Care of Broken China.

When mending broken china always place it to set in a large box filled with sawdust. By this means it is easy to stand the article in any desired position, so that its own weight holds the pieces in place, while the cement is hardening.

Sleuthing Coffee Fragrance.

Under Frederick the Great fellows with keen, long noses, throughout the country got jobs as Coffee-smellers to smell out the bean roasting and to detect the odor off the boiling coffee. The government tried building big coffee roasting plants and charging high prices, and in time the Germans all turned again to beer, and coffee was considered a luxury.

Not a Man's World.

This is not rightly a man's world. Great men are but dreams of women become militant. Women are the real inspirers of men; they ignite his every conception. Never yet has man sung, painted, prophesied nor in any way woven tighter the spirit of his time, but that his mother was first great enough to attract the gift; and more often than not, upon his maturity, the potential gift was startled into its supreme expression by another mother's daughter.—Will Levington Comfort.

Old-Time Letter Writing.

For the purposes of letter-writing the leaves of some trees were early used, while the inner bark of the linden tree was in such common demand for this purpose that it has given the word for a book to two languages. But one of the most convenient materials for letter-writing were tablets covered with a thin coating of wax, upon which it was easy to write with a pointed needle called a stylus.

NOMINATIONS TO CAUSE TROUBLE

Republicans May Retaliate If Taft Is Opposed.

Precedent Requires That Appointments of Out-going President be Approved by Opponents.

Washington, D. C.—No one seems to know at this time what disposition the senate will make ultimately of the thousands of nominations submitted this session by President Taft. Generally, Democratic senators are in favor of preventing confirmation, so that all the offices affected shall become vacant March 4, and then be filled by Democrats. But Democratic sentiment is not unanimous, and quite a few of the present minority and soon-to-be majority party are disposed to allow the Republicans to clear up their slate before the Taft administration closes.

Several times the Democrats of the senate have caucused on the question of nominations, yet they have reached no binding agreement as to policy, rather playing for delay, in the hope that something may develop to point the proper course to them. For it is acknowledged that there are two sides to the question of holding up Republican nominations during a Republican administration. For instance, precedent decrees that nominations made by a Republican president shall be confirmed during his administration, except in cases where appointees are personally objectionable to some senator or senators. That was the policy in the days of Cleveland, and Harrison, and McKinley.

But more than this, if the Democrats of the present senate, by filibuster or other means, undertake to prevent the confirmation of all the Taft appointments, now pending or to be submitted later this session, they will arouse Republican senators, and it will be quite as easy for Republicans in the next senate to hold up the nominations of President Wilson, and thus embarrass the incoming administration. Some Republicans even go so far as to threaten to hold up the Wilson cabinet nominations next March, unless the Democrats agree to allow the present senate to vote on Republican nominations now before the senate. And it is quite within the power of any senator or group of senators to hold up even the cabinet appointments.

EXPRESS TRAIN IS WRECKED

Southern Pacific Derailed By Attempt Robbers.

Oregon City, Or.— An unsuccessful attempt to derail and rob the San Francisco Express of the Southern Pacific was made here Saturday night as the train was approaching Oregon City.

A pile of ties was thrown across the tracks at Sixteenth street and Railroad avenue (the tracks), just within a few rods of the trestle across Abernethy creek. The train crashed into the ties at a good speed, but only four of the cars were derailed, the train traveling more than eight blocks and across the trestle before stopping completely or before the cause of the trouble was learned.

The train carries ten cars, including one tourist sleeper, four standard Pullmans, baggage and express cars and three coaches. Instead of jumping the rails the engine scattered the ties, some of which were carried in front of the engine eight blocks. Several were carried four and five blocks entirely across the trestle.

The train was not damaged when the four cars left the rails. They were replaced in quick time. That a disaster was narrowly averted is declared by the railway officials. That the idea of the would-be robbers was to derail the train and send it into the ditch 50 feet beneath the trestle the railway authorities assert.

Serum Held at One Million.

Berlin—That Dr. Friedmann wants $1,000,000 for the American rights to his tuberculosis serum," is the statement made here. German physicians strongly condemn what they call his "non-ethical attitude." They go so far as to say that he is more concerned in the monetary than in the humanitarian aspect of his discovery. Dr. Friedmann has so far failed to carry out his promise of submitting a culture to the government. He denies that mercenary motives govern his action.

Students Sing Services.

Trenton, N. J.—Eighteen Princeton students were brought here Sunday in the capacity of strikebreakers and sang the morning and evening services of St. Michael's Episcopal church in place of the members of the regular choir, who had struck, because, they declared, the rector was interfering with them and their organist. The organist also had walked out and a substitute had to be engaged. The strikers emulated their bretheren in labor disputes by picketing on the outside of the church.

Liners Keep Company.

New York — La Savoie, of the French line, and the Campania, of the Cunard line, arrived at about the same hour Sunday, after voyages across the Atlantic in which they were almost always in sight of each other. The passengers exchanged many wireless greetings and a few bet with those aboard the companion vessel as to which would reach the pier first. The Campania won by less than an hour.

Hundreds of Centuries Old.

What is believed to be the earliest human skull yet found in England has been unearthed in a Sussex gravel pit. It is judged to belong to the pleistocene period, and to be quite as old as any human remains yet found in Europe. The skull is said to have evidently belonged to an exceedingly primitive type of human being and to have enclosed a brain with marked differences from that of any living race.

Believes Hens Once Had Teeth.

That hens had teeth in the olden days is the opinion of Professor Gilbert of Los Angeles (Cal.) high school. In a recent address before a local organization of naturalists he also told his auditors that the eggs of birds have greatly decreased in size since their teeth became extinct. TURKS' COUNCIL BOWS TO FATE

Advice of Powers Accepted and War Is Ended.

Adrianople Ceded to Bulgaria—Aegean Islands Disposed of By Decision of Powers.

Constantinople — Turkey has submitted to the will of the powers. The Grand Council of the Ottoman Empire decided in favor of accepting the proposals of Europe for a peace settlement between Turkey and the Balkan allies.

As officially announced, the Grand Council approved the government's point of view, declared its confidence in the sentiments of equity voiced by the great powers and expressed the wish to see the promises and proposed assistance effectively realized.

The question submitted by the Turkish government to the Grand Council was: "Should the recommendations contained in the note of the European powers be accepted or rejected?"

The government frankly confessed itself in favor of agreeing to the suggestion made by the powers.

The Marquis Johan de Pellavicini, Austro-Hungarian ambassador and dean of the diplomatic corps at Constantinople, has received a note in which the Ottoman government agrees to the proposals embodied in the joint note with regard to the cession of the fortress of Adrianople and the future disposition of the Aegean islands and places itself in the hands of the powers. The question of indemnity is left open.

The joint note of the powers advised Turkey to cede Adrianople to the allies and to leave the fate of the Aegean islands to the powers for future determination. In return, the powers promised their benevolent support as long as Turkey deferred to their counsel.

The note of the powers was read at an audience given by the Sultan, after which Nazim Pasha, the minister of war, explained the military situation. The minister of finance then read a report on the financial situation and the minister of foreign affairs made a statement on the foreign situation.

At the conclusion of these statements the council registered its decision.

54,000 TENTS TO BE LOANED

Plans for Mammoth Gettysburg Camp Approved by Stimson.

Washington, D. C.—Secretary of War Stimson has approved plans formulated by Major James E. Normoyle and Captain P. F. Dalton for the mammoth camp to shelter surviving Union and Confederate veterans who will meet on Gettysburg battlefield next July to commemorate the 50th anniversary of the battle.

The camp will consist of about 54,000 tents, affording accommodations for between 60,000 and 70,000 veterans. There also will be 200 kitchen tents, a complete divisional field hospital and three fully-equipped infirmaries. The camp will spread over 276 acres and will be occupied temporarily by upwards of 100,000 persons.

Dry Inaugural Proposed.

Washington, D. C.—A dry inauguration would mark President-elect Wilson's induction into office if a petition presented in the senate by Senator Gallinger, on behalf of the Woman's Christian Temperance Union, is acted upon favorably by congress. The petition urges closing of all saloons in the National Capital on March 4.

Further action by congress will be necessary if President-elect Wilson desires to have a public reception in the capitol or any other government building as a substitute for the inaugural ball, is the opinion expressed by members of the joint congressional committee on inauguration.

Babies to Get $1 Each.

New Haven, Conn.—As an incentive to those who may be born in coming years in Orange, Conn., near this city, the board of directors of Orange Savings bank have voted to give every child born within the town limits a bankbook with a dollar to its credit. The board of directors instructed the treasurer of the bank to use the official return of births to the town clerk's office as his guide and forward to the parents of each newcomer a bankbook with a dollar deposit to the credit of the new arrival.

Kenyon Will Aid Workers.

Des Moines, Ia.—"I have a course mapped out to fight a battle in congress in the next two years for human rights, moral laws and decency in politics and legislation," declared Senator Kenyon in a speech before the Iowa legislature, accepting the re-election tendered him on joint ballot by a vote of 96 against 57 for D. W. Hamilton, Democrat. "The time has come," continued the senator, "when the laboring man must have a larger share of the wealth he helps to create."

339,500,000 Stamps Used.

Washington, D. C.—The total number of parcel post stamps printed and distributed to date is 339,500,000. Prior to January 1, when the new service was established, 153,292,455 stamps were issued. In the first three weeks of the system's operation 186,207,545 stamps have been supplied to the postoffices. The bureau of engraving and printing is being forced, in order to meet the demand, to print 12,000,000 stamps a day.

Los Angeles—To remove the cause of complaints, which have been steadily increasing ever since "stovepipe" skirts became the fashion, the Pacific Electric Railway company, which controls all the suburban lines radiating out of Los Angeles, announced that it would lower its car steps.

Varieties of Sharks.

The many varieties of the shark are divided into the littoral, the pelagic and the bathybial, according as they are found near the shore, or in mid-ocean, or at great depths. Besides those mentioned there are the liver, the hound, the shovel-nose, the tiger, the hammer-heads, the porbeagles, the fox or thresher, and the basking shark, sometimes, though wrongly, called the sunfish.

Abraham Lincoln's Plea.

Judge's Rebuke.

This incident of a judge's rebuke is related in the case of a lawyer of the aggressive and belligerent class. When the latter concluded a speech of great length, delivered in a particularly loud voice, the judge quietly remarked that he had a few observations to make to the jury "now that the uproar in court had subsided."

FARMER'S WIFE ALMOST A WRECK

Restored to Health by Lydia E. Pinkham's Vegetable Compound—Her Own Story.

Westwood, Md.—"I am a farmer's wife and do most of my own work when I am able. I had nervous spells, female weakness and terrible bearing down pains every month. I also suffered much with my right side. The pain started in my back and extended around my right side, and the doctor told me it was organic inflammation. I was sick every three weeks and had to stay in bed from two to four days.

"It is with great pleasure I tell you what Lydia E. Pinkham's Vegetable Compound has done for me. I have followed your directions as near as possible, and feel much better than I have felt for years. When I wrote you before I was almost a wreck. You can publish this letter if you like. It may help to strengthen the faith of some poor suffering woman."—Mrs. JOHN F. RICHARDS, Westwood, Maryland.

Women who suffer from those distressing ills peculiar to their sex should not doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.
