MEAT AND RICE COMBINATION

Excellent Method of Putting Daily "Leftovers" to Good Use Is a Typical Italian Dish.

In ever the poorest of Italian homes the brown casseroles are in evidence. Failing one, however, any deep earthen or granite ware dish will answer. Wash thoroughly in two or three waters one cup rice. Drain, then throw into a kettle of boiling water with a teaspoonful salt. Boil rapidly for 15 or 20 minutes, until the rice is tender, drain and set back on the range or in the oven for the rice to swell and dry. Take one-third of the cooked rice and set aside and with the remainder line sides and bottom of the buttered casserole. To one pint cold minced meat—any sort preferred—add two well beaten eggs, two tablespoonfuls dried bread crumbs, a tablespoonful chopped parsley, a teaspoonful onion juice, two tablespoonfuls of melted butter, and salt, pepper and sweet herbs to season. Mix thoroughly, add gravy or stock to make rather moist, pack into the center of the casserole, cover the top with the reserved rice and cook for an hour. Serve with tomato sauce.

Books for the Children

Care must be taken in the stories we give to growing children that evil is always overcome. Book friends are very real to boys and girls and influence their character. There should be effort and conflict in their stories and daring endurance and steadfast purpose. Stories in which the child hero acts rightly are particularly valuable, because what a boy or girl has done appeals more directly to the child's own power. He feels though he may not express it even to himself that what other children have done he can do.

Directing Children Aright.

The young need to be taught that although there is sometimes a pleasure of the senses in committing sin, it is inevitably followed by remorse and punishment. Crime, remorse, punishment form an inseparable trio. On the other hand, while it is often hard to do right, the sense of satisfaction, self-respect and self-control that follows right action is worth all the effort made.

An infectious disease is more liable to be taken when one has been long fasting than soon after a meal. AIR CRAFT SEEN OFF COAST

Dirigible Balloon Takes Observations and Disappears South.

Seaside, Or. — A dirigible balloon moving rapidly was seen sailing over the ocean near here and south of the mouth of the Columbia river Wednesday morning about 5:30 o'clock.

Several persons who had risen early to catch the train for Portland and persons at the Moore hotel watched the air craft until it disappeared from sight behind Tillamook Head.

Charles A. Runo and wife, of Worcester, saw the balloon from their windows, which overlooked the ocean. It came from the direction of Fort Stevens. When they first noticed the car it moved swiftly towards the Washington shore, where it seemed to stand poised for a couple of minutes, taking observations, then in a sweeping circle it headed towards Tillamook Head and passed out of sight around the light house.

This is not the first time the balloon has been sighted along the beach between here and Fort Stevens. About three months ago it was reported from Columbia Beach and at other points. An effort was made at that time to learn whether the officers at Fort Stevens were experimenting with a dirigible war balloon and taking observations, but nothing came of the inquiry.

The balloon is believed to be a war dirigible by Captain John Anderson, whose sea experience has taught him the use of marine glasses, and who had the craft under observation for ten minutes. He said he could make out three men aboard, and that one of the three was peering through a telescope. One seemed to be taking notes, and the other was at the helm.

TWO CITIES MAKE PROTEST

Underwood Bill Arouses Citizens of Factory Centers.

Gloversville, N. Y.—Business was suspended in Gloversville and Johnstown—the center of American fine glove manufacturing—for six hours Thursday, while the populace of the two cities united in a demonstration of protest against the Underwood tariff bill, as it affects the glove and glove leather industries. The demonstration was planned by Gloversville merchants.

Gloversville was the scene of the demonstration, special cars and trains bringing to this city one of the largest crowds that ever gathered. Five thousand glove workers, women as well as men; merchants, professional men, saleswomen and clerks, tradespeople—people of all kinds, participated in the parade. Four mass meetings were held, protesting resolutions adopted, and petitions, addressed to President Wilson, circulated.

Glove factories and leather mills ceased working, every place of business in the two cities, including all lines of trade, was closed and practically the entire population of the two cities joined in the demonstration.

A committee of representative citizens will go to Washington and it is possible a delegation of glove workers also will be sent to the National capital to appear before congress or the President.

TAX ON ESTATE IS $3,000,000

New York State to Receive Great Sum Under Inheritance Law.

Albany, N. Y.—New York state will receive between $3,000,000 and $4,000,000 inheritance tax from the estate of the late J. P. Morgan, according to preliminary estimates made by attaches of the state controller's office.

The estimate is based on a report that the total estate will be about $100,000,000. The tax is expected to be one of the largest ever paid.

A reduction of 5 per cent is allowed if the tax is paid within six months after the estate is appraied.

Because of the various enterprises in which Mr. Morgan was interested, it will be necessary to employ a number of experts to appraise the estate, which consists mainly of stocks, bonds and works of art.

"Soldiers' Roll" in Peril.

Washington, D. C. — Thirty-three veterans of the Union army in the Civil war, who composed the "Old soldiers' roll" of the senate, are in danger of demotion and reduction of salary, and Republican senators are up in arms. Under resolution of the senate these old soldiers are "to continue in their positions until cause for their removal shall have been reported and approved by the senate and their removal directed," and Republicans assert that changes made in the roll violate this resolution.

Hearst Letter Shut Out.

Washington, D. C.—Representative Willis, Republican, asked the house to print in the congressional record a published letter by William R. Hearst, condemning President Wilson's personal appearance before congress in joint sesion on April 8, to read his address. Several Democrats sprang to their feet and objected and the letter was not received.

"We'll get it in later, all right," announced Republican Leader Mann, shaking a forefinger at the Democratic side of the house.

Tennessee Ratifies Direct Election.

Washington, D. C.—Formal notice of the ratification by the Tennessee legislature of the Constitutional amendment providing for the direct election of United States senators was received at the State department recently. Thirty-six states, the number necessary to make the amendment effective, have acted favorably, but 13 of them have not complied with Secretary Bryan's request for immediate official notice.

"Improved" Bull Fight

A bull fight in Tokio is quite as much excuse for a gala day as a bull fight in Madrid. Business men leave their offices, and women and children their homes, to hurry to the arena. Stripped of all the less exciting, or less horrible, preliminaries which characterize the Spanish bull fight, the animals are brought in and sent at each other at once. So the battle is shorter, and two or three more fights will follow in quick succession during the course of an afternoon's "entertainment."

Canada's Oyster Industry.

There are no oysters on the coast of New England, north of Cape Cod, but they are numerous in certain parts of the Gulf of St. Lawrence and adjacent Canadian waters. Efforts are being made by the Dominion government to develop the oyster industry to much larger proportions than its present comparatively small size.

Use Sea Water in Baking.

The local papers are complaining about the size of the bread sold by the Iroquois bakers, who, besides charging two and one-half cents for a loaf of bread of 22 grams weight, it is said are using sea water in their bakeries.—From the West Coast Leader, Lima, Peru.

Delicious Bread Pudding.

Here is a sort of glorified bread pudding: A full pint of bread crumbs, half a cupful of chopped suet, half a cupful of molasses, a cupful of chopped raisins, a cupful of milk, an egg, half a teaspoonful of soda, half a teaspoonful of cloves, a little mace and salt. Steam for two hours.

COLD IN THE HEAD

Is the First Chapter in the History of Chronic Disease.

A cold in the head is the first chapter in the history of disease and death. This has been so often repeated that there are few people indeed who have not witnessed many examples of it.

A cold in the head is rarely severe enough to confine a vigorous person to the house. As a rule, it ends in recovery without any treatment. This has led many people to regard a cold in the head as of no importance. It is a terrible mistake, however, to pass by a cold in the head as a trivial matter. Each case should be treated.

Those who have used Peruna for such cases will testify unanimously that a few doses is sufficient to remove every vestige of the cold. How much better it is to treat a cold in this way than it is to allow it to go on and on for weeks, perhaps months, leaving effects that will never be eradicated.

Yet there are those who neglect to take Peruna for a cold in the head. This neglect is due to the false notion that a cold in the head is hardly worth noticing.

A cold in the head is in reality a case of acute catarrh. It ought to be called so, in order to awaken people from their lethargy on this subject. In a large per cent of cases cold in the head will end in chronic catarrh. Unless properly treated with some such remedy as Peruna, perhaps 50 per cent of cases of cold in the head will lay the foundation for chronic catarrh.

A tablespoonful of Peruna should be taken at the very first symptom of cold in the head. Usually where the cold is not very severe a tablespoonful of Peruna before each meal and at bedtime is sufficient. It may be necessary, however, where the attack is more serious, to keep strictly in the house and take a tablespoonful of Peruna every hour. Younger people, feeble or delicate women, should take a teaspoonful every hour.

OJEDA FLEES TO UNITED STATES

Indians Capture Naco and Exterminate Garrison.

Guard of 15 Left to Cover Retreat Die Fighting—Federals Spike Guns and Destroy Supplies.

Naco, Ariz.—General Pedro Ojeda, commanding the remnants of his federal garrison of 300 troopers at Naco, Sonora, surrendered to the United States troops on border patrol here Sunday morning at 11 o'clock, after having withstood a siege of state troops which lasted for five days, and in which more than half his troopers were killed.

The surrender was hastened by the attack on the federal garrison by the band of Yaqui Indians under General Alvaro Obregon, commanding state troops. The latter force at daybreak burst in on the little garrison and fought viciously. The dead on both sides have been estimated at 200, and the fortifications at Naco, Sonora, are veritable slaughter pens.

General Ojeda, true to his promise, refused to surrender. While the fighting was at its height he attempted to march across the border with his small band. The fire from the enemy was demoralizing, and Ojeda and his men ran and became scattered. Not even then did the firing from the rebels cease.

Captain H. A. Sievart, Company A, Ninth United States cavalry, ran alone to Ojeda's assistance.

The American officer grasped the Mexican general by the arm, and together they ran in a hail of lead to where an automobile was waiting.

Captain Figueroa, of the federal garrison, with 15 men, remained behind to cover General Ojeda's flight. One by one he and his fellows died in the barracks, surrounded by a horde of yelling, slaughtering Yaquis.

ATTEMPTS TO KILL ALFONSO

Anarchist Fires at Spanish King, Who Escapes Uninjured.

Madrid—For the third time in his reign, King Alfonso narrowly escaped Sunday from being the victim of an anarchistic attempt against his life. Three shots were fired at the king in the streets of the capital by a native of Barcelona, Rafael Sanchez Allegro, who was immediately overpowered.

King Alfonso owes his escape to his courage, quickness and skilled horsemanship. Accompanied by his staff he was riding along the Calle de Alcala, returning from the ceremony of swearing in recruits, when a man sprang from the sidewalk and seized the bridle of the king's horse with one hand, pointing a revolver point blank with the other. The king, realizing the situation with lightning rapidity, dug his spurs into his horse, which reared violently.

His quickness saved his life. The bullet, instead of burying itself in the king's breast, struck the horse. So close was the range that the king's left glove was blackened by the powder discharge.

Before the assailant was able to pull the trigger again a secret service man sprang upon him. The two men fell to the ground locked in each other's arms, struggling furiously. The assassin managed to free his revolver arm and fired two more shots in rapid succession, but the officer knocked his arm aside and the bullets flew harmlessly through the air.

Permit Denied Friedmann.

Washington, D. C.—Surgeon General Blue, of the public health bureau, told Dr. Friederich Franz Friedmann Saturday that until the exact nature of his tuberculosis vaccine and the method of its preparation had been revealed and the claims made for it substantiated by official tests and investigations, a license for its sale in interstate commerce could not be issued. This was the surgeon general's answer when the Berlin scientist asked what steps would be necessary for him to take to obtain such a license.

Refugees Reach Los Angeles.

Los Angeles — Eighteen refugees from the west coast of Mexico arrived here Sunday on the Norwegian steamer Jason from Manzanillo, Guaymas and other Mexican coast cities. They told tales of unsettled conditions along the Pacific seaboard of Mexico, reporting that the town of Las Noches recently was raided by a company of insurrectos, who killed several business men. The Jason picked up 80 refugees at Topolobampo and Las Noches, but all left the steamer at Guaymas except 18 who came to Los Angeles.

Pullets Killed By Bees.

Porterville, Cal.—Two hundred pullets belonging to W. F. Weems, a poultry raiser in the Plano district, were stung to death when a swarm of bees attacked them. The bees, which belong to the Kern County Land company, are brought to this district every year during the orange blossom season. Besides the chickens which were killed, several score of others were so badly stung that they will also die.

Madero Gift Still Held in Trust.

Washington, D. C.—A watch which the late President Madero, of Mexico, wanted to present to Major Charles J. Hagadorn, Twenty-third United States infantry, is the subject of a bill introduced by Senator McLean. American officers are forbidden to accept gifts from foreign rulers, except by express consent of congress. The State department is holding the watch in trust.

Titanic Memorial Services Held.

New York—Services in commemoration of the first anniversary of the sinking of the Titanic, when more than 1500 lives were lost, were held Sunday at St. Thomas' Protestant Episcopal church, and in many other churches special prayers were said.

SAVE TIME ON IRONING DAY

Attention to These Small Details Will Lighten Labor and Result in Better Work.

When ironing small articles, such as napkins and handkerchiefs, do not let your iron cool while you do the folding. Iron a table napkin straight and true and dry on the wrong side; lay it aside and iron another and keep on as long as your iron keeps hot enough. Then place the iron on the stove and pull the napkins with the hands and you have the loose folds used by the best housekeepers. Also the thread of the linen stands out nicely on the right side, as does any hemstiching or embroidery that may be there. Linen towels should be done this way, and the most common ones will look wondrously fine, not to mention the appearance of the best ones, says the Washington Herald.

Pillow slips being double, must be ironed on the wrong side and laid aside. When ready to put away in boxes, fold in required size with the hands. Fold your table cloths once wrong side out, and iron on both sides of fold. Place irons on the fire, then fold tablecloth loosely. Treat linen sheets the same way, but cotton ones may be folded twice before ironing.

Test of Sobriety.

Many shibboleths have been devised for testing sobriety. George Meredith, who doubtless could have evolved some wonderful examples, had he chosen, calls them "oinmeters, or methods of determining the condition of man, according to the degrees of wine or beer in him." One of the most snareful of these is the sentence, "Give James Grimes' gilt gig-whip, and a cup of coffee from a copper coffee pot."—London Chronicle.

Memory Gems for Children.

Children learn readily of right thinking and right doing through anecdote and memory gems. We cannot give them too many memory gems, provided they are suited to their age and intelligence. Every thought will not affect every child, but every thought will affect some child. CONSTIPATION

Munyon's Paw-Paw Pills are unlike all other laxatives or cathartics. They coax the liver into activity by gentle methods, they do not scour; they do not gripe; they do not weaken; but they do start all the secretions of the liver and stomach in a way that soon puts these organs in a healthy condition and corrects constipation. Munyon's Paw-Paw Pills are a tonic to the stomach, liver and nerves. They invigorate instead of weaken; they enrich the blood instead of impoverishing it; they enable the stomach to get all the nourishment from food that is put into it. Price 25 cents. All Druggists.

Alloys of Gold and Iron.

Iron and gold, when melted together, may be mixed in various proportions and hardened or crystallized. Alloys containing ten per cent. of gold are harder than pure iron, but as the proportion of gold increases above that amount, the alloy becomes softer. Silver and iron do not form alloys.—Harper's Weekly.

WOMAN'S ILLS DISAPPEARED

Like Magic after taking Lydia E. Pinkham's Vegetable Compound.

North Bangor, N. Y. — "As I have

used Lydia E. Pinkham's Vegetable Compound with great benefit I feel it my duty to write and tell you about it. I was ailing from female weakness and had headache and backache nearly all the time. I was later every month than I should have been and so sick that I had to go to bed.

"Lydia E. Pinkham's Vegetable Compound has made me well and these troubles have disappeared like magic. I have recommended the Compound to many women who have used it successfully."—Mrs. JAMES J. STACY, R.F.D. No. 3, North Bangor, N. Y.

Another Made Well.

Ann Arbor, Mich.—"Lydia E. Pinkham's Vegetable Compound has done wonders for me. For years I suffered terribly with hemorrhages and had pains so intense that sometimes I would faint away. I had female weakness so bad that I had to doctor all the time and never found relief until I took your remedies to please my husband. I recommend your wonderful medicine to all sufferers as I think it is a blessing for all women."—Mrs. L. E. WYCKOFF, 112 S. Ashley St., Ann Arbor, Mich.

There need be no doubt about the ability of this grand old remedy, made from the roots and herbs of our fields, to remedy woman's diseases. We possess volumes of proof of this fact, enough to convince the most skeptical. Why don't you try it?

Quite So.
