REOPENS REALTY OFFICE

J. K. McGregor, who last year closed his real estate office indefinitely, has decided to again get in the game of selling Mosier apple land and has opened an office in the building which he recently purchased and moved into town. Mr. McGregor is well acquainted with the Mosier district and knows just where to find any kind of land a purchaser may want.

MAYER GETS BOKAY

The following letter, received recently by Mark A. Mayer from Steinhardt & Kelly, of New York is very flattering and we publish it to show to outsiders that Mosier fruit is considered par excellence in the markets of the country:

New York, Sept 9, 1913.

MR. MARK A. MAYER, Mayerdale Orchards, Mosier, Ore.

Dear Sir:

We are herewith enclosing you our check in settlement of the last car of prunes which we purchased from you, which, we are sorry to say, winds up our prune deal with you this year. Not only are we sorry on account of having been able to make a fair profit on them, but also owing to the fact that all our customers continue to ask for your pack. We must say that we have never yet seen a better pack of prunes come out of the Northwest district, and this, considering as you state in your letter to us, that it is your first experience in packing, is simply marvelous.

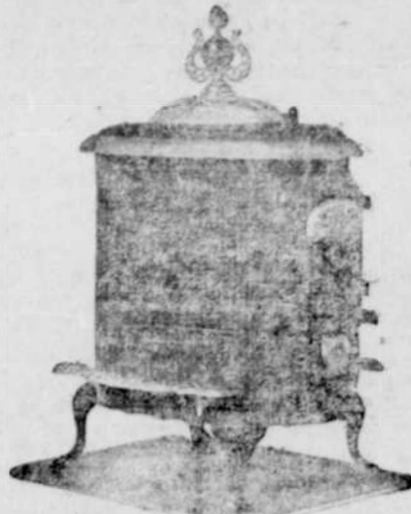

We want to compliment you most sincerely on your success, and to assure you that we look forward with a great deal of pleasure to doing business with you in coming years. You know we had the Mosier pack two years ago. However, it may not be amiss to add that we consider your pack as being the very best we have ever had from the Northwest.

Sincerely yours, STEINHARDT & KELLY.

Mr. Mayer expresses his appreciation, thru these columns, of the efficient work of J. O. Beldin, as general manager of the packing operations, Mrs. Geo. Emry, as forelady and inspector, and Wm. Hudson as car packer, whose excellent work made possible the results obtained, and which called forth the expressions of praise from one of the largest firms of fruit dealers in the country.

SCHOOL NOTES

(High School.)

By the Editors.

Organization is developing rapidly. Expect to be in full operation within next few days.

The "Class of 1915" has begun the work in the new course of study, with the exception of the laboratory work in physics. This subject will not be taken up until the 1st of Oct., as the laboratory apparatus has not yet arrived.

The students are enjoying greatly the new system of opening exercises adopted this year, with the short talks and readings by members of the faculty and business men of the town.

The school board will begin the grading and preparation, Monday, of the school yard for tennis courts and athletic field. As there has been a long-felt need for something of this kind, we certainly appreciate the kindness of the school board.

The meeting of the High School, with the assistance of the Grammar School, was held Wednesday evening after school, for the organization of the M. H. S. Athletic Club. Prof. E. M. Ulmer will act as manager and coach of the organization. We receive our first drill Friday evening, 19th inst., in the town hall. All members are required to be there promptly at 7:30.

No admittance permitted at practice games—except members or those having special permit from the manager. If you attend our games scheduled, we will show you an exciting time.

GENERAL SCHOOL NOTES

There are four new pupils in the primary room: Carl Rorden and Donald McCargar in the first grade, and Crystal Cook and Ruby Morton in the third grade. This makes 29 primary students in all. Interest is developing rapidly under the leadership of Miss Bennett, and upon the installation of certain needed apparatus, expect to reach the maximum of success.

With the arrival of the necessary books, the work of the Intermediate department has begun in earnest, the fifth grade showing the best application in beginning. A spelling war was held between the fifth and sixth grades, the former being victorious. Miss Little, it may be added, is showing marked ability in her discipline and direction of that department. A brilliant success is certainly assured. If in doubt, call and investigate for yourself.

The second week in the grammar grade opened with a full attendance of the enrollment; and as all are now supplied with text books, the work is progressing much more smoothly. Interest

is growing and gives promise of effective work in the future.

INCORPORATION shows progressiveness and optimism; shows we have faith in ourselves. It means a clean, well regulated town. The expense of decent streets, sewers, fire protection, will injure no one. Mosier town has one of the finest improved districts in Oregon behind it. The people who invite their friends to visit them blush with shame at the appearance of our town. Over 90% of the taxable property within the proposed corporate district is assessed to large corporations. Everyone interested should vote Saturday for the measure. Let us begin by making it unanimous and continue in that spirit for an attractive and beautiful little city by the
