OUR PORTLAND LETTER

Portland, Ore., Dec. 5, (Special) Announcement of a new railroad across Oregon from east to west was appropriate news for Thanksgiving week. President Lovett of the Harriman system has authorized the construction of the Oregon Eastern from Vale to Dog Mountain, a distance of 140 miles. The road will not stop there but will be built to Burns, then presumably on to Bend and very likely south to connect with the Natron-Klamath line.

Work on the project will be rushed and it is expected to get the first link under way before the end of the present year. This news mileage will be of great value to Eastern Oregon, a county now undergoing rapid development, and will give modern transportation to a district now isolated.

A Redmond bank has made arrangements to bring in several carloads of good dairy stock for ranchers of that section, following the same plan as that of Bend capitalists in furnishing brood sows to farmers in that locality. Redmond, with a large area of irrigated alfalfa growing all about it, should make an ideal dairy center.

Four big realty deals during the past week, in different parts of the state, involving over \$1,500,000, show the faith Eastern capitalists have in Oregon. A tract in Southern Yamhill County, embracing 2300 acres, brought \$350,000; 50,000 acres in Klamath county sold for \$300,000; 1200 acres in Baker County brought \$500,000.

Good roads through Oregon will be the chief topic discussed at the annual convention of County Judges and Commissioners of the state, which will be held in the Portland Commercial Club convention hall December 12-13. Road legislation will be considered, with a view to permanent highway construction throughout the state.

Condon will get the fair to be held by the Tri-County development League next Fall. There after, the fair will be held in a different one of the three counties each year.

Alfalfa seed has become one of the profitable crops of the Ontario region. More than \$30,000 was realized from the sale of seed this season. Most of the product goes to Eastern markets.

President Chas. C. Moore, of the Panama-Pacific Exposition, will soon visit Oregon cities to impress upon them the importance of the coming fair and to urge their co-operation and assistance. President Moore looks to the Pacific Northwest for valuable assistance in making the Exposition a success.

Oregon apples grown at Talent by Houston Bros., captured a big prize at the recent National Apple Show at Spokane. These growers got first prize for a carload of Yellow Newtown apples. They carried away \$300 cash, merchandise worth \$200 more, besides banners and cups.

Socialism received a hard blow in the solar plexus at the election in Los Angeles, last Tuesday. Job Harriman, the socialist candidate for Mayor, being snowed under by a large majority. Previous to the confessions of the McNamara brothers, the socialists seemed confident of victory; but the result of their confession was to turn the tide against them. According to reports, many advocates of socialism who had been wearing Harriman buttons, threw them away and 10,000 of the campaign emblems were swept up from the streets. The women voters claim much credit for Harriman's defeat.

The confessions of the McNamara brothers has saved much time and worry and possibly more disaster and bloodshed. It is to be believed that

had a jury been finally found who would convict them, and they had been sentenced to hang for diabolical murders they committed, friends of the brothers would have made attempts to avenge their deaths. Now, however, they will have no excuse—no ground to stand on. They have convicted themselves and the various labor organizations, even Gompers himself, who professed to believe in the innocence of the McNamaras, are horrified at their confessions and claim that their sentence is just.

Mosier Man Champion Packer Warren Dresbach, who went to Spokane last week to compete in the apple packing contest, returned on Friday covered with laurels, having won by three points over the former champion of the world.

The Oregonian says that the news that country hotels will no longer be satisfied with \$2 a day from their guests raises anxious thoughts. There are some country hotels where it is a delight to stay and some where the unfortunate guests ought to collect heavy damages for the tortures they undergo. If the service improves as the price goes up nobody can complain, but what if the food gets soggy as the charges expand? Hotelkeeping is a fine art which some American have mastered while to others it is still a mystery.

The Ladies' Bazaar attracted a large crowd to Stroup's Hall yesterday afternoon and evening, where fancy and useful articles were on sale. Substantial meals were served at all times and most of those attending took supper there. Seldom does such a large number of Mosier people get together for a social gathering and the evening was much enjoyed by all. The entire receipts of the evening were \$123.35.

The mail order houses of the East would not be so prosperous if the people of this community would insist on having "Made in Oregon" goods from the local merchants. The business of this community would be better conserved if the buying public and the merchants would help along the "Made in Oregon" idea.

Hotel Re-opens.

The Pines Hotel will re-open tomorrow under a new management. Henry R. Dunsmore has leased the hesterly and he will be ably assisted by his sister, Mrs. Annie Hughes, of The Dalles.

Since the hotel was closed over a week ago, the impression has gone abroad that no accommodations whatever could be had in Mosier by the traveling public. This report has injured the town, as during that time the sleeping apartments were open, only the dining room being closed.

Mrs. Hughes, as manager, will put the hotel in good shape in every particular and endeavor at all times to give satisfaction to the traveling as well as the local custom. She will strive to make it as near like a home for the unattached as a hotel can be made, and asks the liberal patronage of the public.

We notice that some merchants in other cities are using considerable space advertising "Made in Oregon" goods. That is as it should be. The merchants must know that the individual prosperity is to a great extent dependent upon the prosperity of the state at large, and if Oregon manufactures are patronized, that it will mean greater payrolls, and greater payrolls mean a larger degree of prosperity for every man, woman and child in Oregon.

W. O. Davidhizar, of Haines, Ore., visited several days with his cousin, E. W. Davidhizar. He was on his way to spend the winter with relatives at Nappa, Ind.

The Model Laundry, of The Dalles is still taking orders from Mosier and giving satisfaction. Agency at The Pines Hotel.

The big coyote drive which took place at Grand Dalles last Sunday was attended by about 50 hunters, many coming from Portland and Hood River. The drive was a failure not an animal being killed, as the lines were not drawn close enough to prevent the game escaping.

BIG 4 COMING!

The Big 4 Comedy Company will show to the Mosier public in Stroup's Hall on the evening of Thursday, Dec. 14, next.

This attraction is said to be one of the best on the road. It offers the latest in songs, dances, monologues and comedies, carrying such artists as Clayton Sisters, the Friedlander Brothers, Yvonne, the girl violinist, Mrs. M. Friedlander, pianist, Kid Darrel and Billy Maitum.

The Big 4 Company boast of putting on a show that is clean, novel and refined—one that will please everybody. Remember the date.

Stark Akers was absent Tuesday.

The High School play will be given on Friday, Dec. 22nd. Be sure and make your plans to attend.

Wealth in Sand and Gravel

More than \$21,000,000 worth of sand and gravel was dug for sale in the United States in 1910. This is a figure not many million dollars removed from our present annual production of silver. According to a report by Ernest F. Burchard just issued by the United States Geological Survey, the production of glass sand, other sand, and gravel in 1910, was 69,410,436 short tons, valued at \$21,037,630, against 50,265,551 short tons, valued at \$18,336,960, for 1909.

This increase in production of nearly 10,000,000 short tons and in value of over \$2,700,000 is due to the more extensive use of sand and gravel in concrete construction work, building sand constituting nearly half of the entire output for the year. During recent years, particularly in the large building centers, there has been a greater general appreciation of the importance of using proper sand and gravel in cement concrete, so that leading architects and builders are requiring sound, clean washed material.
