KARLOL SOMERS, 150 DEKAD AVE., BROOKLYN, N. Y.

**Discipline.**  
If thou would'st be happy and ease in thy family, above all things observe discipline. Everyone in it should know their duty; and there should be a time and place for everything; and whatever else is done or omitted, be sure to begin and end with God.—William Penn.

**Chafing Hives.**  
This troublesome skin affection is difficult to diagnose at the outset. Be on the safe side, therefore, and whenever the skin is irritated by Typhoid Antiseptic Powder immediately and avoid further trouble. 25c. at drug stores. Sample sent free by J. S. Tyree, Chemist, Washington, D. C.—Adv.

**Financial.**  
"Husband, you have never given me any money since we have been married. Now, I positively must have \$50." "Aw, here's a dollar. Now what are you going to do with it?" "I think I'd better frame it as a souvenir." "In that case, hand it back, and I'll give you a check instead."

**Apparently Not.**  
"You cannot legislate for all the ills man is heir to," declares an observer of current tendencies. "But shall we deny the fun of trying to?"—Providence Journal.

**Popularity.**  
Popularity — The afterbirth of a platitude.—Smart Set.

**Cleans Blood Through Kidneys**  
**A Most Important Function and One to be Carefully Guarded.**

The purpose of the kidneys being to filter the blood the question of treating supposed kidney weakness should be considered carefully. Instead of drugs and alleged kidney stimulants the better plan is to purify the blood with an antidotal effect such as you get from S. S. S.

It should be remembered that the kidneys are made up of a fine network of blood vessels, and it is to stimulate the functional activity of kidney tissue through this capillary net work that S. S. S. shows one of its most remarkable effects.

The medicinal value of the components of S. S. S. are relatively just as vital to healthy kidney action as the nutrient obtained from grain, meat, fats, sugars, or any other part of our daily food is to the natural reconstructive requirements of the tissues. And there is one component of S. S. S. which serves the active purpose of stimulating the cellular tissues of the kidneys to a healthy and judicious selection of its own essential nutrient.

Thus, in cases of rheumatism, cystitis, chronic sore throat, business of voice, bronchitis, asthma, and the myriad of other reflex indications of weak kidney action, first purify your blood with S. S. S. so it will enable the tissues to rebuild their cellular strength and regain their normal health.

You can get S. S. S. at any drug store, but take no other so-called blood purifier. S. S. S. is purely a botanical product, and you will make a great mistake to have some enthusiastic palm off a mesquite, arsenic or iodine of potash preparation that may do you irreparable harm. S. S. S. is prepared by The Swift Specific Co., 149 Swift Bldg., Atlanta, Ga. and if you have any de-peated or ob-stinate blood trouble write to their Medical Department for free advice. It will be worth your while to do so.

**DAINTY DISH ITALIANS LIKE**  
Ravioli Well Worth a Place on the Tables of Americans Who Care for Good Food.

Dressing—One scant cup dried mushrooms, one-third cup grated Edam cheese, two cups sausage meat, one cup brains, one small onion, three cloves garlic, one good pinch parsley, one good pinch celery, one colander cooked spinach, nine eggs, one medium sized bowl white bread (cut fine and soaked in milk)—bring bread dry before adding to other ingredients—three tablespoons olive oil, two pinches allspice and salt and pepper to taste. All the ingredients must be chopped fine and thoroughly mixed.

Gravy—Get a fair sized, boiling piece and make a brown gravy by first putting some bacon in a saucepan and then the meat, letting it brown nicely without water. After the meat has cooked a while, add a little onion, some parsley, celery and tomatoes, also a few dried mushrooms, salt and pepper. Let this cook until tomatoes are done, then add a little dry flour and stir it in well. Add enough water to keep the meat from burning and cook until meat is well done. When meat is done, add enough water to make the required amount of gravy.

The Dough—One sifter flour and a cup more, one small handful salt, two eggs, water enough to make a stiff dough. Roll this dough into several large, thin sheets, spread some dressing on each sheet of dough and fold the other half over it. With the edge of a thin board mark the "turnover" into three inch squares. Go over the marks made by the board and press the dough together firmly with the thumb. Cut the squares apart with a knife and lay them on a floured board while the remainder of the dough and dressing are made into similar squares.

Cooking—Have a kettle partly full of boiling salted water, and when the squares are all made up drop into the water and boil for 25 minutes. When the squares are taken from the water they should be drained in a colander. To Serve—Put a layer of the squares on a platter, sprinkle a layer of grated cheese over and then put on a layer of gravy. Repeat this process until the platter is full.

This recipe makes enough for about fifteen people.

**Philadelphia Clam Soup.**  
Do not use the juice from the clams in the soup. Have about twenty-five small clams, one quart of milk, three potatoes, two tablespoons of flour, one tablespoonful of chopped parsley, one-half cup butter, salt and pepper. Chop the clams fine and drain. Pare potatoes and chop. Place milk and potatoes in double boiler. Rub the butter and flour together until creamy and when potatoes and milk have boiled fifteen minutes stir in the butter and flour and cook eight minutes longer. Add parsley, pepper and salt and let boil three minutes. Then add the clams. Cook one minute and the soup is ready to serve. This is delicious.

**Neatness in Arrangement.**  
I find that a small pasteboard box placed on the floor beside me, into which I can drop pieces of thread and scraps of cloth while sewing, is a great help in keeping the room neat, writes a contributor to Los Angeles Express. It saves all the unsightly mess so often seen on the floor when one is sewing. A newspaper spread on the floor to drop the scraps on answers the same purpose and can be picked up and burned when one stops work.—Christian Science Monitor.

**Gay Frocks for Children.**  
The fashion for Bulgarian colorings is as popular as ever, and its conquest is complete as regards some little frocks for children suitable for the spring.

Made of fine crash, cut in the Magyar shape, the hem and sleeves bordered with scarlet, the front embroidered in bright colors, and the whole finished with a scarlet woolen girdle and tassels, they are delightful as play frocks and will wash well.

**Poached Eggs and Ham.**  
Cut a neat round of toast for each person. Butter it and keep hot. Chop one tablespoonful of butter, two green peppers, one large Bermuda onion, one-half a stalk of celery will be needed. Rub the Roquefort and cream cheese and butter to a smooth paste, add the finely chopped onion, peppers and celery. Mix well. Season with paprika and put in icebox to harden. Serve with hot toasted crackers.

**Fried Cheese Balls.**  
One and one-half cups of grated cheese, one tablespoonful of flour, the whites of three eggs, salt, pepper, and cracker dust.

Beat the whites of the eggs; add the other ingredients; make into balls and roll in cracker dust. If the amount of flour is doubled, the mixture may be dropped from a spoon and fried without being rolled in crumbs.

**Virginia Fried Chicken.**  
Two-pot chicken cut in pieces, one egg, salt, one-half teaspoonful baking powder.

Lay chicken in water with large spoon of salt, for one-half hour. Make batter of egg, water, salt and baking powder. Dip each piece of chicken in this, and fry in deep, hot fat for fifteen minutes with cover on. Remove cover for five minutes, drain and serve.

**Ungallant Statement.**  
"Mischiefs and petticoats came into the world the same day, and have remained together ever since."—The Gate Openers. by K. L. Montgomery

**BALKAN ALLIES**  
**FIGHT TO DEATH**

**200,000 Former Friends Now In Deadly Conflict.**

**Bulgarians Have Advantage—Serbia Suffers More Than Turkey.**

London—After ten days of fighting, more severe and deadly in character than anything in the last Balkan war, a little light begins to break on the hitherto obscure operations. In the first place, the Serbians have lost more men than in the whole previous campaign, and semi-official statements issued at Belgrade show the appearance of an intention to prepare the public for news of a disaster.

Desperate fighting, with varying fortunes, has progressed along the Vardar and Bregalnitsa rivers, and seems to be in favor of the Bulgarians.

Important news has been received of the Bulgarian invasion of Serbia through Belgrade, 45 miles north-east of Nish, Serbia's most important fortified town. No indication is given of the strength of the Bulgarian column at this point, but the Bulgarians declare they have defeated the Serbians and captured five guns and a quantity of other war material, and, by the occupation of the passes, to have opened the road to Nish.

There is heavy fighting also between the Serbians and Bulgarians to the south of Istip and in the neighborhood of Kotecha. About 200,000 men are engaged, and the losses on both sides appear to be terrible.

Bulgaria's strategy appears to be to hold the Greeks in check, probably with comparatively small forces, while she deals with Serbia. This assumption, if correct, would explain the victorious advance of the Greek army.

Unconfirmed reports credit the Bulgarians with victories near Korili, giving them the key to Uskup, and with an outflanking movement from the south of Tahnovo Lake, which would cut off the Greek retreat.

Saloniki dispatches continue to report Greek victories. The Greeks are said to have captured 16 guns at Doiran. Evidence of desperate fighting is found in the arrival of 8000 wounded at Saloniki, taxing the town's accommodations and resources to the utmost.

A conservative estimate of the killed and wounded in last week's fighting fixes the number at from 30,000 to 40,000. Thousands of destitute refugees from the scene of the fighting are coming into Saloniki.

The Greeks continue to make wholesale charges against the Bulgarians of burning and pillaging all the villages they abandon and of committing murders, mutilation and other horrors.

**To Check Foreign Influx.**  
Washington, D. C.—William B. Wilson, secretary of labor, intends to ask for a thorough revision of the immigration laws to prevent the tremendous influx of undesirable foreigners to this country each year. He is at present making an exhaustive study of the problem and his recommendations will be submitted to President Wilson.

"I have decided," Mr. Wilson told a reporter, "that the immigration laws are not sufficiently strong. "Our first duty is to those who are in America, native or foreign. The question naturally follows whether the tremendous influx of aliens is not injurious to those who are already here. There is no question that there is great evil in our immigration system and it is up to us to correct this."

Both Democrats and Republicans and congress will join next year in putting through a strong immigration bill.

**Miners and Owners Firm.**  
Charleston, W. Va.—According to intimations received here, "Fight It Out" is the slogan of both the coal operators and striking miners in the Paint and Cabin creek fields. At a mass meeting held at Mackwood, Thomas Kearns, president of District No. 17, United Mineworkers of America, urged the miners to stand their ground, and announced that W. L. Connell, of the Paint Creek Collieries company, with whom he conferred recently, has refused to make concessions. Thousands of miners are idle in the two fields.

**Mothers Testify in Suit.**  
Cincinnati—The hearing of evidence on the application of ice manufacturers against Mayor Hunt, the board of health and the city of Cincinnati for an injunction to prevent them from operating the ice plants seized by the city as a result of the strike of employees, was resumed Monday. Several mothers testified that their babies had suffered as a result of the lack of ice in their homes since the strike began. Judges fixed \$65,000 as the bond that the city must give as a guarantee against damaging the seized plants.

**Bryan's Hope Undimmed.**  
Washington, D. C.—Secretary Bryan expects to begin this fall actual negotiations for concluding his proposed general peace pact with the other nations of the world. Because of the absence from Washington of most of the ambassadors and ministers, it is not feasible now to do much more than supply them the outlined draft of the project for transmission to their own governments. Secretary Bryan expects that the 20 governments which have promised to give the project consideration will be increased to 30.

**Stray Rock Hits Grocer.**  
Louisville, Ky.—Unconscious and with his skull crushed, Alfred Attebury, a Louisville grocer, is in a local hospital, the victim of a peculiar accident. Attebury was sitting in front of his store when the wheels of an automobile, running swiftly along the street, caught up a stone five inches in diameter and hurled it against his head. The doctors believe that Attebury will not recover.

**STRIKERS IN FULL CONTROL**  
Reign of Terror at Johannesburg Unequaled Since War.

Johannesburg—The settlement of the strike among the gold miners in the Rand district, which the government arranged with a committee of strikers, has proved ineffective.

The mobs reassembled Saturday. All trains and streetcars suspended service, the crews refusing to work. No newspapers were able to publish. Additional troops guarded the Rand club, the scene of serious encounters Saturday. A great mob assembled there, hooting and jeering the troops.

A huge meeting was held to celebrate the strikers' victory. The leaders invited the men to attend the funeral of those killed, whom they described as "martyrs to a glorious cause."

The suggestion that Governor General Gladstone's recall be demanded was greeted with cheers.

A ballot of the Amalgamated Society of Engineers, which the government gave a vast majority in favor of accepting the proposed settlement. The council of the society adopted a resolution providing for the calling of a strike a month hence should the grievances not be adequately redressed.

The Federated Unions are flushed with success and confident that they are complete masters of the situation. The trades unionists are ready to obey any order given them. The leaders have already commanded the newspapers to cease publication until further notice. They count on the government's fear of the natives, 200,000 of whom are locked in the compounds at the mines. They might start looting and killing if unloosed.

Casualties resulting from the fighting Saturday are now estimated at 110. Two officers, three soldiers and several policemen were wounded.

The editors of the various newspapers conferred with the Federated Unions' leaders, with the result that the Typographical Union will publish a paper giving colorless reports of the events.

Except at the time of the Jameson raid in 1896 and the outbreak of the war in 1899 this city has not experienced such a day of terrorism as yesterday. The mobs in the business section caused less fear than desperadoes who were threatening to dynamite the homes of the wealthy.

**SERVIANS ADMIT REVERSES**  
Battles Longest and Bloodiest of Whole Balkan Conflict.

Belgrade—The Serbian government has addressed a note to Bulgaria, formally breaking off diplomatic relations and demanding the recall of the minister at Sofia.

Serbian troops have victoriously entered Kotecha. A semi-official statement, however, describing the military position after five days' fighting makes the admission that the Serbian army has not been so uniformly successful as was previously reported.

Describing the five days' operations between Vardar and Kotecha, it says that after holding a greatly superior force in check the Serbians were forced to retire. Thus Krivolak fell into the hands of the Bulgarians. It contends, however, that this Bulgarian success was insignificant compared with the Serbian successes against the Bulgarian right wing.

Another semi-official communication says last week's battles were the longest and bloodiest in the Balkan war. The Serbians lost 15,000 killed and wounded, and the Bulgarians 20,000. The Bulgarian losses were increased by the bad organization of their Red Cross service and lack of communications and transports.

It was reported that the Greeks from Doiran are advancing toward Kivolak, where a desperate battle has been raging for three days.

**Wilson's Worship Simply.**  
Cornish, N. H.—In a quiet little church, 200 people gathered to worship half a hundred country folk, President Wilson and his entire family listened to a sermon Sunday on the relation between the leader and the led.

No reference was made to the President by the Rev. J. E. Schneider, the pastor, yet the theme he took was the inter-dependence of people in the ordinary walks of life with those in high authority.

Mrs. Wilson, Miss Eleanor, Dr. Cary T. Grayson, U. S. N., and a secret service man, went to the church in an automobile with the President, and in a little car behind were Miss Jessie Wilson and Francis Doves Sayre, her fiancée.

**Phosphorus Matches Go.**  
Chico Cal.—The manufacture of the non-phosphorus match began July 1 throughout the United States, marking the end of the poison phosphorus match. In compliance with the Federal law prohibiting the use of the white phosphorus in the making of matches, the local plant of the Diamond Match company began the manufacture of a combustible which eliminates danger to employees and to the consumer. The new composition is known as sesqui sulphide. It is non-poisonous.

**More Sensations Brewing.**  
Washington, D. C.—With witnesses headed for Washington from many directions to testify on the newest development in the senate lobby investigation, Chairman Overman gave a hint of further sensations in the committee's activities. An inquiry has been under way for some time, it is understood, into the operation of paid press bureaus conducted by large corporations and "interests," to determine to what extent paid agents are employed to attempt to influence public opinion or Federal legislation.

**Dividend Payments Huge.**  
New York—More than \$266,000,000 in dividends and interest were mailed July 1 by railroads, industrial companies and other corporations to stock and bond holders living all over the world. July 1 was "dividend day"—one of the two big ones of the year, the other being January 1. More than 131 corporations made the semi-annual disbursements, and the dividends of the most important corporations aggregated \$12,000,000 more than in 1912, it was said.

**Gladstone's Act Resented.**  
Pretoria, Transvaal—The recall of the governor general of the Union of South Africa, Viscount Gladstone, is demanded by the Federated Trades Unions. At a meeting of the Federation at which 1200 delegates were present, it was unanimously resolved to petition the imperial government to take action because the governor general impressed troops to suppress the strike.

**UNCLE SAM HAS LOTS OF CASH**

**Fiscal Year Closes With Big Surplus on Hand.**

Canal Expenditures Large—Waterway Has Cost \$318,229,000—Corporation Taxes Grow.

Washington, D. C.—Uncle Sam closed the fiscal year 1913 on July 1 with a surplus of \$40,083,229, representing the excess of receipts over expenditures, exclusive of Panama canal and public debt transactions. This exceeds last year's surplus by \$3,750,000. The Panama canal expenditures and public debt transactions, however, wiped out the surplus of ordinary receipts over ordinary expenditures and created a deficit for the year of \$2,149,000.

Total receipts for the fiscal year amounted to \$737,782,921, while the ordinary disbursements were \$685,699,692.

Corporation taxes yielded the government \$34,848,870, or \$5,365,766 more than during the fiscal year 1912. While customs receipts for the last few months have shown a decrease, as is characteristic of a tariff revision period, the total for the fiscal year reached \$318,142,000, an increase of nearly \$7,000,000 over the previous year.

The drinking and smoking of the American people during the last 12 months brought the Federal government the enormous total of \$309,478,000 in internal revenue receipts, which was \$16,500,000 greater than in 1912 and one of the highest amounts on record.

Under the first year's operation of the new pension law the government paid veterans and widows \$175,134,000, an increase of \$21,537,000.

The fiscal year closed with \$164,704,000 in the general fund of the treasury, as compared with \$167,152,000 a year ago. The cash drawer of the treasury contains \$65,253,000 as the working balance of the government. The trust funds of the treasury include \$1,086,727,000 in gold coin and bullion.

The government spent \$41,741,000 on construction of the Panama canal during the last year, making a total of \$318,229,000 spent on the canal to date, of which \$179,628,000 has been paid out of the general fund of the treasury and the remainder from the proceeds of bond sales.

The 7492 national banks now in existence have a total outstanding circulation of national bank notes of \$737,065,050.

Secretary McAdoo announced that the daily treasury statement in future would be issued in a completely changed form, designed to show at a glance the assets and liabilities of the government. It will be in the nature of a budget statement for the purpose of indicating from day to day whether the government revenues are progressing on a surplus or deficit basis. The first issue of the new statement will show, the secretary said, that the grand total of assets of the government is nearly \$2,000,000,000 against which there are liabilities, including the gold and silver certificates, aggregating about \$1,725,000,000, leaving balances in the treasury of \$250,000,000 to \$275,000,000, including the gold reserve of \$150,000,000.

**Alaska Glacier Awakens.**  
Seattle, Wash.—After lying peacefully asleep for more than 14 years Muir Glacier awakened for a few moments some time last winter and lazily stretched itself. In the life of a glacier "a few moments" may be a period of three months' duration.

The result of the glacier's awakening is that Glacier Bay, Alaska, is filled with gigantic icebergs, and it is impossible for ships conveying tourists to the north to make a close approach to the great ice mass which is one of the spectacular features of the northern journey in summer.

Nobody lives at Glacier Bay, except once in a while, when it is visited by a band of nomadic Indians. Nobody on the glacier moves, but the next summer when it was visited by tourists the ice wall was split in half and divided by a moraine. One-half of the glacier died—that is, it ceased to move and began gradually to melt.

**Page's Salary Is Continued.**  
New York—Walter H. Page, American ambassador in London, is still on the payroll of Doubleday, Page & Co., at the salary he received as editor of World's Work. The salary of \$35,000 a year which he receives from the firm is said to have made it possible for him to accept the ambassadorship. His salary as ambassador is \$17,500 a year. When the post was first offered to Page he demurred because of his lack of wealth. The firm, it is reported, decided to continue Page at his former salary on leave of absence.

**Turn Gun on Federals.**  
Douglas, Ariz.—The bombardment of Guaymas was at its height July 4, reported refugees arriving here from the front. For the first time the insurgents' state troops brought into play three cannon captured from the federals, shelling the gulf town and the two federal gunboats lying in the harbor. The Tampico, in return, bombarded the insurgent positions in Empalme, which fell to the American Clubhouse. No Americans were injured. Soon the Tampico was forced to change anchorage.

**Worms Cause Much Annoyance to Children and Great Anxiety to Parents.**

The presence of worms is recognized by these common symptoms: itching nose, unsatisfied appetite, offensive breath and colic pains.

**DR. PEERY'S VERMIFUGE "DEAD SHOT"**  
Cleanses the system of worms in a very few hours

**TO KEEP YOUTH**  
and beauty—to prevent wrinkles and "crow's feet" and deep black circles under the eyes—nothing is as good as  
**Dr. Pierce's FAVORITE PRESCRIPTION**

Give it a fair trial for banishing those distressing pains or drains on one's vitality. This prescription of Dr. Pierce's regulates all the womanly functions. It eradicates and destroys "Female Complaints" and weaknesses that make women miserable and old before their time. Every girl needs it before womanhood. Every mother needs it. It is an invigorating tonic for the female system. All medicine dealers have sold it with satisfaction, to customers for the past 40 years. It is now obtainable in liquid or tablet form at drug stores—or send 50 one-cent stamps for trial box, to R. V. Pierce, Buffalo, N. Y.

**DR. PIERCE'S PLEASANT PELLETS**  
regulate and invigorate stomach, liver and bowels.  
Sugar coated, tiny granules, easy to take as candy.

**HOMESTEAD ROOFING DIRECT FROM FACTORY**

All Grocers

**Very Many Like Him.**  
Sometimes children are more observant than they are credited with being. Little Rob's mother, for instance, was telling a visitor how "masterful" another neighbor was in his home life when Rob, unnoticed beside her, put in his little oar. "I don't think Mr. Tate is so awful bossy, mamma," he remarked, suddenly. "Course he does a lot of talking, but he never makes Mrs. Tate do a thing she doesn't want, I've noticed that."

**Shock Was Too Great.**  
Policeman—"Do you know this sick man?" Interested Bystander—"No; I only jest met him. He seemed a nice sort of a feller; he shook my hand and we chatted a while, an' I told 'im I was Seth Pinewood from Pennsylvania, an' that I'd come on with one thousand in cash to see this here town. I ast 'im if he knew of some young feller as could show me around; an' then he threw up his hands an' fell down!"—Puck.

**Criminals Have Low Temperatures.**  
Cold-bloodedness is a physical characteristic of the habitual criminal and the temperature of murderers is strikingly below normal, according to statistics published by the American Medical Association. General physical degeneracy is found to stigmatize the criminal. The average convict is three inches below the normal in stature, light in weight and with small chest expansion.

**When Your Eyes Need Care**  
Try Murine Eye Remedy. No Smarting—Feels Fine—Acts Quickly. Try it for Red, Weak, Watery Eyes and Granulated Eyelids. Illustrated Book in each package. Murine is compounded by our Oculists—no "Patent Medicine" but real "Physicians' Medicine" for many years. Now dedicated to the Public and sold by druggists at 50c and 10c per Bottle. Murine Eye Remedy in Asseptic Tubes, 25c and 50c.

**Wonderful Peroration.**  
A lawyer, more fluent in his speech than careful in his metaphors, was once guilty of the following peroration: "Gentlemen, it will be for you to say whether this defendant shall be allowed to come into court with unblushing footsteps, with the cloak of hypocrisy in his mouth, and draw three bullets out of my client's pocket with impunity."

**Rearranged.**  
The choir wished to sing a hymn, the first verse of which ended: "The night is falling. Heaven help us as we're calling." But as they wished for morning service, the leader suggested that they change the wording of it a bit. A young man dutifully proposed the following amendment: "The morn is dawning. Heaven help us as we're yawning."

**High Priced Sermon.**  
Perhaps the highest price paid for a sermon goes every year to a German preacher, who discourses on the good deeds of a French baron named Favart, who died in Elberfeld in 1690. Favart left money for this purpose, and the interest now amounts to \$920 per annum, which goes to the preacher as his reward.

**Lie Always More Active.**  
Strange the truth never gets the wide circulation a lie does.—Florida Times-Union.
