Lack of Proper Courtesy.
There used to be a time, not so very long ago, when if one borrowed anything from a book to take home one was expected to return it promptly and in good condition. With our younger set one may consider it a miracle if one gets anything back under six months if at all. "I forgot" or "I lost it," seem to be all the apology that many young girls deem necessary.—Exchange.

CONVENIENT IN SEWING ROOM
Handy Apron Will Save Time for the Woman Who Has Much of This Work to Do.
A very convenient apron to don when in the sewing room is made of white lawn and white dotted swiss. This is cut 18 inches long and 27 inches wide. The swiss is placed over the lawn and both cut rounding on the lower edge. About nine inches from this edge the swiss is cut away in a sweeping curve toward the waist line and the edges are bound with narrow bias bands of lawn or narrow satin ribbon in some pretty light shade. This forms two openings like pockets, for the upper part of the swiss is caught into the waistband with the lawn; this band, by the way, may be of ribbon matching that which binds the apron. In this deep pocket can be slipped the spools of thread, scissors and pieces of material on which you are working. It solves the problem of sewing on the porch, for in it are held all the necessary materials, and it can be taken off and folded with the work inside, if you wish to discontinue your sewing for a little while.

Choosing a Hat.
Women cannot grumble this season at the unsuitability of models, for styles are so varied that there are shapes enough to go round and to set off to the best advantage each individual type of face.
Some women have a way of selecting their hats rather at random, without sufficiently studying effect. Now, it takes time to choose properly, and it needs a sympathetic friend or saleswoman. One has respect for the woman who is courageous enough to express an opinion and is not only an automaton paid to sell for some despot manager. A successful milliner is an artist; her assistants should be artists, too—clever enough to understand that their clients are there to be suitably flattered.

Take Time for Breakfast.
Common sense indicates that breakfast should be a substantial meal. Enough time should be allowed to eat the morning meal at leisure and enjoy it. The manner in which some people gobble down their breakfast is becoming only to an ostrich. It is one of the great reasons for the existence of what is sometimes called "American dyspepsia."

His Labor Doubled.
Kostrov, a Russian poet, labored for years translating Homer's "Iliad" into his language and the highest offer he received for it was \$25, which discouraged him so much that he threw the manuscript into the fire. Afterwards when he was famous in his own country he did the job all over again.

The Coughs of Children
They may not cough today, but what about tomorrow? Better be prepared for it when it comes. Ask your doctor about keeping Ayer's Cherry Pectoral in the house. Then when the hard cold or cough first appears you have a doctor's medicine at hand. This cough medicine is especially good for children. No anodynes. No alcohol.
Many a child is called dull and stupid when the whole trouble is due to a lazy liver. We firmly believe your own doctor will tell you that an occasional dose of Ayer's Pills, sugar-coated, will do such children a great deal of good. Ask him.

REBEL LEADERS WILL BE SHOT
Diaz and Three Associates Condemned by Court Martial

Four Others Get Prison Sentence—Public Censures Manner of Conducting Trial.

Vera Cruz—General Felix Diaz, leader of the recent revolt here, and Major Zerrate, Colonel Antonio Magoni and Lieutenant Lima, officers under Diaz in his attempt to overthrow the government, were condemned to death by court-martial.
Lieutenant Camacho, Captain Mayen, of the rurales guard, and Captain Hermilio Martinez were sentenced to ten years' imprisonment each, and Gabriel Ramos, customs collector, and Hernan Arostegui, censor of telegraph, were sentenced to two years' imprisonment. Nine other officers and civilians were allowed to go free.
The court-martial, which was presided over by General Davila, sat in secret session from 2 o'clock Saturday morning until 3:35 o'clock Sunday morning. The sentences caused a sensation. A great crowd, including relatives and many friends of the accused men, assembled outside the building where the court sat and waited for hours the findings.
General Davila refused to acknowledge the orders of the district judge to suspend the proceedings in the case of General Diaz and Major Zerrate. General Beltran, military commander of the zone, accepted a writ of habeas corpus and suspended the executions, leaving the prisoners temporarily at the disposition of the district court.
It is thought probable that Colonel Magoni and Lieutenant Lima will be shot without much more ado.

CLOSING IN ON TURKS.

Allied Armies Continue March of Conquest Toward Capital.
London—The swiftness and efficiency of the onward movement of the armies of the allied Balkan states is making Europe open her eyes. From the north and all along the line from Greece on the south they are crowding back the boundaries of the Ottoman empire in Europe. The often predicted and long delayed day when the Turk will have his back against the wall seems at hand.
The two pivot points of Turkey's defense on the north were Adrianople and Uskup. The Bulgarian army in the East has defeated the Turks at Kirk Kiliseh, which is the strongest outpost of Adrianople, and appears to have almost invested that fortress.
The Serbian army in the West walked into Uskup without opposition. The Turkish garrison there withdrew on the railway toward Saloniki. How far it intends to retreat, and why, are questions. The only answer to the last question is that the strength and supplies of the garrison did not justify an attempt to make a stand.
Events about Adrianople are even more important. The Bulgarians apparently are proceeding successfully with the investment of the fortress. The Turkish army which was defeated at Kirk Kiliseh did not fall back upon Adrianople, according to latest reports, but took the road to the south, where it could connect with the railway to Constantinople.

Picture Shows Credited.
Washington, D. C.—The cause of temperance here found a new ally in the moving picture show, members of the District of Columbia Excise Board are inclined to believe, after receiving reports from its saloon inspectors to the effect that proprietors of drinking establishments are complaining of a falling off in business.
It is said a number of proprietors place the blame on the moving picture theaters, asserting that the heads of poorer families, instead of dropping into the corner saloon after dinner, take their wives and children to a 5-cent theater.

Germany Will Be at Fair.
Berlin—It is expected that the German government will soon announce its decision to participate in the Panama-Pacific exposition at San Francisco in 1915. The appointment of a permanent exposition commission is not favored, but it was virtually decided during the visit here of Count von Bernstorff, the German ambassador at Washington, that Germany, for political and commercial reasons, could not afford to hold aloof. There is a lukewarm feeling in big industrial and manufacturing circles, however.

New Coast Ships Ordered.
Philadelphia—A fourth contract for construction of a fleet of liners for Grace & Company, of New York, owners of the Atlantic & Pacific Steamship company, has been received by William Cram & Sons. One vessel of the fleet will be launched probably by November 6, 1913, while the other three will follow before the end of the year. The vessels, of 10,000 tons capacity, are to be used in the Atlantic and Pacific Coast passenger and freight trade and until the opening of the canal will make trips via the Horn.

They were childhood friends and school mates in Derbyshire, England.

Dainty waists.
White satin waists are exquisitely dainty, but it is to be feared that the daintiness of such a waist will be very evanescent. So only the woman who can afford the somewhat high cost of constant dry cleaning may indulge in white satin fall shirts—unless she cares to "do them up" herself. There is a special washable satin that comes for these white waists, but the best of tub satins must be handled with extreme care if it is to survive even one laundering and retain its pristine luster and richness of texture. Wash the washable satin in soft water and a suds of pure white soap. Writing it not and rub it not, but rinse in several cool waters, and iron when almost dry, with thin muslin between the satin and the iron. So only will you save the luster and the texture of the white satin shirt.

Save the Pins.
A good idea after buying a paper of new pins is to cut one line off at a time and not to dive into the whole paper at once. A sewing basket should have its pin cushion well supplied with pins, and when laundering and retain its pristine luster and richness of texture. Wash the washable satin in soft water and a suds of pure white soap. Writing it not and rub it not, but rinse in several cool waters, and iron when almost dry, with thin muslin between the satin and the iron. So only will you save the luster and the texture of the white satin shirt.

A ball played by a golfer at Weston-super-Mare struck a skylark, so we read, and cut the bird's head off. The golfer heard us tell our story of the golf ball which stuck in a bird's beak in the middle of its flight. The bird flew off with the ball to its nest. Fortunately for the player, the bird had made its nest in the next hole.—London Globe.

WOMEN SHOULD BE PROTECTED
Against So Many Surgical Operations. How Mrs. Bethune and Mrs. Moore Escaped.

Sikeston, Mo.—"For seven years I suffered everything. I was in bed for four or five days at a time every month, and so weak I could hardly walk. I cramped and had headache, and was so nervous and weak that I dreaded to see anyone or have any one move in the room. The doctors gave me medicine to ease me at those times, and said that I ought to have an operation. I would not listen to that, and when a friend of my husband told him about Lydia E. Pinkham's Vegetable Compound and what it had done for his wife, I was willing to take it. Now I look the picture of health and feel like it, too. I can do my own housework, hoe my garden, and milk a cow. I can entertain company and enjoy them. I can visit when I choose, and walk as far as any ordinary woman, any day in the month. I wish I could talk to every suffering woman and girl."—Mrs. DEMA BETHUNE, Sikeston, Mo.

Murrayville, Ill.—"I have taken Lydia E. Pinkham's Vegetable Compound for a very bad case of female trouble and it made me a well woman. My health was all broken down, the doctors said I must have an operation, and I was ready to go to the hospital, but dreaded it so that I began taking your Compound. I got along so well that I gave up the doctors and was saved from the operation."—Mrs. CHARLES MOORE, R. E. No. 3, Murrayville, Ill.

LOYAL TROOPS TAKE VERA CRUZ
General Felix Diaz Captured With Little Trouble.

Officers of Rebellious Troops, With Every Tenth Man, Will Be Executed by Shooting.

Vera Cruz, Mex.—The revolt of General Felix Diaz, nephew of the exiled president, has been short-lived. The town of Vera Cruz, which he occupied with about 2000 adherents for several days, was captured by the federal forces. The casualties were few.
Two federal columns, commanded by Colonel Jimenez Castro and General Joaquin Beltran, entered Vera Cruz from the north and south. There was slight opposition to their advance. Colonel Castro, with fewer than 50 men, captured General Diaz, whose 300 men at police headquarters refused to fire at his command.
The killed and wounded number fewer than 100. No foreigner was hurt. Desultory firing continued after the capture of the town. Instead of a great battle, everything was in a muddle. Rebels and federals encountered each other in the streets without one knowing which side the other was affiliated with, as uniforms of all were alike.

Mexico City.—Following the retaking of Vera Cruz by federal forces, which was accomplished with little real fighting, General Felix Diaz, Colonel Jose Diaz Ordaz and all the officers of the rebellious troops and marines will be held immediately before a court-martial and doubtless will suffer the death penalty. Orders have been issued for the convening of the court, which will be presided over by General Beltran.

General Diaz, although not now a member of the army, is amenable in such a court under the law which provides for such trial of any civilian under like circumstances.
The soldiers of the rebellious troops will be decimated—one in ten being executed. They will be chosen by lot to pay the penalty for all.
The collapse of the Diaz movement one week after its inception with a minimum of fighting and bloodshed has created the greatest surprise here. In administration circles, where optimism has been the keynote since the beginning, the outcome is regarded as the highest possible vindication of the confidence always expressed in the loyalty of the army.
General Felix Diaz, after General Reyes, has been regarded as the man who could wield the greatest influence with the army and the people generally. His rebellion, ending in a fiasco only slightly less pronounced than that of Reyes last December, removes a danger that long has loomed on the political horizon.

WOMEN IN MEAT RIOT.
Berlin Housewives Raid Butchers Who Formed Combine.
Berlin—Hundreds of Berlin housewives joined in a wild riot Thursday because the butchers in the union markets refused to handle meat imported so as to reduce the cost of living.
The principal troubles occurred in the Wedding district, which is entirely inhabited by working people. Hundreds of women who went to the municipal market hoping to profit by reduced prices found that the butchers had agreed not to deal in meats imported by the municipality. They stormed the butchers' stalls, seized all the native raised meat, trampled it on the ground and fought with the butchers. The police were forced to close the market to stop the riots.
The municipality declares its intention of punishing the butchers by cancelling their licenses.
Money Painter in Prison.
Chicago—Louis Gadmoro, who turned his talent as an artist into the painting of \$10 counterfeit government notes, was sentenced to serve one year in the United States prior to Fort Leavenworth, Kan., after he had admitted his guilt. He was started off for prison at once. Gadmoro told the court he had painted the notes so that he could support his wife and child when he found he could not sell his paintings. The authorities declared the notes were so well executed that it was difficult to detect them.

Mexico City Not Elated.
Mexico City—The taking of Vera Cruz by the federal forces is confirmed from all quarters. President Madero as sent the following dispatch to the governors of all the states: "Vera Cruz is in the hands of the loyal troops. Diaz has been taken prisoner." There is much suppressed excitement here over the federal victory, but little elation. That the movement was suppressed so quickly has caused much surprise. The general opinion is that the government success will operate greatly to strengthen it.

Explosion Fatal to Five.
Halley City, Ont.—Five persons were killed and three seriously, perhaps fatally, injured when the plant of the Energetic Explosive company was blown up Thursday afternoon.
The factory was completely ruined and houses throughout the village were demolished. The cause of the explosion is not known. Flames shot 200 feet into the air, and flying roofing and splintered timbers were thrown through nearby buildings.
John D. Underestimated.
Yonkers, N. Y.—Talking to the students of the commercial department of Yonkers high school, Henry Clews, the New York financier, told them that John D. Rockefeller once worked for 15 a week, and when he tried to get an increase was informed that his services were not worth any more than that. Clews said the story of the incident was "brand new."

There are a few of the so-called Maltese terriers in Malta, but they are not of pure blood, and the puppies which the street hawkers offer for sale to tourists are more or less mongrel, with a strain of the old breed. Here is one of the stories, says the American Greeting, from the old man's row in front of the barber shop: One man said back in Pennsylvania they farmed the land where the hills were so steep that when they planted potatoes one man had to hold them in a furrow while another man covered them up. When they dug them in the fall they were simply allowed to roll to the bottom of the hill before any attempt was made to pick them up.
