Cure. Every bottle guaranteed. Over 500,000 bottles sold last year. \$2.00 and \$1.00. Good druggists, or send to manufacturers. Agents wanted. Write for free book. Spohn Med. Co., Spec. Contagious Diseases, Goshen, Ind.

**Do Not Be a Leaner.**  
Power is the goal of every worthy ambition, and only weakness comes from imitation or dependence on others, says Orison Sweet Marden in Success Magazine. Power is self-developed, self-generated. We cannot increase the strength of our muscles by sitting in a gymnasium and letting another exercise for us.

Nothing else so destroys the power to stand alone as the habit of leaning upon others. If you lean, you will never be strong or original. Stand alone or bury your ambition to be somebody in the world.

The man who tries to give his children a start in the world so that they will not have so hard a time as he had, is unknowingly bringing disaster upon them. What he calls giving them a start will probably give them a setback in the world. Young people need all the motive power they can get. They are naturally leaners, imitators, copiers, and it is easy for them to develop into echoes, imitations. They will not walk alone while you furnish crutches; they will lean upon you just as long as you will let them.

**Corporations Belong to Public.**  
Governor Wilson, in his Indianapolis address, made most emphatic the point that the corporations have none of the rights of private individuals and must be treated solely as the public welfare demands.

"A modern joint stock corporation cannot in any proper sense be said to base its rights and powers upon the principles of private property. Its powers are wholly derived from legislation. It possesses them for the convenience of business at the sufferance of the public. Its stock is widely owned, passes from hand to hand, brings multitudes of men into its shifting partnerships and connects it with the interests and the investments of whole communities. It is a segment of the public; bears no analogy to a partnership or to the processes by which private property is safeguarded and managed, and should not be suffered to afford any covert whatever to those who are managing it. Its management is of public and general concern, is in a very proper sense everybody's business."—Success Magazine.

You are not treating yourself or your your family fairly if you don't keep Hamlin Wizard Oil in the house. It's the best substitute for family doctor and a mighty good friend in case of emergency.

**Decision Reversed.**  
The cook, who had held sway long enough to be established as family autocrat, was sent out to buy the Christmas turkey. She returned with two fine, plump chickens. "Why, Mary," her mistress remonstrated, "I told you to get a turkey, not chickens."  
"I know, mum," she answered, "but I don't like turkey."—Success Magazine.

**Correcting Willie.**  
Papa and mamma and son Willie were crossing the ocean. Willie had done something for which his mother thought he needed correction, but not feeling equal to the occasion she turned to her husband.  
"John," she said, "can't you speak to Willie?"  
Papa replied in a thin, weak voice, "How'd'y, Willie."—Success Magazine.

**As We Speak It.**  
A German who had come to America to master our language was being shown behind the scenes of a vaudeville theater by one of his American friends.  
"That man," said the American, "indicating an actor with a wave of his hand, "is taking off his make-up to make up for another take-off."  
The German departed, spluttering.—Success Magazine.

**Woman's Foot Growing Larger.**  
Shoe manufacturers claim that the American woman's foot is growing larger. The number two shoe is almost obsolete, they say, and sizes four and five are much commoner than three. The explanation seems to be that the phenomenon is due to the increased use of the feminine foot as a means of locomotion. The constantly increasing number of women engaged in industry and the growth in popularity of tennis, golf and walking have had their inevitable result, and common sense has done much to abolish the wearing of pinching shoes. The tradition that small feet are an excellent thing in women has persisted long and will not die without a struggle. Conservatives need not fear that women will carry this matter too far; they know when to stop.—Success Magazine.

**The Rural Uplift.**  
"Has your family been of much assistance to you in running the place?"  
"I should say so," replied Farmer Cornstossel. "Food has been so high that the summer board season would have been a failure if it hadn't been for mother and our son Josh."  
"They saved the expenses of help?"  
"No, sir; but Josh is a right good hand in a poker game, an' the way mother picked up bridge was something 'amazin'."—Washington Star.

**In Praise of Eloquence.**  
An Alabama negro was defended in court by Senator Morgan. Having cleared the negro of the charge, the senator said to him: "Rastus, did you really steal that mule?"  
"Well, marse Morgan, it was just like this," said "Rastus." "I really thought I did steal dat mule, but after what you said to de jury I was convinced I didn't."—Success Magazine.

**He Might Have Earned a Vote.**  
Little Johnnie stood gazing solemnly on the decrepit form of an old countryman. Noticing the boy's attention the old man asked: "Well, what is it, son?"  
"Say," the inquisitive youngster asked, "did the politicians kiss you when you was a baby?"—Success Magazine.
