For a good, social time, be sure to attend this first dance of the season.

COMMITTEE.

Mosier Fruit Goes to Germany

The Mosier Fruit Association last week shipped two cars of apples to Germany. The previous shipment to German markets reached its destination in prime condition, so Manager R. D. Chatfield informs us. Two cars of mixed red apples were also shipped to California last week.

The meeting of the Horticultural Society on Thursday last week was a very interesting one and well attended. The subject for consideration was "Spray and Spraying." Added interest was given the meeting by the talks of Messrs. J. W. Duncan, of Sherman-Williams Co., Portland, and J. C. Butcher, president of the Oregon Arsenical Spray Co., on spray materials.

The subject discussed yesterday was the time for picking the different varieties of apples. The subject to be discussed at next Thursday's meeting, which will be held in Stroup's Hall, will be "Orchard Expenses."

Newlyweds Serenaded

If "Bill" Hudson had an idea that he would be slighted by the residents of Mosier, who make it their business to see that newly married people get a proper send-off, he was most pleasantly disappointed last Saturday night, when a chosen few assembled stealthily at his residence on the Heights and serenaded him and his bride: The first selection was a tin can chorus, followed by a wedding march on the same tin cans; then came that beautiful air, "Oh, Love Me," again by the tin can club.

By this time Mr. and Mrs. Hudson concluded that it were wise to acknowledge the compliment intended and, in order to stop the infernal racket, they appeared on the scene and accepted the congratulations of the serenaders and then proceeded to "treat" them with apples, nuts and cigars. This satisfied the "gang," and they left the bride and groom in peace.

Mrs. T. W. DeBussey was shopping in Hood River yesterday afternoon.

Attention

CITIZENS, INCORPORATE!

A mass meeting will be held in Lamb's Hall next Tuesday night, February 11th, at 8:30, to discuss the subject of incorporating the Town of Mosier.

Every voter and taxpayer should attend this meeting. Don't fail.

A strong demonstration has been made in favor of the proposed interstate bridge between Oregon and Washington, crossing the Columbia River at Vancouver. Joint committees of the two state legislatures went over the site chosen for the structure and looked carefully into the merits of the project. At a later meeting in Portland, attended by citizens of both states, strong support was aroused for the bridge, and it seems that the plan will be accomplished.

All Oregon seems to be a unit in the desire for a suitable appropriation by the legislature to make a good showing at the two California expositions celebrating the opening of the Panama Canal. The solons gathered at Salem were visited the past week by delegations representing about every part of the state. Commercial bodies and business men generally expressed the belief that Oregon will benefit largely from the expositions and should make a strong showing, both at San Francisco and San Diego. The subject is being carefully considered at Salem. Meanwhile, plans are being outlined whereby the state will be given suitable exploitation at the California expositions.

W. A. Husbands, our "village blacksmith," has recently installed in his shop a set of stocks for the safe handling of horses while being shod.

Dr. Robinson was a professional visitor in Hood River yesterday.

"Bill" Baker returned yesterday from Celilo, where he has been working on the big ditch.

This morning Old Sol came out in all his glory and dispelled the fleeting snow clouds and storm-laden gloom that has pervaded this section for the past few days and the sheen of the glistening hilltops is certainly pleasing to the eye. Great is Oregon and her variegated climate.

Why not form a local good roads association? "Everybody's doing it" and getting results. This would be a good move for Mosier District. It would put dollars into the pockets of the farmers, make more and better business for the merchant and give plenty of work to home labor.

The oldest newspaper in the world has come to an end. This was the King-Bao, a Chinese paper, which has been in existence for 1500 years. It began about the time that Constantinople was founded; it dies when Constantinople seems about to fall. It was stopped by the new Chinese government.
