Generous Offer Declined.

Dr. Portal, the favorite medical attendant of Louis XVIII. of France, was offered an unusual reward for his services. Having cured Vestris of a severe illness, the famous dancing master said to him, "My dear doctor, I should never dream of offering you money. Between artists there can be no dealings except those of gratitude. To demonstrate mine, I will give you a valuable hint as to your deportment. I have often noticed that you have a most ungraceful way of carrying yourself. I can remedy that in a few lessons, and teach you how to enter a sick room in such a way as to please the most exacting patient. We can begin now if you like." Much to the amazement of Vestris, Portal declined this offer, and so lost the esteem of his illustrious patient.

POINTS IN PIGEON RAISING

Young Bird, Unlike a Chick, Cannot Feed Itself, but Must Be Fed by One of Parents.

A young pigeon, unlike a young chicken, cannot feed itself, but must be fed by the old bird.

Very often squabs do not leave the nest until they are a month old and ready for the market.

Sometimes the old bird will favor one of their offspring and feed it continually, allowing the others to go hungry much of the time. It is not unusual to see one large, plump bird and a half-starved, puny one in the same nest, both having been hatched at the same time.

The male bird sits on the nest at night and the female in the daytime. Some dealers say that this is the only true test of mating.

An old Pennsylvania breeder says that a sure test of sex is to take the bird by the bill and draw it down to the ground. If the bird's tail flits upward it is a male; if downward it is a female.

Vermin is a constant menace to pigeons and must be always fought. Frequent white-washing, absolute cleanliness and tobacco stems placed in the nests will generally keep the birds reasonably clean.

Making All Happy.

"What I deem an appropriate present is a book, and that I must choose for myself," writes a correspondent of the London Chronicle. "To leave the selection to friends would be a catastrophe. Every year, therefore, on behalf of those generously minded individuals who have kindly thoughts toward me, I buy books for myself, tell them, and get the money refunded. And in the measure of monetary value they remember me, I likewise remember them—in any article of their own choosing. And we are all happy."

Device Needed by Aviators.

Aviation devotees are giving some attention to the demand for a magnetic compass which will not be affected by the vibrations of the machine. The same difficulty is being experienced by the airmen as was encountered by those who had occasion to descend in submarines. Some English flyers are experimenting with a device which has been tried with more or less success on submarines and which was devised by the commander of a submarine boat. It consists of the usual mariner's compass, floating in oil, contained in a case which rests in a bed of horsehair. The horsehair is not packed at all densely, but its springiness is so great and enduring that it makes an excellent protection against the vibrations of the motor.

Lynn Man Got In.

A shoe salesman from Lynn was very anxious to sell to a large consumer in Cincinnati. The buyer of the Cincinnati house, who had a bizarre sense of humor, bought according to whim. When the salesman's card came in he kept it and sent out the office boy with a nickel to pay for it and break the news gently that nothing was doing. The office boy returning with another card. "What's that for," asked the capricious buyer. "He said you weren't getting your money's worth," replied the boy. "He sells two of these cards for a nickel." The Lynn man got in.

Breed of Capons.

The question usually comes up, What is the best breed for capons? All breeds, says a writer in an exchange. That is, whatever variety of fowls one has, by all means caponize your surplus cockerels; but for market purposes the larger breeds are of course preferable. The Plymouth Rock, for instance, is as good as the best; I, at least, am perfectly satisfied with them, and come to this conclusion after trying several other breeds. But the best results in this, as well as in any other line of work, are attainable only by persistent effort, and doing it all in a thorough, businesslike way, having perfection as our goal and watchword, and then strive to win it.

BEST ASSET POOR MEMORY

Why James Is Regarded With Favor by the Inhabitants of His Boarding House.

James is a very popular negro in a boarding house and is accounted unusually reliable. He receives, therefore, frequent gratuities and is exceedingly prosperous.

This in spite of the fact that he has one of the greatest capacities for forgetting of any one to be met with even among the employes of a boarding house.

What, then, is the secret of his reputation for being a reliable man? One boarder has studied the problem and gives the answer:

"He never refuses to execute a commission, is always apparently attentive to any order given him, and when the angry boarder blows him up for his failure to do what he was told he takes it meekly and stoically.

"He seems such an easy mark that the boarder goes on and on with his abuse until he feels that he has gone too far. Then he grows ashamed of himself and slips James a quarter.

"'Thank you, sir,' says James, and they both feel better, and the boarder remarks, 'James is a pretty good boy after all.'"

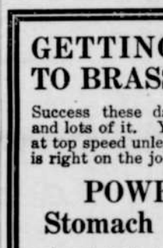
WOMAN SICK FOURTEEN YEARS

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Elkhart, Ind.:—"I suffered for fourteen years from organic inflammation, female weakness, pain and irregularities. The pains in my sides were increased by walking or standing on my feet and I had such awful bearing down feelings, was depressed in spirits and became thin and pale with dull, heavy eyes. I had six doctors from whom I received only temporary relief. I decided to give Lydia E. Pinkham's Vegetable Compound a fair trial and also the Sanative Wash. I have now used the remedies for four months and cannot express my thanks for what they have done for me.



"If these lines will be of any benefit you have my permission to publish them."—Mrs. SADIE WILLIAMS, 455 James Street, Elkhart, Indiana.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record of being the most successful remedy for female ills we know of, and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove this fact.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

BATTLE RAGES IN CITY STREETS

Mexicans Convert Office Building Into Fortresses.

Hundreds Are Killed as Forces of Diaz and Madero Are Locked In Deadly Conflict.

Mexico City—A pitched battle was fought Wednesday among the skyscrapers and homes of one of the great cities of the world between adherents of President Francisco Madero and revolutionary forces of General Felix Diaz.

Cannon roared in the streets of the densely populated city and rifle bullets spattered against the walls that housed thousands of foreigners as well as countrymen of the combatants.

When darkness put an end to the battle, after seven hours' fighting, neither side appeared to have gained any marked advantage.

Estimates of casualties run as high as 1000.

Three Americans are known to have suffered injuries by stray bullets. They are Lloyd Osborne, the author, who was shot in the thigh; Dr. R. H. McCrosson, of Lincoln, Neb., and Mark Johnson, a negro, of Madison, Ill.

Artillery played the chief part in the day's fighting. The rifle fire was kept up continuously.

Scarcely four blocks separated the heavy guns of the opposing forces, but the shells fell throughout the entire city. In no section were the inhabitants safe. Office buildings, devoted to the battles of business, were turned into fortresses.

Sharpshooters and machine gun batteries took up their positions on the tops of skyscrapers and picked off any enemy that broke cover. Office buildings and residences were loopholed for rifle fire and the rattle of musketry replaced the click of typewriters and telegraph instruments.

Under a heavy shrapnel fire streets were torn up and the pavements formed into barricades by the Diaz soldiers against the assaults of the Maderistas. Time after time the adherents of Madero swept forward in an attempt to carry the Diaz positions by assault and four times they were repulsed by the fire that poured from the swinging muzzles of machine guns and from the modern rifles with which the Diaz infantry was armed.

At a late hour in the afternoon neither side had gained a decisive advantage, although the Diaz forces had maintained and even extended their positions.

The assault on the Diaz positions was ordered by Madero, in spite of the friendly offer of Francisco de la Barra, the former provisional president, to act as mediator, and over the protest of the American ambassador and the diplomatic representatives of other foreign powers, even though he knew that this would entail a terrific bombardment of the capital.

CABINET MEETS AT 1 A. M. TROOPS SENT TO BORDER

Washington, D. C.—As a result of an early morning conference at the White House, three additional battleships will be sent to the east coast of Mexico and orders will be issued at once for the immediate placing in commission of two army transports for the carrying of troops to Mexico City for the protection of the lives of Americans and foreigners should the situation there grow any worse.

Immediately on leaving the White House Major General Wood went directly to the War department, where he remained at his desk until nearly daylight working out details for the quick movement of troops, should the occasion arise. These troops probably would be mobilized at Galveston, Tex., and prepared to embark as soon as the transports had reached that point from Newport News, Va.

New Nickel Has Setback.

Washington, D. C.—Circulation of the proposed new nickel, scheduled for February 11, was postponed indefinitely by the Treasury department, because of protests of slot-machine interests. Manufacturers vigorously complained that just as they had perfected chewing-gum and other slot machines to refuse counterfeit nickels and "slugs" designed for fraud, the government was about to place in circulation a five-cent piece, the design of which practically would nullify their inventions.

Twins Mitigate Speeding.

Chicago—"Speed if you like if you have new twins at home," is the rule Judge Fry put into force in the "speeders'" court Wednesday. "Your honor," Albert Ponger said when arraigned on a charge of speeding, "someone phoned me that a boy and a girl had arrived at my home. I forgot all speed regulations right then." "It's a grand excuse, and I like it," Judge Fry responded. "The costs, amounting to $6, are remitted. Take the $6 and start a $3 bank account for each of them."

"No Funds" Starts Run.

Elyria, O.—Several hundred savings depositors in the First National bank formed in line and began a run on the bank when the doors opened Wednesday. The run was started, it is said, by a story circulated by the payee of a check who did not understand that the words "no funds," on a check which was returned to him, referred to the bank balance of the check-giver. The run ceased after about $15,000 had been withdrawn.

Military Academy Bill Passed.

Washington, D. C.—A session's record for the disposition of an appropriation measure was made by the house when the annual military academy appropriation bill was called up, read and passed within an hour. The measure carried appropriations aggregating $1,064,668.

Why Snow Is Warm.

Snow is warm by virtue of its light and woolly texture. But it is also warm on account of its whiteness. Had snow been black it would have absorbed the heat of the sun and melted quickly. Instead, it reflects heat, and the reflected heat falls upon bodies above the snow, while the warmth of the earth is preserved beneath it.

Forest Fires.

One point must be observed: Stop every fire! Unless this is done forest management is useless, forest planting a foolish waste and forest conservation impossible. The surface fire that is so often run through a woodlot to burn the leaves, to kill the undergrowth, to prevent more serious fires, or for any reason imaginable, must not be tolerated. Such fires rob the growing trees of their natural fertilizer, the falling leaves and decaying vegetation, they injure the roots and the bases of the trees, they kill the seedlings and the sprouts from which the succeeding forest must come. Even a camp fire is bad unless it be built in an open place, not against the base of a tree, carefully guarded and completely extinguished before it is left. Forest fires are fatal to every principle in

Stevenson's Keen Comment.

The hit that "Treasure Island" made is one of the most pleasant episodes in literary history. The story that Gladstone got a glimpse of the book at Lord Rosebery's house, and spent the next day hunting over London for a second-hand copy, is good enough to be true. Stevenson's own comment on his success is levelheaded, if pointed: "This gives one strange thoughts of how very bad the common run of books that the wise-acres think too bad to print are the very ones that bring me praise and pudding."

Good Cleanser.

For cleansing glassware, nickel, mirrors, or tinware, take Spanish whiting and wet with cold water to make a thick paste; wet only what you intend to use at the time. Rub this over the article to be cleaned, then let dry; then go over it with another cloth, dry and polish well. The dirt will come off with the whiting and the polish will be very brilliant. This is fine for window glass, as no water is used, and the hands are not wet.

Natural Question.

"I am so very fond of music," said Miss Kittish, as she swung herself round on the piano stool and faced Mr. Harkins, after thrumming away for half an hour for his entertainment. "Ah!" replied the young gentleman thoughtlessly. "Why don't you take lessons?"—Stray Stories.

MUSIC Taught Free

HOME INSTRUCTION

We want to advertise and introduce our home study music lessons into all parts of America, and will give you absolutely free instruction if you will simply recommend the International Institute to your friends after you learn to play.

We successfully teach Piano, Organ, Violin, Mandolin, Guitar, Banjo, Brass Instruments, Cello and Sight Singing. You may not know one note from another, yet, by our wonderfully simple and thorough method, you can soon learn to play. If you are an advanced player you will receive special instruction.

Our lessons are sent weekly. They are so simple and easy that they are recommended to any person or little child who can read English. Photographs and drawings make everything plain.

If you accept our free tuition offer you will be asked to pay only a very small amount (averaging 14 cents a week) to cover postage and necessary sheet music. We have successfully taught others and we can successfully teach you.

Write today for our FREE booklet, which explains everything. It will convince you and cost you nothing.
