Lightning Seemingly at Play.

That the gambols of electricity are most fearful and wonderful was illustrated in the month of June, 1873, when, according to Flammarion, the electric current entered a butcher's shop and followed the iron bars from which the quarters of meat were hung until it reached a hook on which the skinned carcass of a whole ox was suspended. This was galvanized, and for several seconds it was frightfully contorted as if in convulsions.

A Many-Horned Cow.

A cow with 17 horns is the interesting monstrosity reported by a traveler from the south. The horns, we are told, protrude from the cow's back, each one resting on a joint in the spinal column. The farmer who owns the horned wonder is proud of her. She is proud of her gift, and out of thankfulness for her distinction produces more milk than any other cow on the farm.—Detroit Free Press.

His Manly Protest.

A tender-hearted youth was once present at an Oxford supper, where the fathers of those assembled were being roundly abused for their parsimony in supplying the demands of their sons. At last, after having long kept silence, he lifted up his voice in mild protest. "After all, gentlemen," he said, "let us remember that they are our fellow-creatures."

An Ideal.

I will strive to raise my own body and soul daily into higher powers of duty and happiness; not in rivalship or contention with others, but for the help, delight, honor of others, and for the joy and peace of my own life. —John Ruskin.

Value of Cheerfulness.

Cheerfulness is a thing to be more profoundly grateful for than all that genius ever inspired or talent accomplished. Next best to spontaneous cheerfulness is deliberate, intended and persistent cheeriness which we can create, cultivate and so foster and cherish that after a few years the world will never suspect that it was not a hereditary gift.—Helen Hunt Jackson.

As She Saw the Notes.

When my daughter was 4 years old she sat gazing at the notes on a piece of music, when she suddenly looked up and said: "Mamma, here's a lot of little boys on a wire fence," and, looking down at it, said, after a moment's thought, "and some of 'em got hats on."—Exchange.

Ill-Fitting Shoes to Blame.

The cause of many broken insteps comes from imperfectly fitted shoes. When fitting, if there is too much space left in the toe of the shoe there is no doubt about it that as soon as the shoe is worn for a short time the heel will begin to chafe and cause the wearer much annoyance that could be well dispensed with, if the clerk is given enough time to fit the foot right. The ball of the foot should be at the curve of the sole.

Origin of Common Names.

Kings in the earliest days were merely "fathers of families," and the word is derived from the same source as "kin." Queen at first meant "wife" or "mother." An earl was an "elder" in the primitive society, while "czar" and "kaiser" are both derived from "Caesar." A dandelion is or once was "dent de leon," meaning the lion's tooth, and vinegar was once "vin aigre," which means sour wine.

DON'T BUY WATER.

When you buy bluing for your laundry work, get RED CROSS BALL BLUE. A pure solid ball of blue, not a bottle of colored water.
Used in thousands of homes for 20 years. Makes clothes pure white. Price, 10 cents. AT ALL GROCERS.

Ordered Modest Inscription.

Wesley ordered that this inscription, if any, should be placed upon his tombstone: "Here lieth the body of John Wesley, a brand plucked out of the burning, who died of consumption in the fifty-first year of his age, and leaving, after his debts are paid, ten pounds behind him; praying, God be merciful to me an unprofitable servant."

One Solace Left.

The president of an eastern college is authority for the statement that the average salary of college professors throughout this country is less than the average wages of the drivers of ice wagons. It is to be hoped that the privilege of mentioning one's compensation as "salary" instead of "wages" is adequate solace to the pedagogic mind.

Post of Honor.

When vice prevails and impious men bear sway, the post of honor is the private station.—Addison.

Coolness in Extremity.

ALARM CLOCK THAT SPEAKS

Tells Hours, Half Hours and Quarters and Calls You in Time for Breakfast in Morning.

And now it is the talking clock—a timepiece that actually calls out the hours, half hours and quarters, day and night, unless shut off, and will tell you the time to the minute any hour of the night if you press a little button at your bedside, an exchange says.

The works of this remarkable clock actuate a stout belt which runs over a roll connected with a sounding box.

Upon this belt, or rather film, the hours, which have been recorded by a phonograph, are impressed by galvanization on a copper plate.

The mechanism which moves the hands is connected with the speaking device, and this with a funnel which re-enforces the sound and projects it outward through a finely grated opening attached to the narrow side of the clock.

At night a touch on a lever reduces the clock to silence. But if one wakes and wishes to know the hour without striking a light, an easily found button is pressed and the clock immediately states the time.

The speech film is practically indestructible and occupies very little space since, because of its elasticity, it may be wound upon a very small roller.

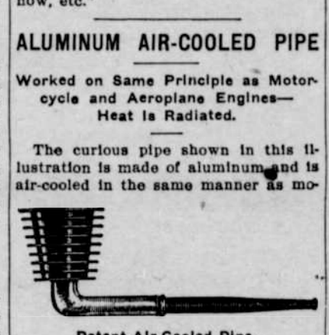
There is another new kind of alarm clock on the market. It talks, but more for the purpose of making you get out of bed in the morning than to simply give you the time. Suppose, for instance, you want to be called at 6 o'clock. You set the clock with its phonograph attachment for 6 o'clock. Then you go to bed.

At 6 o'clock in the morning the clock starts the phonograph and you are awakened by a voice yelling, "Get up; get up. Time to get up. Breakfast is waiting. You have hardly time to catch your train. Get up. Hurry, now, etc."

ALUMINUM AIR-COOLED PIPE

Worked on Same Principle as Motorcycle and Aeroplane Engines—Heat Is Radiated.

The curious pipe shown in this illustration is made of aluminum and is air-cooled in the same manner as motorcycle and aeroplane engines. The series of rings around the bowl radiate heat on the same principle as those on the above mentioned gasoline engine.



Patent Air-Cooled Pipe.

Motor for Powder Factory.

A special type of motor has been built for a British powder factory, in which precautions have been taken to render the motor flame-proof and explosion-proof. The motor case is very strongly built, so that it will stand explosion of dust or gases which might find their way into it. The joints of the motor case are packed with hemp rope dipped in tar, this being considered more durable than rubber at high temperatures. The bearings are also specially packed to prevent the escape of hot gas in case of explosion within the motor. No ventilation for the interior of the motor is provided, but the casing is formed with corrugations which furnish a large cooling surface.

Reasons for Paris Floods.

Two reasons are ascribed by French scientists for the floods that nearly overwhelmed Paris. One is the wholesale cutting down of trees in the Ardennes, the Vosges, Burgundy and along the affluents of the Seine. The other is the comet visitations. The theory of the noted astronomer, M. Deslandres, is that the cathodic rays of the sun, penetrating the gaseous tails of comets, are turned into X-rays, notorious condensers of vapors. He holds that when the tail of a comet becomes entangled in the earth's atmosphere serious floods may result.

Study Internal Organs.

A French scientist has combined the moving picture camera and X-ray apparatus into an instrument by which the processes of internal organs may be studied, and has given it the name of bioroentgenograph.

NOTES OF SCIENCE AND INVENTION

Women have usually better eyesight than men.

The average pulse of a healthy man beats 72 times a minute.

In the whole of France, last year, there were 497 balloon ascensions.

There are eleven periodic comets of which the return has been observed.

Sunflower seeds are eaten in Russia much as peanuts are eaten in the United States.

Some of the newest automatic pistols are powerful enough to kill a man 1,000 yards away.

From an artistic point of view a woman's face is more beautiful when viewed from the left.

The exports of phonographs and records from the United States have doubled in two years.

Among the latest inventions is a machine which affixes stamps at the rate of 4,000 an hour.

Lead glass, it has been found by English experts, is almost as impervious to X-rays as lead itself.

About 600,000 penguin eggs are gathered from nearby islands and sold for food in Cape Colony each year.

An instrument for measuring the nocturnal terrestrial radiation of heat has been invented by a Danish scientist.

A new hydroplane boat is said to be capable of a speed of forty-five nautical miles an hour, or fifty-two statute miles

Magnetic Influence.

People with magnetic bodies are not unknown and six years ago doctors discovered at Vladikavkaz, in the Caucasus, in girl of twelve, whose body was practically a magnet. According to a medico who examined her, every object which she approached would move. Once she walked close to a kitchen dresser, and in an instant the crockery upon it began to dance. On another occasion a heavy bottle standing upon a table was raised in the air when the magnetic maiden went near it.

Hits Himself in Head With Hammer.

It is just as reasonable to hit yourself in the head with a hammer to cure a headache as it is to try to cure rheumatism with alcohol. Salgrene contains absolutely no alcohol. Procurable at all druggists.

Ready for the Summons.

"Suppose you knew you were to die tonight at 12 o'clock," asked a lady of Wesley, "how would you spend the intervening time?" "How, madam?" he replied. "Why, just as I intend to spend it now. I should go through with my business, go to my room and to sleep at 10 o'clock, and wake up in glory."

If a dose of Hamlins Wizard Oil taken at night will prevent your having a bad cold in the morning, isn't it a good idea to have it ready to take the moment you feel the cold coming?

Care of Shoes.

Evening shoes should be wrapped in tissue paper, and white shoes will turn yellow unless incased in blue paper. On most light shoe leather a spot or stain can be washed off, but where this is impossible or the shoe is too badly soiled it is better to dye it a darker color or black. Various shoe dyes can be purchased and with a renewal of color now and then you have practically provided for yourself a new pair of shoes.

Wedding Ring Lightning's Mark.

SHE SUFFERED FIVE YEARS

Finally Cured by Lydia E. Pinkham's Vegetable Compound.

Erie, Pa. — "I suffered for five years from female troubles and at last was almost helpless. I went to three doctors and they did me no good, so my sister advised me to try Lydia E. Pinkham's Vegetable Compound, and when I had taken only two bottles I could see a big change, so I took six bottles and I am now strong and well again. I don't know how to express my thanks for the good it has done me and I hope all suffering women will give Lydia E. Pinkham's Vegetable Compound a trial. It was worth its weight in gold."—Mrs. J. P. ENDLICH, R. F. D. No. 7, Erie, Pa.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases we know of, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaints, such as inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

If you want special advice write Mrs. Pinkham, Lynn, Mass., for it. It is free and always helpful.

DEATH FOLLOWS WAKE OF STORM

Cyclone and Blizzard Spread Misery and Destruction.

Chicago Suffers Hot Wave, Then Rain Follows, Turning to Snow and Ice.

Chicago—Reports tell of death and injury and extensive property loss resulting from cyclonic storms that raged late Saturday in Southern Wisconsin, Illinois and Iowa and near the Great Lakes. The storm followed an unusually hot period during which several persons were prostrated.

Many persons are known to be dead, several dying, and scores are injured. Intense suffering from the bitter cold, snow and sleet which descended upon the homes is reported in the wake of the storm.

Southern Wisconsin was the hardest hit. Near Orfordville six deaths are reported to have occurred, and at Milton, a few miles away, there was a seventh.

In the village of Virginia, near Springfield, Ill., nearly every public building was damaged, including stores, churches and city property. Many were injured in the swirl of flying timbers and some of these probably will die.

In Iowa a 50-degree drop in the temperature turned the pouring rain into driving sleet and a coat of ice covered the cities, stopping entirely electric and steam traffic.

Property loss mounted up rapidly in the trail of the Wisconsin cyclone.

Late advices indicate that the dead in Rock county, Wisconsin, alone will number at least 17. Two deaths at Milton, Wis., were reported to the train dispatcher's office of the Chicago, Milwaukee & St. Paul railroad, but the wires were blown down by the storm before the report could be verified.

Severe weather conditions are reported all the way from the Rocky Mountains. At Chicago the wind obtained a sweep of 44 miles an hour, and in the Yellowstone Park and at Helena, Mont., the thermometer in the government weather bureau registered 8 below zero.

At the Sault Ste. Marie canal in Michigan more than an inch of rain fell.

John Mahoney, a freight handler in Chicago, was overcome by the heat while at work in an open freight warehouse. The government thermometer registered 74 degrees at the time. This was the hottest November day since 1888, and the greatest number of prostrations occurred of any other November day on record.

Later on, however, a driving rain started. Vivid lightning and heavy thunder accompanied the downpour.

KING OFF FOR INDIA.

British Rulers Sail for Scene of Coronation in East.

London—The richly equipped Medina, conveying King George and Queen Mary and escorted by a squadron of battleships, weighed anchor at Portsmouth Monday for the historic voyage to India, where their majesties will be the chief figures in the coronation Durbar, December 12.

The king and queen left London in the morning. As this was their majesties' last appearance in the capital for nearly three months, their departure was made with much ceremony.

Accompanied by the Prince of Wales and Princess Mary, and escorted by the Imperial Horse Guards, they drove in an open carriage by a roundabout way to Victoria station. The streets were lined with people, who gave the royal party an enthusiastic sendoff.

While doubtless saddened by the thought of a long absence from England, the king and queen seemed in the highest spirits.

Royalists to Lose All.

Paris—The Portuguese government is preparing an act designed to humble the monarchists and deprive them of the means of financing another uprising. All absentee monarchist landowners or other Portuguese residing abroad for political reasons must return to the country within a term to be named in the law or their property will be forfeited to the state. The property of those conspiring will be confiscated immediately. This decision to seize property will include the deposed king Manuel.

Big Tunnel Drains Mines.

Colorado Springs—A dispatch from Cripple Creek tells of the striking of a sensational flow of water in the bore of the Roosevelt deep drainage tunnel. The flow followed a round of shots and was so heavy that the workmen were caried off their feet down the bore and narrowly escaped with their lives. The water is leaving the bore at a rate of 24,000 gallons a minute, or about four times the usual flow; It is supposed that un underground reservoir or stream has been opened and nieghboring mines will be drained.

Hens Flaunt Tri-Color.

Mountain View, Cal.— Patriotism to the ultimate degree is exemplified in a new breed of hens now flaunting the national colors at the poultry farm of Dr. I. G. Royte, of this town. Bright red of head, pure white of body, and indigo blue of tail, the fowls came into the world a short time ago. There are several of the varihued birds and Dr. Royte asserts that their extraordinary plumage is the result of long experimentation.

Widow's Pension Asked.

San Francisco—Club women of this city are planning a system of pensioning widows with children. Dr. Jessica Peixotto, of the university of California, urged the proposition at a meeting. The plan is to have the state authorities set aside a fund to be disbursed annually. A state board is suggested to make the apportionment.

When Beecher "Hollered."

Coming home from the morning service one Sunday Dr. Beecher threw himself on a lounge and said, in a tone of deep dejection: "I believe that was the worst sermon I ever preached." One of his daughters protested that she had seldom heard him when he was more energetic. "Oh, yes," was the impatient reply, "When I haven't anything to say I always holler."—The Outlook.

Life's Responsibilities.

The man called to a great work must not waste his life in trivial things. He must not act like the keeper of the lighthouse who gave to the people in the cabins about him the oil which was intended for the mighty lanterns of the sea.—Maeterlinck.

Truth in Old Saying.

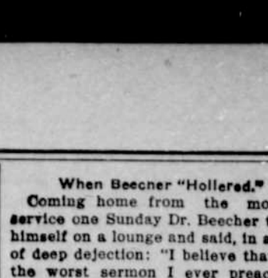
There is an old as the hills saying that men who cannot manage their own finances are exactly the ones to look after those of a nation. And because it is too true is the reason why it is an old as the hills saying, irrespective as to what Dun or Bradstreet may say to the contrary.

Desperate Coughs

Dangerous coughs. Extremely perilous coughs. Coughs that rasp and tear the throat and lungs. Coughs that shake the whole body. You need a regular medicine, a doctor's medicine, for such a cough. Ask your doctor about Ayer's Cherry Pectoral.

Ayer's We publish our formulas. We banish alcohol from our medicines. We urge you to consult your doctor

Any good doctor will tell you that a medicine like Ayer's Cherry Pectoral cannot do its best work if the bowels are constipated. Ask your doctor if he knows anything better than Ayer's Pills for correcting this sluggishness of the liver.
—Made by the J. C. Ayer Co., Lowell, Mass.—



Do You Feel This Way?

Do you feel all tired out? Do you sometimes think you just can't work away at your profession or trade any longer? Do you have a poor appetite, and lay awake at nights unable to sleep? Are your nerves all gone, and your stomach too? Has ambition to forge ahead in the world left you? If so, you might as well put a stop to your misery. You can do it if you will. Dr. Pierce's Golden Medical Discovery will make you a different individual. It will set your lazy liver to work. It will set things right in your stomach, and your appetite will come back. It will purify your blood. If there is any tendency in your family toward consumption, it will keep that dread destroyer away. Even after consumption has almost gained a foothold in the form of a lingering cough, bronchitis, or bleeding at the lungs, it will bring about a cure in 98 per cent. of all cases. It is a remedy prepared by Dr. R. V. Pierce, of Buffalo, N. Y., whose *advice is given free* to all who wish to write him. His great success has come from his wide experience and varied practice.

Don't be wheedled by a penny-grabbing dealer into taking inferior substitutes for Dr. Pierce's medicines, recommended to be "just as good." Dr. Pierce's medicines are OF KNOWN COMPOSITION. Their every ingredient printed on their wrappers. Made from roots without alcohol. Contain no habit-forming drugs. World's Dispensary Medical Association, Buffalo, N. Y.

Courage and Duty.

To be strong in dull and dreary duty is almost the hardest task a man can face. It is a noble thing to be brave in tragic moments, but perhaps there is something even nobler than that. It is to be brave and glad, and strong, and tender when the sky is gray and when the road is dreary.—George H. Morrison.
