Terrible Suffering

Eczema All Over Baby's Body.

"When my baby was four months old his face broke out with eczema, and at sixteen months of age, his face, hands and arms were in a dreadful state. The eczema spread all over his body. We had to put a mask or cloth over his face and tie up his hands. Finally we gave him Hood's Sarsaparilla and in a few months he was entirely cured. Today he is a healthy boy." Mrs. Inez Lewis, Baring, Maine.

Hood's Sarsaparilla cures blood diseases and builds up the system.

Get it today in usual liquid form or chocolated tablets called **Sarsatabs.**

DISEASE OF CHESTNUT BARK

Methods That Have Been Taken to Check Spread of Infection in State of Massachusetts.

State Forester Rane has recently caused a thorough examination of chestnut trees to be made throughout the state in order to determine to what extent the chestnut bark disease exists in Massachusetts. This dangerous disease has already caused irreparable damage to the chestnut growth in several states, notably New York, New Jersey, Pennsylvania and Connecticut, and threatens destruction to the growth in our own state, unless prompt and effective measures are taken to check it, says the New England Homestead.

The method of control already adopted in New York and Pennsylvania are the only practical methods that we know of controlling the disease. These methods are, briefly, the location and destruction of the small advance infections beginning in that part of the state farthest away from the center of infestation. We cannot too strongly advise the eradication as soon as possible of all advance infestation of this disease in Massachusetts, beginning in the eastern part of the state. It is probably already too late to save the southwestern part of the state by any method.

State Forester Rane is rather more optimistic than the government experts, in regard to our ability to cope with this disease. He believes that valuable tracts of chestnut properly handled along forestry lines may be protected from serious injury and he will be pleased to advise owners of such properties as to the best protective measures to employ.

A bulletin recently issued by him treating of the disease and its remedy, with illustrations, will be mailed upon request to citizens of Massachusetts. Another bulletin discussing the entire situation, giving the method of control in detail, and the status of the disease in the United States as a whole may be obtained by applying to the United States department of agriculture, Washington, D. C.

BUILD CONCRETE ICE HOUSE

Building Constructed of Cement Blocks Will Prove Satisfactory —Better Than Wood.

In reply to a query asking for information regarding an ice house, A. N. Schloeman of Benton county, Iowa, makes the following reply in Wallace's Farmer:

I have put up ice for 15 years, and found that the damp sawdust would rot the lumber in a very few years, and concluded a year ago to build a house of cement block. We first built a concrete wall about three feet high, one foot under ground and two feet above. On this we put the block. The house is 12x14x12, and will hold from 14 to 18 loads of ice, enough for any one family. In order to keep out surface water we filled with dirt, so that the top of the ground inside the house is from four to six inches above the level of the outside. We have no drains under the ice.

Put in about six inches of sawdust in the bottom; keep away six inches from wall with ice; pack your ice well, and we guarantee you will never regret putting up a cement block ice house. We have had plenty of ice in spite of the hot and dry weather, and think it far better than a house built of wood. If possible, the house should be built where it will be shaded.

Selecting Seed Corn.

One should have in mind how much land is to be planted in corn the following year when the seed corn is being selected. Of course, plenty should be selected, making due allowance for shrinkage, discarded ears with low germination test and probable loss by rodents, insects, etc. It must not be forgotten that the seasons are often such that a second planting is necessary. If one saves more good seed than is needed it can usually be disposed of at a good price. It can be generally estimated that a bushel of good seed corn will plant from seven to nine acres—say eight acres. It takes from 100 to 120 good ears suitable for seed to shell a bushel. It will take at this rate from 12 to 15 ears to plant an acre.

Rats In Poultry Yard.

The most exasperating and persistent enemies the poultryman has to combat are rats. Often they are bold enough to attack fowls in the daytime. Poisons, dogs and traps are effective remedies, but each has its drawbacks. A few grains of strychnine on a piece of toasted cheese is an effective poison, but must be kept out of the way of other animals. Placed in the middle of a small drain tile this danger may be avoided.

Kill Mongrel Dogs.

The sheep industry cannot reach perfection until every mongrel dog in the land is exterminated.

It is a fact that the dogs destroy more sheep in certain states than all the diseases combined.

Western Farms.

One reason why farm lands in the west are more valuable than those of the east is because the western farms are big enough to permit the use of traction engines in plowing. An engine drawing a gang of eight plows, turning over a strip 10 feet wide, at a speed of two and a half miles, per hour, dragging harrows behind, will do thirty acres per day. There are not many farms in the east where such operations are possible.

Feed for Color.

While certain breeds are more inclined to yellow skin than others, the fact remains that even naturally yellow skinned fowls can have the color of flesh changed by feeding accordingly. Corn and cornmeal is the proper food for producing yellow carcasses, while fattening.

Poultry Food.

Professor John Field says it is probable that soy beans would be better for growing for poultry food than cowpeas. They give a greater yield of grain, and are of very simple composition and feeding value.

FOUR FREEZE TO DEATH IN STORM

British Columbia Blizzard Buries Bodies in Snow

Three Bodies Found in Field Near Roadside—Victims Had Tried to Make Camp.

Victoria, B. C. — Overtaken by a blizzard while returning to their home from Kamloops, B. C., a family of four lost their way and were found frozen to death. The dead:

John Keefer, a rancher; James A. Tronson, Keefer's brother-in-law; Elizabeth Keefer, aged 14; May Keefer, aged 11.

The first intimation of their fate came through the discovery by Joseph Frolic of the bodies of Keefer, Tronson and the youngest child, which since have been brought to Kamloops. The body of Elizabeth Keefer has not been found.

The snow is smooth and level, from three to five feet deep in the vicinity, and there is small probability of recovery of this body until the snow melts with the advent of spring.

The Keefer farm is a little off the Nicola road, along which Joe Frolic was driving into Kamloops when this gruesome discovery was made, this being at a point nine or ten miles from the Keefer place.

The bodies of the three were located in one of Rancher McConnell's fields at the side of the road, partially covered with blankets. This is cited as circumstantial evidence that the quartet of unfortunates had stopped possibly with the thought of making camp, fearful of losing their way if they continued. The horses had been unhitched and it was the neighing of one that first attracted Frolic's attention.

James Tronson's body was discovered a few feet from the sleigh, covered with about two feet of snow, with about two feet more underneath it.

Keefer's corpse was in the seat of the sleigh and the younger child in a pitiful, huddled heap between his knees. The little girl was warmly clad and had probably lived some hours longer than the men.

APPROVE PARCELS POST.

Trans-Mississippi Congress Will Meet on Pacific Coast.

Kansas City—After selecting Salt Lake City as the meeting place for 1912 and Kansas City, Mo., as official headquarters, the 22d annual session of the Trans-Mississippi Commercial congress adjourned Saturday.

Although the date for holding the next meeting was not definitely decided upon, it was tentatively agreed upon to convene in the last week of August. The official headquarters were located for only one year, E. J. Becker, of this city, was elected secretary, to succeed Arthur T. Francis, of Cripple Creek, Colo., after which Mr. Francis was elected an honorary member of the congress for life. George B. Harrison, a banker of this city, was elected treasurer.

A resolution was adopted recommending that the congress meet at a Pacific Coast city in 1915, the year of the Pacific-Panama exposition. San Francisco and Seattle are rival aspirants for the meeting at that time.

Consideration of the report of the committee on resolutions occupied most of the session. The resolution declaring that the congress was against the parcels post, which was adopted, provoked acrimonious discussion The vote was 90 for and 16 against the resolution. A vigorous verbal scrimmage followed, in which charges were made that a "steam roller" was being operated by those in control of the meeting and that the tendency of the congress was to take no definite stand on anything.

Express Robbers Kill.

Scranton, Pa.—Irving D. Barger, an express messenger, was killed and the safe in his car on the Delaware, Lackawanna & Western road looted of a sum said to be from $1,500 to $2,000. Barger was seen by train hands at work in his car as the train stopped a minute at Taylor. Four minutes later, when it arrived in Scranton, Barger's body was found lying on the floor of the car with his head battered in and a bullet in his brain. One report has it that the robber got no booty.

Americans to Guard Road.

Washington, D. C.—The State department has virtually decided to send a regiment of troops from Manila to Chin Wing Tao, a seaport in China about 250 miles from Pekin, on the Gulf of Pechili. The purpose is to perform an international duty under the Boxer treaty in keeping open the line of communication between Pekin and the sea. It was said at the State department that the request for troops had not been made on the War department, but it was momentarily expected.

Launch Party in Peril

Marshfield, Or. — A. H. Powers, head of the Smith-Powers company, and a party of friends in his speed boat, narrowly escaped death from being caught in a water spout which swept across Coos bay when the recent big storm was at its height. A column of water was drawn up 150 feet high by a whirlwind with such force that big logs were thrown up out of the bay. The awe-inspiring column was at times 10 feet in diameter.

Germs Lurk for Horses.

Los Angeles — Individual drinking cups for horses will be a reality in Los Angeles if a recommendation by the Los Angeles board of veterinary surgeons is carried out. Watering troughs are breeding places for glanders germs, say the veterinarians. The report urges each driver of a team to provide himself with a bucket, from which his horses, and no others, may drink.

Influence of Clothes.

Clothes have a most surprising influence on the mind. If you don't believe it, some day when you are tired, or perhaps blue, or even cross, take a bath, put on something dainty fresh from top to toe, and your best go-to-meeting gown, and you'll feel as if a fairy wand had suddenly touched you with some wonderful, transforming power. You'll find yourself looking at the world through a rosy mist, instead of clouds of dull gray. It will be easy to smile.—Suburban Life.

Waterproof Glue.

To make an impermeable glue, soak ordinary glue in water until it softens, and remove it before it has lost its primitive form. After this dissolve it in linseed oil over a slow fire until it is brought to the consistence of a jelly. This glue may be used for joining any kind of material. In addition to strength and hardness, it has the advantage of resisting the action of water.

Women and Love Letters.

It is one of the settled facts in the history of love letters that men will write and women will keep. A woman cherishes her love letters as she cherishes her mirror or her powder puff. She kisses them before she goes to bed, and presses them to her bosom before she does her hair up in the morning. She reads them for weeks and knows where to find them for years; and about the only safe thing the man who has written them can do is to marry her.

Glass Sidewalk.

For some time the city of Lyons, France, has been using glass for sidewalks instead of brick or stone. It is laid in blocks eight inches square, each block containing sixteen squares, resembling a checkerboard. It has proved more lasting than stone, and much cheaper.—Denver Municipal Facts.

Doctors' Privileges.

In the year 1513 the city of London contained only thirteen surgeons and doctors all told. They were exempt from serving on juries and from bearing arms in time of war.

Destroys Hair Germs

Recent discoveries have shown that falling hair is caused by germs at the roots of the hair. Therefore, to stop falling hair, you must first completely destroy these germs. Ayer's Hair Vigor, new improved formula, will certainly do this. Then leave the rest to nature.

Does not change the color of the hair.

Ayer's Formula with each bottle. Show it to your doctor. Ask him about it, then do as he says

Recent discoveries have also proved that dandruff is caused by germs on the scalp. Therefore, to cure dandruff, the first thing to do is to completely destroy these dandruff germs. Here, the same Ayer's Hair Vigor will give the same splendid results.

Backache

Is only *one* of many symptoms which some women endure through weakness or displacement of the womanly organs. Mrs. Lizzie White of Memphis, Tenn., wrote Dr. R. V. Pierce, as follows:

"At times I was hardly able to be on my feet. I believe I had every pain and ache a woman could have. Had a very bad case. Internal organs were very much diseased and my back was very weak. I suffered a great deal with nervous headaches, in fact, I suffered all over. This was my condition when I wrote to you for advice. After taking your 'Favorite Prescription' for about three months can say that my health was never better."

Dr. Pierce's Favorite Prescription

Is a positive cure for weakness and disease of the feminine organism. It allays inflammation, heals ulceration and soothes pain. Tones and builds up the nerves. Do not permit a dishonest dealer to substitute for this medicine which has a record of 40 years of cures. "No, thank you, I want what I ask for."

Dr. Pierce's Pleasant Pellets induce mild natural bowel movement once a day.

To Get Rid of Snails.

A friend whose large garden was being overrun with snails wrote to the bureau of agriculture at Washington for a remedy. She was told to put large pieces of cut raw potato on the under side of a board, raised at one end, a few inches from the ground. This she did, with the result that in one week a thousand snails had collected in that one spot.

Falling of the Race.

The advice of the old lawyer to his son was that no matter what his relations with womankind he should never write a love letter and never destroy one. It is probable that this counsel of perfect wisdom fell on deaf ears, for when any particular man is consumed by a fever for any particular woman he at once commences writing love letters.

Wesley's Cup Filled.

On one occasion Wesley said, while preaching in Dublin: "All crimes have been laid to my charge of which a human being is capable, except that of drunkenness." Whereupon a woman arose and shouted: "You old villain! And will you deny that you pledged your bands to Mrs. Blank for a noggin o' whisky, and didn't she sell them to our parson's wife?" After a moment of amazed silence on the part of the audience, Wesley calmly "thanked God that his cup was now full."

What She Supposed.

Shortly after Sir Lawrence Alma-Tadema, R. A., was knighted, he and Lady Alma-Tadema gave an "at home" at St. John's Wood. Everybody present was congratulating them, and one lady was very profuse. "Oh, dear Sir Lawrence," she said, "I am awfully glad to hear of the honor you have received. I suppose now that you are knighted you will give up painting and live like a gentleman."

Appeal for Native Talent.

A New York hotel man, who has just returned home after scouring Europe for cooks, complains that they are a scarce commodity abroad. The condition is one for which hotel men themselves are largely to blame. Why don't they encourage native talent in the cooking line instead of filling their kitchens with foreigners?—Rochester Democrat and Chronicle.

Indian Aristocracy.

Hat Masculine and Feminine.

Let us thank heaven that the hat masculine is no worse than it is and of the hat feminine paraphrase the words of Hamlet when he held in his hand the grinning skull of Yorick: "Now get thee to my lady's chamber and tell her that no matter what her hat to this complexion she must come at last."

Old Cornwall Ceremony.

Dancing is a part of a semi-religious ceremony held at St. Ives, Cornwall, on the day of the feast of St. James. The people dance the old Cornish "Flurry" dance and "The Girl I Left Behind Me," and then sing the "Old Hundredth." After that they have a banquet and small sums of money are distributed. The custom dates from a century ago, when a fund was established for the purpose by a man named Knill. It is known as the Knill ceremony.

Paper Drinking Cups.

In the schools of Austria the children are taught to carry several sheets of writing paper in their pockets at all times. Then, when a child is thirsty, he can roll one of the sheets into a cone and make a perfectly serviceable cup which may be placed, after being used, in the nearest waste paper box. How to roll the cones deftly is taught the children. The tearing of a notch about half an inch long near one end before rolling the cone serves to make the improved cup stronger.

His Real Meaning.

WOMEN MAY AVOID OPERATIONS

By taking Lydia E. Pinkham's Vegetable Compound

The following letter from Mrs. Orville Rock will prove how unwise it is for women to submit to the dangers of a surgical operation when it may be avoided by taking Lydia E. Pinkham's Vegetable Compound. **She was four weeks in the hospital and came home suffering worse than before.**

Here is her own statement.

Paw Paw, Mich.—"Two years ago I suffered very severely with a displacement. I could not be on my feet for a long time. My physician treated me for seven months without much relief and at last sent me to Ann Arbor for an operation. I was there four weeks and came home suffering worse than before. My mother advised me to try Lydia

E. Pinkham's Vegetable Compound, and I did. Today I am well and strong and do all my own housework. I owe my health to Lydia E. Pinkham's Vegetable Compound and advise my friends who are afflicted with any female complaint to try it."—Mrs. ORVILLE ROCK, R. R. No. 5, Paw Paw, Michigan.

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound.

For thirty years it has been the standard remedy for women's ills, and has positively restored the health of thousands of women. Why don't you try it?
