SELF-SETTING PLANES
In Vineland, N. J.
Send trial where not kept. Sold in the large Coast Cities. Portland dealers sell them. One now.

Element of Decay.
Indirect influence had its nearly perfect work in the Persian empire, where the Queen Mother was permitted to exercise an injurious influence over the king, the court, and the empire. It was one of the tendencies which leads Sayce, the historian, to say, after touching upon it: "In short, the empire contained within it from the first all the elements of decay."

Wisdom in Action.
The times are waiting for men who shall serve and not merely inquire; strive and not merely investigate; give to their age and their kind not so much learning in bulk as wisdom in action; great doing as the only true fruitage of great thinking; the consecration to the uplifting of one's fellow-men of one's best rather than the conserving by mere culture of one's self.—Henry Potter.

Blessed Sympathy.
Sympathy with animals blesses and humanizes men and women. To get into real relations with an animal is a liberal education. It is something to be really interested even in a plant and to observe the working of life in any sphere not our own. How much more when that life is directing a personality which consciously looks up to us and will love us if we will let it.—Christian Register.

Longevity in French Villages.
A remarkable record of longevity is to be found in some of the rural parishes of France. In the village of St. Thomas de la Flèche there have been only fourteen parish priests in three hundred years, the fourteenth being still in possession. The parish of St. Germain du Val, in Paris, has had only three pastors in one hundred years, while that of Givry en Argonne has had but five in 130 years.

No Wonder.
Nerve Specialist—My dear sir, I can't understand your case at all. Here you were practically cured a few days ago and now your nerves are in a frightful shape again. Have you had a sudden shock of some kind? Patient—I received your bill yesterday.

The Most Original Authors.
The most original modern authors are not so because they advance what is new, but simply because they know how to put what they have to say as if it had never been said before.—Goethe.

MEXICAN MUSTANG LINIMENT
The Household Remedy.
John Lind, Vets. Unit, writes: "We have been using your Mexican Mustang Liniment in our family ever since 1880 and find it to be a good article to have in the house and across the country. I have recommended it to many of my friends who have also had the same very valuable."

DIRTY EGGS CAUSE BIG LOSS

Condition Brought about by Allowing Broody Hen in Same Nest With the Layers.
While there are a few egg producers who take the best of care of their product, the average farmer considers the egg produced on the farm a by-product and makes very little provision for their care, aside from gathering them. A large loss is caused by dirty eggs, the number being enormous and according to the estimate of Secretary Wilson of the department of Agriculture this money loss to the farmer in the United States amounting to about \$5,000,000 annually.
This loss is very largely brought about by not gathering the eggs often enough. In wet weather more dirty eggs are found than at any other time. This is caused by the fact that the hen's feet are often covered with mud or other filth, and in going on the nest to lay she soils the eggs already in the nest.
An insufficient number of nests is often the cause of many of the dirty eggs found. Eggs are laid on the ground and around the hay and straw stacks, and becoming stained, are classed as "dirty." Again, when too many eggs are allowed to remain in a nest some are broken and many of the others become smeared with broken yolks. This condition is often brought about by allowing the broody hens to use the same nests with the layers. On a farm where one nest to every four hens is provided and the nests are kept clean and well bedded, it is found that very few dirty eggs are produced.
After gathering the eggs, care should be taken not to put them where they will become heated, or near oil, onions or other vegetables, as they readily absorb odors.
Although dirty eggs may be perfectly fresh, they invariably sell as "seconds," and when but a few dirty eggs are mixed with an otherwise fresh, clean lot, they materially decrease the price of the clean eggs.

PREPARE HORSE FOR SPRING

Animals Should Be Hitched for Short Time Each Day and Amount of Work Gradually Increased.
As the time approaches for the heavy work to begin, the horses should be hitched for a short time each day, and the amount of work gradually increased as they become hardened. It is necessary to not only harden the muscles of the horse, but to harden the shoulders to the collar as well.
There are a variety of feeds, all of which are well suited to the needs of the horse, and will give satisfactory results when judiciously used. For a long time oats and timothy hay have been considered a standard for working horses, and I think there is nothing better, says a writer in the Farm Progress.
Timothy is not very palatable. Horses are not likely to gorge themselves with it, and oats, having large, coarse hulls, are bulky, and as a result they become more thoroughly mixed with saliva during the process of mastication, and when they enter the stomach are more readily acted upon by the digestive juices. Because of this fact a horse is less subject to deranged digestion and colic caused by careless or improper feeding.
Good, pure water is important, and this the horses should have in plentiful supply at all times.
Providing Dry Crops.
Set your brood coops a few inches above the surrounding ground to insure perfect dryness. A coop that is thus treated will always be dry if it rains and water proof. Make all coops wind and water proof with tar paper. There is nothing so harmful to young chicks as dampness. Bank up the coops and dig trenches, so all water will run away from them. Many coops are set so that the water that falls on their roofs and the surrounding ground runs beneath them. No hen can keep a brood warm in such coops. Any coop will get wet in rainy weather if the floor is lower than the surrounding surface of the ground.
Lime Will Sweeten the Soil.
When green-manure crops are plowed under, there is more or less tendency of such material to sour the land, and applications of lime after plowing under such crops sweeten the soil and secure a more favorable condition for the growth of clover. It is very important to work in clovers as often as possible, and a sweet soil is necessary to get good results with them.
Cow to Feed to Advantage.
When feed is scarce or high in price do not stuff the old stripper to bring up her milk flow. A spring fresh cow can rarely be made to give a good flow of milk at this time of the year. Milk this cow if you want to, but it is not worth while to try to force her by feeding. The cow fresh this fall or the cow coming fresh now is the one worth feeding.

Influence of Good Cows.
It would be easier to keep good men on the farm if the dairy farmer would keep better cows. A man appreciates the opportunity of handling good stock, and he realizes that some responsibility is placed upon him if he knows that nothing but valuable and profitable cattle are kept.
Weeds and Bad Roads.
Quite often the worst stretches of the country highway during the winter months are caused by the roadside weeds that were left standing and served to catch the drifting snow.
Encouraging Disease.
Old rotten apples, plums, grapes and prunings serve as excellent winter homes for many insects and bacterial diseases. These "mummies" and prunings should be gathered up and burned.
Right Matting.
The right matting now is like buds that gradually unfold in the spring time and ripen into richness of fruits the coming fall.

ACQUIT DARROW IN 34 MINUTES

Jury in Famous Bribery Trial Agrees Quickly.

Remarkable Scene Follows, Jurors Embracing Defendant and Judge Congratulating Him.
Los Angeles—Carence S. Darrow was acquitted Saturday of the charge of bribery by a jury, which was exactly 34 minutes considering the case. Notwithstanding the verdict in this case, according to District Attorney Fredericks, Mr. Darrow's ordeal is not over. Fredericks declared he would insist upon the trial of the lawyer on a second indictment.
As he sat in a cafe a few blocks from the scene of his trial and acquittal, surrounded by a few intimate friends and finding more relief in the perusal of scores of congratulatory telegrams than in his luncheon, Darrow apparently was unconcerned in the statement of the prosecutor. Although declining to discuss the threatened second long ordeal, he said he was too happy to feel alarmed at anything.
Mr. Darrow was showered with telegrams from all parts of the country, which began pouring in within an hour after the verdict was given to the world. They came from labor organizations, leaders of organized labor, intimate friends and many of whom he does not know. Most of them came from Chicago, his home and the scene of most of his professional activities for a quarter of a century.
The court room scene which followed the reading of the verdict, just 34 minutes after the jury had retired, was one that had no parallel in the court annals of this city. Jurors whose plegmatic countenances had given no hint of their feelings throughout the three months and more which elapsed since the trial began, embraced the man they had tried and with tears running down their cheeks declared it was the happiest day of their lives.
Court officials, including Judge Hutton and the half dozen bailiffs, joined in the congratulatory remarks. Darrow, to whom the trial was a continuous nervous strain, stood speechlessly happy with one hand on her husband's and with the other wringing those of the jurors.
FEDERAL ADVANCE SLOW.
Mexican Rebels Leave Big Job for Railway Repairers.
Juarez, Mexico—It is considered by railway men that federal troops cannot occupy Juarez before next Monday at the earliest date. In advance of the federal army, under Generals Rabago and Tellez, is a repair train, and two trains left Juarez to repair the road from this end.
Determined to have some vestige of civil government, the citizens of Juarez met and named three commissioners, each with equal power of ballot. In this way Juarez bears the distinction of being the only city in Mexico with a commission government.
Infantile Plague Serious.
Sacramento, Cal.—According to a statement issued from the office of the state board of health, there have already been 60 cases of poliomyelitis, commonly known as infantile paralysis, so far this month. Most of the cases were reported from Southern California, although there were two cases found in Stockton and one in San Jose. In Los Angeles city there were 43 cases and in Los Angeles county 48.
During July there were 188 cases in all and 35 deaths. In Los Angeles county there were 152 cases and 28 deaths. In June there were 31 cases and five deaths.
Wild Buffalo Flourish.
Washington, D. C.—Lieutenant Colonel Brett, commanding the Yellowstone National Park, has reported to Secretary of the Interior Fisher that his men have seen more buffalo in the wild herd in the park recently than for ten years. They counted 48 buffalo, he said, all of which appeared to be in fine condition. The tame herd which is kept in an enclosure in the park, said Colonel Brett, now numbers 144. Nearly one half of the buffaloes in the United States are in the Yellowstone park.

STARTS CLEARING-HOUSE PROBE

Attorney-General Wickersham Investigates Money Changers.

Washington, D. C.—A collateral phase of the so-called money trust, it developed recently, is being investigated by Attorney-General Wickersham.
The inquiry, which may affect clearing-house associations throughout the country, revolves about the rule of the New York Clearing-House Association requiring its members to charge a specified sum for the collection of out-of-town checks. It is the rule of the clearing-house, and at the same time giving them discretion whether to make charges for similar collections in other localities.
A careful study of the workings of the clearing-house bill was passed by the attorney-general, it is said, to determine whether the Sherman anti-trust law or the National bank act is being violated.
If action is taken it will take precedence over the clearing-house bill, which is being held in abeyance. It is learned that the attorney-general may refer the whole question to the Secretary of the Treasury for remedial measures if it is found that the law is being technically violated or that the practice, while not illegal, seems against public policy.
POSTOFFICE BILL PASSES.
Upper House Restricts Rights of Employees to Join Organizations.
Washington, D. C.—The annual postoffice appropriation bill was passed by the Senate at the end of two days' sharp fighting over propositions relating to parcels post, good roads improvement and the affiliation of postal employees with labor organizations.
As it goes back to the House it contains some restrictions upon the right of postal employees to join outside organizations, and an entirely new system of parcels post based on the "zone plan" with varying rates for varying distances.
The measure will go into conference with many important differences to be settled. The House provided that no employee of the postal service should be subject to reduction or removal for failure to join an organization, but its subject improvement in conditions of labor or compensation.
After a fight involving the right of Government employees to strike, the Senate approved this part, but provided that employees should not join an organization "which imposes an obligation or duty to strike or to assist in a strike against the United States." Under the terms of the bill as it passed both Houses, employees have the right to appeal to Congress for redress of grievances.

BALDWIN RANCH IS SOLD

14,000 Homes to Dot Late Turfman's Last Holding, Just Sold.
Los Angeles.—H. A. Unruh, executor of the will of the late Elias J. (Lucky) Baldwin, has filed final papers completing the sale of the Rancho Cienega O'Paso de la Tijera, the last of the great turfman's holdings, to the Los Angeles Investment Company, for a stated consideration of \$6,026,560. The total area involved is 3148.28 acres.
A million dollars was paid in cash, with nine notes for \$500,000 each for the remainder.
The whole of the money paid will be clear cash for the heirs, Mrs. Anita Baldwin, Mrs. C. C. Sturges and Mrs. Clara Baldwin Stocker, all of the debt of the estate having been liquidated by previous sales.
The officers of the purchasing company announce that the entire holding will be sold in lots, of which there will be 28,000. Half that number of homes will be erected by the concern, construction to begin as soon as possible. The entire ranch will provide about 2500 city blocks and 900 miles of street frontage.
Southern Pacific Sued.
San Francisco.—Suit has been filed by United States District Attorney John L. McNab against the Southern Pacific Company for alleged violations of the Federal law limiting to 16 the hours of trainmen engaged in interstate commerce. In this suit, which is one of 31 to come up for trial here on October 3, it is alleged that on the line between Red Bluff and Roseville, the company violated the law by allowing a train crew of six to work from 5 a. m. to 10:45 p. m. On each count the company is liable to a maximum fine of \$500.

RESENTS JOURNEY OF KNOX.

"Dollar Doctrine" Seen in Visit to Funeral of Mikado.
Paris—A Japanese financier, whose official mission in Paris prevents the publication of his name, in reply to a question by a correspondent as to the truth of the statement that the visit of Secretary of State Knox to Japan to attend the Mikado's funeral was resented in that country, said:
"Mr. Knox's presence at the Mikado's funeral is viewed by Japanese, highest and lowest alike, as an evidence of gross bad taste. Evidently the Japanese foreign office is unable to say so as courtesy is the primordial factor in my country. Nevertheless, we Japanese who see him at the Mikado's funeral will feel he is in our country on business, that he is working his dollar doctrine."
"We regarded the Mikado with veneration and the presence of any business element at the coming sacred rite is to us an impertinence. He may assure us of America's friendship, but we do not need to be taught what we well know."

Noted Outlaw Captured.

Salt Lake City.—Bert Dalton, alleged murderer of Marshal Dan Hanson, of Cokeville, and a member of the notorious Whitney brothers gang of outlaws, who escaped in the jail break at Evanston, Wyo., last week, was captured near Sandy, Utah, by Sheriff Joseph C. Sharp, of Salt Lake County.
Dalton was caught on a ranch, where he went to work. He is now in the county jail here and refuses to divulge the whereabouts of Ernest Crutcher and Walter Van Fossen, who escaped with him.
Secretary Wilson is 77.
Washington.—"Tama Jim" Wilson, Secretary of Agriculture and the oldest man in President Taft's Cabinet, enjoyed his 77th birthday Friday. Secretary Wilson said he was looking forward to quitting public life on March 4 next, so that he might go among his grandchildren, "don his overalls and move around among the common people." Wilson has exceeded by four years the record for long service in the Cabinet, and under his regime the scope of the Department of Agriculture has been widely extended.
J. D.'s Estate Guarded.
Tarrytown, N. Y.—John Rockefeller's estate at Pocantico Hills was guarded by a number of deputy sheriffs, because of fear of violence on the part of discharged employees. Several men recently were let go by the foremen of laborers and trouble ensued, culminating in an attempt to burn the cottage of Foreman Antonio Di Marco. Mr. Rockefeller informed Sheriff Doyle of the situation and asked for aid.
Turks Slay Christians.
Cettinje, Montenegro—Reports are circulating here of another massacre of Christians by Mohammedans in Albania. A band of Mohammedans supported by Turkish troops attacked a section of the Christian population in the Berra district of Albania. A fierce fight ensued and women and children are reported to have been murdered by wholesale. Little girls were made captives.

HEAVY RAINS DAMAGE CROPS

Storm Is General Throughout Northwest.

Spring-Sown Grain Hit—Hay and Hops Suffer Most by Strong Wind and Rain.
+ + + + +
+ Rain Storm Affects Northwest. +
+ Salem—No gleam of hope for farmers' plight, as continued rains spell ruin to Spring-sown grain. +
+ La Grande—Small percentage of total hay tonnage is separately damaged by wind and rain. +
+ The Dalles—No crop damage reported. +
+ McMinnville—Hop damage greater than at first anticipated. +
+ Dallas—Hardest storm known in Summer season passes over section. +
+ Philomath—Hop yards suffer + and late-sown grain, yet in field, soaked by rains. +
+ Albany—Vetch, Linn County's leading crop, greatest sufferer if rains continue. +
+ Seattle—Heaviest rain on record throughout state. +
+ + + + +
+ Salem—Drizzling rain off and on throughout this week offered no gleam of hope for the farmers' plight in this section, but added somewhat to the damage done to some of the crops, the grain in particular. +
+ Three or four more days of similar weather, farmers predict, will practically spell ruin to the Spring-sown grain. +
+ This has been considered a remarkable excellent season for grain which was sowed during the Spring months until the latest rain found a large share of it shocked and ruined, it is through. Today offered no improvement, even had there been no rain, as it was cloudy and lowering and the grain was soaked. +
+ Reports continue to be received of hop acreage going down, but the reports did not indicate that as much acreage dropped as on previous days during the storm. +
+ After summing up the reports Salem hop men say that probably their estimate of 500 acres of hops going down was somewhat strained, but they believe that now fully 500 acres of yards have gone down in the state. +
+ Some of the hop dealers have sent reports to their Eastern houses placing acreage down at all the way from 300 to 600 acres. So far but little damage is reported to the hops, it being possible to put up the great majority of the vines in yards where they have dropped. A few more days of the present weather, however, will result in the hop situation taking on something of a serious aspect, however, according to some of the dealers. +
+ + + + +

REDUCE YOUR LIVING EXPENSES
Eat Golden Cereal Foods and recommend them to your acquaintances. You get better quality and more for your money. They are made in your home state from the best Oregon Oats and Wheat. Large packages contain a Handsome Premium and all goods are guaranteed. Ask your grocer.
Golden Rod Oats. Golden Rod Pancake Flour. Golden Rod Wheat Flakes. Golden Rod Bran. Golden Rod Wheat Nuts. Golden Rod Chick Food.

Mirage Easy to Be Seen.
The celebrated Fata Morgana, a presentation of natural "moving pictures" on an immense scale which is occasionally seen in the Straits of Messina, is explained by a scientific writer as being a mirage, such as frequently occurs in various parts of the world; "in fact," he says, "one may see a mirage any day by looking through the stratum of air overlying a hot stove, or adjacent to the side of a wall heated in the sunshine." Young scientists will be interested in "verifying" this statement.

Displeased the Widow.
A Philadelphia traveling man, having gone upon that journey for which there is no return ticket, his many friends of the road consulted together as to the remembrance to be sent by them, and finally decided upon a design which was not only original, but which they considered peculiarly appropriate. They never could understand why the widow would not receive the beautiful suit case, made of white flowers, with the words, "His last trip," in purple violets, on one side.
Liquid blue is a weak solution. Avoid it. Buy Red Cross Ball Blue, the blue that's all blue. Ask your grocer.

Worth of Clothes.
The influence of clothes must continue to be, as it has been from the beginning of history, either "sacred or profane," a foremost factor in those forces by which man's destiny is guided. His health and comfort, aims and purposes, social standing and business prosperity; everything indeed that makes his life worth living may be affected by it in directions never dreamed of by the tailor who, if he does not actually make the man, is largely instrumental in making him what he is.
Their Proper Place.
The folks who are perpetually protesting that their consciences are clear and that they have nothing for which to reproach themselves are generally in a bad way, for the probability is that their much-vaunted consciences have stopped working and are of no further use. Such people never allow that they are in the wrong; their favorite sentence is, "I told you so!" and their proper place is on a desert island with thick skinned turtles for boon companions.
Hair Fabrics.
In the manufacture of hair fabrics the hair is reduced to a paste by a solvent and all kinds of hair and fibers are used. The paste is run through an artificial silk spinner and drawn from the spinner in threads. Some of these are a yard or more in length. They can be braided or woven like artificial horse-hair. Hair composition of superior quality is kept for the manufacture of wigs and braids.—Harper's Weekly.

Ancient Italian City.
Asolo, which inspired two of Browning's verses in "Asolando," and which is observing the centenary, is a fortified town in Treviso, in northern Italy. It was the ancient Aclum, and possesses a cathedral and a ruined aqueduct. The former palace of Catharine Cornaro, queen of Cyprus, is in the neighborhood. There are beautiful seats in the vicinities, and the town has a population of under 6,000.—London Globe.
Pastor's Merited Rebuke.
When Samuel S. Collier was preaching in an old log schoolhouse in Johnson county, Missouri, in 1852, his congregation was quite small. One Sunday all were sitting at the desks forward near the pulchrean floor. The sermon was monotonous and the old log seats had no backs. Observing the sleepy, downcast look of the congregation, the minister woke them up by shouting: "Arouse, heaven is not under the floor!"
Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Have You Noticed These?
An inventor in America has earned the thanks of all who have been seeking after a really sanitary form of kissing. In certain parts of that great country, when young ladies go to parties and places where they kiss, they are provided with a sterilized ivory ring, mounted on a silver handle. This is interposed between the kisser and the kissed, and the resulting sensation is known as "sterilized pleasure," or "germless joy."—London Answers.
Stabbed by Umbrella.
Perhaps the strangest weapon ever used for killing was an umbrella. In October, 1908, a man named Ernest Smith was found dead in Chiswick High street, England. He had a punctured wound in the eye which had reached his brain and which the doctors agreed had undoubtedly been caused by the steel ferrule of an umbrella.
Uncle Pennywise Says:
Countless ages of time passed, as we compute time—before the earth was prepared for the advent of man. The oldest civilization known is that of Egypt, and the pyramids are things of yesterday compared with the formation of the alluvial plains of the Euphrates, or the delta of the Mississippi, not to mention the Laurentian rocks.
The Peanut Flux.
The last thing to recover from the effects of a big celebration is the prevalent bag of peanuts. It dwindles fully during the influx of great crowds. Other foods remain comparatively stable in quantity for a fixed price, but the mob diminishes the allowance of peanuts for a nickel by half.

THE PACIFIC LUTHERAN ACADEMY AND BUSINESS COLLEGE.
OPENS SEPTEMBER 24
LOCATED NEAR TACOMA—Christian; co-educational; large campus; modern equipment; athletic; new \$2000 gymnasium under construction. PREPARES thoroughly, and in the shortest possible time, for College, Business, Teaching, Civil Service, and Citizenship. Languages a Specialty.
Eight Courses; no entrance examinations; special classes for foreigners.
EXPENSES LOW: Tuition, board, room and washing, nine months, \$120; eighteen weeks, \$90; five weeks, \$50.
You ask: How can you furnish all this for less than the usual price of board and lodging? We answer: By the aid of our church we are enabled to give our students more than they pay for. We can't tell all here. Our free 50-page catalogue will do it. Send for it. Address:
N. J. HONG, Principal
Parkland, Wash.

Lacking Important Point.
Can a woman be a successful "magician?" A contemporary wizard says that she can, and that in London there are many society women who have taken a course in wizardry as a means of becoming proficient in some kind of "parlor trick" by which to entertain company. It does seem, though, that a magician without coat sleeves to pull back, as a preliminary to doing his marvels, would be fatally deficient in paraphernalia.

MOTHER OF LARGE FAMILY
Tells How She Keeps Her Health—Happiness For Those Who Take Her Advice.
Scottville, Mich.—"I want to tell you how much good Lydia E. Pinkham's Vegetable Compound and Sanative Wash have done me. I live on a farm and have worked very hard. I am forty-five years old, and am the mother of thirteen children. Many people think it strange that I am not broken down with hard work and the care of my family, but I tell them of my good friend, Lydia E. Pinkham's Vegetable Compound, and that there will be no backache and bearing down pains for them if they will take it as I have. I am scarcely ever without it in the house.
"I will say also that I think there is no better medicine to be found for young girls. My eldest daughter has taken Lydia E. Pinkham's Vegetable Compound for painful periods and irregularity, and it has helped her.
"I am always ready and willing to speak a good word for Lydia E. Pinkham's Vegetable Compound. I tell every one I meet that I owe my health and happiness to your wonderful medicine."
—Mrs. J. G. JOHNSON, Scottville, Mich., R.F.D. 3.
Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and today holds the record of being the most successful remedy for woman's ills known.

His Grounds.
By a queer trick of politics an ignorant and pompous old dork was elected judge of a minor court in a certain western state. In the first case over which he presided he made a ruling so absurd that the lawyer whose case was affected by it said: "This is a very strange ruling, your honor. Upon what grounds do you make it?" "What grounds—does you say? Why, does yer' co'house grounds, of co'sel!" replied the judge.—Judge.

Its Only Purpose.
"O Willie, Willie," cried a teacher to a hopelessly dull pupil, "whatever do you think your head is for?" Willie, who evidently thought this another of the troublesome questions that teachers were always asking, pondered it deeply. "Please, miss," he replied at length, "to keep my collar on!"—Youth's Companion.

Stimulant or Tonic?
Ayer's Sarsaparilla is not a stimulant. It does not make you feel better one day, then as bad as ever the next. There is not a drop of alcohol in it. Ayer's Sarsaparilla is a tonic. You have the steady, even gain that comes from such a medicine. Ask your doctor all about this. Trust him fully, and always do as he says. He knows.

Who makes the best liver pills?
The J. C. Ayer Company, of Lowell, Mass. They have been making Ayer's Pills for over sixty years. If you have the slightest doubt about using these pills, ask your doctor. Ask him first, that's best. Made by the J. C. Ayer Co., Lowell, Mass.
