Made His Demands Definite.  
The "minimum wage" idea appeals to one English boy who was asked the other day by his teacher to write, as the daily composition, a letter to his father asking for an increase in pocket money. The boy set forth the need of large funds, and ended with a courteous demand for a "minimum sum of money." One of the reasons for the demand was that the boy did not get enough taffy to eat and had no papers to read.

The Old Wagon Show.  
The wagon show of long ago, it has a funny clown; we lined the way a break of day to see it into town. Our money went to the last cent to get up boys inside. But what of that? For hours we sat with eyes distended wide. The wagon show of long ago, it only had one ring, and we could sit close to it, and never miss a thing.

A primary grade boy in Fred was told to write a sentence containing the word "chicken." He was not quite sure how to spell the word, so he wrote: "A jiken is a small hen. (I can spell hen.)"

**SUFFERED EVERYTHING**  
For Fourteen Years. Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Elgin, Ill.—"After fourteen years of suffering everything from female complaints, I am at last restored to health. I employed the best doctors and even went to the hospital for treatment and was told there was no help for me. But while taking Lydia E. Pinkham's Vegetable Compound I began to improve and I continued its use until I was made well."  
—Mrs. HENRY LEISEBERG, 745 Adams St., Kearneysville, W. Va.—"I feel it my duty to write and say what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered from female weakness and at times felt so miserable I could hardly endure being on my feet."  
"After taking Lydia E. Pinkham's Vegetable Compound and following your special directions, my trouble is gone. Words fail to express my thankfulness. I recommend your medicine to all my friends."  
—Mrs. G. B. WHITTINGTON.

The above are only two of the thousands of grateful letters which are constantly being received by the Pinkham Medicine Company of Lynn, Mass., which show clearly what great things Lydia E. Pinkham's Vegetable Compound does for those who suffer from woman's ills.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

The great highway of the commerce of the future will be the Pacific ocean. Mighty capitalists throughout the world are putting their heads together to erect the most colossal system for wireless telegraphy in the world. The system contemplates the linking together of all points along the western coast of America from Bering sea to the Straits of Magellan, and spanning the islands of the ocean, to link with this chain the whole easterly shore of Asia, running on down to the Straits Settlements. The contemplated system will cost in the aggregate many millions of dollars.

Infuriated the milkmaids rushed upon him and it was only by the intervention of some shepherds that he was rescued from their vengeance.

Health and Cheer.  
There is longevity in the sunny soul that eases our jolts and makes our sides shake with laughter. There is a wonderful medicinal effect in good cheer. Good news and glad tidings have a magic effect even upon invalids. We often see a whole store or factory or home transformed by one sunny soul. On the other hand, we have seen them blighted and made dark by a gloomy, morose, fault-finding person.

When Wrinkles Come.  
The first wrinkle of age comes on the side of the cheek just in front of the ear and its possessor is, as a rule, the last person to notice it. Just behind the ear there is usually a falling off of the roundness of the neck, and the hair becomes thin, leaving a bald look on the woman over 40 if she is not careful to remedy these important blemishes. Massage will do more for these growing imperfections than almost any other facial device.

**HUGE SALE OF PUBLIC TIMBER**

Sierra Forest Opened to Lumber Companies.  
California Firm Buys 800,000,000 Feet—Growth Will Replace Small Percentage Used.

Washington, D. C.—Final arrangements for the sale of 800,000,000 feet of government timber to the Sierra Sugar Pine company, a California corporation will shortly be concluded in San Francisco by Chief Forester Henry S. Graves, who is due to arrive there on September 28. The timber, which stands in the Sierra national forest, has already been awarded, after public advertisement, but under the terms of the advertisement, the contract will not become binding until the company has been shown on the ground what timber the government will reserve in order to provide for reproduction, and as agreed in writing to the terms imposed.

The company will be allowed to cut in full 800,000,000 feet, but it will not be allowed to cut clean. As a rule, the Forest Service reserves about one-third of the stand.

"Such large and long-term sales are a new development in the service," said Chief Forester Graves. "Great bodies of mature but inaccessible timber can be put on the market only if sale contracts are let on terms which will justify a very heavy initial investment in transportation facilities. In entering into such contracts, however, special safeguards to protect the public against monopoly and to prevent an undue speculative profit to the purchaser are employed."

"The national forests contain the equivalent of nearly 600,000,000,000 feet of timber now of merchantable size, besides young growth for future harvest. Because of its remoteness from market, only a small percentage can now be sold on any terms. The sale of less than one-fifth of 1 per cent of our total supply to one company leaves plenty of room for competition by other companies."

"The timber which has been sold to the California companies lies well back in the Sierra Nevada mountains and will require the construction of 70 miles of standard gauge railroad to open up the area. The company is given a cutting period of 22 years to remove the timber, besides an additional two years for the construction of logging and manufacturing facilities."

"For several years the Forest Service has been selling in the neighborhood of \$1,000,000 worth of national forest stumpage each year, but this, combined with what is cut for free use, is only one-eighth of what might be sold without reducing the permanent stock of the forests. The supply will be kept up through growth. By making long-term sales, it will be possible greatly to increase the amount available for present needs of the timber-consuming public, without endangering future supplies through over-cutting."

**STRIKERS CAPTURE UTAH MINE; FIRE ON SHERIFFS**

Bingham, Utah—Forty-five hundred men employed in the copper mines here laid down their tools Thursday morning, after the operators refused to meet their demands for an increase in pay of 50 cents a day. Every mine in the camp, with one exception, is idle.

The strikers are mostly foreigners and are determined that no one shall enter the mines or buildings until their demands have been granted. Shots were fired when deputies marched to the mines to draw the fines. A striker was shot by a deputy at another point.

Criminal Bureau Is Plan  
Wenatchee, Wash.—The organization of a bureau for the detection of criminals in Oregon, Washington and British Columbia was one of the principal matters discussed at the semi-annual convention of the State Sheriffs' association, which was in session here for two days. It is proposed to establish a Northwest identification bureau for the purpose of keeping an accurate record of all criminals in the West. A bureau where thumb prints, photographs and descriptions may be kept is to be established.

New Southern Line Short.  
Spokane, Wash.—Construction of the new Harriman line between Spokane and Los Angeles is proceeding rapidly. Los Angeles officials of the Southern Pacific in charge of the building of the line from the southern terminus say that the survey for the line has been completed and that the distance will be 1175 miles, only 100 miles further than the shortest route now between Spokane and San Francisco and 475 miles shorter than the shortest existing line between Spokane and Los Angeles.

Heat Record Is Broken.  
San Francisco—San Francisco and Sacramento were singled out as points of attack by a heat wave Thursday, both cities recording temperatures of about 100 degrees above the average for the rest of the state. The San Francisco maximum was 94 degrees, a record for the year. The prophecy is for a drop in the thermometer of from 5 to 10 degrees, with indications of clear weather immediately to follow.

Shingle Market Is Firm.  
Seattle, Wash.—Efforts of wholesale shingle dealers to break the market and force prices down so far has met with little success. Seattle wholesalers have recently sold clear shingles for future delivery at \$2.50 in the East, the prevailing price at the mills on the Coast. So far as known the wholesalers have been unable to fill all the orders taken at the cut prices.

**C. O. D. LIQUOR BARRED.**  
All Shipments Must Be Plainly Labeled and Addressed.

Washington, D. C.—Attorney General Wickersham, in instructions to all United States attorneys, is urging prompt and vigorous prosecutions of any persons found violating sections 238, 239 and 240 of the new criminal code, which provide conditions under which intoxicating liquors may be shipped from one state to another, or from a foreign country into the United States. These statutes, however, do not apply to shipments entirely within a state, that being a matter over which the Federal government has no jurisdiction. The laws in question do not undertake to prevent the shipment of liquor into "dry" states or "dry" towns, it having been held by the courts that the government cannot interfere with legitimate interstate commerce.

The three sections named, however, are designed to be an aid to the authorities of a "dry" state or town, in that they enable the state and local authorities to learn whenever liquor enters their jurisdiction. After its delivery to the consignee, it comes under state or local authority, and Federal jurisdiction ceases.

The most sweeping provision of the criminal code, to which the attorney general calls attention, requires that every package containing intoxicating liquor of any sort, when shipped from one state into another state, shall be so labeled on the outside cover as to plainly show the name of the consignee, the nature of its contents and the quantity contained therein, and any person who ships liquor from one state to another in violation of this section—that is, ships it in packages not marked as required shall, upon conviction, be subject to a fine of not more than \$5000, and liquor so shipped shall be forfeited to the United States.

Section 238 prohibits officers, agents or employees of railroad companies, express companies or other common carriers from delivering any package containing intoxicating liquor to any person other than the person to whom it has been consigned, except upon the written order for such instance of the bona fide consignee, and also prohibits the delivery of such packages to any fictitious person or to any person under a fictitious name. Violation of this section subjects the guilty party to a fine not exceeding \$5000 or imprisonment for not more than two years, or both. This section also applies only to liquor shipped from one state into another.

The third section, No. 239, provides that any railroad company, express company, or other common carrier, or any other person, who, in connection with the transportation of any intoxicating liquor from one state to another, shall collect the purchase price or any part thereof, before, on or after delivery, or shall in any manner act as the agent of the buyer or seller of such liquor, for the purpose of buying or selling or completing the sale thereof, save only in the actual transportation and delivery of the same, shall be fined not more than \$5000.

**GROWING FEET COSTLY.**  
Weavers of Women's Stockings Must Put in New Machinery.

Washington, D. C.—Young women of Washington and New York have bigger feet than those of any other cities in the world. Department stores in Washington and New York are being greatly inconvenienced by the change that is taking place in the young women. It is said that these stores have asked stocking spinners in New England to add three larger sizes to their measurements, not only in the feet, but also in the calves. Stocking salesmen who have come to Washington lately contend that the young women here have abnormally large muscles in the lower parts of their limbs, due to athletic endeavors. It will cost manufacturers about \$300,000 for new forms for the spinners and knitters.

Alaska Packers Do Well.  
Seward, Alaska—The salmon packing season is practically at a close now, and the canneries of the Cook's Inlet and Kenai peninsula have, with scarcely an exception, taken their guaranteed pack for the season. In this immediate vicinity the Alaska Packing company at Kasloff has the largest pack, amounting to 700,000 cans for the season. Alaska reds and pinks were plentiful, but at the close of the season there was an unusually large run of humpbacks, which were packed largely for the foreign trade.

Thirteen Killed, 50 Injured.  
Liverpool—Thirteen persons were killed and 50 injured by the derailling of the express from Chester to Liverpool at Ditten Junction, eight miles from Liverpool. The engine jumped the rails and crashed into the buttress of a bridge spanning the line. The coupling of the car next to the engine parted and the train of nine cars sped on to the station. The leading cars crashed into the platform and were wrecked. One car was overturned and caught fire and was soon consumed. Several bodies were cremated.

Cashier Newly Accused.  
Abilene, Kan.—Eleven new charges have been filed against John A. Flack, former cashier of the Abilene State bank, recently arrested in New York charged in connection with shortage in the bank's funds, amounting to about \$70,000. The new charges are sworn to by the state bank examiner, and are similar. Each recites that Flack changed figures in the bank's books and in notes and certificates of deposit.

Mayor Gaynor Sued for Libel.  
New York—Mayor Gaynor was served with a summons in a \$100,000 libel suit brought against him by Alberman Curran, chairman of the Aldermanic committee investigating graft in the police department. Curran alleges that the mayor made remarks derogatory to his character in the connection with the investigation.

Maid of Mist on Rocks.  
Niagara Falls, N. Y.—The Maid of the Mist, the little steamer that for years has carried tourists close to the tumbling waters of Niagara Falls, ran on the rocks Sunday a short distance below the cataract. Life boats were made ready for launching and the 20 passengers were equipped with life preservers. By skillful maneuvering, however, Captain Carter released the steamer by its own power and brought the passengers to the landing.

Coffee Export Tax Increased.  
Guatemala City—An additional tax of 50 cents gold per hundred pounds on coffee exported has been ordered. The total tax now amounts to \$1.50 gold.

**PRaises FOR PANAMA CANAL**

Charges of Bad Faith Give Way to Admiration.  
Greater Influence on Commerce Than Suez—Issues of Tolls Dropping for Present.

London—The announcement from Washington that the Panama canal will be opened formally next year is a signal for a fresh discussion of all the broad possibilities to be undertaken. So far as the question of tolls is concerned, there seems to be a growing disposition to think Europe has been precipitate in charging Americans with bad faith or with taking an unfair advantage.

Everywhere effusive compliments are written and spoken in light of the tremendous display of engineering skill on the isthmus. Pictorial papers here and in Paris and Berlin give sketches of the chief objects of interest along the route and in the construction work. Long special articles, deal with the "revolution the canal is to bring about in international trade."

One able Berlin writer thinks that "the Panama will necessitate greater modifications of the established system of foreign commerce than were necessitated by Suez" and adds that "it is as if Dame Nature had suddenly decided to alter the course of her trade winds."

Another, declaring in London Weekly, that the canal is the "crowning achievement of American force and enterprise," makes the significant admission that the "best business minds of the empire—Britain—are concentrating on the commercial revolution which is imminent in order that, irrespective of the willingness of Americans to arbitrate concerning tolls, we may use the new waterway to the full and may begin to use it the day it is opened."

Quite the strongest censure cropping out anywhere is the "hope that Colonel Roosevelt, Dr. Wilson or Mr. Taft, whichever may be the next president, will do all he can to prevent our admiration of the phenomenon of mechanics being long diminished by different emotions as to the irrational use to be made of it." No annoyance is exhibited anywhere in Europe, not even in Spain, over the latest admissions addressed directly or indirectly by the Washington government to Mexico, Nicaragua and Cuba. On the contrary, the prevailing sentiment is one of approval.

European capitalists who have investments in many of the republics south of the Rio Grande long have chafed at the chronic confusion created by the local politicians for selfish ends, and would welcome the application of a strong hand. A London financial paper is "astounded at the forbearance of Americans in their dealings with the Mexicans."

**82 EGGS LAID IN 82 DAYS**  
Product for Ten Months Totals 237—Prizes Won Are Many.

St. Louis—"Lady Show You," a 2-year-old white Plymouth Rock hen from Millersville, Ill., is breaking all records in the nation. Laying contest at the Missouri State Poultry Experiment station at Mountain Grove. She is leading the egg producers, numbering 640, representing 39 varieties from 25 states and Canada.

Her record for 10 months is 237 eggs, and her nearest competitor is a barred Plymouth Rock hen, which has produced 216 eggs in the same period. Lady Show You has broken the world's record so far as known for continuous egg production with 82 eggs in 82 days.

When she had reached a record of 65 eggs on consecutive days, the advisory board tacked the prize ribbon on her nest and gave her an extra portion of meal, but she kept right on for more than two weeks. She has six weeks more to complete her record for the year contest. Government statistics give the average egg production as about 80 per hen a year.

Boy Gives Leg for Girl.  
Gary, Ind.—William Rugh, a newsboy, will permit the amputation of his crippled left leg in a few days so that its skin may be grafted on the body of Miss Ethel Smith, a girl he has never seen. Miss Smith has been in bed for four weeks as a result of severe burns and the attending physicians say that the only hope of her recovery is to graft enough skin on her body to cover the wounds. When Rugh was appealed to he promptly consented to make the sacrifice.

Coins Made in Prison.  
Cairo, Egypt—Officials have finally traced the silver counterfeiters which have been in circulation to the Tourah prison, where they were made by several convicts. One of the convicts was found in possession of an ingenious instrument, made to coin 5-piastre pieces, and a quantity of silver bullion. The prisoner confessed and implicated a fellow convict. An investigation has been ordered, as the authorities believe that several prisoners and minor officials of the prison were concerned in the plot.

Linger Long in Service.  
Vital statistics ascribe short lives to printers, on the average, but the report of the public printer states that there are employed at present in the government office at Washington 250 persons over sixty-five years of age. The saying that among the government employes, "few die and none resign," seems the only explanation.
