Fine Remedy For Eczema

Also for Salt Rheum, Tetter, Psoriasis, Lupus, and All Skin Afflictions.

All skin troubles should be attacked from within by giving the blood circulation a good daily bath. This is accomplished with S. S. S., the best known and most highly recommended blood purifier ever discovered. Its action is very rapid. Its vegetable nature is such that it naturally goes right into the blood, saturates the entire circulation, bathes the tissues with an influence that enables the skin to heal quickly. The action of S. S. S. is that of an antidote, and this fact has been demonstrated time and time again in the most severe forms of weeping eczema.

Its influence in the tissues where the tiny arteries transfer the red blood for the worn out blood to the veins is quite remarkable and goes on constantly with every tick of the clock—the beat of the heart.

And new skin is thus caused to form while the germs of irritating influences that cause eczema are scattered and their harmful nature entirely suspended.

S. S. S. has a wonderful tonic influence in the blood because it contains no "dope," is not a physic, is entirely free of any mineral drugs or any other drugs except the remarkable medicinal effect of the pure vegetable products of which it is made.

Few people realize how harmful are many of the strong, crude ointments that used to be in favor before they learned that S. S. S. is safe, speedy and sure. Ask at any drug store for a bottle of S. S. S. Give it a good trial and you will soon see a decided improvement in any form of skin trouble. Write to The Swift Specific Co., 160 Swift Bldg., Atlanta, Ga., for special free advice on eczema and any other form of skin or blood trouble.

Do not allow anyone to palm off a cheap substitute for S. S. S. You will be grievously disappointed if you do. There is nothing else "just as good" as S. S. S.

LARGE CITIES GROW FASTER

Per Cent of Rural Population Rapidly Diminishing.

In 1880 about 71 per cent of the population of the United States was in the country and 29 per cent in the cities, while in 1910 only 54 per cent was rural and 46 per cent was urban. These figures indicate an alarming tendency towards the depletion of country towns and rural communities, and the congestion of trade and population in the larger cities. It should also be borne in mind that during this period the standard of living has been steadily on the up-grade and that the per capita consumption has increased considerably. This condition undoubtedly explains in large measure the high cost of living problem which is becoming a serious matter with the masses of the people. But the commercial side of this problem is not its most serious aspect. It is evident that if this movement continues it must seriously undermine the health and strength of the American people.

This movement of population into the larger cities has been at the expense of both the rural sections and the small towns. If we can bring about a realization of the advantages of the medium-sized towns and a reversal of this movement, not only these towns but rural districts as well will be benefited, for the prosperity and well-being of the country sections is more closely allied with its home towns than with the distant cities.

BIG ZEPPELIN AIRSHIP BURNS

Blazing Hulk Drops 900 Feet, Killing Entire Crew.

Admiralty Board of Seven Wiped Out—One Guest Lives Few Hours in Agony.

Berlin—Twenty-eight persons were killed near Johannisthal in the explosion and fall of Count Zeppelin's latest dirigible balloon, the L-II.

The 28 men represented the entire personnel of the admiralty board which was to conduct the final trial of the dirigible looking to its acceptance by the government as a new unit of the German aerial navy, the pilot and crew and invited guests. Every person that went aloft in the big airship is dead.

Twenty-seven of them were killed almost instantly by the explosion of the gas in the balloon or burned to death as the flaming wreck fell to the ground from a height of 900 feet and enveloped them. One man, Lieutenant Baron von Bleul, of the Queen Augusta Grenadier Guards, a guest of the admiralty board, was extricated alive from the mass of twisted wreckage His eyes were burned out and he suffered other terrible hurts.

Begging his rescuers to kill him and end his sufferings, he was taken to a hopsital, where he died in a few hours.

The L-II, had it proved successful, would have been attached to the aerial corps of the navy, which, after this accident, has only two men trained to command airships.

The official report of the accident says the explosion was due to the ignition of gas in or above the forward gondola, but not within the body of the airship.

The navy was not the only sufferer through aviation accidents, for the same day three army officers were killed in aeroplane flights—Captain Haeseler, Lieutenant Koch and Sergeant Mante.

Emperor William, in a telegram to the minister of marine, voices his sympathy by saying:

"The sorrow over what has happened, I am convinced, will only be a spur to renewed exertions to develop an important aerial weapon into a trustworthy implement of war."

The newspapers reflect the emperor's belief that there should be no relaxation in the efforts to supply Germany with an adequate aerial fleet.

PREPARE TO SEND US BEEF

South American Republics Act on New Tariff Lew.

Washington, D. C.—Active preparations by Argentina to take immediate advantage of the free beef clause of the new tariff law and send to the United States large shipments of beef are reported by Dr. A. D. Melvin, chief of the bureau of animal industry, who has just returned from South America. He made the trip for the department of agriculture to study meat packing and inspecting conditions in Argentina, Uruguay and Brazil.

Dr. Melvin was not ready to say whether the Argentine beef could compete with the American product and bring prices which would make it profitable for the Argentine shippers to send it here instead of to Europe. He said it was a significant fact, however, that a big steamship line operating between the United States and the east coast of South America had installed large refrigerating spaces for beef.

Argentina and Uruguay, Dr. Melvin said, have good meat inspection laws.

Figures issued by the bureau of domestic and foreign commerce show that whereas the United States exported $44,000,000 worth of beef and beef cattle in the first eight months of 1904 during the corresponding period this year only $1,000,000 worth have been shipped abroad.

Winnipeg, Man.—The influx of cattle into the United States under the new tariff law continues and large shipments from Western Canada are reported daily. A special stock train carrying 400 head of steers passed over the boundary Saturday on the way to Chicago. Another stock train of 20 cars crossed the boundary Sunday.

Carnegie Sticks to His "Nip."

New York—Andrew Carnegie, looking old and not too well, arrived here on the Mauretania Sunday

"Do you still take your thimbleful of Scotch whiskey every day?" the Laird was asked.

"Of course I do," he replied emphatically, "but I want you to understand that I am strictly temperate.

"The Kaiser and I have been ordered to take half a glass of extra fine Scotch whiskey with our meals. It's the doctor's order, and it does not come under the head of drinking."

Fourfold Trade Waiting.

Kansas City—If American exporters will give the Latin-American trade question half the study due its importance, exports from the United States will be quadrupled within ten years after the Panama canal is thrown open to commerce. H. J. Lefevre, first secretary of the Panama legation in Washington, made this prediction in an address here under the auspices of the Kansas City Commercial club. Panama City, Lefevre said, is destined to be the advance station of a great American trade with the republic.

It was at a birthday banquet given the other evening by a prominent Paris millionaire banker. The fun was at its height when a lady cried out: "My pearl necklace has disappeared!"

Uproar followed, while every one suggested plans for its recovery.

Then the banker had a brilliant idea.

"We will place a salver in the middle of the room," he said, "lights will be extinguished, and the perpetrator of this silly joke will have an opportunity of restoring the missing necklace."

This was done.

Then the lights were turned on again and there was more consternation. The salver had disappeared.

MILITANT IS HELD FOR DEPORTATION

U. S. Immigration Authorities Detain Mrs. Pankhurst.

Would Start Hunger Strike But When Case Is Appealed Eats Chicken Sandwich.

Washington, D. C.—The New York immigration authorities' order excluding Mrs. Emmeline Pankhurst from admission to the United States was overruled Monday. She was ordered admitted immediately.

It was stated at the White House that Mrs. Pankhurst will be given her freedom on her own recognizance.

Secretary of Labor William B. Wilson said he entertained serious doubt as to whether Mrs. Pankhurst's acts in England constituted moral turpitude, adding that if she broke the laws of the United States she could easily be arrested.

Commissioner General Caminetti then ordered Mrs. Pankhurst's release.

New York.—Mrs. Emmaline Pankhurst, foremost of English militant suffragettes, who reached America Saturday on the liner Provence to appeal for the sympathy and support of the American people in the "revolution" for which she says she is fighting, is prisoner at Ellis Island, under order of deportation, awaiting the issue of an appeal, which is expected to be decided soon at Washington.

With Miss Rheta Childe Dorr, another of the arriving English militants who was "voluntarily detained" that she might be with her leader, Mrs. Pankhurst occupies the commissioner's suite of two rooms in the administration building. They are the ones in which Cipriano Castro, former Venezuelan dictator, was detained while his case was pending.

Mrs. Pankhurst was detained by an immigration inspector on her arrival here and was at once taken before a special board of inquiry which, after examining her, speedily decided that because she had been convicted abroad for acts involving moral turpitude she was an undesirable alien. The board, therefore, ordered her exclusion. The "moral turpitude" was declared to be involved in Mrs. Pankhurst's conviction for conspiracy to commit arson.

An appeal was immediately entered and Immigration Commissioner Caminetti is to hear argument in her case in Washington.

"If the appeal fails we still have the habeas corpus proceedings," she said. Mrs. Pankhurst was on the point of starting a "hunger strike" when she heard that the order of deportation was issued. But on learning that a speedy decision of the appeal was probable she consumed with evident relish a chicken sandwich and a pot of tea which she had requested.

"I am confident that whatever happens it will be best for the cause in which I am interested," she said. "I have great faith in the sense of justice and fair play of the American people and I know they want to give me a chance to defend the movement which has been so misrepresented. There is no doubt that my detention is unjust."

HUERTA WILL NOT RESIGN

Rumor of Intention to Flee Capital Emphatically Denied.

Mexico City.—Provisional President Huerta has not resigned, nor has he fled the capital. When seen at the national palace at 5 o'clock Saturday he said he had no intention of doing either.

"When I resign," General Huerta said, "it will be to seek a resting place six feet in the soil. When I flee the capital it will be to shoulder a rifle and to take my place in the ranks to fight the rebels."

"So it is reported that I have fled," he said. "You can see for yourself I am here at my post. To say that I have resigned or intend to resign is a falsehood. I have no intention of resigning.

"Should the elections, which will be held as I have promised, indicate another for the presidency, I shall step aside. Until that time you will find me here complying with my promises to the nation, which are to re-establish peace—within the law if possible—but to re-establish peace."

"Another thing," the president said. "I have money for my requirements. Don't think that I haven't. Where did I get it? My secret," tapping his chest with a satisfied smile, "but I have it."

Car Shortage Indicated.

Washington, D. C.—Imminence of an immediate serious car shortage on American railroads induced the interstate commerce commission to issue a vigorous appeal directed to both railways and shippers to give "close attention to methods of loading, unloading, moving and promptly returning to use the cars now available." Complaints received from all parts of the country indicate the danger of a car shortage. The commission believes that "The present supply of cars is sufficient for all purposes," and for the movement of all traffic offered.

Wilson is Entirely Well.

Washington, D. C.—President Wilson climbed the hills of the golf links in wind and rain Saturday and came back to the white house aglow with color. He smiled at the stories that he had been ill. Representative Murray, of Massachusetts, who dropped in on the president, greeted him with the remark: "I am sorry to hear you are sick, Mr. President." "Well, just tackle me and see," laughed the president, as he assumed a pugilistic pose. The president had a slight attack of indigestion last week, but entirely recovered from it.

Thaw Grows Impatient.

Concord, N. H.—In a supplementary brief on behalf of Harry K. Thaw, filed by his counsel with Governor Felker, it is declared that Thaw has been detained under arrest nearly six weeks on a defective requisition petition supported by the allegation of an indictment which never existed, and during all that time no indictment has been obtained. The brief question is asked whether the requisition for Thaw's extradition is made in good faith.

"Continuous History."

For more than 2000 years Salonica has had a continuous history, though the city has not always been known by its present name. It was founded and named by Alexander the Great in the year of 315 B. C. It is said that Philip, of Macedon, named his daughter Thessalonica because of the day he heard of her birth he won a victory over the Thessalians. Thus the victory of Philip and the name of his daughter, the half-sister of the conqueror of the world are all embalmed in the name of the city.

MRS. MANGES ESCAPES OPERATION

How She Was Saved From Surgeon's Knife by Lydia E. Pinkham's Vegetable Compound.

Mogadore, Ohio.—"The first two years I was married I suffered so much from female troubles and bearing down pains that I could not stand on my feet long enough to do my work. The doctor said I would have to undergo an operation, but my husband wanted me to try Lydia E. Pinkham's Vegetable Compound first. I took three bottles and it made me well and strong and I avoided a dreadful operation. I now have two fine healthy children, and I cannot say too much about what Lydia E. Pinkham's Vegetable Compound has done for me."—Mrs. LEE MANGES, R. F. D. 10, Mogadore, Ohio.

Why will women take chances with an operation or drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound?

For thirty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, tumors, irregularities, etc.
