HOUSEHOLD QUESTIONS

Paraffine rubbed on the heels of stockings will cause them to last much longer.

Orange fritters are as delicious an accompaniment to broiled or fried ham as apple sauce to spare rib.

When beating eggs separately, beat the whites first and then add a teaspoonful of the beaten whites to the yolks soon after starting to beat them and they will not stick to the egg beater and will grow lighter much quicker than when beaten without the addition of the bit of beaten whites.

Comparatively few people realize that the gas bill may be very perceptibly reduced by exercising care to light the gas properly. Hold the lighted match to the burner, then slowly turn on the gas. Most people turn the gas on full force, and then apply the match. A slight explosion ensues, which affects the meter and sends it rapidly forward.

No thoughtful person uses liquid blue. It's a pinch of blue in a large bottle of water. Ask for Red Cross Ball Blue, the blue that's all blue.

The Viewpont.

Golfer—"Have you seen my ball, sir?" Wounded Party—"Yes, sir; there it is, confound you. Nearly killed—" Golfer—"Jove! Bit of luck, eh? I thought it was going out of bounds."—Punch.

MEXICAN MUSTANG LINIMENT

FOR SORE SHOULDERS.

Jas. Beck & Son, Centerfield, Utah, writes: "We sell Mexican Mustang Liniment and have a good sale for it, especially in threshing time for horses' sore shoulders." *It contains no alcohol and so cannot sting in cases of open wounds. Soothes and relieves strained ligaments at once.*

Book Agent——"Here's a book, 'A Million Ways to Make a Thousand.'" The Man—"I bought one before." Book Agent—"No, sir; that one was 'A Thousand Ways to Make a Million.'"—Judge.

YOUNG WIFE SAVED FROM HOSPITAL

Tells How Sick She Was And What Saved Her From An Operation.

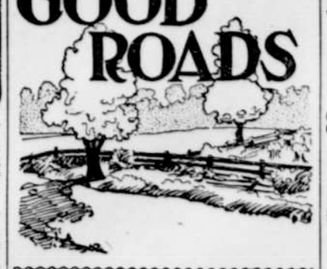
Upper Sandusky, Ohio.—"Three years ago I was married and went to housekeeping. I was not feeling well and could hardly drag myself along. I had such tired feelings, my back ached, my sides ached, I had bladder trouble awfully bad, and I could not eat or sleep. I had headaches, too, and became almost a nervous wreck. My doctor told me to go to a hospital. I did not like that idea very well, so, when I saw your advertisement in a paper, I wrote to you for advice, and have done as you told me. I have taken Lydia E. Pinkham's Vegetable Compound and Liver Pills, and now I have my health.

"If sick and ailing women would only know enough to take your medicine, they would get relief."—Mrs. BENJ. H. STANSBERY, Route 6, Box 18, Upper Sandusky, Ohio.

If you have mysterious pains, irregularity, backache, extreme nervousness, inflammation, ulceration or displacement, don't wait too long, but try Lydia E. Pinkham's Vegetable Compound now.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and such unquestionable testimony as the above proves the value of this famous remedy and should give every one confidence.

GOOD ROADS



MILEAGE OF IMPROVED ROADS

Indiana Leads All States of Union, With Ohio a Close Second—Mostly Composed of Gravel.

According to information just made public by the director of the office of public roads, Indiana leads all the states of the Union in mileage of improved roads. Most of the improved roads of Indiana and Ohio are composed of gravel and were, for the most part, built by the farmers in working out taxes. In many cases the gravel is dumped on the road without proper spreading or rolling. Roads constructed in this way seldom give entire satisfaction.

The eight leading good roads states, as shown by the data compiled by the director, are as follows:

	Mileage Improved 1904	1909
Indiana	23,877	24,955
Ohio	23,460	24,106
New York	5,876	12,787
Wisconsin	10,633	10,167
Kentucky	9,486	10,114
Illinois	7,924	8,914
California	8,803	8,587
Massachusetts	7,843	8,463

Where decreases are shown, they have been the result of reclassification of roads.

Strangely enough, New York is the only one of the eight that appears in the list of the eleven states leading in actual progress in road building in the five-year period. In other words, while the entire eight states maintain their lead, it is merely because of their earlier start, and New York alone is entitled to a place in the list of states in progress in the last five years. The states which are leading in progressive road building are New York, Georgia, Washington, Missouri, South Carolina, Alabama, Pennsylvania, Tennessee, New Jersey, Florida and Maryland.

The gain in New York, according to the director of the office of public roads, is due largely to the fact that the state has bonded itself for $50,000,000, and that $5,000,000 a year more is being expended by the state, in addition to an equal sum by the counties, in building state highways. New York is leading all the states in actual progress at the present time, and if the pace is maintained she will take the lead over Indiana and Ohio in actual mileage in a few years.

BEST PLACE FOR TOOL HOUSE

North Side of Barn Is Favored on Account of Coolness and Less Needed for Stock.

The north side of a barn is in many ways the best place to house implements, for it is cooler to work in and less needed to shelter the stock than the south side. An iron roof not in every way suited to stock will answer the purpose, and is cheap. One of the main difficulties in shedding tools is to be able to get at them as needed. The drill is often needed, fall as well as spring, and a lot of tools have to be moved to get at it, and other tools are often hard to reach.

Perhaps a square house with a driveway through the middle and plenty of rolling outside doors is the most convenient, for in that case each tool can be moved out directly.

Doors are not so very much more expensive than the sides of the building, and they can be made tight enough for the machinery which is not affected by drafts. If the shed is not convenient the machinery will be outside a great part of the time. I do not believe it is practical to shed all the wagons in this climate—they must be out so much anyhow that the protection of good paint which they carry with them will be more effective than shedding part of the time, except with wagons used for hauling which are not in use through the summer.

Guinea as a Forager.

The guinea fowl is a great forager and destroys many insects that the hens will not touch. They do not scratch the garden and, though not easily kept near the house, they make known the places where they lay by a peculiar noise, which enables one accustomed to them to find all the eggs they lay. They really cost almost nothing to raise, and when roosting near the house create an alarm should intruders make their appearance.

Pig Feeding Made Easier.

Set the pig trough close up against the fence and nail a board to the inner side of trough so it will protect trough between the fence boards. When feeding pour the slop on the board from the opposite side and there need be no trouble in keeping the hogs away until the slop is in the trough as under the customary way of doing.

Plants for Poultry Yard.

If your poultry yard has not already some shrubs or trees, plant some for shelter for the fowls on hot days. It is well to have two yards, and sow one with grass while they are living in the other.

Disinfecting Poultry House.

When you whitewash the interior of the poultry house mix a liberal amount of some good disinfectant or crude carbolic acid with the whitewash just before applying it. This will insure the destruction of all lice and mites with which it comes in contact.

Salt the Sheep.

Salt the sheep on Canada thistles or other troublesome weeds and they will kill them out without trouble. Sheep are great helpers in keeping a farm clean.

MADERO MAY GO SAME AS DIAZ

Scenes of Disorder at Mexican Capital Are Repeated.

Police Guard Chamber of Deputies During Wild Session—Madero Hissed—Vivas for Diaz.

Mexico City — Barred from the Chamber of Deputies by order of President Madero, because of the noisy demonstration in which he and his adherents were hissed, hundreds of residents marched through the streets shouting disapproval of the new executive and "vivas" for their exiled ruler.

Mounted police were ready to disperse the mob and the entrances to the chamber where the duputies were in executive session were heavily guarded.

The situation is almost identical with that immediately preceding the fall of Diaz, with the exception that shifts have been made in the cast of characters. The disorders had as a basis the same discussion — the seating of doubtful members of the chamber—when the gallery hissed Madero and shouted the praises of Diaz. They were precipitated by the rejection of Francisco Pasqual Garcia, leader of the Catholic wing, whose election was under question.

A deputy denounced him, saying no reason for his rejection was required other than that he was a Catholic. The fervid oratory and scenes of disorder on the floor were emulated by the galleries. One deputy, fancying himself insulted, drew a pistol to fire, when he was seized by a neighbor and overpowered.

Another deputy, Pedro de los Santos, declared justice and law were forgotten or confounded with personal issues and that more blood would have to be shed if necessary to secure justice.

An organized little group marched out of the chamber without the formality of adjournment and left the chamber without a quorum. When the house was reconvened late in the afternoon the doors were closed to all but members.

MUTSUHITO AT REST.

Body of Late Emperor Placed in Mausoleum on Imperial Estate.

Kioto, Japan—The body of the late Emperor Mutsuhito was placed Sunday night in the imperial mausoleum at Monoyama, an imperial estate about five miles from Kioto. Mutsuhito had been exceedingly fond of the surrounding scenery and had expressed the desire that this should be his last resting place.

Great crowds gathered along the road to Monoyama. The roadway to the imperial tomb was hung with crepe draped on white panels. A double line of soldiers and sailors flanked the route which, cutting through the famous tea fields, had been built up to a height of 60 feet in some places and terminated in a court of honor about two miles square in front of the shrine. On the sides of the road had been placed arc lamps and braziers, the lights of which were visible for many miles. On the arrival at Monoyama the casket was removed from the train and placed on a funeral palanquin. This was borne by 100 farmers, of Yase village, in gray hemp costumes. Approaching the burial hall, the paneled doors were thrown open, revealing a stand on which the casket was placed. A black curtain was dropped over the doorway. The top of the palanquin was removed and the casket placed on a carrier which bore it to the tomb, all on the plateau bowing to the ground in final reverence.

Prior to the interment a great procession was formed at the station, in which the local authorities participated. All the ancient implements of war and ritualistic ornaments were carried behind the casket.

Intervention Is Opposed

San Francisco—Resolutions expressing the opposition of the San Francisco Labor council to any intervention on the part of the United States in Mexcian affairs are being forwarded to President Taft at Washington. They were drawn by Andrew Furuseth, president of the International Seamen's Union of America, and adpoted by the council. It is the sense of the document that the fight being conducted by the revolutionists in Mexico is one intended to abolish the system of peonage there.

Woman Seeks Rare Honor.

San Francisco—If the Roosevelt-Johnson electors named by the Progressive state campaign committee are elected at the polls in November, Mrs. Florence Collins Porter, of Los Angeles, will be the first woman in the history of the nation to vote for a president of the United States. Besides Mrs. Porter, the list of 11 electors contains the names of Charles S. Wheeler and Philip Bancroft, both of San Francisco, whom the committee on contests refused to seat as delegates to the Republican national convention.

Irish Factions In Riot.

Belfast, Ireland—A fierce fight was waged in the Celtic park football grounds in which 60 persons were severely injured, two of them being in a critical condition. The fight took place at half-time in a game in the league series between the Belfast Celtic team and a team representing Linfield. The Linfields were leading. Celtic supporters unfurled a green and white rag and started to parade. Linfielders displayed a union jack.

Aviator Strikes Live Wire.

Letonia, O.—John St. Claire, a Boston aviator, fell while making an exhibition flight at the carnival here and alighted on a naked electric light wire carrying 2200 volts. The wire broke, but he was severely burned.

APATHY IN WASHINGTON.

Governor Hay Renominated Without Opposition—Vote Light.

Seattle — The statewide primaries were marked by apathy. The Seattle newspapers made elaborate arrangements to display election returns, but only a handful of people gathered. Governor Marion E. Hay, Republican, was nominated without any real opposition.

In the First, or Seattle congress district, Representative Will E. Humphrey was similarly renominated. For congressman-at-large Frank Hammond and J. E. Frost are leading in Seattle, but it is asserted that Hammond will run behind Henry B. Dewey elsewhere.

For state insurance commissioner, John H. Schively, against whom a bitter personal fight was made, ran far behind State Senator H. O. Fishback in King county and throughout the state.

On the Democratic side no illuminative figures on the governorship are obtainable, except that King county scattering returns show that Elmer C. Million, Democrat, is not running so well as was expected. Charles G. Heifner, Democrat, seems to have won the congress nomination in the First district over Thomas R. Horner.

Supreme Justices Ralph O. Dunbar, Overton G. Ellis and Wallace Mount were renominated unopposed.

For attorney-general, W. V. Tanner, Republican, is renominated almost unanimously.

In the first, or Seattle, district, 20 King county precincts give Heifner, Democrat, for congress, 204; Horner, 96. Heifner's nomination is conceded.

Eighteen precinets in King county for congressman-at-large give Frost 211, Hammond 161. Returns from various parts of the state indicate the nomination of Frost for one of the two seats.

There was only one Socialist candidate for each office.

The Socialist ticket, headed by Miss Anna Maley, for governor, was nominated by a mail referendum two months ago, but under the state law the candidates were obliged to go on the primary ballot.

REBELS WELL FED.

Salazar's Men Live Off Ranchers As They Travel.

Douglas, Ariz.—With his 400 followers living on the fat of the land, Inez Salazar, the rebel general, is moving slowly to the west along the international boundary. He is closely watched by United States cavalrymen, who are following the rebel movements from the American side of the line.

Salazar and his men remain at a ranch until all the choicest cattle and provisions are consumed and then move a few miles west. They are slowly nearing Augua Prieta, the Mexican town just opposite Douglas.

At last reports to United States army officers here, Salazar's command camped on the Mescal ranch, 25 miles east of Augua Prieta, where the federal garrison was strengthened by the arrival of 100 soldiers from the South. This makes the garrison number 300 men, but Salazar's force may be strengthened at any time by the many groups of from 200 to 400 rebels operating in the vicinity.

RELICS ARE SAVED.

General Sickles Not Forced to Part With War Trophies.

New York—General Daniel E. Sickles will not be obliged to part with his relics of the Civil war, which were to have been sold at auction to satisfy a judgment of $8200 held by the Lincoln Trust company. Daniel P. Hayes, the general's lawyer, announced that money to satisfy the judgment had been raised and that the case would be settled.

The relics included commissions of the general, many of them signed by Abraham Lincoln, medals won by the general in the war and at Gettysburg, where he lost his leg, letters from men prominent in the affairs of the Union and swords used in famous battles.

Valley Crops One-Half In.

Salem, Or. — The continued bad weather has damaged grain in the shock about 10 per cent. Hops have molded considerable, and possibly there will be loss of 15 per cent. The prunes are undamaged, with only a fair crop on the trees, as the frost caught some of them early in the spring. The foregoing refers only to the unharvested portion of the crops. At least one-half of hops are harvested, and grain one-half in the bin, and we think more. Barley is off color, and will not be used for brewing.

Loss to Farmers 8 Per Cent.

Corvallis, Or.—Hops not damaged; mills report about 50 per cent of grain damaged for milling purposes, but good for seed, etc. Loss for farmers not over 8 per cent; others agree damage to grain about 25 per cent.

Entire Crop May Be Saved.

La Grande, Or. — Wheat crop damaged not to exceed 15 per cent so far. Should weather continue favorable for three weeks the entire crop will be taken care of. Fifty per cent of the crop is already harvested.

Rain Increases Potato Crop.

Cornelius, Or.—The following figures are as near as it is possible to judge at present: Potatoes, bumper crop, increased by rain probably 10 per cent; wheat, average crop, damaged by rain probably 10 per cent; oats, average crop, one-half damaged by rain, one-half not damaged; hay, average crop, damage for entire season, 35 per cent; hops, heavy crop, damaged at present 10 per cent. The potato crop is the largest known.

Famine Threatened In Siam.

Eugene, Or.—A letter from C. A. Steele, a newspaperman at Bangkok, Siam, says that there is grave danger of a famine in that country. There has been little rain fall for two years, and the exportation of rice has practically ceased.

TIME LIMIT IS GIVEN MADERO

Must Protect Americans and Property or Resign.

Failure to Meet Ultimatum of United States Will Be Followed By Immediate Intervention.

Washington, D. C.—President Taft has given President Madero 30 days in which to protect American property and lives in Mexico. If Madero fails to do this the United States will require that he resign immediately. If Madero should refuse to resign intervention will follow speedily.

This statement was made here Thursday by a high official of the Department of State to Juan Pedro Didapp, representative of the Mexican revolution in Washington.

The name of the official is withheld, but full credence is given the statement here, in view of recent events in the Mexican situation.

Don Manuel Calero, Mexican ambassador here, hurriedly left Washington last week for Mexico City, bearing a personal message from President Taft to President Madero. It is believed the message he took from the administration to Madero was of the tenor described. Diplomats say that Calero would not have made a personal trip from Washington all the way to Mexico City unless the issue was extraordinarily urgent.

Developments this week showing the strong exertions of the Madero administration to get troops to Northern Mexico to protect American interests, which quickly followed Calero's arrival in Mexico City, also lend weight to the reported threat of the United States.

Officials at the State department were reticent when questioned concerning this development in the Mexican situation. It was intimated that the administration intends to force Madero to protect foreign interests in the republic, but none would discuss the report that this government plans to compel the Mexican president to resign if he fails to get a better grasp on affairs along the Rio Grande.

EMERGENCY VESSEL READY.

Three Troopships at Fort Mason Have Steamed Up for Rush Trip.

San Francisco—For the past few days there has been unusual activity on board the army transports Crook and Buford, which, with the troopship Sheridan, are tied up at the transport docks at Fort Mason. There is steam up in all three ships and they would be ready for sea in an hour, should the Mexican situation require the sending of troops South.

While the authorities in charge of the transports deny any authorization to arrange for movements of troops toward the Mexican border, the fact remains that the transports are ready for any emergency.

Gold Ship May Be Raised.

Ellensburg, Wash.—"Uncle Joe" Morrell, of Ellensburg, sole remaining survivor of the ship Golden Gate, which burned and sank off Manzanillo, Mexico, in 1864 with more than $2,000,000 in California gold on board, has received a letter from a San Francisco syndicate asking certain details of the wreck and bearings of the spot where the ship sank. Morrell is promised a liberal share of the gold in return for his information, should the expedition prove successful.

Mare Island Would Bid.

Vallejo, Cal. — Captain Henry T. Mayo, commandant of the Mare Island navy yard, has telegraphed to the Navy department asking that plans and specifications for the proposed new dreadnaught Pennsylvania, authorized by congress, be forwarded to him, that the yard may bid on her construction. The Pennsylvania is to be the largest vessel in the navy and will cost $15,000,000. Captain Mayo believes the Mare Island yard can construct the Pennsylvania at as low a figure as any other government plant.

Turks Capture Airship.

Tripoli—The Turks, who on several occasions have tried vainly to smuggle into Tripoli an areoplane for scouting purposes, are at last in possession of a machine through a mishap of Captain Moizo, of the Italian army. Captain Moizo was making a flight from Zouara to Tripoli when the motor of his machine stopped and he was obliged to descend in a hostile country. He was promptly captured and the aeroplane appropriated.

Auto Freight Protested.

Washington, D. C. — The existing freight rate of $7 a hundred pounds on automobiles, in less than carloads, from New York and other Eastern points to Pacific Coast terminals was attacked before the Interstate Commerce commission. The charge for other self-propelling vehicles, less than carloads, is $4.50 a hundred. Demand is made that the roads reduce the rate on automobiles to $4.50.

Butterfly Farm Pays.

Truckee, Cal. — Miss Ximena McGlashan, of Truckee, is a butterfly farmer and is making money at it. In the past six weeks she has propagated and sold 6200 mounted butterflies, for which she received $310, or 5 cents apiece, which amounts to more than $50 a week.

Great French Army Out.

Paris — The most imposing and extensive French army maneuvers in years opened in Touraine and Poitu, when 120,000 soldiers and 50 aeroplanes and two dirigible balloons took the field for a week of mimic warfare.

Horse Plague Spreading.

Council Bluffs — The horse plague has crossed the Missouri river and several animals have died near Shanandoah, Clarinda and Pacific Junction, in Page and Mills counties, Iowa.

W.L. DOUGLAS SHOES

$3.00 $3.50 $4.00 $4.50 AND $5.00

FOR MEN AND WOMEN

Boys wear W. L. Douglas $2.00, $2.50 & $3.00 School Shoes, because one pair will positively outwear two pairs of ordinary shoes, same as the men's shoes.

W.L. Douglas makes and sells more $3.00, $3.50 & $4.00 shoes than any other manufacturer in the world.

THE STANDARD OF QUALITY FOR OVER 30 YEARS.

The workmanship which has made W. L. Douglas shoes famous the world over is maintained in every pair.

Ask your dealer to show you W. L. Douglas latest fashions for fall and winter wear, notice the *short vamps* which make the foot look smaller, points in a shoe particularly desired by young men. Also the *conservative styles* which have made W. L. Douglas shoes a household word everywhere.

If you could visit W. L. Douglas large factories at Brockton, Mass., and see for yourself how carefully W. L. Douglas shoes are made, you would then understand why they are warranted to fit better, look better, hold their shape and wear longer than any other make for the price. *Fast Color Eyelets.*

CAUTION.—To protect you against inferior shoes, W. L. Douglas stamps his name on the bottom. Look for the stamp. Beware of substitutes. W. L. Douglas shoes are sold in 78 own stores and shoe dealers everywhere. No matter where you live, they are within your reach. If your dealer cannot supply you, write direct to factory for catalog showing how to order by mail. Shoes sent everywhere, delivery charges prepaid. W.L. Douglas, Brockton, Mass.

REDUCE YOUR LIVING EXPENSES

Eat Golden Cereal Foods and recommend them to your acquaintances. You get better quality and more for your money. They are made in your home state from the best Oregon Oats and Wheat. Large packages contain a Handsome Premium and all goods are guaranteed. Ask your grocer.

NOTE THE RATES.

Game for an Elizabethan Banquet.

Peacock pie, which figured at the Elizabethan banquet held to celebrate Midsummer day, is not a delicacy likely to tempt all epicures. Still, most of us would rather eat peacock than some of the other birds consumed by our forefathers. In the thirteenth century the heron, the crane, the crow, the stork, the cormorant and the bittern were considered excellent for the table. Yet the hare and the partridge were despised as food, and neither was ever served in the houses of the wealthy.—London Chronicle.

Pettit's Eye Salve FOR EYE DISEASES

Almost the Limit in Invention.

A log of wood and a roll of paper are placed in a new match-making machine, and when human hands next touch the material it is all bound up in packages containing one gross of boxes of matches, ready for the consumer. During the process the machine cuts the wood into proper lengths, sulphurs the ends, counts them, makes the paper boxes, prints the labels on them, fills each box and packs them. The machine has been patented by a Norwegian match company.

Liquid blue is a weak solution. Avoid it. Buy Red Cross Ball Blue, the blue that's all blue. Ask your grocer.

Musical Prodigy.

A seven-year-old boy of Rennes, France, is the latest musical prodigy to burst upon the world. He is an admirable, even a brilliant, pianist, but has genius for composition, and sonatas, symphonies, piano pieces of all kinds flow from his pen. It is said to be pretty good stuff, too. A number of the great composers have begun to invent melodies before the age of seven

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Sight of the Color Blind.

A color blind person sees light as either white or gray and dark colors appear either as dark gray or black. This mutual sensitiveness is due to the fact that the light nerves and color nerves are closely interbound, but there is a different set of nerves for both light and color, just as there are different sets of nerves for temperature and for touch.

When Men Marry.

That's what a man wants in a wife mostly; he wants to make sure o' one fool as'll tell him he's wise. But there's some men can do wi'out that—they think so much o' themselves a'ready—an' that's how it is there's old bachelors.—George Eliot.

A Missouri Purist.

"I read a piece in the paper the other day," says Noah Count of Chiggerbite, "where they referred to the 'remains' of a man who was blown up by dynamite. Wouldn't 'remnants' have been a little more exact?"

Hair Falling?

You certainly cannot lose your hair and keep it, too. Which shall it be? Lose? Then do nothing. Keep? Then use Ayer's Hair Vigor. That is about all there is to it. Ayer's Hair Vigor is also a splendid hair-dressing and hair-tonic. It keeps the hair soft and smooth and greatly promotes its growth. It does not color the hair. Consult your doctor freely. Doctors are studying these hair questions much more than in former days.

THE
PACIFIC LUTHERAN ACADEMY AND BUSINESS COLLEGE.
OPENS SEPTEMBER 24

LOCATED NEAR TACOMA—Christian; co-educational; large campus; modern equipment; athletics; new $5000 gymnasium under construction.

PREPARES thoroughly, and in the shortest possible time, for College, Business, Teaching, Civil Service, and Citizenship. Languages a Specialty.

Eight Courses; no entrance examinations; special classes for foreigners.

EXPENSES LOW: Tuition, board, room and washing, nine months, $180; eighteen weeks, $95; nine weeks, $50.

You ask: How can you furnish all this for less than the usual price of board and lodging? We answer: By the aid of our church we are enabled to give our students more than they pay for.

We can't tell all here. Our free 50-page catalogue will do it. Send for it. Address

N. J. HONG, Principal
Parkland, Wash.

Ordeal for Brides.

A peculiar and barbaric marriage custom of the Kabyle women of Africa consists in the martyrdom of the bride, who, clad in her wedding finery, stands through an entire morning against a pillar in the village square. Her eyes are closed, her arms pressed to her sides and she has only the narrow base of the column for a foothold. Meanwhile a ring of villagers criticise and commend on her appearance.
