Our Mosier Patronage Increasing

That's gratifying to us and leads us to still greater efforts to make this Store more than ever "Your Store" for service. Here are some of the things that count: *A Stock so complete* that we feel safe in saying, you'll not find it's equal—and *Prices* positively 20% to 40% lower than Portland or any other Western city. Lower even, than the widely heralded Mail Order "junk." We want you to make us prove these statements. We are doing it for others every day.

J. H. Weaver and family left Wednesday evening for LaJunta, Col., where they will reside. Mr. Weaver, tho only a transient resident here, has become quite interested in the town, and ordered the Bulletin sent to his new address, that he might keep in touch with us.

A gay party of old and young folks met at the home of Uncle Dick Evans, last Friday night, and had a jolly time. The party was planned by Mrs. Evans as a surprise on her husband, and it worked. The evening was spent playing games. Refreshments were served late in the evening, and everybody went home feeling happy and younger.

The county court met Wednesday and adjourned until next Monday, consequently no business was done. There is no doubt that the court will confirm the recent election in Mosier and set a date for the election of municipal officers. When it does, it will be up to the citizens of the town to have a hi-u celebration over the event. What?

Millinery

I have located in Mosier and will soon display a stock of Fall and Winter Millinery at my parlors in the building just south of the bank. I will appreciate the patronage of the Mosier ladies, and am sure I can please them.

MRS. J. M. CULP.

Lee Hunter has just completed a large water tank on the farm of Fred Wilson, south of town. The tank is built of California redwood and has a capacity of 4000 gallons. The water is supplied from a windmill and connections are made so that water can be turned wherever desired. Mr. Wilson, who was down on Wednesday inspecting the plant, was much pleased with the manner in which Mr. Hunter has performed his work. The reservoir is on the highest point on the farm so that the water can be obtained in all directions by gravitation.

SCHOOL NOTES

By the Editors.

Examination will be held Friday, Oct. 3, in the respective grades, covering the work of the first month of school.

Next week is the County Fair at The Dalles and the Annual School Children's Exhibit. We have deemed it wise not to attempt a combined educational exhibit from this place, but expect to bring home one or more of the individual prizes.

The Teachers' Institute will also be held next week, the 6th, 7th and 8th. The M. H. S. Quartette, and one or two other members of the school, will furnish one number on the musical program, Tuesday evening, Oct. 7, at The Dalles High School building.

The Mosier school has begun to feel the effect of the pressing need for help in the fruit district. Many older students have dropped out on account of the work in the apple orchards. Hope to have them with us again soon.

Mammoth Cucumber

There is on exhibition at this office the daddy of all cucumbers. It was grown in C. H. Davenport's garden and measures 11½ inches in length and the same in circumference. Mr. Davenport says he will exhibit it at the County Fair next week.

ENTHUSIASTIC GOOD ROADS MEETING

We have heard of people who refused to attend revival meetings lest they be converted. For the same reason, some *may* have stayed away from the good roads meeting in Hood River, last Tuesday night. It is certain that the big crowd who did attend and who packed the Commercial Club hall to overflowing, was thoroughly converted to the gospel of good roads in general and the Columbia River highway in particular, as expounded by such men as Rufus Holman, Hon. John P. Hardman, Maj. H. L. Bowlby, Frank Terrace C. S. Jackson, and that prince of entertainers, and the father and maker of good roads in the west—Sam Hill.

The Pacific Highway up the Columbia River from Portland to Hood River, Mosier, The Dalles, and on south thru Central Oregon into California, will be built, and it is predicted that it will be accomplished by 1915.
