Stencils Used by Ancients. Movable characters were known to the ancients; they were used in teaching children to read. The ancients had also stencil letters, which they used to secure a regular style of penmanship. They even made use of plates, thus open-cut, containing an entire page; it was placed on the papyrus to guide the pens of children; "an excellent means," said Quintilian, "to learn them not to exceed the desired proportions." The Emperor Justinian (A. D. 518) could neither read nor write, an unexampled thing in one of such high rank. When it was necessary for him to sign his name, he had a sheet of gold, through which were cut the letters of his name. "Then," said Procopius, "placing this tablet on the paper, one conducted the hand of the prince, holding the stylus dipped in purple on the type of the different letters, and took away the writing furnished with his signature." The same thing is reported of King Theodoris and of Charlemagne.—National Magazine.

YUAN IS INAUGURATED.
Foreign Legations Not Represented—Imperialists Gaining.
Pekin—Yuan Shi Kai was formally inaugurated provisional president of the Republic of China in the presence of a great gathering of delegates, provincial envoys, military and naval officers and other prominent personages, in the new foreign office. Many foreigners attended the ceremony, but the legations were not represented.

Yuan Shi Kai, who was in military uniform, read a declaration promising faithfully to develop the republic, observe the constitutional laws, and retire when the national assembly appointed a permanent president. The affair was solemn—almost pathetic—and typical of China's transition.
Most of those attending were attired either in uniforms or European dress. The only touch of Orientalism was the presentation of the scarfs to Yuan by two yellow-robed llamas.

A report has reached Peking that Tung Kwang, the famous pass on the borders of Shensi and Honan provinces, has been captured by General Sheng Yuan, governor of the province of Shensi, before whom, if the report is correct, the provinces of Honan and Chili are now open country.
The report says that 1,000 republican cavalry and infantry have deserted to the imperialists under Sheng Yuan and that a large part of the republican army in the North is showing strong symptoms of reaction and may be affected seriously.
If the report is true, it is probable that the difference between the North and the South will be brought no nearer a settlement because of the inauguration of President Yuan Shi Kai.

GALE LASHES COAST.
Storm Bursts Pier and Wrecks Boats at Long Beach, Cal.

Los Angeles—The loss of a number of fishing vessels and two fishermen, the disabling of a steamer and the wrecking of the \$100,000 municipal pier at Long Beach sums up in part the damage caused by a terrific gale which wrecked the coast of Southern California. Much damage to trees and buildings was caused by the 60-mile wind at Avalon, Catalina island, San Diego and other places on the coast.
The weather has moderated somewhat, but a heavy sea is rolling. The weather was so rough in the channel at Avalon that the steamer Cabrillo could not make a landing there. Three inches of rain fell within five hours at Catalina.

The fishing boats were wrecked off San Diego when the storm was at its height. The hulks of the vessels could be seen in the surf off La Jolla, George F. Werner, of San Diego, and an unidentified companion, were the first victims of the storm. The surf cast up their bodies. It is believed that other lives were lost.
A dozen or more fishing vessels left San Diego before the storm and the two wrecks sighted probably were of the fleet. None of the fishing vessels has been spoken since.

MEXICAN CAPITAL FOR PEACE
Public Demonstration of Loyalty to Administration Made.

Mexico City—A big demonstration in favor of peace and in support of the constituted government was held here. Perfect order prevailed.
President Madero for nearly three hours reviewed the demonstrations from the palace and from time to time replied to impassioned speeches by the paraders. The speeches, while not laudatory of Madero, pledged him support in abolishing anarchy and expressed confidence in the government.
The crowd, which filled the zoccolo in front of the palace, is estimated to have numbered 20,000 persons.

Daredevil Vessel Reported.
San Francisco—The schooner Lillie, which arrived from Coos Bay, reported having sighted a derelict on March 5, at about longitude 126 degrees and 6 minutes west and latitude 40 degrees north. The wreck was apparently that of a three-masted schooner, floating bottom up. The masts and spars were towing behind. The exposed keel was about 100 feet long and the bottom was clean. Shipping men are at a loss to account for the wreck, as no vessel of that description is known to be missing.

Street Names Must Go.
London—Visitors to London have frequent occasion to note the quaint and frequently repellent names borne by streets and lanes of the great metropolis. Camberwell Borough Council is being petitioned to alter the name of Cut-Throat Lane to something less gruesome. Among long streets to whose present nomenclature objection has been taken, may be mentioned Asylum road, Beer lane, Dog Kennel Hill, Grundy street, Lizard street, Pickle Herring street and Frying Pan alley.

Kindness Brings Wealth.
San Francisco—His kindness in caring for a shabbily-dressed stranger who fell ill on a train near Santa Barbara several months ago brought riches to A. Weingarten, a traveling salesman, who is about to leave for Brazil to take charge of the immense coffee plantation of Manuel Arguello, the man whom he befriended.
Weingarten cared for Arguello when he fell in a fainting spell en route to Los Angeles.

Robber Shoots His Aide.
Denver—Eddie Seiwald, 19 years old, son of a Brighton, Colo., farmer, enraged by the conduct of his companion in their attempted hold up of a saloon in Valverde, a suburb of Denver, shot his companion twice, according to a confession which the police say they obtained from Seiwald. The wounded robber, without cause, shot two innocent victims, and all three will die.

MOTHER OF LARGE FAMILY
Tells How She Keeps Her Health—Happiness For Those Who Take Her Advice.

Scottville, Mich.—"I want to tell you how much good Lydia E. Pinkham's Vegetable Compound and Sanative Wash have done me. I live on a farm and have worked very hard. I am forty-five years old, and am the mother of thirteen children. Many people think it strange that I am not broken down with hard work and the care of my family, but I tell them of my good friend, Lydia E. Pinkham's Vegetable Compound, and that there will be no backache and bearing down pains for them if they will take it as I have. I am scarcely ever without it in the house.
"I will say also that I think there is no better medicine to be found for young girls. My eldest daughter has taken Lydia E. Pinkham's Vegetable Compound for painful periods and irregularity, and it has helped her.
"I am always ready and willing to speak a good word for Lydia E. Pinkham's Vegetable Compound. I tell every one I meet that I owe my health and happiness to your wonderful medicine."
—Mrs. J. G. JOHNSON, Scottville, Mich., R.F.D. 3.

When the West Awoke.
The Great West stirred in his sleep. Then he awoke and looked about him. "Talk about the caterpillar and the butterfly," he exclaimed; "I was the great American desert when I lay down for a half century nap, and I wake to find myself in the garden spot of the world!"

ARE WE FACING GERMAN CRISIS?
Renewal of Colombian Claims Seems to Have Backing.

Germany Would Buy Colombian Ports on Atlantic, Defying Monroe Doctrine of U. S.

Philadelphia—The staff correspondent of the Philadelphia Press at Washington says:
Is the United States to be faced with the possibility of war with Germany for the control of the Panama canal? Information which is causing the administration the gravest concern has brought out the fact that recent negotiations between the Kaiser's government and the government of Colombia have resulted in an agreement which contemplates the transfer to Germany of certain harbors on the Atlantic coast of Colombia within striking distance of the northern entrance to the canal.
Mr. Taft and his advisers have already taken steps to meet what they realize will, as soon as the facts are known, be regarded by the whole American people as defiance of the Monroe doctrine by both Colombia and Germany.

This startling information has become known since Secretary of State Knox sailed two weeks ago on his tour of Central and South America, and has been fully confirmed in well informed naval circles. It throws light upon the recent emphatic renewal of pressure brought to bear upon our government by Colombia for a prompt settlement of its claim for indemnity, now understood to amount to practically \$100,000,000. According to this information, Colombia, with the mailed fist of Germany behind her, is now backing up her demands with the threat that if our government does not meet her views, or at least agree to arbitrate, Colombia will dispose of these harbors, either by lease or by outright sale to Germany, thus assuring the latter power not only a base of supplies for the navy, but a foothold on American soil such as has long been coveted and planned for by the Kaiser.
It is this understanding with Germany, it is declared, that accounts for the "personal" letter of the late Colombian minister at Washington, Senator General Nel Ospina, to the State department, asserting that Secretary Knox would not be a welcome visitor to his country during the secretary's present tour. In inner circles in Washington, no doubt exists that there was a complete understanding between the government at Bogota and its representative here. If anything were lacking to confirm that view, it is furnished by the fact that the intimation that a visit from the secretary of state would be inopportune was renewed by the charge d'affaires of the Colombian legation almost immediately after the recall of Senator Ospina, a recall which, it may be asserted on the highest authority, was not demanded by this government, which from the first has professed to make light of the Ospina incident.

GIRL AVIATOR IS KILLED.
19-Year-Old Miss Falls to Death Trying for Pilot's License.
Paris—Suzanne Bernard, a 19-year-old girl, who was qualifying at Etampes in the third test for an air pilot's license, fell with her biplane a distance of 60 yards and was horribly crushed. She died 10 minutes afterwards.
The young woman had gone through the first two tests in a most successful manner. She showed such intrepidity in these tests that her companions urged her to be more prudent, and always make the turns to the left. She disregarded this advice, and in addition to steering carelessly made a turn to the right.

Fire Claims Five Lives.
Winnipeg, Man.—The International Harvester company's immense brick warehouse, filled with valuable machinery, has been destroyed by fire. It was close to the Canadian Pacific Railway station and the Royal Alexandra hotel, which were threatened by the flames. The north wall of the harvester building blew out, killing five men, three of them firemen. Several other persons were injured when a wall fell. The city power plant was damaged and half the city is in darkness.

200,000 Miners to Strike.
Berlin—Leaders of the Socialist Miners' union issued a proclamation declaring 200,000 miners would go on strike in the Westphalian coal district unless the mine owners reversed their decision not to accord the 15 per cent advance asked. The proclamation followed a meeting at which the owners' replies to the demands were discussed. There appears to be little prospect that the mine owners will accede to the men's demands and the efforts of the government to bring about mediation are declared by miners to be too late.

Smelters Will Continue.
Chihuahua, Mexico—Certain independent mine owners of Mexico have been informed that the mines and smelters of the American Smelting & Refining company will continue to operate, despite the revolution. Some of the independents have closed and others wish to because of shortage of supplies, and they desired that the big corporation should do likewise. An official of the latter company telegraphed that they would continue.

Suffragette Sent to Jail.
London—Mrs. Emmeline Pankhurst, leader of the militant suffragettes, and Mrs. Mabel Tuke, joint honorary secretary of the Women's Social and Political union, who on March 6 were remanded for one week for trial on a charge of conspiracy and inciting to commit malicious damage to property, have started a "hunger strike" at the Holloway jail, where they are now serving two months for rioting.

Unwise Comment.
How much wiser would a man appear if he reserved his comments. The other day a woman said, "I hear that Valentines lace is going to be the wear again." "Is it?" growled her husband. "I'll bet you an owl, then, it's something that doesn't cost a cent under 37 cents a yard." And his wife, feeling that he had a cinch, was silent, and would not stay in and call him.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

By No Means a New Fad.
"I am afraid Mrs. Wapping is a teardrop," remarked Mrs. Fletcher. "Indeed," said Mrs. Bluntstone, with a slight elevation of her eyebrows. "Some people take up every new fad that comes along."

Live Telegraph Poles.
In Nevada the telegraph poles in damp, low-lying situations have taken root and flourished. They are of cottonwood, and planted with the bark upon them. In some parts of Java, too, a native tree is used for the poles, and this also takes root, thereby resisting the attacks of the white ants or the inroads of natural decay.

Run-down
YOU SHOULD TRY **HOSTETTER'S STOMACH BITTERS**
