### Fingernail Photography.

"Would you like your sweetheart's portrait placed on your fingernails?" is a unusual query at most of the swell Berlin manicurists just now. The new fad grew out of a whim of a pretty cousin of the kaiser who had an enameled portrait of her fiance worked on the nail of her little finger. The portrait was a gem of art in its way and cost \$50. The manicurists took up the idea, and now, for a small fee of 20 marks--about \$5--you can have anyone's photograph placed on your fingernail. The main skill of the manicurist consists in removing the photograph water-tight, which is done by coating it over with a shellac-like substance, which is burned upon the nail. This is the only painful element of the strange process. Quite a number of society dames have taken to the idea and every-where you go you see fingernail photography. Mothers have pictures of their favorite and prettiest children placed on their fingernails; young men and maidens display their sweethearts in the same fashion, and the fad has spread marvelously since it was introduced. A portrait on a fingernail will last with careful handling, about four months without renewal.

### ARMY AND NAVY STORES.

#### Cheaper Military Supplies Aim of Co-operative Plan.

New York--As the result of an earnest discussion among army and naval officers some years past as to the possibility of duplicating in this country a system of co-operative military stores in England by which those in service may buy any article of merchandise at a slight advance over cost price, the Army and Navy Co-operative company was incorporated at Albany, with the approval of the secretary of state.

Within a few months the company will have stores open in this city and ready for business. The chief purpose of the corporation is to reduce the cost of living by selling the best articles of domestic consumption and general use at the lowest remunerative rates.

The advantages of the organization are to be extended, not only to the army and navy and all civilian employes of both branches of the service, but to the state militia as well, because of the recent close relations between regular and volunteer army and navy men.

Rear Admiral Marix is one of the incorporators and will be elected president. Captain Henry H. Scott, Coast Artillery corps, another of the incorporators, who is a son-in-law of Rear Admiral William T. Sampson, was one of the 40 officers chosen by the War department to go to San Francisco at the time of the great fire to direct relief work.

REBELS ENCOURAGED. Proclamation of Gomez Indicates Revolution is Gaining.

Mexico City--Emilio Vasquez Gomez' frank public declaration that he will accept the provisional presidency in case the rebels succeed in forcing F. I. Madero from the national palace, has gone far toward convincing unofficial residents of the capital that a general rebellion is in progress.

Mexican officials, however, continue to characterize as local disorders every insurrection in the country.

At 18 states, the department of the interior continues to give out news denying trouble in a great part of these. There was a fight at San Pedro, 20 miles from Torreon, in which 27 men were killed, the majority said to have been rebels, commanded by Jose Argumedo.

Such information as is obtainable from Torreon indicates that for a considerable distance to the East and as far South and West as Durango, the capital of the same name, the region is being raided almost at will by the rebels. The government has denied officially that Guerrero, in Chihuahua, has fallen into the hands of rebels.

With the exception of the six Southern states where Emiliano Zapata and Jesus H. Salgado are stubbornly resisting the army now waging a war of extermination, and with some headway, the region most seriously menaced is that in the states of Coahuila and Durango. Other states in which rebels are operating are Chihuahua, Sinaloa, Zacatecas, San Luis Potosi, Jalisco and Michoacan.

Far South in Tabasco and in the state of Vera Cruz there are bands which appear to be closely connected with the Zapatista movement.

Five Aviators Fall. Oakland, Cal.--Opening of an aviation meet at the old Emeryville race track near here was baptized with blood. William H. Hoff, a San Francisco aviator, lies probably dying in a hospital and a half dozen of his fellow aviators, more fortunate than he in escaping from the wreckage of their machines, are nursing themselves to play again the hide-and-seek game with death which lurks in the ocean fogs and the gusty winds of San Francisco bay.

Phil G. Parmelee, Glenn Martin, Horace F. Kennedy and Hillory Beachey were among those whose machines were driven to the ground.

One after another the biplanes were caught by the wind, which was broken into combatting currents by the islands of San Francisco bay and the hills and mountains that surround it.

200 Yaqui Indians on Raid. Guaymas, Mexico--Two hundred Yaqui Indians raided haciendas near Piedra and carried away several families, according to reports received here. Fifteen rurales, commanded by Captain Ramos, who went in pursuit, were led into an ambush. Captain Ramos and six men were killed and two wounded. Reinforcements were sent to the scene, but the Indians had disappeared into the mountains with their loot.

A majority of the Yaquis is said to be maintaining peace.

Republics Sign Protocol. Buenos Ayres--Friendly relations have been re-established between Paraguay and the Argentine Republic. Senator Bosch, minister of foreign affairs, and the Paraguayan minister of justice, Frederic Casas, signed a protocol as the result of negotiations of the last three weeks for settlement of the trouble between the two republics. Paraguay, it is announced, has given satisfaction to Argentina for attacks on Argentine shipping. It is expected that diplomatic representatives will return to their posts immediately.

South to Send Veterans. Philadelphia--Confederate veterans are to have a leading part in the celebration of the 50th anniversary of the battle of Gettysburg. Colonel Lewis E. Beidler, field secretary of the Pennsylvania commission, reported to be the executive committee that it is virtually certain all of the Southern states will name commissions and make appropriations for the transportation of their veterans to Gettysburg and their participation in the reunion.

Wilson Seeking Potash. Washington, D. C.--To develop more thoroughly the fertilizer and potash resources of the United States, Secretary Wilson has ordered the establishment at Reno, Nevada, of a government laboratory, where natural materials supposed to contain potash will be examined without cost. Those sending samples must prepay charges.

### GOMEZ DIRECTS MEXICAN REBS

#### Former Leader Accepts Provisional Presidency.

Torreon in State of Siege--Looters Camp Near by Awaiting Fall of City--City Suffers.

San Antonio, Tex.--Emiliano Vasquez Gomez has issued a manifesto accepting the provisional presidency of Mexico.

He subscribes to the plan of Tacubaya, which he says was written while he was an exile in a foreign land.

Gomez says he will remain in San Antonio and take no part in the warfare in Mexico. He urges his followers to respect all the rights of foreigners.

He reiterates that he has taken no part in the present affairs of Mexico, except to write to the press and a few friends in America.

He declares the Madero government should be overthrown because it has not carried out the plan of San Luis Potosi, upon which the last revolution was based.

Mexico City--Notwithstanding their threat to attack the city before the end of the week, the rebels are yet regarding Torreon from a distance. Communication from that town by telegraph was restored and latest dispatches indicate no improvement in the revolutionary situation.

Private advices written four days ago are that the city is beginning to feel the effects of a siege. With railroads disabled, it is impossible to renew food supplies. Most of the Americans and many of the other foreigners have left.

It is not the rebel force the people of Torreon fear so much as the horde of individuals likely to take advantage of the rebels' assault.

One man, in a letter, said that already there were camped about the place hundreds of Indians awaiting the day when they could join in the looting. The men had brought with them burros on which to carry off the plunder.

Rebels from various parts of the republic tell of rebel raids and small uprisings at distant points.

A body of rebels overpowered the small garrison of Apizaca, in the state of Tlaxcala, relieved the soldiers of their guns and ammunition and left without firing any looting. Other towns in the same state are reported to be menaced by the same band.

Why Old Myths Survive. The destroyers of fine dramatic myths tell us nowadays that the Caliph Omar did not burn the ancient library of Alexandria, and therefore did not have a chance to say that all the books in it that agreed with the Koran were superfluous, and all that disagreed with the Koran were pernicious. Doubtless the perennial freshness and vitality of the tale are due to an overlasting normal human hatred of weed-grown, literary graveyards.

Five Are Killed in Wreck. Fort Wayne, Ind.--Five men were killed and 11 were injured when Pennsylvania limited train No. 5, west-bound, dashed into a wreck train at Larwill, Indiana. Among the passengers on the limited was Claude H. Tannen, of the sergeant-at-arms' office of the house of representatives. He was taking the body of his mother, who was killed in the wreck of the Pennsylvania limited at Huntington, Pa., a few days before, to her home for burial. Tannen was also in the Huntington wreck.

More Use Sleeping Cars. Chicago--The Pullman company reports that travel holds up remarkably well. Sleeping car department earnings have been breaking even in spite of last year's reductions in berth rates, which indicates a larger volume of first class travel than a year ago. The Pullman company has scarcely felt the effect of the reduced berth rates. The comparisons with a year ago will be more favorable this month and succeeding months.

British Aviator Killed. London--Graham Gilmour, one of the best known among British aviators, was instantly killed by a fall with his aeroplane from a height of 380 feet. He was testing a new monoplane in which he was making a flight from the aerodrome at Brooklands and was traveling at the rate of 60 miles an hour when his machine suddenly buckled and dropped to the ground.

Bishop Was Ready for Them. A story is told of a certain Norman bishop, who preached so eloquently against the wearing of long hair before Henry I. and his courtiers, that they gave up on the spot and agreed to have their locks shorn. No sooner had they made their decision than the wise prelate, who had provided for just such a contingency, pulled out a pair of shears from his sleeve and soon removed the curls of the whole court.
