THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Try it! Hair gets soft, fluffy and beautiful—Get a 25 cent bottle of Danderine.

If you care for heavy hair that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast. Surely get a 25-cent bottle of Knowlton's Danderine from any drug store and just try it.

WILSON WILL NOT HOLD RECEPTION

White House to Be Closed On New Year's Day.

All Precedents Shattered and Much Criticism Follows—President to Take Ten Days' Rest.

Washington, D. C.—President Wilson has decided not to hold a public reception in the White House on New Year's Day. In this he has shattered a custom cherished of the people and has done away, temporarily, at any rate, with the one chance of the year for all people, irrespective of race, religion or color, to see the inside of the executive mansion and to shake hands with the President. It is announced that during the holiday recess of congress the President will take a 10-day vacation.

That the decision of Mr. Wilson not to receive the people on the holiday will be resented in Washington is certain. The color question, just now a thorny one to the administration, enters into the case. Negro men and women in large numbers every year have seized the opportunity to get into the White House and to see the President. They will say that this is a development of the Democrats' segregation scheme.

The different civic and military organizations always have attended the New Year's receptions in bodies. The Grand Army and Sons of Veterans, the Loyal Legion and other societies have made it a marked day. The one chief thing, however, to cause resentment will be the shutting out from the White House on the holiday occasion of the ordinary man and the ordinary woman, who at semi-public receptions cannot get inside the palings of the White House fence.

The President will go South to some quiet place where he can play golf and enjoy the seclusion and privacy of which he is so fond when on a vacation.

EXPORTS FOR YEAR 1913 TO BREAK ALL RECORDS

Washington, D. C.—American manufacturers are entitled to wear smug and satisfied countenances, according to the experts at the department of commerce, which announces that exports for the year ending with next month will break all records.

"Why shouldn't the manufacturers and mill workers smile?" demanded the experts, in announcing that exports for nine months have increased $37,000,000 over the corresponding nine months of last year; manufactures for further use in manufacturing $26,000,000, and foodstuffs, partly or wholly manufactured, $17,000,000. Automobiles and railway coaches are among the articles showing a great advance.

Lawyer Raps Own Kind And Scores Law System

San Diego, Cal.—"We are as merchandise, instead of officers in the courts of justice," R. O. Gray, a San Francisco attorney, told his assistants at the meeting of the California State Bar association here.

"We are as merchandise, bought and sold," emphasized Mr. Gray. "We are employed to distort and conceal the truth and even in some cases to make away with the law and the truth."

Mr. Gray, speaking on "The Reorganization of the Bar as a Necessary Means to Justice," told his brethren that present day trials were farces and that the legal profession had become "malodorous." He advocated the establishment of trial bureaus, composed of qualified lawyers, paid out of the public treasury.

155 Tons Mail Arrive on Big Atlantic Liner

New York — The Majestic, of the White Star line, arrived here Saturday from Southampton, Cherbourg and Queenstown with 5082 sacks of mail. This, according to officials of the foreign mail office, is the largest consignment ever landed in New York by one steamer.

Taken by the long ton of 2240 pounds, the Majestic's load weighs 155 tons and 920 pounds. Most of the mail was for the Pacific Coast and other Western points.

Coal Peddler Gets Riches.

Minneapolis — After scouring the country for eight years to give Walter Lilly, of Philadelphia, a fortune of $340,000, William Rohrer, an attorney, discovered the object of his search here. The money was left by Lilly's father, said by Rohrer to have been a wealthy soap manufacturer of Philadelphia. Lilly, who was 50 years old, was found living in a ramshackle cabin. He has lived here 11 years and has supported himself by selling coal from a push cart. He was ignorant that his father had died.

Property to Be Respected.

Washington, D. C. — Rear Admiral Fletcher, commanding the American fleet on the east coast of Mexico, has cabled the Navy department a message he received from General Aguilar, the Constitutionalist leader, who has occupied the vicinity of Tuxpam, giving assurances that American and other extensive oil interests in that territory would be protected. Admiral Fletcher is under orders to take such steps as may be necessary to protect foreign lives and property. Large tanks of British oil are at Tuxpam.

JESSIE WILSON BECOMES BRIDE

President's Daughter and Francis B. Sayre Married.

East Room of White House Scene of Ceremony—Word "Obey" Is Used in Service.

Washington, D. C.—In the presence of a brilliant assemblage of distinguished guests, Miis Jessie Woodrow Wilson, second daughter of the President, and Francis Bowes Sayre were married in the famous old east room of the White House at 4:30 p. m. Tuesday.

It was a ceremony of pronounced simplicity. The decorations were extremely simple and even the bride's wedding gown was far from being elaborate.

Miss Wilson, leaning on the arm of her father, and attended by her maids, entered the east room from the main apartment of the White House. On a dais erected before the altar near the east window Francis Bowes Sayre, his attendants and the Rev. Sylvester W. Beach, pastor of the Presbyterian church, Princeton, N. J., awaited the arrival of the bridal party.

In almost the very spot where took place the weddings of Miss Nellie Grant and Algernon Sartoris, and Miss Alice Roosevelt and Representative Nicholas Longworth, Miss Wilson became the thirteenth White House bride.

Despite the failure of the diplomats to appear in court dress, the east room presented a magnificent picture, the brilliant gowns of the many fashionably dressed women contrasting with the sombre black of the frock coats of the senators, diplomats, representatives and friends and relatives of the Wilson and Sayre families.

Velvet and plush cords roped off the room into sections and formed an aisle along which the bridal party proceeded to the altar, as the Marine band played the wedding march.

Invitations were handled in a way typical of President Wilson. Washington residential society, which received great recognition at the hands of Colonel Roosevelt, was almost totally ignored. Besides the diplomatic corps, some of the leading members of the president's cabinet, the members of the Supreme court and a few department and bureau heads, almost all of the guests were personal friends of the Wilson and Sayre families.

The wedding presents, valued at more than $100,000, were distributed through the spare rooms of the White House, but were kept under the watchful eyes of a score of secret service men. Every precaution was taken to protect the president's family and the wedding guests. Secret service men were freely scattered through the White House and about the grounds of the executive mansion.

NAVY GETS SIX RECRUITS IN DAY AT PORTLAND

Portland — All existing records for recruiting at the local United States navy recruiting office were shattered Wednesday when six applications were accepted between the hours of 9 a. m. and 4 p. m. There has been a branch office in Portland for two years and the former record for one day was five recruits. The average for a week is from five to six. The names of the men, three of whom were sent to San Francisco and three as coal passers to Bremerton, are Harry Phillips, Harry Stone, O. Arthur Hennessee, Frank Harvey Owens, Glen Harold Johnson, James Garfield Rigby.

Wilson May Hire Friend.

Washington. D. C. — William M. Daniels, of Princeton, a member of the New Jersey Public Utilities commission and a close friend of the President, is being considered for one of the three places on the Interstate Commerce commission. Successors must be appointed to the late John H. Marble, Judson C. Clements, whose term expires next month, and Charles A. Prouty, who resigns. The President will not accept Commissioner Prouty's resignation until he has chosen a successor.

Closing of Mills Denied.

New York—Rumors that the Gary, Ind., plant of the United States Steel corporation is to suspend operations in the near future because of dull business were denied here by Elbert H. Gary, chairman of the board. "We have no plans for closing any of our plants," he said. "Individual mills and furnaces may be temporarily closed from time to time if business conditions compel. I hope business conditions will improve, but I have no special information on which I could base an opinion."

French Praise Yankee Tars.

Nice, France—The city council gave a reception to the officers of the United States battleships Utah and Delaware. The prefect of the Alpes maritime department, General Carbillet, commander of the Twenty-ninth division, and many other officials and officers attended. Mayor Goiran, proposing a toast to President Wilson, spoke highly of the excellent behavior and the fine bearing of the American soldiers. Captain Louis S. Van Duzer, of the Utah, responded.

Canada Grain Brings Millions.

Winnipeg, Manitoba — The government of Saskatchewan announced that the grain harvest this year would be valued at $110,000,000, of which $71,000,000 is represented in wheat and $25,000,000 in oats.

The total production was 243,500,000 bushels, of which 112,369,000 bushels was wheat 110,210,000 bushels oats and 9,279,000 bushels barley.

State Normal Places Schuman-Heink On Program.

During the recent tour of Madam Schuman-Heink, a special train took one hundred five students and faculty from the Oregon Normal School to the concert at Salem.

The student-body had been introduced to Madame Schuman-Heink's voice on the Victor and to her character and program by Miss Hoham, head of the Department of Music, in a series of chapel talks which added very materially to their enjoyment of the great artist.

The students presented Schumann-Heink with a beautiful bouquet of large yellow chrysanthemums, which was very graciously received by the world-renowned singer, with the promise of a letter of thanks to the Student-body.

This concert is counted as one number of the regular Lecture Course of the Normal to encourage the attendance of students to the best in this line when the best is within their reach.

All Blood Disorders Quickly Driven Away

Astonishing Results With the Greatest Blood Purifier Ever Discovered.

Strength, Power, Accomplishment are all Typified in S. S. S.

Some blood disorders become deeply rooted in the glands and tissues, and the mistake is made of resorting to drastic drugs. These only aggravate by causing other and worse troubles. A host of people know this to be true. They know from painful experience.

To get right down into where the blood is vitiated requires S. S. S. the greatest blood purifier ever discovered.

This remarkable remedy contains one ingredient, the active purpose of which is to stimulate the tissues to the healthy selection of its own essential nutriment and the medicinal elements of this matchless blood purifier are just as essential to well balanced health as the nutritious elements of the meats, grains, fats and sugars of our daily food.

Not only this, but if from the presence of some disturbing poison there is a local or general interference of nutrition to cause boils, carbuncles, abscesses and kindred troubles, S. S. S. so directs the local cells that this poison is rejected and eliminated from their presence.

Then, too, S. S. S. has such specific stimulation on these local cells as to preserve their mutual welfare and a proper relative assistance to each other.

In a very brief time S. S. S. has the reconstructive process so under control that remarkable changes are observed. All eruptive places heal, mysterious pains and aches have disappeared, and from head to foot there is a conscious sensation of renewed health.

From the fact that S. S. S. is purely a botanical preparation, it is accepted by the weakest stomach and has great tonic influence. Not one drop of drugs or minerals is used in its preparation. Ask for S. S. S. and insist upon having it. And if you desire skillful advice upon any matter concerning the blood and skin write to The Swift Specific Co., 205 Swift Bldg. Atlanta, Ga. Do not allow some zealous clerk to larrup the atmosphere in eloquence over something "Just as good" as S. S. S. Beware of all counterfeits.
