Building Activity Brisk

Mosier has taken unto herself new life. Never has the building been more active and good carpenters are in demand.

In the line of building, the West warehouse comes first, as to size. Messrs. McLeod and McIntyre, of Portland, began operations Monday morning on the erection of the building and, with the aid of local carpenters, will rush it to completion.

E. A. Race has about finished the coal bunkers for the car of Rock Springs coal that stands on the track ready to be unloaded.

C. A. Hage is working steadily on his vinegar factory and expects to have it ready to take care of the surplus fruit this fall.

Dr. Robinson has under construction an up-to-date frost-proof apple house on his fruit ranch east of town, and Dr. Marcum is also building a similar one.

The prospects for Mosier's future are very bright and any one who is looking for an opportunity to improve his circumstances is cordially invited to come to Mosier and bask in the sunlight of her prosperity.

Patterson Turned Down at The Dalles

H. J. Patterson, the four-flusher horse doctor who put up a bluff last week about entering suit against the local Odd Fellows for time and expenses while imposing on the Mosier public, was properly turned down by several well known attorneys at The Dalles, when he approached them to take his "case."

Perhaps some of our readers may not know that it is contrary to a state law to allow certain noxious weeds to grow along the roadsides or on or adjacent to their property.

To the People of Mosier District.

On next Monday night the Immanuel Church of Mosier will hold its first annual congregational meeting, to which it extends cordial invitation to all who are interested in its work.

A little more than a year ago the original Baptist and Methodist churches federated their organizations, making provision in their articles of federation for members of any other Evangelical church who should care to come into fellowship with them.

In the general organization each denomination receives recognition and the benevolences are divided according to a pre-arranged plan. In this it differs

from what is commonly called a Union Church.

The work of the year has fully justified the venture and not only has a problem been solved for Mosier but other small places have been encouraged in seeking relief from the retarding and divisive influence of too many church centers.

After the year's experience it is the purpose of the constituent members of Immanuel Church to remain as one working force, at least until such time as the population of the community will warrant further church organization, and the members of the respective churches represented together with others of evangelical faith to come into the federation.

Mr. Hargreaves teaches on Thursday night and at Sunday School and preaches on Sunday morning at 11:35. He may be called upon on any day for any service in the line of church work by telephoning the Church Secretary--Phone 41.

A severe wind and hail storm in the Bakeoven district, in this county, last week, damaged the crops to the extent of \$20,000. W. H. Moody, who was in Mosier this week, and who has large holdings in the Bakeoven country, stated that his loss will approximate \$3,000.

Fractures Skull

On Wednesday morning last Mabel Yonish, the 10-year-old daughter of Mr. and Mrs. John Yonish, fell from the porch of the Morton residence, east of town, striking the back of her head on a rock eight feet below.

Dr. Robinson, who was immediately summoned, discovered that the child had sustained a depressed fracture of the skull and hurried her to The Dalles Hospital, where she was operated upon. Unless complications occur the little girl will ultimately recover.
