Let Us Read the Papers for You

Clippings of every kind and character from the press of the Pacific Coast furnished at reasonable rates.

DAKE'S PRESS CLIPPING BUREAU 422 S. Main St., Los Angeles, Cal.

Peculiar Case of Poisoning.

Metal poisoning from handling copper coins was the curious cause for death recently assigned at West Ham, England. The deceased, age twenty-seven, had been employed to collect coins from penny-in-the-slot gas meters, and his physician testified that the coins were often green with verdigris, which remained on the collector's hands and was absorbed through his habit of curling his mustache with his finger.

Sounded Like Gaelic.

A story is told of a certain mayor of Cork who headed a deputation to the emperor of the French and commenced an oration to his majesty in which he conceived to be the French tongue. "Pardon me," said the emperor, after he had listened to the speech with much patience, "English I know fairly well, but, I regret to say, I have never had an opportunity of studying the Irish language!"—Argonaut.

Red Cross Ball Blue, all blue, best bluing value in the whole world, makes the laundress smile.

Mahomet and the Mountain.

Mahomet made the people believe that he would call a hill to him and from the top of it offer up his prayers for the observance of his law. The people assembled; Mahomet called the hill to come to him, again and again; and when the hill stood still he was never a whit abashed, but said: "If the hill will not come to Mahomet, Mahomet will go to the hill."—Bacon's Essay "Of Boldness."

Queer Counting of Distances.

In the rural parts of Schleswig-Holstein people do not measure distance by miles, as we do, or by hours, as in other parts of Germany. They say that a place is a pipe, or two pipes, or three pipes off, according to the number of pipes one could smoke while walking there. Shorter distances are reckoned by dogs' barks; a village under a mile away would be two or three dogs' barks.

Formed Queer Alliance.

A pair of linnets made their nest in a beehive on a farm in Switzerland, and have succeeded in coming to an understanding with the bees, so that both branches of the natural world dwell in peace and harmony together. The birds and the bees use a common entrance to the hive.

Explained.

Dick—"What part of the family tree am I, muz?" Mother—"I guess you are one of the limbs, Dick." Dick—"Do you suppose that's what dad meant that morning when he said that I ought to be trimmed about every so often?"—Judge.

DAISY FLY KILLER placed anywhere, attracts and kills all flies. Neat, clean, ornamental, convenient, cheap. Lasts all season. Made of metal, can't spill or tip over; will not soil or injure anything. Guaranteed effective. Sold by dealers or 6 sent prepaid for $1.

HAROLD SOMERS, 150 DeKalb Ave., Brooklyn, N. Y.

Limit to His Foolishness.

Wife—You say I ought to practice economy, John. Now, what did your dinner downtown cost you today? Husband (a trifle weakly)—About three dollars. Wife—Heavens, John, three dollars just for a dinner? Husband (a trifle indignantly)—Well, that included a bottle of wine, of course. (More indignantly) You don't s'pose I would pay three dollars just for food, do you?—New York Sun.

The Coughs of Children

They may not cough today, but what about tomorrow? Better be prepared for it when it comes. Ask your doctor about keeping Ayer's Cherry Pectoral in the house. Then when the hard cold or cough first appears you have a doctor's medicine at hand. This cough medicine is especially good for children. No anodynes. No alcohol.

Many a child is called dull and stupid when the whole trouble is due to a lazy liver. We firmly believe your own doctor will tell you that an occasional dose of Ayer's Pills, sugar-coated, will do such children a great deal of good. Ask him.

Made by the J. C. AYER CO., Lowell, Mass.

HIPPETY-HOP.

Hippety-hop to the candy shop
To buy some chocolate drops;
Hippety-hop to the fruiter's shop
To buy some corn which will pop.

Hippety-hop to our home again,
With candy, pop-corn and popper;
Hippety-hop to the kitchen fire,
For each of us is a hopper.

FIGURE SEVEN IS MYSTICAL

Day on Which Our Creator Finished His Work and Rested—Many Other Interesting Facts.

On the seventh day God ended His work.

On the seventh day Noah's ark touched the ground.

In seven days a dove was sent.

Abraham pleaded seven times for Sodom.

Jacob mourned seven days for Joseph.

Jacob pursued a seven days' journey by Laban.

A plenty of seven years and a famine of seven years were foretold in Pharaoh's dream by seven fat and seven lean beasts, and seven ears of full and seven ears of blasted corn.

On the seventh day of the seventh month the children of Israel fasted seven days, and remained seven days in their tents.

Every seventh day the law was read to the people.

Solomon was seven years in building the temple.

In the tabernacle there were seven lamps.

Naaman washed seven times in the River Jordan.

Our Saviour spoke seven times from the cross, on which He hung seven hours, and after His resurrection He appeared seven times.

In the Apocalypse we read of seven churches, seven candlesticks, seven stars, seven trumpets, seven plagues, seven thunders, seven virgins, seven angels and a seven-headed monster.—Newark News.

BOYS THAT ARE IN DEMAND

Business Man Wants One Who Is Modest, Prompt, Pleasant, Industrious and Honest.

"What kind of a boy does a business man want?" repeated a shrewd, practical man of many concerns, the other day.

"Well, I will tell you. In the first place he wants a boy who doesn't know too much; business men generally like to run their own business, and prefer some one who will listen to their way, rather than try to teach them new kinds; secondly, they want a prompt boy—one who understands seven o'clock as exactly seven, not ten minutes past; third, an industrious boy, who is not afraid to put in a little extra work in case of need; fourth, an honest boy—honest in his service, as well as in matters of dollars and cents; and fifth, a good-natured boy, who will keep his temper if his employer loses his own now and then!"

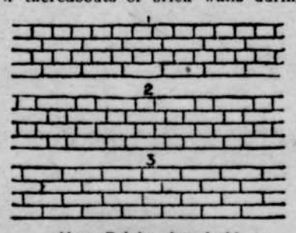
"But you haven't said a word about his being smart!" was suggested.

"Well, to tell the truth," was the rather hesitating answer, "that's about the last thing we worry over. The fact is, if a boy is modest, prompt, pleasant, industrious and honest, he's quite as smart as we care about—and that's a fact."

MANNER OF LAYING BRICKS

Surprisingly How Few People Outside of Building Trades Can Sketch the Proper Method.

Can you tell how the bricks of a brick wall are laid? If you are a town dweller you perhaps pass a mile or thereabouts of brick walls during



How Bricks Are Laid.

the day, yet it is surprising how few people outside the building trade can sketch bricks laid in a proper manner. Fig. 3 is the method most people will show, whereas the bricks are almost invariably laid in the styles shown in the first two sketches. Make a point of looking at several brick walls and see for youself.

Try It.

It is said the queen of Sheba tested King Solomon's wisdom by bringing before him an equal number of boys and girls, dressed exactly alike, and asking him to decide which was which.

The father of wisdom called for wash basins, and told the group to wash its hands.

The girls daintily rolled up their cuffs, but the boys splashed away without regard to neatness.

And there you are.

There was no match trust in that early day. If there had been any the great king would have enjoyed a simpler test. For the London Chronicle declares that when women strike a match she invariably scrapes it outward and away from herself, while a man scrapes it in and toward himself.

Fill your match box and try this.

SENATE SAYS ALL MUST KEEP OFF

Foreign Corporations Cannot Acquire Military Basis.

Vital Issues of Monroe Doctrine Discussed In Secret—State Department Not Consulted.

Washington, D. C. — The United States senate issued a warning Saturday to the nations of the world against encroachment upon the continents of North and South America.

The United States will not see "without grave concern," said the senate, any suitable naval or military site pass into control of a foreign corporation, when such possession might threaten the communication or the saftey of the United States."

So vital were the issues discussed in the Lodge resolution, which set forth the policy of the United States, as to points situated like Magdalena Bay, in Lower California, that the doors of the senate were closed for three hours while the resolution was debated in secret session.

It finally passed with only four votes against it. Notwithstanding the comparative unanimity of the senate upon the note of warning, it is understood the measure did not have the official indorsement of the administration. It was framed entirely outside the State department and it is understood the executive branch of the government was not consulted with regard to the senate's pronouncement.

The resolution arose from the reported attempt of a Japanese syndicate to secure land about Magdalena Bay. In the form finally adopted by the senate it declares against the acquisition of any threatening location by a foreign corporation, "which has such a relation to another government not American as to give that government practical power of control for naval or military purposes."

DYNAMITERS FOILED.

Robbers Get Safe From Mine Office But Are Driven Off.

Baker, Or.—Masked men broke into the office of the Underwood Placer Mines company at Cornucopia, rolled down an embankment the safe containing gold nuggets valued at thousands of dollars, at 1 Saturday morning and dynamited it.

They were interrupted by Foreman Charles Camel, of Walla Walla, who is in charge of the plant, and fired several shots at him, but he escaped with a slight wound and called help and frightened them away without their booty.

Mrs. R. S. Bisher, telephone operator, who Friday saved Halfway from a serious fire by calling out the farmers and townspeople, was appealed to and she rang people out of bed and urged them to start in search of the safecrackers.

The entire Pine valley was notified by breakfast time and parties passed the day in search. A. C. Stephens, deputy sheriff of Baker county, in that district. suspected two men and telephoned to Baker for aid, but as Sheriff Rand could not cover the 90 miles to the mine in time to help, told him to arrest the men. They have not been apprehended yet.

Ship and Whale Collide.

San Francisco—A giant whale collided with the schooner J. H. Bruce Saturday night off the coast between Point Reyes and the Farallona Islands. A part of the forward rigging of the vessel was torn away by the impact with the body of the leviathan and when the schooner reached port portions of the flesh of the whale and quantities of blood were scattered over the deckload and the forecastle head.

The sea animal was sighted by the lookout when the vessel was not more than 300 yards away. The course was altered, but the whale kept in its path.

Nicaragua Asks for Help

Panama—Manuel E. Velasquez, the Nicaraguan minister here, said he hoped the friendly offices of the United States might stop bloodshed and restore peace to the Nicaraguans. News that President Adolph Diaz, of Nicaragua, had dismissed General Luis Mena from his office as minister of war and imprisoned him and that Mena's son, the military commander of Granada, is in control of Granada, Nandiame and Masaya, where General Mena had stored big quantities of war munitions, is confirmed.

Chicago Strike Imminent.

Chicago — Chicago street car men favor a strike by a vote of 8939 to 171 unless their demands for higher wages and improved working conditions are granted. Immediately two conferences were arranged with the street railway officials, when a final effort will be made to settle the dispute peaceably. President Mahon said: "The men expressed their will on the question of a strike and now it is up to the companies to meet the demands. It is going to be a fight to the finish on the part of the men."

Cotton Measure Passed

Washington, D. C.—The house has passed 156 to 72, the cotton tariff revision bill, which the Democratic majority asserts will reduce the duties on cotton and cotton manufactures by approximately 21 per cent. The measure is identical with that vetoed last year by President Taft on the ground that it was not based on official information. House members believe the senate will pass it and put it up to the president again.

Thirty-Two Automobiles Burned.

San Francisco—Thirty-two automobiles were destroyed here in a fire that burned out the body factory of Albert E. Lattimore. The damage is estimated at $100,000. With nine exceptions the machines were privately owned. The fire department has no knowledge of how the blaze originated.

JAPAN MAY BE WARNED

Vigorous Resolution Reaffirming Monroe Doctrine Expected

Washington, D. C.—The vigor of the terms that the senate shall use in declaring that no foreign country shall establish a naval base at Magdalena Bay, or at any other point on the American continent, will be the subject of consideration by the foreign committee of the senate.

Within a day or two, it is believed, the senate will be called upon to adopt a resolution stating in unequivocal terms that the Monroe doctrine or the settled policy of the United States requires that no foreign power be thus permitted to secure a military or naval foothold in the Western hemisphere.

Senator Lodge, as chairman of the subcommittee that investigated the rumor of a Japanese purchase of 4,000,000 acres of land on Magdalena Bay, will make a formal report to the foreign affairs committee, recommending that the United States reaffirm the policy known as the Monroe doctrine in terms that cannot be misunderstood by any foreign power.

The senate investigation began as the result of reports that a private Japanese syndicate was attempting to control a vast tract about the Lower California bay, long regarded as the best naval base on the Pacific Coast. The correspondence submitted to the senate in April and May by President Taft and Secretary of State Knox indicated that the United States had no intimation that Japan, as a government, was behind the attempted purchase or that it intended to make use of the land as a military or naval base.

It is understood that the subcommittee headed by Senator Lodge has found no evidence of the connection of the Japanese government with the attempted purchase of the big tract of land in Mexico.

To make the position of the United States clear, however, the majority of the committee will propose that congress declare that this nation will not permit, without a protest, the establishment of any foreign power at a point where it could threaten or endanger the safety of the United States.

The subcommittee consists of Senators Lodge, Root, Sutherland, Rayner and Hitchcock.

HIGH LIVING SCORED.

Luxury Attacked By Senator Burton as Main Cause.

Washington, D. C.—Senator Burton, of Ohio, explained to the senate his opinions as to the cause of the present high cost of living. The manifest and important causes, he said, were the "phenomenal progress of recent years, the striking inequality of this progress in different lines of human endeavor and the tendencies to extravagance and waste and to diminish productive energy by a large part of the population."

"Neither the Payne-Aldrich tariff law nor any other similar measure was responsible for the general high prices," he declared, "for the variations in prices have been so very considerable, both in the way of increase and decrease, as absolutely to disprove any inference that the change in prices has been due to the tariff of 1909 or to any other tariff act."

He exonerated the "trusts" and "large combinations of capital," declaring that a complete monopoly in any particular article affords a chance to increase its price, but that the same result is apparent when separate producers maintain an agreement as to prices.

"One of the serious influences tending to increase prices," he asserted, "is that of price agreements of various sorts. It was one of the purposes of the Sherman anti-trust act to prevent practices of this sort. However, there can be little doubt that this practice still continues."

Another "device" resorted to to eliminate competition, he declared, "was that of hiding behind the patent right." He referred to a recent Supreme court decision under which the "user of a patented article may be required to buy supplies of a certain make and pay the price imposed."

New Drug Law Proposed.

Washington, D. C.—A bill by Representative Stanley to define more specifically the terms "misbranded," as used in the pure food laws, was reported favorably by the house commerce committee. The measure would make it illegal to sell any drug under the name of some other article; make compulsory the printing of the quantity or proportion of alcohol, morphine or other narcotics in drugs offered for sale and prohibit the printing on labels of false curatives and therapeutic claims.

Some Profits on Sugar.

San Francisco—Ownership of one half of the common stock of the Western Sugar Refining company—the John D. and A. B. Spreckles concern of San Francisco—has netted the Havemeyer interests in the American Sugar Refining company $12,950,000 in dividends in the past 21 years. For all but two years of that time these payments were made on an investment that represented only $500,000. More than $12,000,000 of the amount has been paid since 1893. The first payment was on October 21, 1891.

Turks Seek Peace Pact.

Constantinople—The Turkish government is willing to enter into peace negotiations with Italy if they are conducted in a manner compatible with Turkey's honor and dignity. This was announced in the chamber of deputies here during the reading of the new ministerial proclamation. The government censured the interference of the military in politics and declared it proposed to take vigorous measures to counteract it.

Hill Men Make Record.

Albany, Or.—By laying four miles of track in nine hours and 11 mintues, the Oregon Electric broke all known tracklaying records. It is centain that this is by far the best record ever made in the Pacific Northwest, and so far as known it has never been equaled in the entire country.

OROZCO SPURNS AMERICAN NOTE

Rebel General Refuses to Recognize United States.

Receives American Consul Only as American Citizen—Two Americans Found Murdered.

Mexico City—Two Americans have been hanged near Cananea, Sonora, presumably by Mexican rebels. Their bodies were found Thursday and the incident was reported immediately to President Madero by the governor of Sonora. The governor has ordered an investigation. He believes the two men were executed by rebels in order to precipitate American intervention. The victims have not been identified.

Juarez, Mexico—General Pascual Orozco, commander-in-chief of the Mexican rebels, coolly declared that he did not recognize the United States government. He made the remark to Thomas Edwards, American consul here, who called at the rebel leader's headquarters to deliver a message from Secretary of State Knox.

The message from Washington concerned the treatment of the American settlers in Northern Mexico by the rebels, growing out of the disarming of colonists last week.

General Orozco told General Edwards that he did not regard the American as a representative of the United States, which government, Orozco said, he did not recognize. However, he was glad to see Mr. Edwards, he said, and to receive him as an American citizen. Orozco accepted the message from the American consul without further comment. Edwards then left the room.

JAPAN AGAIN BUSY.

New Emperor Takes Reins and Subjects Resume Tasks.

Tokio—Business in the capital and generally throughout the country, which came to a standstill with the death of the Emperor Mutsuhito, has been resumed, Emperor Yo Shihito having expressed the desire that there be no further cessation, owing to the

YOSHOHITO, EMPEROR OF JAPAN

losses entailed on the poor people and the interference with international exchanges.

Emperor Yo Shihito was kept busy throughout Thursday, during which time he issued an edict proclaiming his accession to the throne, which he read before a vast concourse of high officers. He also proclaimed his succession to the command of the army and navy.

The Japanese foreign office has notified the foreign powers that the imperial birthday has been changed from November 3 (Mutsuhito's natal day) to August 31, Yo Shihito's birthday.

After the farewell taken of the late emperor's body by the members of the imperial family, the body was deposited in a casket with a quadruple covering, the outer one measuring nine feet by four, and was then placed in a special mourning chamber.

On his way to the Aoyama palace, where it is understood he will reside until after the funeral, a great ovation was given Emperor Yo Shihito, immense crowds gathering along the streets, where they stood with bared heads.

Woman Immigrants Needed.

Honolulu—"Equal immigration for women," was the substance of a proposition broached here by Dr. Charles W. Eliot, president emeritus of Harvard University. Dr. Eliot, however, was looking at the subject not from the standpoint of women's rights, but as part of the study of the influx of foreign people into the United States. Dr. Eliot advocated laws which would prevent a preponderance of more than 5 per cent of men over women in any race entering the country.

Strike Riots Fatal.

London—Seven strikers were shot, one of them dying later in a hospital, and 20 others seriously wounded by sticks or stones, as the result of rioting at Victoria and other docks in London Thursday. The chief encounter occurred at the Victoria docks, where 2000 of the laborers who had been on strike for more than ten weeks appeared at the docks in compliance with the manifesto of the Dockers' Federation ordering them to resume work. They found their former places occupied by non-unionists.

Newport Yields Halibut.

Newport, Or. — Thursday morning the launch Ollie S. went out on a prospecting trip for halibut banks and succeeded in locating its object about 16 miles southwest by south from this bay. About two hours were spent fishing and 17 halibut were taken. It has long been known that fishing banks lay southwest of this place. Captain Carner, of the Ollie S., says the catch of fish was limited only by the small quantity of bait taken along.

REDUCE YOUR LIVING EXPENSES

Eat Golden Cereal Foods and recommend them to your acquaintances. You get better quality and more for your money. They are made in your home state from the best Oregon Oats and Wheat. Large packages contain a Handsome Premium and all goods are guaranteed. Ask your grocer.

FOR SALE—80 A. NEAR VANCOUVER, B. C., Can.; 6 a. cult.; house, barn, hennery, incubator, outbldgs., 2 a. fruit orchard, etc. Allen, Box 319, Chicago.

Foolish Waltzing Contest.

An extraordinary waltzing watch in which eight couples competed took part at Allessandria, Piedmont, Italy. The dancers commenced at 10 o'clock in the evening of the 25th instant and did not cease until they were compelled to do so from exhaustion. At midday on the 26th, when there remained only two couples in the contest, the jury ordered the termination of the match, which had lasted 14 hours, and Regaldi, who was adjudged champion, fainted immediately afterward.

How Taste Is Cultivated.

People who live in climates where malaria abounds, frequently have to take so much quinine that they get to love the taste of it, and to take it daily, even when they do not need it, just because it tastes good to them. And yet quinine is one of the bitterest of drugs and these same people, did they move away from the malaria district for a few years, would soon get to detest the taste of it.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Chinese Children Like Paris.

Recently a number of Chinese children have been found in the streets of Paris and taken before the magistrates as vagabonds. These children were brought to France by showmen to perform as acrobats. After a few months, their performances having lost their novelty and ceased to attract, the managers abandoned them. They have been taken to the Chinese legation to be sent home. But they don't want to go home. The beautiful city of Paris is more to their liking.

Clocks Run by Fan Motors.

Fans actuated by currents of air have from time to time been used as motors for running clocks. One, by Lepaute, is in the Louvre, Paris. Benjamin Hanks, of Litchfield county, Connecticut, patented one in 1783. In a more recent patent the weight is wound up by the current of air in a chimney which is stopped by a self-acting brake as the weight nears the top of its course.

Red Cross Ball Blue will wash double as many clothes as any other blue. Don't put your money into any other.

Get His Knowledge First Hand.

Benson J. Lossing, whose historical collections were sold in New York city recently, was a historian of the old school, whose methods were yet in a way up to date, not to say journalistic. He traveled many thousands of miles in gathering material for his books, conversing with old settlers and descendants of revolutionary heroes and making sketches on the spot of battlefields and scenes of historic interest.

A Bad Spill.

"Here's a young woman that was left half a million dollars merely for spilling a little sunshine into an old man's life." "Her experience is more fortunate than mine. I once spilled a cup of coffee into an old man's lap and he cut me out of his will altogether."

To Break in New Shoes.

Always shake in Allen's Foot-Ease, a powder. It cures hot, sweating, aching, swollen feet. Cures corns, ingrowing nails and bunions. At all druggists and shoe stores, 25c. Dont accept any substitute. Sample mailed FREE. Address Allen S. Olmsted, Le Roy, N. Y.

Snail Culture Profitable.

French farmers find snail culture a profitable undertaking. As many as 500,000 "first quality" snails, the price of which throughout the year averages $1.70 a thousand, can be reared on an acre of land. They have to be fed only once a day, preferably in the evening, and though extremely voracious are by no means fastidious. After a fall of rain, which seems to sharpen their appetites, a bed of 100,000 will demolish a barrow load of cabbage in a very short space of time.

Oldest City in the World.

Doctor Harkov, a Russian savant, once affirmed that Samara, on the right bank of the Tigrus, near Bagdad, is the oldest city extant. Relics now discovered show that Samara flourished before the arrival of the Semites in Chaldea or Mesopotamia, 4,000 B. C.

Being Practical.

Practical people are wise people. Genius may create brilliant ideas, and be of a very active turn of mind, but money makes the mare go, and what practical people really wish is to have a pot, to have that full of potatoes, and to have fire enough to make the pot boil.

Quite Too Much for Used Words.

The value of advertising was pointed out to a man with a budding business, and he agreed to give a writer $50 for a full page. The copy was submitted and the merchant looked it over coldly. "Fifty dollars is too much," he commented. "You've used a lot of words I've seen before."

MEXICAN
MUSTANG LINIMENT
For Sprains and Bruises.

B. Street, Cedarville, Cali., writes: "Have used Mustang Liniment a number of years on stock for cuts, sprains, bruises, etc., with best results. The boys on the ranch here use it for rheumatism, lumbago, sprains, cuts and burns with the most satisfactory results. In fact we use it on man or beast as the best remedy we know of."

Judge and "Barmaid's Blush."

Judicial ignorance is generally assumed, but there are occasions when a judge is honestly lacking in knowledge. The other day a witness in an Australian court casually mentioned that a certain thing occurred just after he had a "barmaid's blush." Judge and counsel were for the moment "stuck up" by this hitherto unheard of phrase, but the fact was gradually elicited that it meant a drink of compounded beer and raspberry vinegar. —London Chronicle.

Chemical Caterpillars.

The work of former investigators, Tichomorrow, Toyama and Kellogg, has been substantiated by Mr. Ripley of the department of biology, Trinity college, Hartford, Conn. Mr. Ripley has produced caterpillars from unfertilized eggs by the action of sulphuric acid, and has therefore carried one step farther the investigation of his predecessors in the production of larvae.

Sunshine of Life.

Those who bring sunshine to the lives of others cannot keep it from themselves.—J. M. Barrie.

WHERE DOCTORS FAILED TO HELP

Lydia E. Pinkham's Vegetable Compound Restored Mrs. Green's Health—Her Own Statement.

Covington, Mo.—"Your medicine has done me more good than all the doctor's medicines. At every monthly period I had to stay in bed four days because of hemorrhages, and my back was so weak I could hardly walk. I have been taking Lydia E. Pinkham's Vegetable Compound and now I can stay up and do my work. I think it is the best medicine on earth for women." —Mrs. JENNIE GREEN, Covington, Mo.

How Mrs. Cline Avoided Operation.

Brownsville, Ind.—"I can say that Lydia E. Pinkham's Vegetable Compound has done me more good than anything else. One doctor said I must be operated upon for a serious female trouble and that nothing could help me but an operation.

"I had hemorrhages and at times could not get any medicine to stop them. I got in such a weak condition that I would have died if I had not got relief soon.

"Several women who had taken your Compound, told me to try it and I did and found it to be the right medicine to build up the system and overcome female troubles.

"I am now in great deal better health than I ever expected to be, so I think I ought to thank you for it."—Mrs. O. M. CLINE, S. Main St., Brownsville, Ind.
