"Now," said the stage manager, "you are the heroine. You are supposed to suffer more than anybody else in the play. You must put yourself into a frame of mind which represents grief and remorse."

"I know," repield the leading woman. "I'll try to make myself believe I'm one of the people who paid $2 to see this play."—Washington Star.

Sporting Blood in Him.

There are ways of doing things. That is elementary and eximatic wisdom, and yet people are slow to act upon it. Take the case of the East Clevelander who has a garden and a small boy, suggests the Plain dealer. This man said to his wife the other day:

"Emily, we aren't going to have any sweet corn this season if we dont take better care of it. I wish you would persuade Robert to take a morning from his baseball and swimming, and get after that corn patch."

"I tried to," sighed the mother, "but he just won't do it."

"Tell him you'll give him a quarter to do it."

"I did. I said just yesterday, 'Robert, if you'll cultivate that corn and get all the weeds out of it by noon I'll give you a quarter to put in your bank.'"

"Oh, pshaw! That's not the way to do it. Call him in here and I'll fix it. Robert, have you got any sporting blood in you? Will you take a small bet? I'll bet you a quarter you can't get that corn hoed before noon today."

"I got you," says Robert. Then as a look of triumph spreads over his father's face he adds. "Have you got any sporting blood in you?"

"I sure have, Robert."

"Then I'll bet you a half dollar you win the bet. I'll be at the office this noon and collect."

The corn isn't hoed yet.

Dr. Pierce's Pellets, small, sugar-coated, easy to take as candy, regulate and invigorate stomach, liver and bowels. Do not gripe.

Strawberry Is From Chili.

A great many people are under the impression that the strawberry is of European origin. As a matter of fact, it is derived from the Chilean berry, which is native to the Pacific Coast.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

"Papa, I want an ice cream sundae." "All right, dear, remind me of it again; this is only Tuesday."—Houston Post.

Recruit.

"A bad mess," declared the junior partner. "Lot of urgent mail to be answered and the typewriter has just left." "The office boy is always fooling around that machine," suggested the senior partner. "Put him in now and let's see what he can do as a pinch hitter."—Pittsburg Post.

Murine Eye Salve in Aseptic Tubes, 25c and 50c.
Murine Eye Remedy Co., Chicago

"That man is one of our leading capitalists," said Miss Cayenne.

"Didn't know he was in that line at all. What is his specialty?"

"The capitalization of the letter 'I.'"—Washington Star.

For Sunburn, Insect Bites,

Ivy Poison or any other skin inflammation use Tyree's Antiseptic Powder and get quick relief. 25c. at druggists. Sample sent free by J. S. Tyree, Washington, D. C.—Adv.

Old lady (offering policeman tract)—I often think you poor policemen run such a risk of becoming bad, being so constantly mixt up with crime.

Policeman—You needn't fear, mum. It's the criminals wot runs the risk o' becomin' saints, bein' mixt up with us!—Punch.

Make Hair Grow Restore Color

Dandruff is a disease that does positive injury to the hair follicles and hair roots EVERY DAY it is permitted to exist. Unless you can afford to be bald JUST A LITTLE LATER ON you cannot afford to neglect dandruff or falling hair for ANOTHER DAY. But don't use any hair tonic without KNOWING FOR YOURSELF just what it contains. The safest way is to either mix your own tonic or go to a druggist whom you know to be reliable and have him mix it for you. An absolutely safe and unquestionably the most efficacious formula you can possibly use is this very simple one: 6 ounces Bay Rum, 2 ounces Lavona de Composee, ½ drachm Menthol Crystals. Mix thoroughly, and after standing half an hour it is ready for use. If you choose, add 1 drachm of your favorite perfume. Apply night and morning, rubbing into the scalp with the finger-tips. Insist upon this exact formula, if you have your druggist mix it for you, and you will have a tonic that you can depend upon for quick and lasting results. It will not only rid your scalp of dandruff and stop your hair from falling, but it will cleanse and beautify the hair to a remarkable degree. It contains an ingredient that stimulates the growth of hair and which also is believed to stimulate the activity of the pigment-forming cells so as to partly or fully restore prematurely gray hair to its natural color without the use of any dye.

"Can you direct me to the best hotel in this town?" asked the stranger, who, had set satchel upon the station platform.

"I can," replied the man who was waiting for a train going the other way, "but I hate to do it."

"Why?"

"Because you will think after you've seen it that I'm a liar."—Chicago Herald.

MAYOR GAYNOR DIES ON LINER

Sudden Taking Away Due to Heart Trouble.

Adolph L. Kline, Who Succeeds to Office, Says Same Policies Will Be Pursued.

New York—William J. Gaynor, mayor of New York City, voyaging over sea on the steamer Baltic in the hope of regaining his strength to enter the three-cornered municipal campaign as a candidate for re-election, died suddenly on the Baltic as the steamer was within a few hundred miles of the Irish coast Wednesday. The first news of his death, flashed by wireless and relayed by cable from Europe, reached his secretary, Robert Adamson, the next day. The mayor had succumbed to heart failure, the message said.

Later dispatches from his son, Rufus W. Gaynor, who was his father's only traveling companion, gave details which showed that the end had come with shocking suddenness.

"Father died at 1:07 P. M. on Wednesday, the 10th," said the message from the son, received by Secretary Adamson. "His death was due to heart falure. He was seated in his deck chair at the time. I discovered him unconscious in his chair, though still alive. He died about three minutes later, without recognizing any of us. Everything possible was done, but he seemed to go as a candle flickers out."

That the mayor's heart had been in a weakened condition for years was the statement of physicians who treated him at the time he was shot in the neck and almost done to death by an insane discharged employe of the city in August, 1910. They would not declare their belief that the wound inflicted by the assassin's bullet had led directly to the end, but did affirm that his general resistance had been lessened thereby to a very great extent.

Plans for a public funeral to be held probably on September 22 will be made by the Board of Estimate. Late advices from abroad say the body will be transferred from the Baltic to the steamer Cedric, sailing from Queenstown.

The death of Mayor Gaynor automatically transferred the office of mayor to Colonel Adolph L. Kline, a Republican, president of the Board of Aldermen. Colonel Kline has taken the oath of office and his first official act was to call the Board of Estimate together to lay plans for the public funeral services of his predecessor. Mayor Kline then declared that during his short term of office, which will terminate on January 1, 1914, he would carry out the policies of Mayor Gaynor so far as he knew them.

MEXICAN ENVOYS ON GROUND

Reception Probable if New Negotiations Are Offered.

Washington, D. C.—Senor Manuel de Zamacona, former Mexican ambassador to the United States, who is supposed to be charged with the task of reopening the negotiations between the United States and the Huerta administration for a peaceful solution of the troubles in Mexico, remained in seclusion Thursday with Senor Algara, charge d'affaires of the Mexican embassy.

Zamacona did not reveal the character of his mission. He maintained that he had come to the United States on "private business." From American officials it is known that the Mexican government made inquiry recently if it would be agreeable to the United States to have Senor Zamacona negotiate some of the principles in dispute.

The United States had signified in return that if Senor Zamacona came to resume the negotiations on a new basis he would not be received. Otherwise this government considered further negotiations on the same ground checked by John Lind as unnecessary.

It is understood that Senor Zamacona was in communication with the Mexico City administration and prepared to be in New York later to talk with American bankers about the prospect of a loan for the Huerta government.

Goat Butts Into Laws.

Washington, D. C.—The case of an American-born goat which went visiting to Panama with a party of St. Paul Shriners and is now wanting to re-enter his native country at New Orleans, has clogged the wheels of the federal government. Public health officials refused admission to the goat. "Why this is not a foreign goat or a goat without a country; it is an American goat. Admit him," ordered Secretary McAdoo. The secretary was informed that the secretary of agriculture must be consulted to determine whether the goat had contracted disease.

Mexicans Are Insulting.

El Paso, Tex.—"An American cannot walk down the streets of Mexico City without being insulted by natives," said James L. Black, a mine-owner in the state of Oaxaca, who arrived here from Mexico City. "They push Americans into the street and when they protest the Mexicans laugh at them and even slap their faces. The Americans are helpless, as the police will do nothing to assist them."

Black left Mexico in obedience to President Wilson's advice to Americans to leave the republic.

Wilson Sees Vaudeville.

Washington, D. C.—President Wilson went to a vaudeville performance Thursday night for the first time since he came to Washington. A regular patron of the dramatic stock company plays this summer, he turned to the lighter side of the stage for his evening's diversion. He received an enthusiastic ovation as he took his seat in a box with Secretary Tumulty and Dr. C. T. Grayson, U. S. N., his physician.

J. Foster Stackhouse, who was intimately associated with the late Captain Scott in organizing the fateful expedition to the South Pole, is arranging for another trip to the Antarctic. The plans are for the expedition to start from London in August, 1914, to explore King Edward VII Land.

TARIFF PROBLEMS ARE SOLVED

Schedules on Wool And Paper Disposed of at Conference.

Washington, D. C.—Many of the knotty problems in the wool and paper schedules were disposed by the the house and senate conferees on the democratic tariff bill and a good start was made on the sundries schedule.

One of the important agreements of the session occurred when the senate conferees receded from the amendment to free list the cheaper grades of woolen blankets and accepted the house paragraph making them dutiable at 25 per cent ad valorem. The paragraph on woolen yarns was compromised by splitting almost equally the difference between the two houses, the house having voted a 20 per cent and the senate a 15 per cent duty. Similar treatment was given the duty on tops, made dutiable by the house at 15 per cent duty and by the senate at 5 per cent.

Slight changes were made in the senate's rates on woolen stockings and the house paragraph on Oriental rugs was adopted. Angora goat and mohair were passed over, the conferees not being able to agree.

Slight reductions were made in the senate rates on paper. The only paragraph in this schedule not disposed of was that dealing with picture cards and booklets lithographically printed, which was passed by for further consideration.

A delayed speech in support of the tariff bill was made in the senate by Senator Thomas, of Colorado, a democratic member of the finance committee. The senator had prepared his speech for delivery in the tariff debate but was prevailed upon to withhold it so that passage of the bill might not be delayed.

He warmly defended the sugar schedule and declared that much of the agitation against free sugar by the beet sugar interests was based on a misapprehension.

Over capitalization of corporations and discriminatory freight rates were denounced by the speaker as causes of the high cost of living. He characterized the watering of stock a legalized robbery, and declared if it were necessary to get equitable freight rates he favored government ownership of railroads.

BIG DIPPER IS DISAPPEARING

IN 200,000 Years Famous Constellation Will Vanish Entirely.

San Jose, Cal.—"It is now known positively that the Big Dipper, most famous of all constellations, is gradually falling to pieces. In 200,000 years the grand figure as we see it will not exist longer. In fact it did not exist 200,000 years ago."

This announcement is made by Professor Heber D. Curtis, astronomer at Lick Observatory on Mount Hamilton, a member of the faculty at the University of California. This fact, says Curtis, was discovered by the study of the motions of the stars through comparison with records kept by astronomers for the last 150 years.

"Stars," Professor Curtis explains, "have two motions—that in their orbits and that which has been recently made in a path through the sky, known as the proper motion.

"The stars of the Big Dipper are not all moving in the same direction in their proper motion. Five are going in one general direction and two in an entirely different one.

"In relation to the movement of the earth their pace is so slow that centuries must pass before the constellation will have vanished completely."

WRECK IS LAID TO EMPLOYES

Operators Held Criminally Responsible For Loss of 21 Lives.

New Haven, Conn.—Three employes of the New York, New Haven & Hartford railroad are held by Coroner Eli Mix to be criminally responsible for the disastrous wreck at North Haven on September 2, when the White Mountain Express plunged through the second section of the standing Bar Harbor Express, exacting a toll of 21 lives.

The coroner's finding was filed after he had conducted a "private" inquest.

Those held to be responsible are Augustus Miller, engineer of the Mountain Express, and Bruce C. Adams and Charles H. Murray, conductor and flagman, respectively, of the Bar Harbor train.

The coroner neither blames nor absolves the New Haven road. He finds the signals were in perfect working order, "and whether or not the banjo signals are obsolete the accident would have been prevented if the company's rules had not been violated." He declares the number of violations of rules by employes "makes a sorry record."

I. W. W. In Convention.

Chicago—Fifty delegates declaring they represented a vast army of unskilled workmen, attended the opening of the annual convention of the Industrial Workers of the World here. "Gompers is a pure reactionary," said Tom Mann, English labor leader, "and has got far away from a sympathetic understanding of the needs of the great army of borne-down, unskilled laborers. He virtually is at the head of the American 'labor trust.' Instead of welcoming into its membership all who need the benefits of organization, the 'labor trust' draws a sharp line, excluding the unskilled."

Poor Suffer From Strike.

Dublin, Ireland—The labor situation has assumed a more serious phase and the city is affected to a greater extent by this strike than any in its history. More than 5000 builders went out after refusing to sign a declaration proposed by the employers that they would not join with or support the Transport Workers' Union which started the original strike. Two thousand farm laborers and 600 dock workers also are out. Four steamers loaded with grain are unable to discharge. Food is running short and the poor are beginning to suffer.

Four Are Lost In Alps.

Geneva, Switzerland—Four experienced mountain climbers, one of them Mlle. Bunzil, of Pontresina, have been missing since Friday on Piz Palu, a summit of the upper Engadine, in the environs of Pontresina. As continuous snowstorms have prevailed since then there is little hope of finding them alive. Two rescue parties of guides, which started from different places, were driven back by the fierce storms.

RAGING FLOOD HITS GOLDFIELD

Nevada Mining Center Damaged By Cloudburst.

Seven Are Dead—Light and Power Plant Useless—Railroads Heavy Losers.

Goldfield, Nev.—Seven people were killed and damage estimated at $100,000 was done in a series of cloudbursts which swept over Goldfield between the hours of 11 o'clock a. m. and 8 o'clock p. m. Sunday.

Of the seven known dead, only a Mrs. Degarmo, wife of a liveryman, and a Mrs. Van Felt, a seamstress, have so far been identified.

Identification and all other work necessitated by the flood-waters has been rendered slow because of the complete darkness which has enveloped the district. Electric lights are out, the power currents are down and there are only lamps and candles in the entire town.

Under Sheriff Ingalls is in charge of the mining camp. He formed a patrol of citizens who kept off the streets all who had no necessary business there. While many homes were devastated, the heaviest losers were the three railroads which have their terminals here. They are the Tonopah & Goldfield, the Tonopah & Tidewater, and the Las Vegas & Tonopah. Parts of their lines were under water so badly damaged that rebuilding was said to be necessary. Although a call for extra construction men was sent to Tonopah, 26 miles away, it was doubtful if any trains could reach Goldfield.

Another heavy loser in the cloudbursts was the California - Nevada Power Company, whose lines reach out from Inyo county, California, serving all this district. All their lines were badly damaged.

Goldfield is peculiarly situated for storm damage, being in a bowl surrounded by wall-like hills, which in some places reach a height of 200 feet, while only two gulches, running from north to south, afford drainage.

REFUGEES ARE CAPTIVES

Mexican Rebels Capture Large Party of Americans.

Mexico City—One hundred Americans, including women and children refugees from Torreon, are reported to have fallen into the hands of rebels while proceeding overland to Saltillo. The authorities at Saltillo decline to take the responsibility of sending a force to their rescue, fearing, they say that the rebels might commit atrocities on the refugees which possibly otherwise would be avoided.

The report comes from an official source at Saltillo, but has not been confirmed.

Senor Gamboa, the foreign minister, has had no advices further than the communication to the embassy. He expressed regret, but added that it was no more than what might be expected as the result of the "neutrality policy" of the United States, which had hampered the administration in proceeding with a strong hand against rebels and bandits.

General Trucy Aubert, a federal commander, with 1000 men, who is proceeding from the north to the relief of Torreon, passed Saltillo Sunday. He is, however, making slow progress. Meantime the fate of the refugees remains in doubt.

The Americans are headed by Deputy Consul-General Allen, of Monterey, who went to Torreon to notify American residents there of President Wilson's warning.

Masked Workers Parade.

London—The "masked" worker made his first demonstration in Hyde Park Sunday in favor of trade unionism, following tactics similar to those adopted by the laborer artisans, who held meetings in the vicinity.

The participants, many of whom were women, were all clerks representing a great variety of employment. They marched from the Thames embankment to Hyde Park wearing black masks with the object of "avoiding victimization."

Sandwich boards said that 25 per cent of the clerks die of consumption in consequence of wretched working conditions.

Speakers drew a graphic picture of the under-payment of the clerks, the unsanitary conditions prevailing in a majority of the offices and stores and the slave driving methods of employers.

Countess Has 104 Gowns.

London—The arrival of the Countess Torby, wife of Grand Duke Michael of Russia, has upset the royal household. The cause is the extensive wardrobe of the countess, reputed the most extravagantly dressed woman in Europe.

Antiquated Balmoral Castle lacked accommodation for the 104 dresses she brought, and Queen Mary had to give up part of her private apartment, packing most of her wardrobe in trunks and leaving herself with only four gowns available.

First Car Ride Fatal.

San Francisco — Miss Elizabeth Overend, who through all the 73 years of her life and residence in San Francisco had refused to ride on a street car, is dying at Central Emergency Hospital, the victim of a street car accident, which occurred when she consented for the first time to ride on one of the "new contraptions."

She was alighting from her first trolley ride last Friday evening, when a car going in the opposite direction struck her. She is the daughter of James Overend, a California pioneer.

Five Americans Beaten

Los Angeles—Five Americans, two men and three women, were beaten Saturday night by a mob of 20 Mexicans in Edendale. The Americans were returning home from a dance, where one of them had an argument with a Mexican woman.

Harry Didwell and Guy Long were clubbed unconscious. They were accompanied by three women, who received minor injuries.

Woman Is As Old As She Looks

No woman wants to look old. Many in their effort to look youthful resort to the "beauty doctor's" prescriptions. Their mistake is that they visit the wrong department in the drug store.

Beauty depends upon health.

Worry, sleepless nights, headaches, pains, disorders, irregularities and weaknesses of a distinctly feminine character in a short time bring the dull eye, the "crow's feet," the haggard look, drooping shoulders, and the faltering step.

To retain the appearance of youth you must retain health. Instead of lotions, powders and paints, ask your druggist for

DR. PIERCE'S Favorite Prescription

This famous medicine strikes at the very root of these enemies of your youthful appearance. It makes you not only *look* young, but *feel* young.

Your druggist can supply you in liquid or tablet form; or send 50 one-cent stamps to Dr. Pierce's Invalids Hotel and Surgical Institute, Buffalo, N.Y. and trial box will be mailed you.

Frenchwoman a Cave Dweller.

A woman of forty-five has been found living in a cave in the forest of Fontainebleau. Snakes and rats were her co-tenants. She subsisted on raw vegetables, and was clad in rags. She was reluctant to leave the cave.—Paris Cable to the New York Times.

Raises the Dough Better
ALL GROCERS

She Remembered.

Minnie, aged two years, asked her mother's permission to throw away some flowers, as they were dead, she said. Her mother corrected her and told her to say "withered," not "dead." The following day a military funeral was passing and the baby astonished everyone by saying: "Come here quick, mother; someone else has withered!"

Mother's Way.

A friend of mine, a teacher, had just received a very handsome fan, and took it to the classroom for the edification of the children. Selecting one of the pupils, she asked what the lovely thing was. The child did not know. "What does your mother use to keep her cool in summer?" asked the teacher. "Beer," was the reply.

Embarrassed Police Sergeant.

"She caressed me," was the blushing admission of a police sergeant at Tottenham, England, when a married woman was charged with obstructing the sergeant while he was taking her husband into custody, the woman flinging her arms round the officer's neck and crying, "Take me, too!"

Cause for Worry.

Friend—"Why, Elvira, what's the matter?" Elvira — "Oh, I don't know, only I'm worried to death! I've had the same girl six weeks, and she doesn't talk about leaving yet!" Friend—"She doesn't?" Elvira—"No, not a word! She must be in love with my husband!" — London Opinion.

Sick-Room Light.

If there are electric lights in the sick room they will generally be found too brilliant, hurting the eyes of the patient, and not every sick room has the electric lights that can be turned up or down. Make a little green silk bag and fasten it over the incandescent bulb and it will give a good but subdued and harmless light.

Wan, Weary and Worn Out

If You Feel Fagged to a Finish and Utterly Used Up Here is Quick Relief.

Half the people you meet complain of weary muscles, stagnant brain, jangled nerves, and a mournful desire to lay down and just quit. Most of these people have been using nervines that spasmodically flare up the nerves only to die down again, as die they must. Avoid nerve stimulants. Bear in mind that this worn out feeling is due to poor blood, to bacteria in the water you drink; to the multiplying of destructive germs in the blood faster than they can be overcome by the white corpuscles; and to what is known as auto-toxemia, that condition where the venous or impure blood accumulates faster than it can be replaced by the red arterial blood.

One ingredient in S. S. S. serves the purpose of stimulating the cellular tissues to select from the blood the nutriment that renews its health and energy.

If you feel played out go to any drug store and ask for a bottle of S. S. S., Swift's Sure Specific. Insist upon having it and do not be persuaded to take something else claimed to be "just as good." S. S. S. is a remedy that gets at work in a twinkling; it just naturally rushes right into your blood, scatters germs right and left, up and down and sideways.

You feel better at once, not from a stimulant, not from the action of drugs, but from the rational effect of a natural medicine just as active and just as timely as to a man who has been lost in the mountains, is about starved and comes across a settler just cooking a savory meal of good honest beef. Do not neglect to get a bottle of S. S. S. to-day. It will make you feel better in just a few minutes. It is prepared only in the laboratory of The Swift Specific Co., 160 Swift Bldg., Atlanta, Ga. Send for their free book telling of the many strange conditions that afflict the human family by reason of impoverished blood.

Courage Not Needed.

The greater part of the courage that is needed in the world is not of an heroic kind. Courage may be displayed in every day life as well as in historic fields of action. There needs, for example, the common courage to be honest, the courage to resist temptation, the courage to speak the truth, the courage to be what we really are, and not to pretend to be what we are not, the courage to live honestly within our means.—Smiles.

Wholesale Invitation.

There have been many innocent mistakes made by parsons. Among them in one told of a certain clergyman who left a notice in his pulpit to be read by the preacher who exchanged with him. The minister neglected to denote carefully a private postscript, and the people were astonished to hear the stranger end by saying: "You will please come to dine with me at the parsonage after service."

Laughter Pays Well.

Laughing as a business-getter attracts favorable attention, makes pleasant impressions, transforms gruffness into cheerfulness and leaves the work done with a contented afterfeeling.

No Cause to Worry.

"My brushes are all worn out," sighed the futurist painter, "and I have no money to buy new ones." "Never mind," his wife replied. "Take the broom!"

Your "Best Play"

is made when your physical condition is normal. Sickly persons are always badly handicapped because they lack the stamina and strength necessary to win. Try a bottle of

HOSTETTER'S Stomach Bitters

It restores the appetite, aids digestion and in every way helps you back to health and strength. Get a bottle today. Avoid substitutes.

Builders! THERE ARE BARGAINS HERE FOR YOU.

ROOFING — A-B guaranteed roofing, 1 ply, $1.10 per roll. Heavier plies at equally low prices. We also sell tar paper, building paper, deadening felt and plaster board at amazingly low prices.
