TWO WOMEN SAVED FROM OPERATIONS

By Lydia E. Pinkham's Vegetable Compound—Their Own Stories Here Told.

Beatrice, Neb.—"Just after my marriage my left side began to pain me and the pain got so severe at times that I suffered terribly with it. I visited three doctors and each one wanted to operate on me but I would not consent to an operation. I heard of the good Lydia E. Pinkham's Vegetable Compound was doing for others and I used several bottles of it with the result that I haven't been bothered with my side since then. I am in good health and I have two little girls."—Mrs. R. B. CHILD, Beatrice, Neb.

The Other Case.

Cary, Maine.—"I feel it a duty I owe to all suffering women to tell what Lydia E. Pinkham's Vegetable Compound did for me. One year ago I found myself a terrible sufferer. I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached, I had no appetite and was so nervous I could not sleep, then I would be so tired mornings that I could scarcely get around. It seemed almost impossible to move or do a bit of work and I thought I never would be any better until I submitted to an operation, but my husband thought I had better write to you and I did so, stating my symptoms. I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman. I had no pains, slept well, had good appetite and could do almost all my own work for a family of four. I shall always feel that I owe my good health to your Vegetable Compound."—Mrs. HAYWARD SOWERS, Cary, Maine.

Called Music Nerve Poison.

Frederick Nietzsche agreed with those who found no inspiration in music. Indeed, he regarded music as a nerve poison, and declared that some music—particularly that of Wagner and Tschalkowsy—deranged the minds of many who heard it. Tschaikowsky killed himself after completing his famous "Sixth Symphony," which, as several other have died by their own hands after playing it, has come to be known as the "suicide Symphony."

Distinction.

Cora was fond of all-inclusive prayers, and one night she offered the following discriminating petition: "Lord, please bless mother and father and all of us, and give us everything good; and please bless our friends, and give them what is good for them!"—Harper's Magazine.

Fitness of Things.

Hot Water a Curative Agent.

The action of hot water on the body is the simplest and most effective curative agent we have. Pain due to neuritis, sciatica, rheumatism or injury are relieved and the first stages of a cold are so greatly relieved that the cold will not progress further. Such a bath is in no way similar to the Turkish bath. A cold bath need not be taken after a hot bath and people living in the temperate zone will be greatly benefited by a really hot bath every other day.

Discretion and Valor.

They were discussing at the club the difference between discretion and valor, and it was exemplified by one who said it would be valor to have eaten a Christmas dinner at a fashionable restaurant, and departed without tipping the waiter. And discretion? "Well," he proceeded, "to go to a different restaurant for New Year's dinner would be discretion."

"Your husband, I understand, is a clever after-dinner speaker?" "I understand so." "Does it keep him away from home much?" "Nearly every night. Would you believe it, when he does stay home it's got so he doesn't enjoy a meal unless I get up after the dessert and introduce him to the children and call upon him to make a few remarks?"

"Haven't you a handsomer chafing dish than that?" asked the customer. "You want something even more ornamental than this?" "Yes. I want one so beautiful and expensive that my wife wouldn't think of trying to cook anything in it."

FRIEDMANN HOLDS CLINIC

Supervises Treatment of Seventeen Cases of Tuberculosis.

New York — Seventeen tubercular patients were treated by Dr. Friedrich F. Friedmann with the vaccine which he asserts is a cure for tuberculosis at a private clinic late Saturay.

Announcement that this clinic had been held was made by the Berlin physician after it had been known that further tests of his treatment, which were to have been made at the People's Hospital, the scene of his previous demonstrations, had been abandoned. Meanwhile, it was understood Dr. Friedmann was preparing for a meeting with government health offiials from Washington, by whom tests of his treatment are to be conducted.

The announcement said that the demonstration took place in the offices of physicians in the presence of a score or more of the medical men, many of whom had brought patients with them. Dr. Friedmann, it was said, acted as a consulting physician, and therefore abided by the law which provides against practice of the profession without a license.

Of the cases treated 11 were of pulmonary tuberculosis, two of tuberculosis of the knee, two of the kidneys and bladder, one of the hip and one of the glands. Of the physicians present several were from distant states. Dr. E. C. Thrash, a specialist in tuberculosis cases, of Atlanta, Ga., one of those who witnessed the demonstration, said the clinic had progressed smoothly, that there was little delay in treating the patients and that the technic in administering the treatment had been correct.

Most of the patients were asked to come back in ten days.

ANNEXATION MUCH DESIRED

Americans on Isle of Pines to Ask For American Control.

Pittsburg — Announcement was made by Thomas J. Keenan, president of the American Association of the Isle of Pines, that a petition directed to President Wilson and the senate, requesting annexation of the island, will be put in circulation in this country and the Isle of Pines.

The petition states that 6000 Americans who reside or have property interests on the Isle of Pines are anxious to have action taken to make the island permanently a possession of the United States. The Isle of Pines has become a distinctively American colony, citizens of the United States owning over 95 per cent of the land and constituting a majority of the population.

PRICE OF FURS IS SOARING

Rise of From 20 to 50 Per Cent Is Noted in London.

London — Furs will be extremely dear next year. A pre-Easter sale in London last week shows that all furs are selling at from 20 to 50 per cent higher than they did last year.

As usual, the highest-priced furs are going to Russia. One of the features of the sale here was a lot of 500 otter skins which probably will be the last consignment for several years, as the otter is to be placed on the prohibited list to prevent its extermination. One skin sold for a record price of $2300, going to Russia.

Silver foxes were 50 per cent higher than last year. One brought $1750. Blue foxes established a new record, one bringing $145.

The only skin which showed a decline was the lynx, which was 40 per cent cheaper than it was a year ago.

McAdoo Is "Swamped."

Washington, D. C.—Secretary McAdoo is being swamped with applications for appointment to the United States Secret service, which guards the President and protects the currency against counterfeiting. With no vacancy existing, 3000 applications have been received since March 4. Such a condition is said to be due to the publication of a story that McAdoo wanted 30,000 applications from which to make 50 appointments. Treasury officials deny the report and declare appointments do not average two a year.

Autos Start for Rescue.

Nogales, Ariz.—To rescue Americans stranded at interior points, three automobies left here for the south. They were sent in response to urgent appeals from Magdalena, 50 miles below the border. The Americans were passengers on north-bound trains seized by the rebel troops. It is reported that Juan Cabral's rebels intend to attack Nogales, Sonora, after being reinforced by groups from Cananea. Indirect messages report all quiet at Hermosillo, the state capital, but the condition there is critical.

Indian Reclaims Old Gun.

Washington, D. C.—Chief Hollow Horn Bear, an Ogalala Sioux, a powerful bronzed giant, six feet three inches tall, who gave up his gun 20 years ago, when the government ordered all guns taken from the Indians in the Bad Lands, received it back Saturday in the office of Acting Commissioner of Indian Affairs Abbott. Hollow Horn Bear recognized his weapon by a rawhide wrapping on the barrel.

Blind Singer Saves Audience.

Worcester, Mass.—The coolness of Edward F. Boyle, blind singer, in keeping on with his song while fire spread rapidly in the balcony of a local theater, prevented a panic among the 500 spectators, all of whom filed out to safety. When the last of the audience reached the door, Joseph L. Rogers, the pianist, leaped to the stage and led the blind man out through a rear exit.

Redfield Quits Outside Jobs.

Washington, D. C.—To devote his whole time to his duties as the head of the department of commerce, Secretary Refideld has resigned from his outside business connections, a directorship in the Equitable Life Assurance society, the presidency of the American Manufacturers' Export association and a directorship in the American Blower company of Detroit.

The Cup That Cheers.

Women who pride themselves on their tea making assert that tea to be good, should be made in an earthen pot, never in a metal one.

Tea is never good when long standing, but in some cases it cannot be helped. It should be poured off the leaves into another heated pot and covered with a "cosey."

If cream is taken a less expensive grade of tea may be used than when lemon is preferred.

An old-fashioned idea is to drop a few shavings of dried orange peel into the pot in which the tea is made. Some like this, while others believe that it spoils the flavor of the beverage.

Bits of cinnamon and two or three cloves dropped in are other way of varying the flavor of the cup that cheers.

REBELS FLOCK TO BORDER CAMPS

Federal Troops in Revolt and Trouble Looms.

Wires Cut to Nacozari and Americans Flee From Many Towns Across Border.

Douglas, Ariz.—Encamped within striking distance of several border towns, 8500 constitutionalist troops rested on their arms Sunday, while insurrectos among the federal garrisons strengthened materially the rebel forces.

The last word received from the besieged city of Nacozari was from the telegraph operator, who flashed "too hot for me here," and left his key just before all wires between Douglas and Nacozari were cut. Open revolt and scenes of disorder have occurred among the 250 federal defenders of Agua Prieta, and the military officials there gave warning to all Americans to leave the town.

The best citizens of Agua Prieta generally fled to Douglas, while the drunken and rebellious soldiers paraded the streets crying "Viva Madero!" "Viva Maytorena!" and "Viva Diaz!" Brawls between politically estranged companions in arms added to the confusion and terror which held the town in its grip.

Desertions among the federal soldiers at Guaymas, the California gulf port held by the federals with a large force, were reported here, and, though orders were received by the commander of that garrison to move against Hermosillo with his full force instantly, no move has been made. It is reported that federal officers there are in bitter disagreement, and rioting is expected.

Mobilization of rebel troops has begun. At Magdalena 1000 new recruits organized and are ready to take the field. The state troops commandeered trains on the American-owned railroads to transport insurgent troops. The state troop paymaster is paying the railroad men for their services.

Soldiers of the rebellion burned bridges on the Southern Pacific within 35 miles of Nogales, on the Arizona line, and three bridges on the branch running to the American mining center at Cananea. With both wire and railway communication absolutely checked, the insurgents are now in complete control of Sonora, and declare they will be able to check any advance made against them by the forces which Huerta is said to have dispatched to subdue the revolting state.

WHITE HOUSE WILL BE "DRY"

Wilsons, Marshalls and Bryans Bar Wines and Liquors.

Washington, D. C.—It is said that the Wilson-Marshall administration will be a "white-ribbon affair, with no wines or liquors served at any entertainment. Not only do the President and Mrs. Wilson and their daughters bar the sparkling cup but so also do Vice President and Mrs. Marshall, Mr. and Mrs. Bryan and other members of the cabinet.

When Secretary of State and Mrs. Bryan had the British ambassador as a luncheon guest, Mrs. Bryan announced that neither she nor Mr. Bryan drank wines and she knew Mrs. Bryce did not.

Some years ago Mrs. John B. Henderson caused the wines in her home to be emptied into the gutters in an effort to stop the tendency in Washington society to a too free use of wines and liquors. While the result of Mrs. Henderson's efforts were not far reaching, the move of President and Mrs. Wilson, Vice-President and Mrs. Marshall, Secretary of State and Mrs. Bryan and others at least puts a quietus on wine drinking when they entertain and are entertained.

Tong War Is Resumed.

San Francisco—One murder and one unsuccessful attempt upon the life of another man signalized the resumption of hostilities in Chinatown between the Suey Sing and Bing Kung tongs. Suspects have been arrested in the two cases and the police are busy rounding up well known gunmen in the Chinese quarter. A curious fact is that the first victim of the reopened warfare was a Japanese who has been a member of the Bing Kung tong for four years. His name was T. Mizuhara.

New York to Be Scoured.

New York—An effort to give New York City a thorough house-cleaning has begun under health department auspices. Voluntary assistance of the public is relied upon to make a success of the movement. Every nook and cranny of the city, it is hoped, will be cleaned and swept to rid dwellings, stores, factories, churches, theaters, hotels and all other buildings of whatever filth and rubbish may have accumulated through the winter. Elimination, as far as possible, of breeding places for the fly is one of the objects.

Man Suffragist Punished.

London — Hugh A. Franklin was sentenced Saturday in Middlesex sessions to nine months' imprisonment for setting fire to a railway carriage. He informed the court that he did this as a protest against the government's treatment of the suffragettes. He declared that he would go on a hunger strike. Franklin, in December, 1910, was sentenced to six weeks' imprisonment for an assault committed on Winston Spencer Churchill.

Opium Will Be Burned.

Pekin—The National Anti-Opium congress, with a view to assisting China to suppress the opium trade, will appeal to the Young Men's Christian association and missionary societies throughout the world to open funds for the purchase of as large a portion as possible of the opium stocks at the treaty ports. The stocks will be burned.

GOOD USE FOR LEFTOVERS

Meat Patties May Be Made of One Variety, or a Combination May Be Employed.

For these use either cold chicken and ham, or veal and ham, or even cold beef or a mixture of cold meats. One pound of good short crust pastry, two cupfuls of cold meat, one cupful of sauce, one tablespoonful of finely chopped parsley, salt and pepper, and one egg. Roll out the pastry to about a quarter of an inch in thickness, then stamp it into rounds slightly larger than the gem pans, allowing two rounds to each gem pan. Cut the meat into small dice; if chicken and ham, or veal and ham are being used, add white sauce; if dark meat, use brown sauce, stir the meat into the sauce, add the parsley, salt and pepper to taste. Grease the gem pans, line each with pastry, put on the lid, not forgetting to first wet the edges. Make a hole in the top of each, brush the top of the patty with beaten egg and bake them in a hot oven for 25 minutes. Put them on a sieve until cold.

Selection of Food Important.

The surest way to keep and restore health is to supply the normal conditions of life, which implies a natural diet containing all the elements of nutrition in true proportion, and based on the proper selection of food for each meal. For it will not do to mix all kinds of otherwise proper food in one meal, but we must made a meal of such foods as are compatible.
