SOME INTERESTING DATA

[Continued from last week.]

The features of the institution (Oregon State Insane Asylum) that have been mentioned, have to do mostly with the chronic insane. The acute insane, the recent cases, are regarded as sick people and a special receiving hospital has been constructed for their care and treatment. I regret to state that only the portion of this building for the women patients has been completed and occupied, but it has proven so beneficial and satisfactory that we are very anxious that the legislature shall make similar arrangements for the care of male patients at the earliest possible moment. This was strongly urged with the recent legislature, but as we were not especially crowded, they declined to complete this building. The insane are so generally committed without their knowledge or consent, they are rather disposed to be suspicious on account of the nature of their malady, it is of the utmost importance that their first impressions in the institution shall be favorable, so that in this receiving hospital every effort has been made to have everything as nice as possible and as much of the hospital appearance as could be, eliminating all jail-like features which have prevailed in asylum construction in the past. This building is also equipped with all modern appliances, with improved methods of treating the insane, and when completed and in full use will result in curing a larger percentage than could have been possible under the old method of caring for these unfortunate people.

The cases that are recoverable only enter this part of the institution. This serves to eliminate the prejudice against having been in an insane asylum, as they do not feel that they have been in the institution proper and have only received treatment in a hospital.

I am pleased to note the purpose of your investigations and should be glad to furnish any additional data or information on the subject you may desire. The public know but little about the extent and scope of this institution and I am sure that our efforts to better the conditions of the insane would be made much easier if the people generally knew all that is to be known about these unfortunate.

Yours truly,
R. E. LEE STEINER,
Superintendent.

RULING ON THE BRANDING OF DAIRY BUTTER

The information contained in the following ruling will be of interest to the public generally and in particular to those locally who make and offer for sale any country, dairy or farm butter, and who may not be conversant with the law in regard to the proper stamping of such butter:

The statutes regulating the manufacture and sale of butter provide for the branding of creamery butter, but not for the branding of dairy butter except that each roll or square must be plainly marked 16 ounces full weight or 32 ounces full weight. We find some dairy butter that is not so marked and we also find some that is short weight.

We would be glad to hold the manufacturer responsible for the misbranding and also for the short weight, but in the absence of any name and address on the butter so as to positively identify the manufacturer, we cannot do so. The following ruling is therefore made:

All dairy butter offered or exposed for sale will be considered misbranded if it does not have plainly marked on each roll or square the words, "Dairy Butter," "16 ounces full weight," or, "32 ounces full weight," and

the name and address of the manufacturer. Any person offering or exposing for sale dairy butter not branded in compliance with this ruling, will be prosecuted under the statutes provided for the branding of food products.

Signed, J. D. MICKLE,
Oregon Dairy & Food Commissioner.

TO INSPECT COUNTY ROAD

The county court will meet the citizens of Mosier and Ortley at the latter place tomorrow forenoon and go over with them the line of the proposed new county road between Ortley and Mosier. This road has been ordered to be opened, but no work on it has yet been done, and it is to convince the honorable county court of the importance of the road as a thoroughfare between Mosier and The Dalles—a road which will lessen the distance between the two points, and materially decrease the present heavy grades—that the county officials were asked to come and investigate the proposition thoroughly. If this is done, there is no doubt that the court will order the road opened up at once. Every interested citizen who can, should go over the route with the officials.

PORTLAND'S "BIG SISTERHOOD"

Portland has a "Big Sisterhood," an unique society, which invites the interest and co-operation of mothers and daughters and other members of families throughout the state of Oregon. This society is quite informal in its organization, its aim being to give friendly aid and counsel to girls who are alone in Portland or who for any reason are in need of a "Big Sister." The work of the society is not offered as a charity, but is just the friendliness of one woman for another, or a "Big Sister" for a "Little Sister."

So many girls going to the city from the country or small towns have fallen into misfortune thru the want of a friend, or in some cases have been utterly lost to their home people, that these Portland women have associated themselves to extend the friendly hand to girls and women who need any kind of help whatever.

If girls, or the parents of girls who are going to Portland, will write to the "Big Sisterhood," care of the People's Institute, arrangements will be made to give them such attention as they may wish on reaching the city and their welfare will be looked after by "Big Sisters" who will take pleasure in knowing them and helping them. So many sad things happen every day to girls who come to Portland from small towns and the country that the importance of this acquaintance with the "Big Sisters" is urged upon mothers and daughters throughout the state.

OREGON WILL ATTRACT FOREIGN IMMIGRANTS

In order to get the widest possible benefit from the legislation recently passed to attract settlers to this state, the State Immigration Commission is inviting suggestions as to the best method of enticing new citizens from abroad. By resolution, this effort is to be directed to securing desirable immigrants from the agricultural districts of Northern Europe. The Commission plans to hold a series of conferences to which representatives of German and Scandinavian colonies in Oregon, clergymen, editors, commercial club officials, etc., will be invited and a general scheme to be followed will be outlined.

No definite program has yet been adopted, but it is probable that the first of the hearings will be about May 15 and will be given

up to the representatives of German speaking races. Later conferences will take up Swedish, Norwegian, Finnish and Danish immigration. By this means not only can successful methods be used in attracting colonists from among foreign speaking people, but on the arrival of the immigrants here they can be welcomed and given assistance in getting started on Oregon soil.

The State Forestry Department has issued paper drinking cups for distribution among school children, there being printed upon each cup a statement of the importance of preserving the state's timber and avoiding a heavy loss each Summer. It is thought in this way the young will be enlisted in the work of forest preservation.

Mixed as to Definitions.
