

Years of Suffering

Catarrh and Blood Diseases—Doctors Failed to Cure, Miss Mabel F. Dawkins, 1214 Lafayette St., Fort Wayne, Ind., writes: "For three years I was troubled with catarrh and blood disease. I tried several doctors and a dozen different remedies, but none of them did me any good. A friend told me of Hood's Sarsaparilla. I took two bottles of this medicine and was as well and strong as ever. I feel like a different person and recommend Hood's to any one suffering from catarrh."

Get it today in usual liquid form or oboliated tablets called Sarsaparabols.

HORSES DECREASING IN PARIS.

The number of horses in Paris steadily decreases under motor competition, and the horses that remain have to thank the automobile as well as the efforts of various societies for the better treatment they receive. To survive in these days they must be fit. The army authorities take a census of the number of horses, and the figures for 1911 show 72,488 in Paris, compared with 96,698 in 1901. This means that the number of horses has decreased 24,210 in ten years, or almost exactly a quarter. The military authorities are somewhat perturbed over this fact. It is true that for transport of war material and provisions automobile traction saves the use of many horses, but there remain the needs of the cavalry and artillery. The old standby for trained horses, the omnibus companies, will soon be of no assistance, for automobiles are rapidly supplanting horse-drawn stages.

Wonderful Music. Sir Frederick Bridge, the famous organist of Westminster abbey, tells a story of two ladies who were in the abbey just before the coronation. A vacuum cleaner was at work, making a great buzzing. One lady said to the other: "There's the organ; is it not splendid? It's Sir Frederick." The other lady said: "So it is; I thought it was Sir Walter, but he can't play like that."—The Bits.

A Crop Bulletin. Five-year-old Ella had been enthusiastically engaged in garden work all the spring. She was especially interested in planting seed and watched anxiously for sprouts to appear above the ground.

One day, while visiting a neighbor who possessed a six-months-old baby, Ella was delighted to see two tiny front teeth displayed when the baby smiled.

"Oh, Mrs. May, the little girl cried, excitedly, 'the baby's teeth have come up!'"—Youth's Companion.

Just the Same. "The first thing I do every morning is to tell my wife that she looks younger and more beautiful every day."

"Doesn't she ever suspect that you are lying?" "Oh, yes, she knows it; but it keeps her from starting in to find fault with me, just the same."

PUTTING HER LOVER TO TEST

Young Woman Arranges With Pretty Girl to Try Out Her Sweetheart With Starting Results. Lincoln Beachey, after a flight in his airplane, was congratulated on his daring by a reporter. "But I wasn't daring," the aviator said. "I put my machine only to such ordeals as I knew it could withstand. In flying, as in love, we must run no risks."

He laughed softly. "I know," he said, "a young woman about to wed who decided at the last moment to test her sweetheart. So, selecting the prettiest girl she knew, she said to her, though she knew it was a great risk: 'I'll arrange for Jack to take you out tonight—a walk on the beach in the moonlight, a lobster supper, and all that sort of thing—and I want you, in order to put his fidelity to the proof, to ask him for a kiss.' 'The other girl laughed, blushed and assented. The dangerous plot was carried out. Then, the next day, the girl in love visited the pretty one and said, anxiously: 'Well, did you ask him?' 'No, dear.' 'No? Why not?' 'I didn't get a chance. He asked me first.'"

BLUE CLEAR THROUGH.

The one, reliable, satisfactory and economical bluing for laundry use is RED CROSS BALL BLUE—the blue that is all blue. Makes clothes white and clear. Dissolves instantly and again after once trying RED CROSS BALL BLUE. Price 10 cents. ALL GROCERS.

Fortune in Stamp Collection.

A lady living in Sydney for many years has hoarded a collection of postal stamps left by her father, who had pursued his hobby of collecting for 50 years. The daughter was ignorant of any knowledge of philately and threw the stamps into an old trunk. Last week she visited a stamp exhibition, and for the first time awoke to the value of the stamps in her possession. She secured the assistance of experts, who estimate the value of the collection at \$100,000.

The Pure Food Law stopped the sale of hundreds of fraudulent medicines. They could never be investigated. Hamlin's Wizard Oil has stood the test of investigation for nearly sixty years.

Why the Walter Worried.

With a smile on his rufous features the hotel manager was enjoying forty winks. Trade was booming. The place was full. Good! "Knocks on the door of his sanctum recalled him to earth. In staggered a perishing waiter. "P-please, sir," he stammered, "I'm in a terrible fix. A gent has just ordered roast mutton!" "Well, what of it?" snapped the manager. "There's plenty of it, isn't it?" "Y-yes, sir," breathed the distracted knight of the napkin, "but he's already had one portion for venison!"—Answers.

TO CURE A COLD IN ONE DAY

Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

A Bracer.

"Here," she said, offering him a brownish concoction in a medicine glass, after he had called the sixth time, "drink this."

PISO'S. IS THE NAME OF THE BEST MEDICINE FOR COUGHS & COLDS.

FOREIGN POPULATION INCREASES

New York City Gains 52.7 Per Cent in Ten Years.

Natives of Germany and Ireland Decrease in Metropolis—Biggest Influx From Russia.

Washington, D. C.—A preliminary statement giving the distribution of the foreign-born white population of New York City according to country of birth, as shown by the returns of the Thirteenth Decennial census, taken as of April 15, 1910, was issued by the bureau of the census. The statistics are subject to revision.

The preliminary statement covers only the principal countries of birth—those in general for each of which at the census of 1910 upwards of 7,000 persons were reported—and the figures for 1910 are given in round numbers, being subject to possible revision as the result of later tabulations. At the census of 1900 the foreign-born white population of New York City was 1,260,918, but at the last census, in 1910, it had reached a total of 1,926,900, representing an increase during the 10 years of 665,982, or 52.7 per cent.

Natives of Germany and Ireland, however, decreased in numbers, the former from 324,198 to 279,200, or 13.9 per cent, and the latter from 275,073 to 252,500, or 8.2 per cent. For the United States as a whole, natives of these two countries showed a decrease during the same period of 11.2 and 16.3 respectively.

Since 1900 natives of Great Britain, of whom there are now in New York City 105,800, have increased 17.3 per cent, and similarly natives of Canada and Newfoundland, of whom there are now 26,800, have increased 23.2 per cent, while natives of Norway, Sweden and Denmark, of whom there are now 65,000, have increased 43.5 per cent.

The largest increases are shown, however, for natives of Austria-Hungary, Italy, Russia and Finland, the countries from which in recent years have come by far the largest proportion of all the immigrants to the United States.

In 1910 New York City contained 485,600 natives of Russia and Finland—an increase in 10 years of 301,439, or 163.7 per cent. The city in 1910 also contained 340,400 natives of Italy—an increase since 1900 of 194,971, or 134.1 per cent, and 264,500 natives of Austria-Hungary—an increase of 143,508, or 117.6 per cent. Natives of these three countries together now constitute considerably more than half (56.6 per cent) of the entire foreign-born white population of New York City, as compared with a little more than a third (35.8 per cent) in 1900; for the United States as a whole the respective percentages are 35.3 for 1910 and 17.2 for 1900.

ITALIANS DRIVEN OUT.

Turkish Report Says Rout of Enemy Complete.

Washington, D. C.—A 24-hour's battle, in which the Turkish troops defeated the Italian forces, killing half of them in the rout, is told about in an official message from Constantinople made public at the Turkish embassy here.

The message was transmitted to the imperial minister of war at Constantinople by the commander of the Turkish troops from Tobruk, Tripoli, under date of December 22. The report follows:

"We attacked the fortified posts of the enemy. Notwithstanding the fire of warships and fort batteries, we entered the fort and the garrison has been annihilated. Ammunition, provisions, war material and a quick-firing gun have been carried into our camp. The battle lasted all day and night. Among the killed were three officers of the enemy. Our losses were seven killed and a few wounded."

Emigrants to Be Quizzed.

Melbourne—People contemplating emigrating from the United States to the British Australian colony of Victoria are to be quizzed and interviewed by Commissioner W. Cattanach, a member of the Victorian State Rivers and Water Supply commission. He will pay visits to Denver, Cheyenne and Chicago. His mission is to superintend the departure of the party of landseekers who are to make an excursion to Melbourne under the auspices of the Victorian government.

Lemon Growers Score.

Washington, D. C.—American lemon growers won a signal victory over foreign competitors and the transcontinental railroads when the Interstate commerce commission reversed its previous order upset by the new Commerce court, reducing freight rates on lemons from California to all points in the United States from \$1.15 per hundred pounds to \$1.00. The fight over lemon rates has been in progress since 1902 and originally involved the question of competition with Sicily.

Carline Mergers in Sight.

Chicago—Leonard A. "Busby" was elected president of the Chicago City Railway company to succeed Thomas E. Mitten, whose resignation will become effective Sunday. The new president is a Chicago lawyer and has been general counsel for the company. His election is regarded in financial circles as a step in the reorganization of the company preparatory to the proposed merger of all the surface and elevated carlines.

Snake Store Fire "Warm."

San Antonio, Tex.—While copperheads, rattlers and adders writhed over the floor and tarantulas and other poisonous insects darted here and there, firemen fought a blaze in the bird and snake store of W. O. Leary. The reptiles became liberated when the streams of water shattered the boxes in which they were confined. Five hundred parrots were suffocated and 350 snakes were roasted. The financial loss was small.

Settlement to Be Aided.

Washington, D. C.—At the request of the Umatilla Water-Users' association, Senator Chamberlain will introduce a bill which will facilitate the settlement of lands on the Umatilla project that were originally acquired under the desert land act.

TO LIGHT MOUTH OF RIVER.

Powerful Acetylene Beacons to Replace Oil Lights.

Portland—Buoying and lighting up the entrance to the Columbia river with powerful acetylene beacons so that vessels may cross in and out at night as easily as in the day, will be undertaken and pushed to a successful conclusion by the government as soon as the necessary material can be turned out in Eastern factories and shipped from the Atlantic Coast.

Recommendations submitted some time ago by Henry L. Beck, inspector of the Seventeenth district, that this should be done, have been approved and the latter was advised of the favorable action taken by the officials at Washington. Besides there will be a general shifting about of many of the present aids and when the task has been completed it is believed there will be no more safe entrance to a harbor in the world than that at the mouth of the Columbia.

The project calls for the substitution of two acetylene range lights, each of 3,000 candle-power, for the oil lights of only 700 candle-power which have been made to answer the purpose. The new and modern range lights will occupy the same positions as the old ones. Outside the entrance a powerful acetylene gas and whistling buoy will be established. It will be placed on the range line and in about 80 feet of water.

On the bar another acetylene and gas buoy will be established just inside the first line of breakers. Then there will be a bell buoy on the range line south of Sand Island, which has been the scene of a number of wrecks. Inside there will be a lighted gas buoy placed near the present position of No. 8 buoy.

STEEL SCHEDULE FIRST.

House Leaders Plan Revision Work After Recess.

Washington, D. C.—Revision of the iron and steel schedule will be the first thing on the tariff legislative program of the house after congress convenes.

Representative Underwood, chairman of the ways and means committee, made it known on his return that the committee would postpone consideration of the wool schedule until every feature of the tariff board's report on the subject had been studied thoroughly. In the meantime it will press its work on other tariff measures, with a view to adjournment in time for the national conventions.

After the introduction and consideration of the steel schedule the Democratic leaders contemplate presenting to the house a revised chemical schedule and a sugar tariff bill. It also is possible that a cotton schedule will be submitted with the wool bill, dependent, of course, upon the report of the tariff board. This is not expected till late next month. If cotton is not included in the wool bill, it will be submitted as soon as possible.

Determination of the house Democratic leaders to delay the wool bill is calculated to have an effect upon the purpose of the Republican members of the ways and means committee who are drafting a wool schedule based upon the tariff board's report. They are hastening, with the co-operation of the White House, to complete this bill and to urge it upon the floor of the house.

If the Democratic bill is not submitted soon, it is probable the Republican bill will be withheld.

Sir Edward Grey Scored.

Berlin—The Cologne Gazette in an article on the relations between England and Germany, says: "It is right to say that things cannot remain as they are. They must be better or worse. We have done everything possible to avoid a world war which would do inestimable harm. The next move is with England, but the attitude of Sir Edward Grey does not suggest that he is ready to make it. There have been words enough; we now await deeds from the English love of peace upon which peace depends."

Madero Gives Franchise.

Seattle—President Madero, of Mexico, has granted a syndicate of Seattle men headed by Moritz Thomsen a concession to build 300 miles of railroad which, when completed, will connect the Pacific Port of Acapulco with the City of Mexico. The concession has already under construction 120 miles of track between Acapulco and an agricultural district in the interior, and the line to the capital will be an extension of the road now being built. The grant calls for completion of the railroad in six years.

Carline Mergers in Sight.

Chicago—Leonard A. "Busby" was elected president of the Chicago City Railway company to succeed Thomas E. Mitten, whose resignation will become effective Sunday. The new president is a Chicago lawyer and has been general counsel for the company. His election is regarded in financial circles as a step in the reorganization of the company preparatory to the proposed merger of all the surface and elevated carlines.

CURRENT EVENTS OF THE WEEK

Doings of the World at Large Told in Brief.

General Resume of Important Events Presented in Condensed Form for Our Busy Readers.

More than 8,000 persons attended the president's New Year reception.

Taft's support of arbitration treaties is eulogized by the president of France.

A compensation act is being urged for the relief of injured postoffice employees.

The cost of living is less in the Panama canal zone than in the United States.

Aged 94 years, the oldest member of the San Diego Swimming club took a half hour's swim with the other members on New Year's day.

The South Yuba river is frozen over in Southeastern California, a phenomenon never before known within the memory of the oldest inhabitant.

Salt Lake City has assumed the commission form of government, and five holdover councilmen may sue the city for salary for their unexpired terms.

Loomfixers in Massachusetts cotton mills will demand an increase of 10 per cent in wages, and a strike may involve many thousands of cotton mill employees.

Quiescent and sandalless Chinese in New York City celebrated the birth of the new Chinese republic, the children singing a revised version of "America."

Kolb & Dill, two of the most noted comedians of the age, who have been at loggerheads for some time, have patched up their differences, owing to a strong mutual desire for prosperity.

A new sheriff of New York has been sworn into office, and declares his intention to appoint responsible women as deputies, believing they will be more efficient than men in protecting life and property along certain lines.

The Russian council of ministers has decided not to allow the Salvation Army to carry on its work in Russia.

The name of Roosevelt will be placed on the primary tickets of many states as a presidential preference candidate.

The Union Depot & Terminal Co., of Cincinnati has been granted a franchise to erect a union station costing \$40,000,000.

Because of the omission of a word in the will of a Cincinnati millionaire, his heirs will get no share in his \$1,500,000 estate.

A scheme for swamping Central American republics with bogus money has been discovered, after nearly \$10,000,000 had been put into circulation.

Fire in a bird and snake store in San Antonio, Tex., caused the death of several hundred parrots and 350 snakes, and caused the firemen an exceedingly warm time.

A Kansas City clerk who died recently had \$130,000 worth of first mortgage securities stowed away in his trunk. He began work 30 years ago at \$6 a week.

PORTLAND MARKETS.

Can be handled very easily. The sick are cured, and all others in same stable, no matter how "run down," kept from having the disease by using SPOHN'S LIQUID DISTEMPER. It is given on the tongue or in food. Acts on the blood and circulates all over the system. Best remedy ever known for colts. One bottle guaranteed to cure one case. 50c and \$1 a bottle. 25c and \$1 a dozen. SPOHN'S LIQUID DISTEMPER is sold by all druggists and hardware stores. Largest selling houses remedy in existence—twelve to sixteen years.

MODERN PROPOSITION.

She—I am afraid you can't support me in the way I have been accustomed.

He—Why—er—er—how much alimony have you been getting.

TRY MURINE EYE REMEDY for Red, Weak, Watery, Watery Eyes and Granulated Eyelids. Murine Droplets—Smart—Soothes Eye Pain. Druggists Sell Murine Eye Remedy, Liquid, 25c, 50c, \$1.00. Murine Eye Salve in Aspic Tubes, 25c, \$1.00. Eye Books and Eye Advice Free by Mail. Murine Eye Remedy Co., Chicago.

BIRTHPLACES OF FRUITS.

The raspberry is native to temperate Europe and America and certain parts of Asia. The apricot originated in China. The peach, too, was originally a Chinese fruit. The cherry birthplace was near the Caspian Sea, and the plum comes from the Caucasus and Turkey. The pear is native in temperate Europe and Western Asia. The quince came from Southeastern Europe, the Caucasus and the Caspian region. The apple is native all over Europe, in the Caucasus, round the Black Sea and in Persia. The fig seems to have originated in the lands bordering on the Mediterranean, particularly in Syria. The red current grows wild all over Europe, in the Caucasus, the Himalayas, Manchuria, Japan and Arctic America. The sweet orange originated in Southern China and Cochinchina and the citron in India.

To Breathe in New Shoes. Always shake in Allen's Foot-Ease, a powder, it cures hot, sweating, itching, swollen feet. Cures corns, ingrowing nails and bunions. All druggists and shoe stores, 25c. Don't accept any substitute. Send for FREE. Address Allen S. Olmsted, Le Roy, N. Y.

Now You Know. Once, after exposing the ridiculous blunders of the editor of certain old plays, James Russell Lowell concluded with the remark, "In point of fact, we must apply to this gentleman the name of the first King of Sparta." No one remembered, of course, what this was, but when they looked it up they found it was Eudamidas.

Women Win Rich Prizes. Twelve first-class prizes for excellence in the mediaeval and modern languages at Cambridge university, England, have been awarded this year to women. Prizes of the same class and for the same subjects were given to only eight men.
