WILSON TO CALL EXTRA SESSION

Put An End to Business Uncertainty Soon as Possible.

Date Will Be Not Later Than April 15—Revision of Tariff to Be Principal Question.

New York—Governor Wilson announced that immediately after his inauguration as president of the United States he would call an extraordinary session of congress to convene not later than April 15 for the purpose of revising the tariff.

The president-elect sailed for Bermuda at 2 o'clock Saturday afternoon for a vacation and will return December 16. To set at rest speculation as to what he would do with regard to tariff revision, he issued the following statement:

"I shall call congress together in extraordinary session not later than April 15. I shall do this not only because I think that the pledges of the party ought to be redeemed as promptly as possible, but also because I know it to be in the interest of business that all uncertainty as to what the particular items of tariff revision are to be should be removed as soon as possible."

HALF BILLION INVOLVED.

Suit Begins to Quiet Title to California Oil Lands.

Washington, D. C.—Title to Western oil lands valued at the stupendous figure of \$500,000,000 is said to depend upon the outcome of the legal controversy which opened in earnest Saturday before the Supreme court of the United States. Edmund Burke filed before the court his printed argument in favor of a claim to a portion of the land in controversy, scathingly arraigning the Southern Pacific Railway company, also fighting for the property. The case will be argued orally January 6. The land in controversy in this particular case is in the oil fields of Southern California. The Southern Pacific claims it under the land-grant act and Interior department patents which contained the provision "excluding and excepting all mineral lands, should any such be found in the tract."

The validity and effect of this exception is receiving unusual attention because of its having been included in the land grants to other railroads for decade after decade. Mr. Burke contends that all oil land is mineral land. According to the brief filed the interpretation of the exception would determine the Southern Pacific's claim to oil land worth more than the entire road itself.

Fruit Union is Assured.

Spokane, Wash.—The first definite step toward effecting a permanent organization of fruitgrowers in Oregon, Idaho, Montana and Washington with a view to marketing fruit through a common channel was taken here with the adoption of a resolution by representative fruitgrowers, bankers, railroad traffic men and others at a meeting tendered by the management of the apple show here.

The resolution calls for a convention of delegates, one from each fruit district in the states named to be held in Spokane December 16.

The resolution, which was adopted unanimously, was introduced by N. C. Richards, representing the Yakima Fruitgrowers' association and was the result of a private conference of fruitgrowers.

Taft Favors Free Tolls.

Washington, D. C.—President Taft told official visitors he did not expect to recommend to congress the repeal of the free toll provision made in the Panama canal bill last summer for American coastwise vessels. A second portion of the report of Professor Johnson, the expert upon whose investigation the president based his recent proclamation of tolls, contains strong recommendation against free tolls for American ships. Professor Johnson's report did not discuss the diplomatic aspect of the canal toll measure.

Border Bullets Find 23.

Washington, D. C.—Twenty-three persons at least were killed or wounded badly on the American side of the Mexican boundary last year by bullets fired during the fighting between the rebels and government forces under Madero. This fact was developed by Colonel Francis Kernan, which has just returned from an inspection trip to El Paso, Tex., and Douglas, Ariz., where most of the trouble occurred. The board said that other persons, many of them Mexicans, were injured.

Powers Approach Allies.

Paris—An official note issued by the diplomatic corps says the ministers of the powers have approached the various Balkan states with the view to mediation and that the foreign ministers of the allies replied that they would refer the suggestion to their governments. The Montenegrin minister added that his government considered itself unable to consent to an armistice except on condition that the Turks surrender Scutari.

St Lawrence is Tied Up.

Montreal—The storm which has raged throughout Quebec Province the past 24 hours has effectually tied up navigation on the St. Lawrence. The suspension of activity in the local harbor comes at a time when the lake steamers are pouring in huge cargoes of grain, which if not quickly exported will cause a congestion.

Strikers Attack Train.

Charleston, W. Va.—Striking miners attacked a passenger train on the Cabin Creek branch of the Chesapeake & Ohio railroad. The miners stopped the train and refused to allow it to proceed because two carloads of alleged strikebreakers were attached.

"Show it to me. I used to be a tight-rope walker."—Saturday Evening Post.

PANAMA CANAL TOLLS ARE FIXED

Foreign Ships Must Pay \$1.20 Per Ton Net.

British Protest is Ignored by President—American Coastwise Vessels Are Exempt.

Washington, D. C.—President Taft has issued a proclamation fixing the rates that foreign shipping shall pay for passage through the Panama canal. The proclamation, made under authority of the canal bill passed by congress in August, establishes a merchant vessel rate of \$1.20 per net ton in actual carrying capacity, with a reduction of 40 per cent for ships in ballast.

The provisions of the proclamation are as follows:

"1. On merchant vessels carrying passengers or cargo, \$1.20 per net vessel ton—each 100 cubic feet—of actual earning capacity.

"2. On vessels in ballast without passengers or cargo, 40 per cent less than the rate of tolls for vessels with passengers or cargo.

"3. Upon naval vessels other than transports, colliers, hospital ships and supply ships, 50 cents per displacement ton.

"4. Upon army and navy transports, colliers, hospital ships and supply ships \$1.20 per net ton, the vessels to be measured by the same rules as are employed in demanding the net tonnage of merchant vessels.

"The secretary of war will prepare and prescribe such rules for the measurement of vessels, and such regulations as may be necessary and proper to carry this proclamation into full force and effect."

American coastwise shipping was exempted from toll payment by congress. It was to this provision of the act that Great Britain protested, but no reference to the protest was made in the president's proclamation. American naval vessels are exempted without specific mention either in the act of congress or the proclamation, because the authorities believe it unnecessary to explain the uselessness of payment from the navy pocket to the Treasury department.

SPELLING OLD FASHIONED.

Governor Wilson Says Simplified Way is "Too Bull Moose."

Princeton, N. J.—President-elect Wilson does not approve of simplified spelling. He expressed himself emphatically in opposition to the new idea when a contract from the waterways department of the state of New Jersey was laid before him for his signature. After having read the document he said:

"What kind of spelling is this? I see the word 'throughfare' spelled 'thorofare' here, and some other long words contracted in the same manner."

"This is the simplified method of spelling that has been adopted in our department," said the clerk who had brought the contract.

"Well, I don't approve of it at all; it is too Bull Moose to suit me," said Wilson, laughing. But he signed the contract, and it is just as legal as if the words were spelled in the old-fashioned way.

Aviators Direct Battery.

Junction City, Kan.—The aeroplane tests conducted by the War department at Fort Riley, Kan., came to a close with unusually successful experiments.

Lieutenant Thomas DeW. Milling, with an observer on an aeroplane, located an infantry train consisting of dummy figures of supply wagons and an infantry escort three minutes after ascending. The information was flashed to a battery on the other side of the hill and the train was destroyed at the first volley.

Lieutenant Milling ascended again with an observer, and by dropping cards transmitted the range of an enemy to the battery.

Battle at Tchatalja Stops.

Constantinople—In the last 48 hours, according to advices received here, there has been no fighting on the Tchatalja lines, owing, it is believed, to the fact that the negotiations for an armistice are proceeding direct with the Bulgarians. Another factor which probably has contributed to upset the Bulgarian plans is the outbreak of cholera. The Englishman in charge of the Karaburun lighthouse reports that Bulgarian scouts fired upon a tug loaded with refugees from Silifli, wounding one.

Patriarch Needs No Help.

Baker, Or.—"Uncle Tom" Keating, probably the oldest voter in this county, surprised his many friends at the recent election here when he read and marked his ballot without anyone's aid and without even the aid of glasses. Mr. Keating is in his 89th year, and was much better informed and readier with his judgment as to candidates and measures than many of his younger brothers. Mr. Keating is a resident of Lower Powder River valley, about 20 miles east of this city.

Lad Steals Long Trip.

Los Angeles—Henry Wheeling, a 12-year-old boy from Crawfordsville, Ind., who said he had ridden the entire distance on the rear of automobiles, arrived here Thursday. Young Wheeling was discovered at Pomona, 35 miles east of Los Angeles, wedged in a large tire on the rear of a transcontinental automobile. He was taken out, dined and rode on a seat the remainder of his journey. The lad said the trip required two months.

Beauty in Expression.

If the great number of women who believe that they are sadly lacking in beauty who pass valuable time and money in vainly trying to acquire it could be brought to realize that the highest form of beauty is that of expression! This is attained by the possession of inward graces, which frequently transform a so-called plain face into one more beautiful and winning than the combination of a perfect complexion and regular features.

Simple Club Doings.

While Mrs. W. was busy in her kitchen preparing the light refreshments for her bridge club, which includes the more well-to-do of the neighboring country, Sally Hill, a poor farmer's child, came in with a donation of home-made pickles. "My mother belongs to a club, too," said Sally. "Does she? And what do they do? Play cards?" "No." "Sew?" "Oh, no; they just draw names out of a hat to see who'll have the next meeting."

Should Have Some Superstition.

We would not give a rap for the person who is without all superstition. We would a little bit prefer the man whose superstitions are pessimistic to the one who is so exceedingly superior as to think there is no luck in life, no favor nor disfavor in anything that may happen or in any circumstance that may surround our lives.—Exchange.

Origin of Popular Saying.

The origin of the saying that it takes nine tolls to make a man is thought by some to be a corruption of "nine tollers make a man," the "tollers" being another name for "tolls" of a bell. The English custom was to strike three times three tolls or "tollers" on the passing bell for the death of a man. It was three times two for a woman.

Two-Edged Sword.

Curiosity is finding out something about somebody else that doesn't concern you and which would make you might mad if somebody else found it out about you when it didn't concern somebody else.—Milwaukee Sentinel.

Woman of Narrow Mind.

A woman lacking in true culture is said to betray by conversation a mind of narrow compass, bounded on the north by her servants, on the east by her children, on the south by her ailments, and on the west by her clothes.—Burton Kingsland.

African Ants.
These insects sometimes set forward in such multitudes that the whole earth seems to be in motion. A corps of them once was seen to attack and cover an elephant quietly feeding in a pasture. In eight hours nothing was to be seen but the skeleton of that enormous animal completely picked. The business was done, and the enemy marched on after fresh prey. Such power have the smallest creatures acting in concert.
