Courage.

As courage is pre-eminently the virtue of men, so it is the virtue which most powerfully challenges the respect and emulation of men. And it deserves this pre-eminence, for it is also the virtue which gives security to all the other virtues.—Lowell.

Pretty Sure.

Whenever a man is threatened by the deep sea he is pretty sure to find the devil on the other side of him.

WILLOW RIVER

British Columbia.

The first registered townsite on the Grand Trunk Pacific Railway.

The heart of a country larger than Oregon—rich in natural resources.

On the Fraser river—with over 1000 miles of navigable waterways.

The terminus of the Pacific & Hudson Bay Railway to the Peace River country.

Several other railroads laying plans to build into the townsite.

Standing timber in large quantities in all directions.

Agricultural lands in abundance, that can be pre-empted or purchased direct from the government.

Gold in the sands of Willow River for placer mining and the mining camp, Barkerville, only 110 miles away.

Coal is estimated to be sufficient to last all Canada for a century; located in the Bear River district, only 16 miles distant.

With these natural resources and the railroads spending millions building into that great undeveloped empire, isn't that enough to insure a "City of Importance!" What more would you ask?

Lots are priced low. Terms are easy. Advance of $100 per lot on January 18, 1913.

When the Grand Trunk Pacific trains are running into town next summer from Winnipeg and the East your lots will be worth several times what they are today.

Willow River will certainly be another Edmonton, Calgary or Prince Rupert.

Send for plat today—that you may get a good selection before the advance of prices.

Grippe, Colds and Pneumonia Come From Run Down Condition.

C. Gee Wo C. Gee Wo

THE CHINESE DOCTOR

This wonderful man has made a life study of the properties and actions of roots, herbs, buds and barks on the human system. Many of the remedies which this man uses are scarcely known to the scientists of this country, and in Chinese families are handed down from father to son and kept a profound secret. Most of these remedies are imported from far-off Asia to his large laboratory at 162½ First street.

It seems almost a miracle to many patients who have called on this famous man and in such short time become well by his treatment.

If you live elsewhere than in Portland and wish to procure his medicines, send 4 cents in stamps and a symptom blank and circular will be forwarded to you. This you will fill out and proper remedies will then be sent to you.

Open evenings and Sundays.

The C. Gee Wo Chinese Medicine Co.

162½ First St., Cor. Morrison

PORTLAND, OR.

WHEN writing to advertisers, please mention this paper.

Had Kept Her Bargain.

An ingenious trick was recently played on some women of Maulkjanj, Madras, India. They handed sums of money to a woman who said that she possessed the power of doubling the contents. The victims had their packets returned to them after seven days, when the silver coins they had contained were found to have been changed into copper ones.

It Cures While You Walk.

Allen's Foot-Ease is a certain cure for hot, sweating, callus, and swollen, aching feet. Sold by all Druggists. Price 25c. Don't accept any substitute. Trial package FREE. Address Allen S. Olmsted, Le Roy, N. Y.

Accomplishing.

It is very important that the young man select his life work early and bend every energy toward accomplishing something. One of the most common causes of failure in this life lies in the fact that men do not see the importance of being thorough until it is too late.—Florence Vidette.

English Stump Speech.

A correspondent, "Old Briney," sends us the following specimen of frenzied stump oratory: "Feller blokes! Thanks ter th' guv'ment, yer got yer d'minishin' wage, and yer little loaf, an' all that. Wotcher got ter do now is ter go fer devil-ootion and local anatomy, an' go it blind!" (Loud cheers.)—London Globe.

Be thrifty on little things like bluing. Don't accept water for bluing. Ask for Red Cross Ball Blue, the extra good value blue.

By Installments.

The "epoch-making advice" of a bookmaker to a colleague in distress is related in Vanity Fair. The colleague had been paid £25 on a bet by a certain captain, who, in a fit of absent-mindedness, paid him the same amount again next day. "What shall I do about it?" asked the bookmaker of his friend; and prompt came the answer: "Ask him for it again."

Steel Stays Stopped Bullet.

Steel stays have saved many a woman's life. Not long ago Mary Henessy was taken to Bellevue hospital with a flesh wound in the side, and Dr. Drury discovered that had it not been for a steel stay which deflected the bullet the wound would have been fatal, for the slug had been traveling toward a vital organ.

Clogged Sewing Machine.

When a sewing machine will not work, stand it near the fire so that the oil may melt, and then clean with pure paraffin, putting it into every oil hole. Work the machine well, and then wipe every part with a clean cloth. When perfectly clean, lubricate with machine oil.

As a Man Thinks.

Jennie—"He must have a soft spot in his heart for me." Wennie—"Why so?" Jennie—"He says he is always thinking of me." Wennie—"But, you know, a man doesn't think with his heart. The soft place must be in his head."—London Telegraph.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Happiest Home.

But the happiest home is built when the twain together meet the trials and catastrophes that come from the outside world with the good health, the common sense, the humor, the patience and courage that will rout them. It should not be necessary for these qualities to be used by the one to combat the faults of the other. —Barbara Boyd.

Learning by Love Letter.

"Love letters between young men and women are an excellent method of teaching literature," says Dr. Arthur Holmes. But it must be done tactfully. We have known a young lady who broke off an engagement because her fiance returned her love letters with the spelling errors neatly corrected in red ink.

FOR COUGHS AND COLDS

COST OF LIVING UP TO FARMERS

Government Expert Says All Depends on Size of Crops.

Soil Must Be Made to Yield More—Proportion of Farmers Growing Smaller.

Washington, D. C.—The fever that will break the backbone of high prices of foodstuffs is more intensive farming, cultivation of unoccupied lands near the large cities and more intelligent methods of agriculture, in the opinion expressed by Professor Milton Whitney, chief of the bureau of soils, of the department of agriculture. Dr. Whitney is a leading authority on soils and their uses and his many publications on soils and their adaptation to crop production and their relation to food consumption have attracted world-wide attention.

Dr. Whitney is preparing a bulletin on soils of the country and their relation to the nation's future food supply. He draws specil attention to the vast amount of uncultivated areas of land, the decline in the cultivated areas compared with the rapid increase of the country's population.

"The country is advancing in every line," said Dr. Whitney. "People are living better than ever before. As a result we are stronger physically and mentally. We are consuming more foodstuffs per capita than the population of the European countries and I would not for a moment attempt to discourage less food consumption. It is plain that until we get a larger supply of foodstuffs, and if the period of high salaries continues, we can expect the present high cost of living to continue.

"So let us touch the producing side of the question. For instance, the states north of the Potomac and east of the Ohio river have a total area of 12,322,880 acres. The area under cultivation in this territory is estimated at a little over 40,000,000 acres. Added to this is 27,000,000 acres used for forestry. So we have over 42,000,000 acres of idle land in the territory lying in the states.

"During the past 30 years the amount of land in use has steadily decreased until it is now about 20 per cent less than in 1880, while the country as a whole has been growing at a phenomenal rate.

"The number of persons engaged in agricultural pursuits in the states above mentioned has also decreased during the past 30 years, while the total population has largely increased.

"There are at present, mark you, about 1,300,000 persons engaged in agriculture in the area under consideration with a population of over 30,000,000 non-agricultural producers to be fed.

"The bureau of soils estimates that the land under cultivation in the area can be made to yield at least four times as much as at present by more intelligent and intensive methods of farming. Moreover, the same up-to-date methods used on the idle lands will have a yielding capacity of over eight times as much as at present.

"Careful investigations conducted by the bureau prove that these lands are well adapted to all classes of crops from the early fruit, truck and vegetables to the latest storage fruits and vegetables for winter use, and to the most intensive kind of dairy farming.

"The conditions in the eastern section of the country are similar to those existing in other sections. So whether the cost of living is to be reduced or not, it is perfectly plain to even the layman mind that to feed the present and constantly-growing population of the country a greater production of foodstuffs must be raised.

"To do this more people have got to return to the farms; it is necessary to put more land under cultivation; more improved methods of agriculture, and more intensified farming must be followed."

World's Crops Reported.

Washington, D. C. — The International Institute of Agriculture at Rome has reported to the department of agriculture on the year's crop figures. According to the institute, the production in Germany was: Wheat, 160,227,000; rye, 456,608,000; oats, 965,999,000; barley, 159,927,000 bushels. Austria produced in wheat 69,640,000; rye, 117,114,000; oats, 167,423,000; barley, 78,384,000 bushels. In 10 European countries and Canada the production of sugar beets was 136 per cent of last year's production.

Puts Eggs in Her Hose.

Richmond, Cal.—Mrs. D. Kavinet, a shoplifter, was caught with enough eggs in her stockings to make a family omelet. Eggs have disappeared every time she visited a market, conducted by T. D. Morgan. He marked some of the eggs and waited. They faded from sight on her next visit to the market and Morgan called a policeman. A woman at the jail made a search and reported nothing doing in the egg line. Morgan averred that Mrs. Kavinet had the eggs. More searching brought them to view in her stocking.

Taking of Town Confirmed.

El Paso, Tex.—Despite the denial of Minister Hernandez, the taking of Ascencion by the rebels is confirmed officially at Juarez and reported by numerous refugees coming from the town. The taking of Casas Grandes as reported by rebels, remains unconfirmed. Railway reports say nothing of the Casas Grandes attack. The Seventh Federal cavalry is proceeding slowly behind railroad work trains toward Ascencion.

Flying Santa Sheds Furs.

San Francisco—Santa Claus in an aeroplane flew over the heads of thousands of persons gathered here Christmas at the third international aviation meet of the Pacific Cost, and dropped bags of candy and nuts into the crowd. The warm weather, however, made it uncomfortable for Santa and he soon alighted, to shed his furs.

SNOWSLIDE CRUSHES TRAIN

Rain, Wind and Snow Do Immense Damage to Property.

Ellensburg, Wash.— Snowslide crushes 15 freight cars into kindling.

Seattle—Boiler on rotary snow plow on Great Northern road explodes, injuring five, two fatally.

Aberdeen—Traffic and wire communication badly hit by storm—landslide throws two houses from foundations—shipping tied up.

Falls City, Or. — Heaviest rain and wind storm ever recorded.

Newport—Rain heavy and wind blows a gale, but no shipping damage reported.

Dallas — Telephone lines down and bridges washed out with La-Creole river flooding adjacent land.

Chehails—Chehalis river on a rampage for two days. Big log jam likely to break any time.

Vancouver—Several Clark county bridges and roads washed out and rainfall of Sunday 1.92 inches.

Centralia—Surrounding country flooded—citizens fear inundation in business district.

Ellensburg, Wash.—The Chicago, Milwaukee & Puget Sound eastbound fast freight, which was stalled in a drift one mile west of Laconia, in Snoqualmie Pass, Saturday afternoon, was wrecked late Monday by an avalanche that swept down the mountain just when the train was almost free from the first drift.

Two locomotives were knocked off the track and wrecked, 12 cars loaded with Oriental imports were smashed into small bits and 23 other cars were buried under the snow, part of which is 15 feet deep.

Roadmaster W. R. Hunt was caught in the slide and severely injured.

Snow conditions in the Cascade mountains are the worst in 20 years, according to railroad officials here.

The Milwaukee was completely tied up by slides. The Northern Pacific refused to handle Milwaukee trains over the mountains. Snow plows at Easton and Lester were wedged in the snow.

A plow stationed at Ellensburg, with a 15-foot double fan, released one imprisoned plow. A locomotive left the rails at Easton and turned on its side.

A wrecking outfit left here by special train, with 95 laborers following.

A foot of snow an hour was reported at the summit. Lower down rain fell and then froze, forming a heavy crust on the snow and making conditions much worse.

33 CONVICTED DYNAMITERS RECEIVE THEIR SENTENCES

Indianapolis, Ind.—Imprisonment in the Federal prison at Leavenworth, Kan., was imposed as a punishment upon 33 labor union officials convicted of having engaged in the destruction of property by dynamiting over an area stretching from Boston to Los Angeles.

As the head of the union whose strike was given as the motive for promoting the dynamite plots, Frank M. Ryan was sentenced to seven years' imprisonment, the heaviest sentence of all. He is president of the Ironworkers' International union.

Of the 38 men convicted as conspirators and aiders in the McNamara dynamiting schemes, eight other men affiliated with Ryan were each sentenced to prison terms of six years, two men each were sentenced to four years, 12 men were each sentenced to three years, four men were sentenced to two years each, six men to one year and one day each, and six men, including Edward Clark, of Cincinnati, a dynamiter who pleaded guilty, received their liberty on suspended sentences.

The elimination of those who received suspended sentences left 33 who are to go to Leavenworth, where the shortest sentence will be one year and one day.

Municipal Carline Pays.

San Francisco—In the first day and a half of its operation, San Francisco's new municipal railway line returned to the city a profit of $632.75. The first car was sent out Saturday noon and the receipts for the half day were $748.75. Sunday's receipts were $910, making a total of $1658.75 for the day and a half. The estimated operating expenses of the road are $450 a day and the fixed charges on the bonds $234 a day. There is an owl service with cars running every hour between 12:30 and 5:30 in the morning.

Painters Fall to Death.

San Francisco—Falling six stories down a light-well in the Whitney building and crashing through a skylight into the rear room of a store below, John N. Crawford and Edward J. Hannan, painters, were instantly killed. Both bodies were badly mangled and it was with difficulty that they were extricated from the tangled ropes and debris which held them. The men were at work 70 feet above the skylight when one of the ropes on which the hanging scaffold was suspended gave way.

Arms Stored at El Paso.

El Paso, Tex.—At least 4000 rifles and untold quantities of ammunition, in shipments of from 5000 to 50,000 pounds each, have been received here within the last three months, official figures show. That the arms and cartridges were not all sold to sportsmen is self-evident. Some months ago enforcement of neutrality was removed from the Department of Justice's secret agents along the border and turned over to the War department.

Greeks Lose Naval Battle.

London—A naval battle between Turkish and Greek forces occurred Wednesday off the island of Tenedos, in which the Greeks suffered severe losses, according to a news agency dispatch received here from Constantinople.

38 CONVICTED IN DYNAMITE CASES

Every Count of Indictment Is Upheld by Jury.

All But Two Are Members of Ironworkers' Union—Two Accused Men Cleared.

Indianapolis — The United States government with stern and decisive swiftness took into its possession 38 union labor officials, convicted of conspiracy, of promoting explosions on non-union work throughout the land, of aiding in the destruction which brought loss of life in Los Angeles, and of carrying on a "reign of terrorr" declared to be unparalleled in the history of the country.

Almost the entire executive staff of the International Association of Bridge & Structural Iron Workers was convicted. Only two officials of that union now remain out of jail.

At the head of the list of those convicted stands Frank Moran, the president.

It was of this union, with 12,000 members, that John J. McNamara was secretary-treasurer while he conducted the dynamitings out of which the present convictions grew.

The convictions, coming on a scale unprecedented in a Federal court, were an aftermath of the killing of 21 persons in the blowing up of the Los Angeles Times building on October 1, 1910. McNamara and his brother, James B., the Times dynamiters, are convicts in California, and his fellow officials, former associates of McNamara, are Federal prisoners here, awaiting sentence.

Two of those convicted were not affiliated with the Iron Workers' union, but they were found guilty of joining with the Iron Workers' officials in promoting the conspiracy. One of these is Olaf A. Tvietmoe, of San Francisco, a recognized labor leader on the Pacific Coast, the testimony against whom was that he aided in causing explosions in Los Angeles, wrote letters about them and referred to them as "Christmas presents" after the fatal explosion in Los Angeles, and that he aided in concealing evidence wanted in California. He is secretary of the California Building Trades Council.

GALE SENDS BARK ON BEACH

British Four-Master Is Wrecked—Crew of 30 Saved.

Aberdeen, Wash.—Heroic work by the Westport lifesaving crew was all that saved the officers and men, 30 in all, of the British four-masted bark Torrisdale, which went ashore half a mile south of the jetty near the entrance to Grays Harbor early Saturday.

It was the fate of the vessel's crew to realize that they were drifting to a most certain death for several hours before the Torrisdale finally struck. Seven hours' work in a lifeboat in one of the worst seas ever known along the coast was the form of Providence that saved Captain Collins and his men.

The Torrisdale lies a total wreck on her beam ends and with waves dashing over her, not more than 800 yards from the high water line. Her back is broken, and her crew aver that she was leaking badly when she finally laid over.

Chicago Drinks Less Beer.

Chicago—Chicago and surrounding territory consumed 224,945 fewer barrels of beer in 1912 than in the preceding 12 months, according to a report filed recently by S. M. Finch, collector of internal revenue. Brewers explain the decrease by the cool weather in the early part of last summer, which decreased the consumption of the product. The amount of spiritous liquors consumed showed an increase. Taxes collected this year on spirits in this district amounted to $451,500 as against $414,626 last year.

Rare Art Sale Probable.

London—Negotiations are in progress which may lead to one of the most sensational sales of art treasures that has ever taken place in London. It is the public auction of the wonderful treasures from the imperial palaces in China. The Chinese palaces are vast storehouses of art treasures. The late dowager empress was an assiduous collector, for she used to receive on her birthdays quantities of bronzes, black pearls and gold ornaments of rare workmanship from loyal subjects who wished to buy her favor.

Chinese Asks for Baby.

Los Angeles—A petition bearing the signature of a Chinese seeking the adoption of an American baby has been placed on file in the Superior court. The child, at the age of one day, was found three years ago by Lute W. Jimmie, the Chinese petitioner, on the porch of a neighbor's home, where it had been abandoned. Lute is an American-born Chinese and conducts a flourishing mercantile business. His wife is a Caucasian.

Darrow Trial to Begin,

Los Angeles—The second trial of Clarence S. Darrow, the Chicago attorney who was chief counsel in the trial of James B. McNamara and who was indicted by the county grand jury a year ago on two charges of jury bribing, will be begun here January 20.

John D. Fredericks, district attorney, said the conviction of the 38 union men in Indianapolis would have no effect upon the Darrow case.

City's Carline Running.

San Francisco — The Geary-Street Municipal railroad, running from the center of the business district to the ocean beach, was formally declared in operation Saturday. Mayor Rolph paid the first nickel taken in. The road is five and a half miles long and the estimated cost of construction and equipment is $1,543,721.

"Father, I'm Glad You Smoke Duke's Mixture"

Before we tell you about the boy and his air rifle, we want you to hear about *Liggett & Myers* Duke's Mixture—the tobacco that thousands of men find "just right" for a pipe—the tobacco that makes "rolling" popular.

Liggett & Myers

Duke's Mixture

This favorite tobacco is fine old Virginia and North Carolina bright leaf that has been thoroughly aged, stemmed—and then granulated. It has the true tobacco taste, for the very simple reason that it is *pure* tobacco.

Pay what you will—it is impossible to get a purer or more likeable smoke than Duke's Mixture. It is now a *Liggett & Myers* leader, and is unsurpassed in quality.

In every 5c sack there is one *and a half* ounces of splendid tobacco—and with each sack you get a book of cigarette papers FREE.

How the Boy Got His Air Rifle

In every sack of the *Liggett & Myers* Duke's Mixture we now pack a Free Present Coupon. These Coupons are good for all kinds of useful articles—something to please every member of the family. There are skates, sleds, balls and bats, cameras, umbrellas, watches, fountain pens, pipes, opera glasses, etc., etc.

As a special offer, *during January and February only, we will send you our new illustrated catalogue of presents, FREE.* Just send us your name and address on a postal.

Coupons from Duke's Mixture may be assorted with tags from HORSE SHOE, J. T., TINSLEY'S NATURAL LEAF, GRANGER TWIST, *coupons from* FOUR ROSES *(10c-tin double coupon),* PICK PLUG CUT, PIEDMONT CIGARETTES, CLIX CIGARETTES, *and other tags or coupons issued by us.*

Air Flight for Consumption.

If you have incipient consumption—take a flight in an airship. Doctor Flemming, an eminent authority on tuberculosis lecturing before the Berlin Aeronautical association, described the benefits of high altitudes upon those afflicted, and asserted that fifteen minutes' exposure to the sun's rays during an airship flight at high altitude was certain death to the bacilli of tuberculosis.

We Are a Nation of Frog-Eaters.

Frogs' legs, at which people turned up their noses in disgust only a few years ago, have now become so popular an article of diet that no fewer than 6,000,000 frogs a year are killed in Minnesota alone to supply the demand. The northwestern frogs are the most delicate, but the biggest are the southern bullfrogs. The latter are not so sweet or tender as the former.

PILES CURED IN 6 TO 14 DAYS

Your druggist will refund money if PAZO OINTMENT fails to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days. 50c.

Too Good to Lose.

Jack—"Now that your engagement is broken, are you going to make Blanche send back your letters?" Harry—"You bet I am. I worked hard thinking out those letters; they're worth using again."

New Idea in Fruit Growing.

An electric motor to vibrate gently a fruit tree so that the sap flows to the buds and blossoms and enables them to resist frost has been patented by a Colorado orchardist.

Greek Fire to Be Used Again.

To stop following hostile vessels or even for purposes of attack when the conditions are right a German naval officer has invented a Greek fire that will burn while floating on water.

Hindu Charm.

"The God-given Almighty Power is moving within me to give health, success and happiness. I shall be shown the way to help bring about all these conditions. Love, Light and Kindness wait upon me. I shall be shown the way."

Emphatic Comment.

It was held by the duke of Wellington that the true story of the battle of Waterloo had never been written. A contemporary relates how he once sat in a carriage with the duke and "watched him read a ponderous quarto recital of the battle of Waterloo. Against paragraph after paragraph he traced the letters 'L.' or 'D. L.' with a great blunt ended pencil. I ventured to ask what these mystic letters meant. The pithy reply was: "'Lie' and "Damned lie," to be sure.'"

Red Cross Ball Blue gives double value for your money, goes twice as far as any other. Ask your grocer.

Willing to Please.

"During an anti-fly campaign," writes E. K. O. to the Cleveland Plain Dealer, "one of the teachers in our public schools urged the children to bring in all the flies they could capture. The reward was to be ten cents a pint. On the following day the schoolmarm was astonished to get this question from one of her small charges: "'Teacher, we ain't got no flies at out house. Will bedbugs do jest as well?'"

Many Deadly Weapons.

Some persons attribute all crime to the pistol, forgetting that history tells us that more crimes were committed in the world before there were pistols. What is to prevent a person murderously inclined from obtaining and using a carving knife, an ice pick, an ax, or hatchet, a razor or baseball bat? These all make deadly weapons.

Pettit's Eye Salve QUICK RELIEF EYE TROUBLES

Desire for Long Life.

There appears to exist a greater desire to live long than to live well! Measure by man's desires, he cannot live long enough; measure by his good deeds, and he has not lived long enough; measure by his evil deeds, and he has lived too long.

Fault Finding.

If we had no faults, we should not take so much pleasure in noticing the faults of other people.—La Rochefoucauld.

Destroys Dandruff

Ayer's Hair Vigor keeps the scalp clean and healthy, destroys all dandruff, and greatly promotes the growth of the hair. You will certainly be pleased with it as a dressing for your hair. It keeps the hair soft and smooth and promptly checks any falling of the hair. It does not color the hair, and cannot injure the hair or scalp. Consult your doctor about these hair problems. Ask him what he thinks of Ayer's Hair Vigor.

Made by the J. C. AYER CO., Lowell, Mass.
