

That Tired Feeling

That comes to you every spring is a sign that your blood is wanting in vitality, just as pimples and other eruptions are signs that it is impure. Do not delay treatment, but begin at once to take Hood's Sarsaparilla, which accomplishes its wonderful results, not simply because it contains sarsaparilla, but because it combines the great curative principles of many roots, barks, herbs and other valuable ingredients.

There is no real substitute; insist on having

Hood's Sarsaparilla

The Medicine that makes people feel better, look, eat and sleep better; the remedy for stomach, kidney and liver affections, rheumatism, catarrh, scrofula, skin diseases, boils, debility, and other ills arising from impure or impoverished blood.

"I felt tired all the time and could not sleep nights. After taking Hood's Sarsaparilla a little while I could sleep well and the tired feeling had gone. This great medicine has also cured me of scrofula." Mrs. C. M. Root, Box 25, Gilead, Conn.

Kansas Solomon.
King Solomon had nothing on a Centralia Justice of the Peace before whom a colored man and brother was being tried for stealing a chicken. The prosecuting witness thought it was his fowl, but was not willing to swear. It being sundown the local Solomon let the hen loose and watched her going home to roost. Result, the negro was fined \$50.—Kansas City Journal.

Cured of Enthusiasm.

JAPANESE WOMEN IN CLUB

Fair Nipponese of Seattle Will Be Thoroughly Americanized.

Seattle, Wash.—Madame Butterfly and Miss Purple Eyes are doomed. In their place looms the new Japanese woman of the club type, emancipated and progressive, who promises soon to reduce the little brown man to the conventional submissive state of the American husband.

Kimono have been cast aside for scant tailored suits; huge ornamented hairpins are replaced by Parisian model hats, and the wee little feet are expanding in the roomy recesses of booties of approved English cut.

But most significant of all, there has just been formed in Seattle a Japanese Women's club.

This stride in civilization was taken at a meeting of 35 Japanese women in the Y. W. C. A. rooms, at which the following officers were elected: Mrs. S. Yosioaka, president; Miss Kigo Nte, vice president; Miss Kusano, secretary, and K. Sakamoto, treasurer. Among the members is the daughter of the Japanese consul, Atsuko Takashi, and the wife of a Japanese banker, Mrs. S. Takashi.

Local American club women assisted their brown sisters to organize, after which tea was served.

LIPTON WILL COME FOR CUP
Challenge of Great English Sportsman Is Accepted.

London—Once more America will defend the America's cup. The classic yachting race was assured for September, 1914, when the New York Yacht club Wednesday sent by cable an acceptance of Sir Thomas Lipton's challenge.

The race will be sailed under the present rules of the New York Yacht club as to measurements, time allowance and racing conditions.

Sir Thomas lost no time after the receipt of the acceptance in laying plans for building the finest challenger he has ever sent across the Atlantic.

Even as yet he does not know whether he will be allowed to tow the craft across the ocean or not, but he says this does not especially matter, as he would want to tow the yacht only the event of a head wind, or a dead calm.

Relying entirely on the sportsmanship of the members of the New York Yacht club, the Irish sportsman refused to consider the possibility of being opposed by a bigger boat than the challenger he will send. He now has Charles F. Nicholson, yacht designer of Gosport, England, at work on models for the new yacht.

THOUSANDS WILL EMIGRATE
Pioneer Steamship Man Says Rush Will Follow Canal Opening.

Seattle, Wash.—"Tens of thousands of the most thrifty, intelligent and industrious people of Scandinavian countries are preparing to emigrate directly to the Northwest and Puget Sound when the Panama canal is opened," said Captain John L. Anderson, pioneer steamship man, who returned Wednesday from a three months' business trip in Europe. Captain Anderson emphasized the fact that \$4,000,000 had already been subscribed by Swedish and other capitalists to establish a direct line of modern steamships between Scandinavian ports and Seattle via the Panama canal to handle this traffic. He said it was impossible to describe the enormous proportions of the emigration movement of the people of the north.

Fight Use of Strong Spirits.
Berlin—German military authorities who for several years have carried on a campaign against the use of strong spirits in the army have decided to send a circular to all recruits in the future describing crimes committed within the military service traceable to the excessive use of alcohol and also showing punishment given the convicted men. The campaign waged by army officials already has proved decidedly successful and the use of distilled spirits among the soldiery has been diminished.

\$150,000 Bail Furnished.
New York—Fellow townsmen of Albert W. Freeman, of Ramsey, N. Y., convicted of using the mails to defraud in the promotion of worthless mining securities, brought to the Federal building \$500,000 worth of stocks and bonds and put them up as cash securities for the \$150,000 bail demanded by his release pending the determination of his appeal for a new trial. It was the largest bail bond ever given in his district and 25 of Freeman's fellow citizens, including a number of women, signed it.

Protest Delegation Off.
Helena, Mont.—Governor S. V. Stewart, accompanied by a delegation from Northern Montana, left Wednesday night for Washington to protest formally to Secretary of the Interior Franklin K. Lane against any diversion of reclamation service funds from Montana to projects of other Western states. At Great Falls Governor Stewart will be joined by prominent citizens who are particularly interested in the Sun River project.

Ancient Urn Uncovered.
Berlin—An urn containing a collection of gold articles attributed by experts to the seventh and eighth centuries before the Christian era was uncovered by well diggers on an estate in the vicinity of Eberswalde, about 27 miles from Berlin. The urn, which is among the most ancient finds ever made in Germany, contains 78 articles. These include bowls, bracelets and rings supposed to be of Phoenician origin and imported to Germany by way of the Baltic.

Sixty-Seven Burned to Death.
Shanghai—Sixty-seven farmers of Shen Chow Ting, in western Honan, who had resisted attempts of the soldiers to destroy their crops of opium, were burned to death in a building where they were holding a meeting, according to a dispatch received here by the North China Daily News. The dispatch adds that the soldiers started the fire.

FLEET IS MADE READY FOR SEA

Battleships Stripped of All But Fighting Equipment.

Old Vessels Repaired—Full Supply of Stores and Ammunition Hurried on Board.

Philadelphia—All the battleships of the Atlantic reserve fleet at the Philadelphia navy yard are being prepared for instant service, some of them for the first time since the Spanish-American war. The work is being done quietly, and officers of the yard deny they are taking any unusual action, but visitors to the yard note on every hand activities in the marine barracks and on the battleships and cruisers.

Seamen ashore said unusual preparations were being made. The ships are being stripped of all unnecessary equipment and much of the apparatus that is usually carried for the comfort and recreation of the bluejackets and officers.

Most significant is the fact that several of the older vessels, including the old cruiser Minneapolis and the battleships Ohio and Alabama, that have not been in service for years, are being overhauled, repaired and outfit for sea, and sea stores and ammunition are being taken aboard.

These are not always kept on the vessels, but during the last few days have been taken on. An ammunition lighter lay near the Massachusetts during the night. Other ships, said the sailors, are in the course of preparation for sailing at the shortest notice.

JAPANESE HOUSE IS OF GLASS
Correspondent Says Foreign Ownership Is Barred in Nippon.

Berlin—The excitement of Japan over the California alien land ownership bill is well founded and comprehensive, according to an analysis of the American-Japanese situation sent by the Tokio correspondent of the Welt Korrespondenz Agency, printed in the semi-official Norddeutsche Allgemeine Zeitung. The Japanese, however, he said are scarcely in a position to place difficulties in the way of California's land plans.

The correspondent says the Japanese are living in a glass house because foreigners are now barred from owning land in Japan—a feature of the situation which has heretofore been left unnoticed in Germany. The writer expresses the opinion that Japan will favor keeping aloof from the Panama-Pacific exposition at San Francisco, which he regards as Japan's only weapon against the United States.

JAP SITUATION STILL TENSE
Imputation of Racial Inferiority Is Deeply Resented.

Washington, D. C.—Tension over the Japanese situation continues to excite attention in official and diplomatic quarters, but there were no special developments at the White House, the State department or the Japanese embassy.

Nine of the 30 days Governor Johnson has under the California constitution to sign the alien land bill have elapsed, and the impression is beginning to gain ground here that the governor will avail himself of the full measure of time, even though he has declared his purpose to approve the Webb bill.

Secretary Bryan has not communicated with the governor since the receipt of his telegraphic message setting out his reasons for upholding the action of the legislature, but is simply waiting for the final act of signature before making reply to the Japanese note protesting against the legislation.

Tokio Still Shows Faith.
Tokio—Faith in the American people to see that justice is done the Japanese is the dominating note in the discussion of the California alien land ownership legislation. War talk is denounced as ridiculous and only calculated to embarrass the two governments, which are laboring for a peaceful settlement by diplomacy. It is conceded, however, that failure on the part of the Americans to respond to the Japanese appeal for a discontinuance of the alleged discrimination would lead to some estrangement.

Taft, Jr., Is Old Clothes Man.
Cambridge—Robert A. Taft, son of ex-President Taft, has finished his task as collector of old clothes at Harvard, where he is a student at the law school. He turned over to the committee of the Phillips Brooks House one of the largest collections of the week. Each year a small group of Harvard students makes a canvass of the entire university for cast-off clothing, old shoes and the like. These are later packed up and sent to missions and the Sailors' Homes in Boston and New York.

Cruiser to Be Repaired.
Seattle, Wash.—The armored cruiser Colorado has arrived at the Puget Sound navy yard from San Francisco and will go into drydock immediately for a general overhauling. Repairs costing \$100,000 will be made to the warship. The armored cruiser Pittsburg, of the Pacific Reserve fleet, will not, as at first intended, take the Colorado's place on the active list, but will remain at the navy yard for further repairs.

Ocean Is Let Into Canal.
Panama—The waters of the Pacific ocean were let into the Panama canal Sunday. A giant blast of 32,750 pounds of dynamite was fired, demolishing the dike to the south of the Miraflores locks and allowing the water to flow into an extensive section, in which excavation practically has been completed.

SECURING PROFIT IN SHEEP

If Pure-Bred and Well Cared for They Pay Handsomely—Need Shelter in Severe Weather.

My sheep are pure American Merinos, all registered. Two of this kind I can keep in summer or winter with the same care and feed with which one of the most any other breed can be kept, says a writer in an exchange. My sheep barn is a closed building with a broad door so that the sheep can go in and out without crowding each other. The feeding racks in one room are on the outside; the other room has a double rack through the middle. I give my sheep a large run in the fall so they go into winter quarters in good condition and never leave them out in heavy rains through the season.

The breeding ewes are let out every morning in winter to eat their grain, which is oats, and to give them exercise. I feed them hay three times a day. I never allow the ram to mate with them a little at noon time, also give them a little of straw two or three times a week. I try to have my sheep shorn before they drop their lambs so the little fellows have no trouble to find their first meal. The ewe that is in good condition has a good supply of milk and almost always owns her lamb. I never keep salt by them, but feed it to them once a week. I have water by them all the time. I never allow the ram to run with the ewes. The rams that are to be used are fed three-quarters oats and one-quarter wheat mixed. The young lambs in the fall and winter are fed twice daily a grain ration of oats and sometimes wheat bran half mixed.

Shoeing the Colt.
The first shoeing of a colt is the most important, not only the fit of the shoes, but also in seeing that the colt is not badly scared by the forge, the unusual handling and new sounds. Horses mean to shoe are generally the result of improper handling at early shoeings.

MR. A. H. FOWELL,
Manufacturing Chemist.
Brooklyn, Wash.
Dear Sir: Having suffered with stomach trouble for a number of years, and tried a great many doctors and a great many remedies, but obtained no permanent relief until I took your stomach remedy, and am pleased to say that I have no further stomach trouble and can eat anything I desire and suffer no bad results. I am a professional nurse, having nursed for 30 years, some of the time for Dr. Holt of New York City, the greatest specialist on children's diseases; also had charge of Wardner Hospital at Wardner, Idaho, for two years. Since leaving by my own experience the best benefit from the use of Fowell's Stomach Remedy. I have recommended it to a great many for children and adults, and in each case it has been remarkable for the good it has done. I cheerfully recommend it to anyone suffering with any kind of stomach trouble, as I am sure it will give you suffering from sickness of any kind, and I have never known of medicine to compare with Fowell's Stomach Remedy for all kinds of stomach trouble. Yours truly,
ELSIE STEINER.

"I am an old man—and many of my troubles never happened."—ELBERT HUBBARD

THE white hair and wrinkled faces of our busy men and women tell of doubt, fear and anxiety—more than disease or age. Worry plays havoc with the nervous system—so that digestion is ruined and sleep banished. What oil is to the friction of the delicate parts of an engine—

DR. PIERCE'S Golden Medical Discovery

is to the delicate organs of the body. It's a tonic and body builder—because it stimulates the liver to vigorous action, assists the stomach to assimilate food—thus enriching the blood, and the nerves and heart in turn are fed on pure, rich blood. Nervous is the cry of starved nerves for food. For forty years "Golden Medical Discovery" in liquid form has given great satisfaction as a tonic and blood maker.

Now it can be obtained in tablet form—from dealers in medicine or send 50 one-cent stamps for trial box. Write R. V. Pierce, Buffalo.

Helping the Little Fellow
The United Shoe Machinery Company is the only real obstacle to the formation of a shoe trust. We help the small manufacturer to start in business and keep going. He could not afford to buy and care for his machines, but he can afford to lease them on the terms we give him based on the number of shoes he makes—an average of less than 2 1/2 cents a pair—and let us keep them up to date. That is a fair arrangement. Some of the big fellows don't like our system, because they think we ought to give them special rates. But the little fellows stand with us because they know we treat all manufacturers alike no matter how many machines they use. If it were not for our methods of doing business there would be no small factories anywhere and no prosperous factories in small towns.

The United Shoe Machinery Co., Boston, Mass.—Adv.

Raising Race Winners.
Before declining to patronize any particular stallion, though his blood lines may be pleasing, the small breeder who is desirous of raising race winners should learn whether the horse has sired race winning speed or not. He should also learn whether the ancestors of the stallion on both sides have been successful either as race winners themselves or as sires or producers of uniform race winning speed. The horse all of whose ancestors for several generations have been the most successful in this respect, other things being equal, is the most likely to transmit race winning speed.

Man's Personality His Own.
"A man's personality," writes J. W. Scott of the University of Glasgow, "is a thing which needs to be made. He does not bring it fully-fledged into the world with him. Strange as it may seem, personality is a thing which a man absorbs from his environment as a plant absorbs air and light. We are all plagiarists. In the last resort everything we have or know is borrowed."

Hot Corn Bags.
An excellent substitute for the expensive hot water bottle of rubber is made by heating common field corn, shelled, in a pan in the oven. When thoroughly warmed, pour it into cloth bags, such as salt and sugar are packed in. These filled bags are light and pliable, and satisfactorily answer every purpose of the hot water bottle.—McCall's Magazine.

Hard Work Called For.
One of the popular song demonstrators was making more racket than usual the other day in one of the big stores, his voice reaching far beyond its usual limits. A sales woman in another department, seeing one of her customers wince at the terrible vocal noise, explained: "You see he got here a little late this morning and has to sing loud to catch up."

Orator Slightly Mixed.
A former senator of the United States was addressing a meeting in his home town to celebrate the appropriation by the legislature of funds for the erection of a state capitol. "My fellow citizens," he said, "we will build here the greatest epitaph under God's green footstool."

Constipation causes and seriously aggravates many diseases. It is thoroughly cured by Dr. Pierce's Pellets. Tiny sugar-coated granules.

Trespassing.
A street car and an automobile had had an altercation which ended with the latter, in a more or less battered condition, lodged on the fender of the former. A little boy and his mother happened along just at it was over, and when the youngster saw them he cried out in the glee: "Oh, look, there's an auto standing on that street car's mustache!"

One Kind of Declaration.
"I love you, Estelle," he continued, "star of my soul. I loved you through opera-glasses at the opera. . . and I shall love no one else."—"Women I Have Loved," by Henry Drane.

Your Friends.
Treat your friends for what you know them to be. Regard no surfaces. Consider not what they did, but what they intended.—Thoreau.

Never Become Widows.
Nepal has the earliest marriages in the world. There every girl is married in infancy. But, then, the bridegroom is not very terrible. She is married with elaborate ceremony to a bel fruit, which is then thrown into some sacred stream. The fate of the fruit being always unknown, every girl is thus spared the disgrace of becoming a widow, while at the same time a second husband is allowed her later on.
