**Prize Radishes**  
Leslie Root wins the prize for radishes. He brought in this week, from his place near town, a bunch of as fine turnip radishes as we've seen grown anywhere. They were raised in new ground and received no especial care. One of them measured 6 1/2 inches in circumference.

Messrs. George Harth and Richard Brookhouse, of Ten-Mile, motored over from The Dalles on Tuesday and spent a few hours getting acquainted with us Mosierites. While here they paid the Bulletin office a call. Their object in the trip to Mosier was to present to the tax payers, petitions asking for an injunction to be placed on the county court, restraining it from carrying out its avowed intention of building a new court house, and also invoking the recall on the members of the county court, and giving their reasons for such actions. Mr. Harth is chairman of the Tax-payers League of Wasco county and is active in his efforts to secure a proper settlement of the county court house question. In another column will be found a letter from Mr. Harth, in which he makes a few plain statements about the question which is agitating the taxpayers of the county just now. The writer has the courage of his convictions and claims he knows whereof he speaks. The petitions which he and Mr. Brookhouse were circulating, were left in several public places in town for the taxpayers to read and sign.

**School Notes, District No. 64**  
There are eleven pupils enrolled: two in the first grade, four in the second, three in the fourth and two in the sixth.

Hester Lenox and Ted Harvey have been neither absent nor tardy during the school month just closed. Hester's attendance has been perfect since the beginning of the term.

Nearly all of the pupils have entered the Home Industrial Work contest. Alex Carlson, of the sixth grade, has received the highest number of credits—500 minutes. Ernest King, of the fourth grade, with 350 credits, ranks next. Then comes Ted Harvey, second grade, with 270 credits, and Elsie Carlson, of the first, with 195 credits.

When a pupil has credits to the amount of one full day, he may, upon making application to the teacher, be given a holiday, provided that not more than one holiday be granted to each pupil in any one month.

We are glad to receive this week the school notes from District No. 64. We are always pleased to publish the school notes and all news items from the surrounding neighborhood and would like to secure some one in each section who will send

in the local news of his neighborhood, early enough in the week to insure publication in that week's issue. We desire to make the Bulletin a newsy home paper and to do so we need the country as well as the town news, and we always appreciate items sent in from the country. Pupils in the schools are pleased to see their names in print on the roll of honor and it gratifies the parents. People like to read of the goings and comings and the doings of their neighbors, and we like to have them read.

And by the way, if any one reads this article who is not a subscriber to his home paper, we would be very glad to have him come in or send in his name and join our circle of readers. Don't always borrow the paper from a neighbor who is enterprising enough to want the news at first hand and has it coming to him every week; be independent and take it yourself. It costs only \$1.50 a year and we will be delighted to write you a receipt for that amount any old time. (This applies also to renewals and a few who are in arrears. We are just as tickled to see them.)
