A Tonic, Alterative and Resolvent. The best remedy for Kidneys, Liver and Bowels. Eradicates Pimples, Eruptions and Disorders of the Skin. Purifies the Blood and gives Tone, Strength and Vigor to the entire system.

Riddle of the Sphinx.

The Sphinx—some sort of fabled monster—proposed a riddle to the people of Thebes, it is said, and murdered all who could not answer it. Oedipus finally solved it and in chagrin the Sphinx put herself to death. The riddle was as follows: "What goes on four feet in the morning, two feet in the afternoon and three at night?" The answer given by Oedipus was this: "Man; because he crawls as a child, walks upright in his full strength and walks with a staff when an old man."

WHEAT CROP TO BREAK RECORD

Greatest Yield Ever Known Is Promised Northwest.

Winter Satisfactory, Followed By Ideal Spring—All Sections Report Plenty of Moisture.

Portland — The Pacific Northwest will this year harvest the largest wheat crop in its history, if the weather conditions continue favorable. The acreage in the three states is greater than ever before, and the weather up to this time could scarcely have been improved. Therefore it is safe to say that the greatest crop the Northwest has ever had heretofore—about 65,000,000 bushels—will be exceeded by several million bushels. A crop of 70,000,000 bushels for 1912 is not out of reason. Last year Oregon, Washington and Idaho produced about 55,000,000 bushels, and a crop 20 to 25 per cent greater this year can easily be figured out.

Everything depends, of course, on the weather from now on. The winter conditions were entirely satisfactory and the spring has been an ideal one. During the last ten days perfect wheat weather has prevailed in almost every section. A few spots did not get much of the late rains, but they are small in extent, and at one or more points it was declared there was too much moisture, but on the whole the weather has been all that could be desired.

What the wheat farmers have to fear now is excessively hot weather next month. They are apprehensive lest it come at the time when the grain is filling in the early and heading in the late districts. If the critical period is safely passed the three North Pacific states will turn out their banner yield of wheat.

In Eastern Oregon prospects are flattering. Umatilla county farmers expect a crop of 5,000,000 bushels, as against 4,500,000 bushels last year. In Union county the acreage has been increased, and the prospects otherwise are better than in recent years. Gilliam, Sherman and Wasco counties report good conditions.

Throughout Idaho the outlook is bright. The soil is well saturated with moisture and the wheat crop is in better condition than it has been for years.

In Washington farmers everywhere report satisfactory prospects. The Whitman county wheat fields never made a better showing at this time of the year. A crop of 9,500,000 bushels is estimated in the county. Lincoln county expects its largest yield, and in Walla Walla the growth to date has been healthy with plenty of rainfall. Douglas, Garfield and Grant counties send similar satisfactory reports. In Stevens county the acreage is a fifth larger than last year, and prospects are fine.

SPEED OF TITANIC HIGH.

Latest Testimony Damaging to Officers of Lost Ship.

New York—New evidence purporting to show that the Titanic was going at full speed, with all but five of her 24 boilers lighted, on the night she met her fate, was given aboard the White Star liner Olympia by Fred Barrett, former chief fireman of the Titanic, but now of the Olympic, to Senator William Alden Smith, chairman of the investigating committee. Barrett said that he was in the forward compartment of the ship when she hit the iceberg.

"The water rushed in about two feet above the floor plates," said the fireman. "I jumped for the next compartment, No. 5, just as the watertight door closed. There were only two in the forward compartment who escaped. The rip was a long one. At the same time the red lights—danger signals—came up."

Barrett then explained that the signal had previously shown white, indicating full speed.

Yucatan Has Revolution.

Mexico City—A dispatch from Merida indicates that the disorders in Yucatan are growing. The attack of the Indians on Tekantoc last Saturday is said to have been barbaric in character, several persons having been killed and their bodies burned. The town was sacked and the railway station and several other buildings burned. After leaving Tekantoc the band went to Teya, where the municipal president was killed and the business houses sacked. A Turk is said to be the leader of the Indians.

Quake Hits Guadalajara.

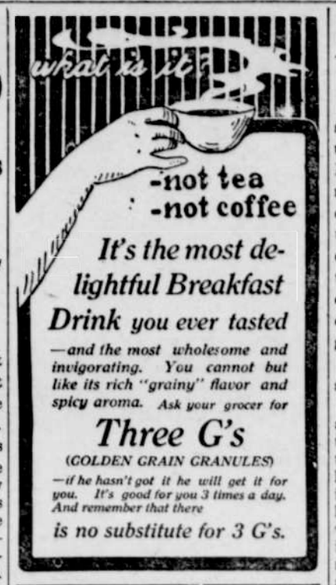
Guadalajara, Mexico — This city again was shaken violently by an earthquake at 10:15 o'clock Sunday night. The shock was the heaviest recorded during the present period of seismic disturbances. Many walls were cracked. Thousands of persons passed the balance of the night in the parks and gardens. A second shock, much lighter, came 20 minutes after the first. For more than two weeks since the first heavy earthquake, light tremors have been experienced at intervals.

Police Rescue President.

New York—President Taft attended church Sunday morning, then went for an automobile ride to Van Courtlandt Park, and later joined in the Fifth Avenue promenade. When walking in Fifth Avenue the president was recognized and within a few minutes 600 persons had surrounded him. Inspector McCluskey and half a dozen policemen had to escort him to the home of John L. Cadwalader, Henry W. Taft's law partner.

Hen Lays Double-Yolk Eggs.

Davis, Cal.—John H. Krider has a hen that has laid 12 double-yolk eggs in 15 days. In fact, she lays nothing else. The hen is a Buff Orpington, and Krider says she is the most remarkable hen he has ever known. Krider is a banker of this city.



Preached While He Slept.

Very curious was the case of Simeon Watson, a hard-working, industrious Englishman, aged about 39, of athletic habits and active temperament, who, about 1826, began preaching in his sleep. His trance or sleeping fit invariably lasted as long as the ordinary nonconformist service, which he was in the habit of attending. The attacks became more frequent as time went on, and he would go through the whole of the ordinary chapel service, praying, reading the bible and preaching.

Try Murine Eye Remedy for Red, Weak, Watery Eyes and Granulated Eyelids. No Smarting—Just Eye Comfort.

Conducts Sunday School in Jail.

Isaac Jones, retired whaler, steamboat man and soldier of Somerset, Pa., teaches what is probably the most unique Sunday school class in the country. For 20 years he has taught a class in the Somerset county jail. During that time six of his pupils, he is quoted as saying, have been hanged and one other has been convicted of murder.

The Average.

"Which of these clocks is right?" "I don't know. We've five clocks. When we want to know the time we add 'em together and divide by five, and even then we're not certain."—Punch.

Not of Value.

When people ask for bread and are given a stone it is never a precious stone.—Desert News.

WOMEN SHOULD BE PROTECTED

Against So Many Surgical Operations. How Mrs. Bethune and Mrs. Moore Escaped.

Sikeston, Mo.—"For seven years I suffered everything. I was in bed for four or five days at a time every month, and so weak I could hardly walk. I cramped and had backache and headache, and was so nervous and weak that I dreaded to see anyone or have anyone move in the room. The doctors gave me medicine to ease me at those times, and said that I ought to have an operation. I would not listen to that, and when a friend of my husband told him about Lydia E. Pinkham's Vegetable Compound and what it had done for his wife, I was willing to take it. Now I look the picture of health and feel like it, too. I can do my own housework, hoe my garden, and milk a cow. I can entertain company and enjoy them. I can visit when I choose, and walk as far as any ordinary woman, any day in the month. I wish I could talk to every suffering woman and girl."—Mrs. DEMA BETHUNE, Sikeston, Mo.

Murrayville, Ill.—"I have taken Lydia E. Pinkham's Vegetable Compound for a very bad case of female trouble and it made me a well woman. My health was all broken down, the doctors said I must have an operation, and I was ready to go to the hospital, but dreaded it so that I began taking your Compound. I got along so well that I gave up the doctors and was saved from the operation."—Mrs. CHARLES MOORE, R. R. No. 3, Murrayville, Ill.

Departure Approved.

"I understand your boy Josh is experimenting on the lines of perpetual motion." "Yes," replied Farmer Corntossel. "And I feel some encouragement about it. I thought for awhile that the only thing Josh was goin' to take in was perpetual rest."

70 Years with Coughs

We have had seventy years of experience with Ayer's Cherry Pectoral. This makes us have great confidence in it for coughs, colds, bronchitis, weak throats, and weak lungs. We want you to have confidence in it, as well. Ask your own doctor what experience he has had with it. He knows. Keep in close touch with him.

One of Ayer's Pills at bedtime will cause an increased flow of bile and produce a gentle laxative effect the day following. Formula on each box. Show it to your doctor. He will understand at a glance. Dose, one pill at bedtime, just one.

Made by the J. C. AYER CO., Lowell, Mass.

SUGAR DEAL CITED.

Telegram Shows Effort of Trust to Kill Competition.

New York—A copy of a telegram sent by Henry O. Havemeyer to Samuel C. Hooker, his personal agent at Denver, was introduced in the government's dissolution suit against the so-called sugar trust by Assistant District Attorney Knapp, to support the charge that Havemeyer had prepared to crush by competition the independent sugar plant of the Greeley Sugar company, then building. The telegram read:

"Go to Greeley and secure a good site on options."

Chester S. Morey, of Denver, chief agent of Havemeyer in acquiring control of Colorado companies, testified that the site was procured, and not long after this Havemeyer bought an interest in the Greeley company. A letter from Hooker to Havemeyer, written November 22, 1902, was then introduced. It suggested that Havemeyer rent the site for pasturage for a year and said that 4 per cent net returns could be realized if this was done.

The history of the companies was traced up to the time when they were merged in 1905 into the Great Western Sugar company of New Jersey, and to their dissolution into separate corporations in April 1907.

"Wasn't the elimination of competition in the purchase of beets the principal object of this consolidation?" asked Mr. Knapp.

"That was one of the objects."

Mr. Morey said there was never any competition among the Colorado factories.

"Our competition comes chiefly from the manufacturers in Utah and California," he added.

LIFT TOLL ON COASTERS.

House Exempts American Ships From Panama Canal Costs.

Washington, D. C.—By 100 votes to 90 the house refused to permit the imposition of tolls on American vessels engaged in the coast-wise trade and which will use the Panama canal. The action was taken during consideration of the Panama canal administration bill.

Representative Adamson, of Georgia, in charge of the measure, expressed confidence that the house would reverse itself when the bill is taken up for passage.

A sharp but ineffective attack was made on the provision in the bill prohibiting railroad-owned vessels from using the canal. Representatives Peters, of Massachusetts, Democrat, and Higgins, of Connecticut, Republican, protested that the proposed prohibition would apply not only to the canal, but would affect all vessels owned by railroads and work havoc to a great business built up along the Atlantic coast.

Both cited as an instance the passenger and freight steamers plying between New York, Providence and Fall River, Mass., all of which vessels are owned and operated by the New York, New Haven & Hartford railroad as part of their system.

ELK EXCLUDE SHEEP.

Borah Protests Against Encroachment on Grazing Lands.

Washington, D. C.—Senator Borah, of Idaho, is not enough of sentimentalist to believe in converting the forest reserves of the West into preserves for ranging elk, if that practice is going to interfere seriously with the sheep industry. The Interior department last winter distributed several elk from the Jackson's Hole country over various Western states, liberating them in different forest reserves. Commenting on this, Senator Borah, in the senate, made the following matter-of-fact statement:

"The national forest service, at the instigation of the biological survey, have withdrawn from sheep grazing in the state of Montana, in the Gallatin and Absaroka national forest, an area of about 450 square miles. This withdrawn land is estimated to be capable of carrying from forty to fifty thousand sheep, and now it is to be devoted entirely to the grazing of elk which overflow from the Yellowstone national park."

Farms Will Be Studied.

Washington, D. C.—Secretary of Agriculture Wilson has announced plans to be instituted for farm management study work in the North, for which both houses of congress have made provision in the agricultural appropriation. The federal government, through its gaents, purposes to make a comprehensive study of the farms of the country with a view to carrying to the farmer information which will show him why a certain branch of his industry is unprofitable and how he can make it pay.

Lorimer Case Hangs Fire.

Washington, D. C.—Amid speculation in the senate regarding the probable disposition of the Lorimer election case there were reports of plans for a determined effort to postpone the vote until the next session of congress. A probable delay was foreshadowed by developments growing out of Senator Lorimer's illness in Chicago. He telegraphed an appeal to have the determination of a date for a vote deferred until he could reach Washington.

Will Determine "What Is Beer."

Washington, D. C. — A personally conducted test of breweries throughout the country to determine just "what is beer" will be made by Drs. Doolittle, Mitchell and Dunlap, of the Pure Food board. The doctors, who have been working for a year on the "what is beer" question, received orders from Secretary Wilson, of the department of agriculture, to visit the big breweries and find out all there is to know about malting beer.

British Gunboat After Refugees.

Culiacan, Mexico—The British gunboat Algerine has arrived at Mazatlan preparatory to a cruise along the west coast of Mexico to pick up refugees.

FEDERALS FAIL TO DISLODGE REBELS

Five-Hour Fight at Rellano Brings No Results.

Orozco In Command at Critical Moment Resists Flank Movement —Casualties Small.

At the Rebel Front, Rellano, Mexico.—General Pascual Orozco's army of rebels fought off the government troops under General Huerta, who attacked the insurrectos stronghold. At the end of five hours' fighting, General Huerta's command was in retreat, leaving dead and wounded on the field. General Orozco does not believe the fighting is over, however, and expects a vigorous continuation of the battle.

The thundering artillery and infantry fire ceased shortly after nightfall, after perhaps the most spectacular battle fought on Mexican soil since the French invasion of the last century.

It is impossible to estimate the casualties, but it is known the federals lost at least five cavalrymen in a charge against the right wing of the rebel line near a point which General Orozco, who directed the rebel maneuvers, happened to be at the time.

It is now believed that the rebel loss in dead will fall short of 50, although this number may be increased when the field has been searched.

In 13 troop trains the federals moved up to within one mile and a half of Rellano and began a terrific shelling. The first few shots exploded within a few feet of the rebel troops, but killed only a few horses. One woman was killed in the town.

General Orozco came down from Jiminez to take personal charge of the fight just before the federals attacked.

General Salazar was in command of the first rebel line. The federal commands of Generals Trucy Aubert, Rabago and Telles and Colonels Villa and Urbina were engaged.

BURBANK LORE FREE.

Society is Organized to Forestall "Corner" on Knowledge.

San Francisco — To prevent the "commercializing" of the life work of Luther Burbank, the famous horticulturist, a Luther Burbank society has been organized and chartered by the state of California, with the definite purpose of seeing that the work of the great scientist is given to posterity without entail.

The society has no capital stock and no power to incur debts or to earn profits. Its purpose is solely to assist Luther Burbank in the dissemination of his teachings, so that the greatest number may profit in the greatest degree. It has an extensive membership, with names of nation-wide fame on the roll.

Burbank is the honorary president, and the name of Mrs. Pheobe Hearst immediately follows. The list, so far as it is prepared, concludes with Dr. Nicholas Murray Butler, of Columbia University. The membership is limited to 500 and by means of the moderate membership fee the society will make possible the production of books of a quality which will do honor to their author and the matter which they contain.

The aim is to place the wizard's knowledge in convenient book form at nominal cost before every farmer, gardener or horticulturist in the world.

The home of the organization is situated at Burbank's grounds at Santa Rosa and its activities will have his personal guidance and co-operation.

Wool Bill Not Settled.

Washington, D. C. — The senate finance committee, after a long wrangle over the wool tariff bill, has been unable to reach an agreement, and it is reported they have agreed to report adversely the Underwood bill as it passed the house. It had been expected that the committee would draft a substitute bill conforming to the finding of the tariff board, but this plan has been abandoned, the committee also refusing to report the Smoot substitute. In fact, no senator but Smoot favors the Smoot substitute.

60,000 Volts Kill Man.

Seattle—Ed. C. Reining, chief operator for the city lighting department at the Cedar Falls power plant, was instantly killed late Thursday when in some way as yet unknown he completed the circuit on a high-tension line in the watch house and 60,000 volts of electricity passed through his body. The circuit that killed Reining was reported open at both ends at the time of the accident, and electricians are unable to account for the accident. Reining was married two months ago.

Freighthandlers Will Strike.

Chicago — Freighthandlers in all parts of the country received notification that a general strike order had been issued by President P. J. Flannery, of the International Brotherhood of Railway Freighthandlers. The strike order was decided on a few days ago according to information given at the Freighthandlers,' headquarters, and the notification was immediately mailed to the different unions.

Coal Miners Again Work.

Philadelphia—After being idle for 44 working days, the 170,000 mineworkers throughout the anthracite fields of Pennsylvania have resumed work under the new wage agreement. In the Hazelton region, men engaged in stripping work struck for a 10 per cent increase in wages.

Amundsen to Seek North Pole.

Montevideo—Captain Raold Amundsen, the discoverer of the South Pole, who has arrived here, announced his intention to start from San Francisco in March or April, 1913, on an expedition to the North Pole.

For the LITTLE ONES

RIDDLES ARE OLD AS TIME

Two of Most Famous Conundrums Are at Least 3,000 Years Old—Entertainment for Evening.

It is a curious fact that boys are more fond of conundrums than girls are.

While all conundrums are riddles, all riddles are not conundrums, the term conundrum being used more for riddles which are based on some fancied resemblance, such as, "Why is a pig looking out of a second-story window like the moon?" and the answer is because it looks round. If anyone objects that the moon does not always look round, you can reply: "Neither does the pig."

Two of the most famous riddles are at least 3,000 years old. The first of which there is any record is found in the fourteenth chapter of judges, and was made up by Samson after his fight with a lion. He offered a prize to anyone who could solve it within seven days, but no one got it. It is recorded that his wife pestered him to tell her the answer, but he absolutely refused until the time was up, and many think that he never intended to tell it at all.

Bishop Whately never told the answer to any of his puzzles. If they were correctly guessed he would acknowledge that the solution was right; but if no one got the answer he kept it to himself, and some of his enigmas are still unsolved.

One of the chief entertainments in ancient times at any domestic gathering, such as a marriage feast, was asking riddles, and many persons spent their lives in devising them and selling them to the rich and great, just as some public men now get others to write their speeches for them.

MOTORCYCLE IS FOR WOMEN

English Method of Enclosing All Parts So That Skirts Are Not Caught or Spattered.

Although motorcycling is almost exclusively a sport or means of transportation for men in America, and young men at that, the makers of motorcycles for women are finding a ready sale in England. The method of inclosing all movable parts on a woman's motorcycle, so that there is no danger of the skirts being caught or spattered with oil, is shown in the accompanying illustration of a popular model, says the Popular Mechanics.

This machine is of the light-weight

English Woman's Motorcycle.

type, and is driven by a 1¼-H. P. motor, which is sufficient for ordinary requirements. The heavier machines are, of course, difficult for a woman to handle.

BOY WAS NECESSARILY SLOW

Small Boy, Late In Reaching Home, Told Mother He Led Turtle Instead of Carrying It.

An eight-year-old San Rafael boy was being lectured on obedience the other evening.

"I told you that you could play with the Wilson boys till five o'clock," said his mother. "Why didn't you come when I told you?"

"I did, mamma."

"Don't tell me a falsehood. Why didn't you come home at five o'clock?"

"I started home at five."

"Then you stopped to play on the way."

"No, mamma, sure I didn't."

"Do you expect me to believe that it took you two hours to walk half a mile? I think I shall have to punish you for telling me falsehoods."

"Honestly I started home at five o'clock, and came straight home."

The mother led the boy into the kitchen and took down the whip. He turned pale and tears welled up into his eyes.

"Now, sir, will you tell me the truth?"

"Ye-es, mamma; Charlie Wilson gave me a mud turtle—and I was afraid—to carry it—so I led it home."

Dolls In Siam.

Have you ever seen a Siamese girl kiss her doll? Well, you wouldn't know she was kissing it if you were not told, for she kisses it in the same fashion that grown up Siamese kiss and that is by touching their noses and drawing in a long breath. It is really funny, particularly as the dolls, except the father and mother dolls, wear no more clothes than the children themselves. The fathers and mothers wear strips of cloth wound round the middle of their bodies as the real people do. The dolls of the poor people are made of baked mud; but children of rich people have wooden dolls, which look much more like real dolls than the little mud figures

Oil on Troubled Waters.

"Pouring oil on the troubled waters" as a quotation is hundreds of years old, but it is only recently that it has been actually adopted as a means for calming real storms on the ocean. Within the last few months many of the seamen who navigate our own great lakes have begun to carry oil in bags on their vessels. These bags will be hung over the sides of the ship and the oil will be allowed to dribble out slowly and form a coating over the surface of the water. Its effect is to prevent the breaking of the waves, converting the sea into long, smooth swells.

Do You Need Help

For your poor, tired stomach?
For your lazy and sluggish liver?
For your weak and constipated bowels?
For your general run-down condition?
Then by all means—TRY

HOSTETTER'S STOMACH BITTERS

IT DOES THE WORK. AT ALL DRUGGISTS

Vipers Still Plague France.

One of the divisions of France, the department of Seine-et-Marne, has issued its snake killing budget. It shows that vipers are almost as numerous as ever before in the Ile de France. They are commonest in the forest of Fontainebleau, where one gamekeeper alone killed 1,818 in the course of last year. For this he was paid $125, and in all the department paid $550 in the year, being a reward of seven cents for each viper's head presented. Nearly 8,000 were killed during the year.

When Your Eyes Need Care

Try Murine Eye Remedy. No Smarting—Feels Fine—Acts Quickly. Try it for Red, Weak, Watery Eyes and Granulated Eyelids. Illustrated Book in each Package. Murine is compounded by our Oculists—not a "Patent Medicine"—but used in successful Physicians' Practice for many years. Now dedicated to the Public and sold by Druggists at 25c and 50c per Bottle. Murine Eye Salve in Aseptic Tubes, 25c and 50c.
Murine Eye Remedy Co., Chicago

Damages for Spoiled Beauty.

A curious judgment was given in a German court the other day. A little girl of three who was placed in a nursing institution had been bitten by the yard dog the bite leaving a scar on the cheek. The little one's guardian put in a claim, not in respect of the pain caused, but because the scar had lessened her chances of securing a husband when she became old enough to marry. The court upheld the guardian's claim, and placed the damages at $500.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Where Sailors Disagree.

On two topics the great trans-Atlantic steamship companies are not agreed. Some creep through a fog at a snail's pace. Others dash through it at topmost speed—the quicker out of it the better. Some insure heavily against loss by fire. Others carry all their fire risks themselves.

Liquid blue is a weak solution. Avoid it. Buy Red Cross Ball Blue, the blue that's all blue. Ask your grocer.

Unheeded.

"And those long, silent pauses in your speech—I didn't quite understand them?" "Perhaps not. Those were the points where I had written 'laughter' and 'applause' into my manuscript."

No thoughtful person uses liquid blue. It's a pinch of blue in a large bottle of water. Ask for Red Cross Ball Blue, the blue that's all blue.

Existence an Aim.

Life is a mission. Every other definition of life is false, and leads all who accept it astray. Religion, science, philosophy, though still at variance on many points, all agree in this, that every existence is an aim.—Mazzini.

Frequent Failing.

Some men talk so loud they attract attention and call it personal magnetism.—Atchison Globe.

DAISY FLY KILLER

placed anywhere, attracts and kills all flies. Neat, clean, ornamental, convenient, cheap. Lasts all season. Made of metal, can't spill or tip over; will not soil or injure anything. Guaranteed effective. Sold by dealers, or 6 sent prepaid for $1.

First Book on Education.

The first book on education ever written and printed in English was Sir Thomas Elyot's "Governour," published in 1531. Much that is done even at this day for the education of boys and girls in the schools was suggested in this book.

MEXICAN MUSTANG LINIMENT

CURED A CUT HORSE.

Fred DeNeffe, Marshall, Wash., writes "I have used Mexican Mustang Liniment for some time and am well pleased. One of our horses had a deep cut in her breast and we used all kinds of medicines without effect until we tried Mustang Liniment and it healed it up in less than 10 days." 25c. 50c. $1 a bottle at Drug & Gen'l Stores
