DAISY FLY KILLER
placed anywhere, attracts and kills all flies, house flies, stable flies, etc. Made of natural, non-toxic material. Guaranteed effective. Sold by dealers, or direct from the manufacturer, 100 Duane Ave., Brooklyn, N. Y.

This Wife a Treasure.
The saving habit may not be as much in favor today as thirty years ago, but one New York man has had occasion to be converted to a belief in it. He is a man who has worked seventeen years as a carpenter. His wife died recently, leaving him enough money to live in comfort the rest of his days. He knew that his wife took care of his money, but had no idea that she had saved so much.

Matter of Judgment.
"So you suspect that men are quicker of judgment in practical matters than women?" asked her friend of the middle-aged spinster. "Yes," replied Miss Cayenne. "Men have had the warnings of the newspapers and quit buying gold bricks, but women continue to marry for money."

Better Not Take His Word.
Declaration from a learned source that the "day of judgment" is mythical may comfort such among us as have lived without due regard for the hereafter.—Exchange.

Life's Tearfulness.
"Did you ever cause your wife any tears?" "I don't think so. Certainly not as many as leading actors and actresses at matinees have caused her."

It Was Tough.
"Will you give me a pie, madam," asked the tramp, "if I saw you some wood?" The woman agreed to the bargain, gave the man a pie and started him in the direction of the woodpile. In three minutes he was back at the door saying, "Madam, if it's all one to you, I'll eat the wood" and saw the pie.

Chop Suey \$25 a Dish.
High cost of living is not worrying the Chinese. One big Chicago restaurant run on the Hong-Kong style has on its menu a dish that costs \$25. "Poony wong wu yin" is what they call it, and one portion is enough for five hungry suffragettes or six ordinary men. It has to be ordered twenty-four hours before you get it.

Only Way.
Knicker—A fashion note says that skirts are to be six inches narrower at the ankle. Becker—Will the girls stand on one leg?
A man may work so hard running after a band wagon that when he overtakes it he's too tired to get any pleasure out of the ride.

St. Helens Hall

PUTNAM FADELESS DYES
Color more goods brighter and faster colors than any other dye. One 10c package colors silk, wool and cotton equally well and is guaranteed to give perfect results. Ask dealer, or we will send postpaid at 10c a package. Write for free booklet how to dye, bleach and mix colors.
MONROE DRUG COMPANY, Quincy, Illinois.

Fraining the Colt.
Many valuable horses are spoiled by improper or harsh training. A man who is incapable of understanding the disposition of horses is certainly incapable of training them. Two-thirds of the horses that have been called vicious can be managed by proper treatment, says a contributor to Farm and Home.

It is bad policy to train a colt unless he is in the best of spirits. The brain will be more active, therefore the disposition easier to control. On the other hand, if you train a colt while he is in flesh, in poor spirits and on light food, as some men do, he will not take notice of objects, and when on good feed later he is not well trained. Have them in good spirits, give plenty of feed, and use less whip.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Uncle Snooks Puzzled.
"What puzzles me," said Uncle Snooks, as he looked up from a book he was consulting, "is this. If a man is standing on the side of a hill or mountain, how is he to settle in his mind whether he is on an acclivity or a declivity? According to my dictionary here, the former is 'a slope up,' and the latter 'a slope down.' I've never yet seen a slope up that didn't slope down."

Red Cross Ball Blue will wash double as many clothes as any other blue. Don't get your money into any other.

Peculiar Alpine Custom.
A curious eastern custom has been observed for many centuries in the western Alps. One hundred eggs are distributed over a level space covered with sand and the young men and women perform a dance around them. If a couple are fortunate enough to finish the dance without breaking an egg it is taken as a token of the compatibility of their temperaments and they are betrothed.

It Spread Easier.
One cold night a few years ago, we were all seated at the table eating our dinner. The butter was very hard, and, consequently, remarks were made about it. The next week the weather was very warm and the butter was somewhat soft. Little Billy, six years old, suddenly exclaimed: "Mamma, the butter is easy tonight, isn't it?"

Superman.
If women could be granted a decade of happiness beginning now, a decade of lovers of their own choosing, men of delicacy and wisdom—thirty years from now there would be that poised and sweetness in the world that dreamers desire for the future ages.—Will Livingston Comfort.

Different.
Jones—"James, I heard you using profanity to the horses this forenoon." Coachman—"No, suh! no, suh! I use very careful of de horses, suh! I was talking to my wife, suh!"

Tut, Tut.
"I wish," said the brown sugar to the sand, "that you'd get out of this. You're always in my weight!"

Blood Bath
Knocks Rheumatism
Remarkable Effects of a
Remedy That Actually
Irrigates the Entire
Blood Supply.

It sounds queer to take a blood bath but it is precisely the effect of a most remarkable remedy known as S. S. S. It has a peculiar action of soaking through the intestines directly into the blood. In a few minutes its influence is at work in every artery, vein and tiny capillary. Every membrane, every organ of the body, every emunctory becomes in effect a filter to strain the blood of impurities. The stimulating properties of S. S. S. compel the skin, liver, bowels, kidneys, bladder to all work to the end of casting out every minute every pain-inflicting atom of poison; it dislodges by irrigation all accumulations in the joints, causes acid accretions to dissolve, renders them neutral and scatters those peculiar formations in the nerve centers that cause such mystifying and often baffling rheumatic pains.

And best of all, this remarkable remedy is welcome to the weakest stomach. If you have drugged yourself until your stomach is nearly paralyzed, you will be astonished to find that S. S. S. gives no sensation but goes right to work. This is because it is a pure botanical infusion taken naturally into your blood just as pure air is inhaled naturally into your lungs.

The great Swift Laboratory has spent millions of dollars in perfecting, producing and placing in the hands of the public this wonderful remedy. So give your blood a good bath with S. S. S., for it knocks the worst forms of rheumatism and gives you freedom to enjoy life. You can get it at any drug store at \$1.00 a bottle. It is a standard remedy, recognized everywhere as the greatest blood antiseptic ever discovered. If yours is a peculiar case and you desire expert advice, write to The Swift Specific Co., 160 Swift Bldg., Atlanta, Ga.

Chameleon Paint.
A red paint has been recently devised which changes its color to black when subjected to heat. It is especially desirable for bearings to give the alarm when they are becoming overheated.

Work for Greatest Artists.
Designing, etching, and engraving of fine bookplates is a thriving profession in Vienna. Some of the greatest artists are engaged in the production of these works of art.

ADDRESS TO WOMEN
IS YOURS A
Case of "Nerves?"
Hot flashes, dizziness, fainting spells, headache, neuritis, nervousness, all are symptoms of irregularity and female disturbances and are not beyond relief.

Dr. Pierce's Favorite Prescription
is that of a famous physician unusually experienced in the treatment of women's peculiar ailments. For forty years it has been recommended to suffering women. Thousands of women can bear witness to its beneficial qualities. Perhaps its aid is all that is required to restore you to perfect health and strength. Now is the time to act. Write Dr. J. C. Pierce, Buffalo, N. Y.

I AM NOW CURED
Mrs. Dorothea Rodgers, of San Francisco, Calif., writes: "I take pleasure in recommending your wonderful medicine, and wish to say in behalf of your 'Favorite Prescription' and 'Golden Medical Discovery' that through their use I am now cured of the various troubles that a woman is heir to. These remedies cured me when others failed and I therefore resolve to take no other. Look you for your advice."
YOUR DRUGGIST CAN SUPPLY YOU IN LIQUID OR TABLET FORM
Mrs. Rodgers

Wilson's Stand
IS CRITICIZED
Senators Resent Inference That
Votes Are Influenced.

Laws Proposed Requiring All "Lobbyists" to Register—Prohibit "Making" of Sentiment.

Washington, D. C.—Neither President Wilson nor the Democratic managers of the two branches of congress can estimate what effect the senate's remarkable "lobby investigation" will have upon the progress of the tariff bill, the currency reform plan, or other business of congress.

In the six days of grilling to which it has subjected senators themselves the investigating committee has secured information and opened channels of investigation that are likely to have an important influence upon the whole course of legislation in the future.

Progress on the tariff bill has not been hindered by the lobby investigation, but it is believed that before the reconstructed Underwood bill finally gets into the senate for debate the lobby investigation will have become a direct issue in the fight.

The allegations of "lobbyists" has been questioned, but facts brought out by the senators on the witness stand and the course the committee has determined on for the future make it clear that congress will be urged to consider these issues:

A registration law requiring every "lobbyist," legislative agent or other person who comes to Washington to influence legislation to identify himself and the interests he represents at once.

The condemnation, and possible prohibition, of the present system of "manufacturing sentiment" in a state to influence that state's senators or representatives on certain legislative matters.

Already three bills have been introduced in the senate to require registration of lobbyists.

TABLOID "BOOZE" IS OFFERED
Maine Drinkers Gladdened by New
Way to Circumvent Laws.

Bangor, Me.—A Maine sheriff might find a barrel of beer or even a jug of whiskey, but he cannot find a beer lozenge or a cocktail tablet, and over that glad fact the thirsty of this state are rejoicing now.

For a tabloid booze drummer has come to Maine and is doing a rushing business in condensed drinks of all kinds from plain whisky to cocktails, and from beer to gin fizzes. The drummer carries a considerable stock of tablets with him for immediate demand and arranges for further and unlimited supplies by mail.

Nobody here knows anything about the constituent elements of the tablets, but nobody cares, so long as they produce something that looks and tastes like liquor. The tablets come in little paper boxes or glass bottles of a dozen each, and the price varies. A small vial of tablets costing 13 cents, dissolved in a gallon of water, with other ingredients costing 50 cents, makes a gallon of what passes for whisky, at a total cost of 63 cents.

Militant Suffragette Dies.
London—Emily Wilding Davison, first martyr to the militant efforts of women to obtain the suffrage, died at the Epsom hospital as a result of a fracture of the skull sustained in an attempt to stop the king's horse, Anmer, during the running of the Derby on Wednesday last. Only the matron of the hospital and two nurses were present at the deathbed.

A few moments before her death, two comrades draped the screen surrounding the cot with the fateful colors of the Women's Social and Political Union, which she wore when she made her sensational attempt to interfere with the great classic of the British turf.

"Woman" Escapes Bandits.
Douglas, Ariz.—George Bogart, a Mexican-American rancher of wealth, attributes his personal safety and the possession of his money to his success at fanning impersonation. He captured one Otero, Sonora, Bogart was ordered to pay \$5000 for his life. He took the bandits to his ranch house and told them to wait outside while he went after the money. In the house he put on women's clothing and secreting his money in his clothing, boldly passed through the picket lines which had been placed around the premises.

Stefansson Is Pleased.
Victoria, B. C.—Vilhjalmar Stefansson, the Arctic explorer, arrived at Esquimaux and took charge of the work of preparing the expedition which he will lead into the Arctic this summer for scientific research under the auspices of the Canadian government. After a conference with Captain Robert Bartlett, who will command the old whaler Karluk, on which Stefansson's party will sail, Mr. Stefansson said he was well pleased with the preparations made for the expedition.

Lightning Destroys Inn.
Los Angeles—When W. B. Dewey, proprietor of the Summit Inn, on top of Mount Baldy, at an altitude of 10,200 feet, made his first trip to the hotel since last December, he found only blackened stone walls and charred timbers. The fact that the peak is snow-bound during the winter months makes it certain that a bolt of lightning struck the building and set it on fire, for it is known that several storms passed over it this spring.

Quebec Has Earthquake.
Lachute, Que.—An earthquake shock was experienced here at 12:39 a. m. Sunday. It lasted about two minutes, but no serious damage resulted.

EXAMINE ITALIAN FARMERS
American Commissioners Learn of
Conditions Governing Them.

Florence, Italy—Close study of the practical workings of the rural credits system in Europe is being carried out with great energy by the American commission now traveling through the various countries.

At Florence they heard addresses on the old "Metayer" system, still in use in Tuscany, by which a farmer holds land on condition that he gives half the product to the landlord and lives on the other half. The landlord provides the tenant with land—probably about 35 to 50 acres—and with what he considers sufficient feed, stock and fertilizer. In case the tenant meets with misfortune the landlord advances the money without interest.

A farmer was selected at hazard and his farm inspected, and his circumstances learned. He had about 37 acres of land, growing vines, wheat, potatoes and a certain amount of truck of various kinds. He had one pig, an ox and cart and about 12 children. He was making a gross revenue of about \$1000, of which half went to the landlord. He and his family could live on \$400 and so put by \$100 a year. He said that he was quite contented. His farm, however, was not of a kind to cause enthusiasm.

At another farm, where the farmer was his own proprietor, the difference was amazing. This man had about 125 acres, almost entirely devoted to truck gardening. The whole farm was cultivated by hand and irrigated continually with the aid of an electric motor. The owner and his 16 children were fine specimens of humanity and apparently excellently fed and highly intelligent.

RECORD GREAT WHEAT CROP
Harvest of Winter Grain Is
Predicted by Government.

Washington, D. C.—A bumper wheat crop, sufficient to mill more than 160,500,000 barrels of flour and which may reach the proportions of the record wheat harvest of 1901, if conditions from now on are exceptionally favorable, was forecast by the department of agriculture in its June crop report.

Government experts estimated this year's harvest would be 744,000,000 bushels, of which 492,000,000 bushels will be winter wheat—a record for this crop—and 252,000,000 bushels will be spring wheat. The third largest acreage ever planted and favorable growing conditions account for the prospect for an abundant yield.

An increase of more than 1 per cent over last year's acreage was planted to oats this year, but the condition of this crop on June 1 was below the 10-year average, and officials estimate the production will be 1,104,000,000 bushels, or more than 300,000,000 bushels below last year's harvest.

ANOTHER BALKAN WAR NEAR
Bulgaria's Answer Likely to Rouse
Servia and Greece.

London—Both sides refusing to make the slightest concession, war between the Balkan states is hourly growing more imminent. If Bulgaria sends a negative reply to the Serbian note—and nothing indicates that she will answer otherwise, Servia and Greece will proclaim the annexation of the occupied Macedonian territories, thereby establishing a definite casus belli.

The only hopeful feature of the situation consists in the belief that Bulgaria is lacking the sinews of war. Servia and Greece are not only better situated in this respect, but also occupy superior strategic positions. These facts probably account for the calmness with which Servia apparently regards the prospects of war.

Would Bribe Rebels.
Eagle Pass Tex.—General Lucio Blanco, who directed the successful rebel attack on Matamoros last week, reported to Venustiano Carranza, "constitutional" leader, that he had been approached with an offer of 300,000 pesos if he would betray Carranza and join the forces of President Huerta. Blanco reported that he had caused the arrest of the federal emissary, Bruno Trevino, and that he had been sentenced to death by a court martial. The sentence was carried out.

Rebels Take Zacatecas.
Mexico City—The government will not attempt to recapture Matamoros immediately. The gunboat Vera Cruz, on which it is intended to send a force to Matamoros to dislodge the rebels, is still at Vera Cruz. The war department denies that Zacatecas, capital of the state of the same name, has been taken by rebels but declares fighting still continues there. Private information, however, confirms the fall of the town and adds that the rebels are moving to the south against Aguas Calientes which is in danger of attack.

Dream Leads to Death.
Los Angeles—Because she had dreamed the night before that she would be killed in an automobile accident, Kitty Howe, pretty young chorus girl, jumped from a speeding car when it struck a rock and swerved to one side. She landed in a pile of rocks, fracturing her skull at the base of the brain, and died at the Ramona hospital at San Bernardino. Miss Howe had told of the dream just prior to the accident.

Mitchell Loses in Appeal.
Albany, N. Y.—The decision of the Supreme court declaring illegal Governor Sulzer's appointment of John Mitchell, former president of the United Mine Workers, as state labor commissioner, was affirmed by the appellate division "as a matter of law and not as a matter of discretion." The case will be taken to the Court of appeals.

Fares Not Up to Commission.
Washington, D. C.—Streetcar lines are not subject to regulation of the Interstate Commerce commission. The Supreme court so decided in annulling the commission's order for a 5-cent reduction of the fare from Omaha, Neb., to Council Bluffs, Iowa.

LOBBYING MAY
BE TARIFF ISSUE

New Reform Measure to Result
From Investigation.

Washington, D. C.—An unexpected turn was given to the "lobby" investigation when Senator Townsend, of Michigan, Republican, declared on the stand that the influence wielded by President Wilson and the Democratic secret caucus on the making of the tariff bill constituted the "nearest approach to undue influence on members of congress" that the investigating committee would be able to find.

Senator Townsend criticized the committee for not having asked members of the senate whether the President had sought to influence them and declared that, even though the President had not intended it, his recent denunciation of "lobbyists" working in support of changes in the tariff would force certain senators to vote against amendments they knew to be just.

"Who are those senators?" demanded Senator Reed.

"I don't care to name anyone," returned Townsend.

The two Democratic members of the committee present, Senators Reed and Walsh, indignantly resented any intimation that President Wilson had used patronage or threats to force anyone to support free sugar or free wool or to support tobacco as a whole.

Senator Weeks, of Massachusetts, also a Republican, following Senator Townsend on the stand, expressed the opinion that "executives had more influence on bills than all the persons who have come to Washington to put together."

"The statement that the President put out in regard to an insidious lobby influenced the public mind," said Senator Weeks, "and that has its effect upon the senators. The public believes the lobbyist is a bad man and no senator likes to oppose a measure if the President says the lobbyists are seeking to change it." Senator Shively, a Democratic member of the finance committee, said he knew of no lobbying influences at work on the tariff bill.

'CURE' DECLARED VALUELESS
Clinical Analysis of Serum Patients
Issued by Health Board.

New York—The first clinical analysis of the conditions of any of the Friedmann patients treated in this country has been published in the Medical Record. The results show that some are worse and that the disease was not checked in a single case.

Twelve of the cases were pulmonary and the rest surgical. Dr. Mannheim summarizes the entire 18 cases as follows:

"In not a single one of these cases was there definite improvement to date attributable to the vaccine. In some the disease progressed unchecked. In no instance did the temperature return to normal. Five of the 18 developed abscesses, four of them small and one of them large. I cannot determine whether the vaccine hastened the progress of the disease where it occurred."

Wireless Strike at End.
Seattle, Wash.—The strike of wireless telegraph operators on the Pacific Coast, which was called more than a month ago by the Commercial Telegraphers' union of America, was settled Saturday and the union operators began to return to work. Local officers of the Marconi company said they had no details of the settlement from San Francisco, but that better working conditions had been agreed to, although complete recognition of the union was not granted. The wage increase demanded was not granted.

Carnegie Off for Berlin.
London—Andrew Carnegie started for Berlin Saturday. Emperor William has fixed the morning of June 16 to receive him and his associates, Robert S. Brookings, of St. Louis, and Jacob G. Schmidlapp, of Cincinnati, who are to present a congratulatory address signed by many prominent Americans. In fixing the date of the audience, Emperor William remarked that it would be the anniversary of the first morning he rose as emperor 25 years ago. Mr. Carnegie confirmed the selection a great honor to the U. S.

Prince on American Soil.
Niagara Falls, N. Y.—Prince Albert Frederick George, second son of King George, of England, was on American soil Saturday. He and 60 fellow cadets of His Majesty's ship Cumberland, now at Quebec, arrived here from Toronto shortly after noon. The prince and his party traveled from Lewiston by trolley along the American side of the gorge. The prince, who is 17 years old, traveled "incognito."

Fruit Traffic Plans Laid.
Portland—George R. Merritt, of St. Paul, general agent for the refrigerator service of the Northern Pacific, is in Portland to prepare for handling the fruit crop of the Northwest this year. He states that the road will place 1100 new refrigerator cars in commission this year. These, with the 2600 new cars built last year, will give this line nearly 7000 refrigerator cars.

"Buffet" Service Passes.
Spokane, Wash.—All transcontinental railroad lines operating in this state have discontinued the sale of intoxicating liquor on their trains. This will end the "buffet service" on the Oriental limited, of the Great Northern; the Columbian and Olympian, of the Chicago, Milwaukee & St. Paul, and the North Coast limited, of the Northern Pacific.

"Who's Ahead"

The winner is always the person who possesses a keen appetite, and enjoys perfect digestion—whose liver is active and bowels regular. The sickly person lacks the stamina and strength necessary to win. They should try

HOSTETTER'S
STOMACH BITTERS
It tones, strengthens and rebuilds the entire system. Begin today. Avoid substitutes.

Out of Date.
Major Bankstick (of the Indian army)—"Tell your scout-master that, now I'm home, I shall be pleased to help him, if he'd like it with field-work and so on." Horace (of the Boy Scouts)—"Thanks, awfully, dad, but—er—are you quite up-to-date?—drill's altered a lot since you were home last."—Punch.

CONSTIPATION
may be either a transient or permanent affliction, arising from some error in diet or as a result of constantly weak digestion. For temporary and obstinate cases the best relief is

WRIGHT'S
INDIAN VEGETABLE
(PILLS)

Won Papa's Dollar.
Martha's school report card had very low marks. Her father promised her a dollar if she got a hundred in anything. Shortly after that she fell sick. When the doctor had taken her temperature the mother asked him what the temperature was. "A hundred and four," was the reply. "Mother," cried Martha, "I have won the dollar from papa. I've got over a hundred."

New Breed of Dairy Cattle.
A new breed of dairy cattle known as the Illawarra breed has been developed in New South Wales. It was obtained by crossing Shorthorns, Longhorns, Devons and Ayrshires. This new breed of cattle has become a favorite for dairying in the Illawarra district, New South Wales, though it is hardly known in America.—Farm and Fireside.

When Your Eyes Need Care
Try Murine Eye Remedy. No Smarting—Feels Fine—Acts Quickly. Try it for Red, Weak, Watery Eyes and Granulated Eyelids. Illustrated Book in each Package. Murine is compounded by our Oculists—our "Patent Medicine"—but it is not a Patent Medicine. It is a natural product of the sea and is sold by druggists everywhere. Price 25c. Murine Eye Remedy Co., Chicago

Tracing Journey of Storks.
By putting rings on the legs of storks about to migrate southward from countries in northern Europe, where they spend the warm months, it has been found that they often go all the way to South Africa, usually passing around the east end of the Mediterranean instead of across the sea.

Must Be in the Balkans.
She—"Anyhow, you must admit he is a well-bred man. Did you notice his knowledge of Aristotle?" He—"I did, and if you want my true opinion, I don't believe he's ever been there."

Men—and Vaudeville.
All men may be divided into two classes—those who like vaudeville and those who can stand it when they are drunk.—Smart Set Magazine.

Has Temperament.
When a girl is intense that means her mother need not expect much help with the housework.

EXPERIENCE
OF MOTHERHOOD
Advice to Expectant Mothers

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at such times, but many approach the experience with an organism unfitted for the trial of strength, and when it is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother's results.

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under the right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, and with ample time in which to prepare, women will persist in going blindly to trial.

Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

If you want special advice write to Lydia E. Pinkham Medicine Co. (consultant) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.
