OREGON EXHIBIT BEST AT CHICAGO LAND SHOW

Portland, Ore., Dec. 2. (Special)—A telegram from Manager C. C. Chapman, in charge of the Oregon exhibit at Chicago, states that his section of the show is crowded at all times by farmers and others eager to secure first-hand information regarding this state. The Oregon display is declared by competent judges to be by far the best at the show when quality, variety and effectiveness of staging are considered. Mr. Chapman and his assistants are kept busy all day and every evening in answering the vast number of inquiries showered upon them by people of every class. The demand for public talks and lectures on Oregon and the Pacific Northwest generally is almost too great to be satisfied.

"Oregon First and All Oregon" is suggested as the slogan of the Oregon Exposition commission in charge of arrangements for a display from this state at San Francisco in 1915. In addition to a building of Oregon wood, furnished with Oregon furniture, with a restaurant serving Oregon food and with sidewalks made of Oregon brick, it is now proposed that soil be taken from Oregon to completely re-surface the Oregon building site on the Exposition grounds, and to plant therein native Oregon flowers, shrubs and small trees. To secure the necessary material for such planting, it is suggested that an exhibit garden be established in Portland and school children all over the state be enlisted in the work of collection. The commission has been assured that space for such a garden would be provided, free, on the campus of Reed College. If but one specimen is received from each of the 2500 schools of the state, a considerable tract of land will be required to care for them until they are shipped south for permanent planting.

It is reported that most of the "hailings" at the rock crusher have been contracted for by Multnomah county, to be used on the roads. Wasco county is letting a mighty good thing get away from her, as are the people of Mosier.

ADD STRINGS TO YOUR BOW.

And Keep an-Broadening-Your-Sphere of Usefulness.

Ages ago some one found music in the twang of a bowstring, then another some one put two strings on a bow, and thus was made the first harp. String after string was added until the harp was too heavy to hold. Then they put it in a box and struck the strings with hammers worked by keys. They called that "pianoforte." It was the first piano. The finest and most costly pianola of today is just an evolution. Just an improvement on the arrow shooting-bow.

From the history of the piano comes the old, old saying, "He is adding strings to his bow." It means that one is evolving, improving something. It expresses caution, persistency, energy, enterprise.

Add strings to your bow—one at a time. Bring a new note into each week of work. Learn a little something new and use it. Thus you will increase the harmony and effectiveness of your work.

Anything that has evolved as the bow has can never stop improving. So with your work. The more simple the start the greater the possibilities of growth. Know your work from the very first string. Know that there is no limit to its possibilities.

NEWSPAPER LAW

We are again reproducing this article for the benefit of some of our subscribers who are somewhat negligent about paying their back subscriptions.

The supreme court of the United States recently made a ruling which in substance makes the subscriber who takes his paper out of the post office and refuses to pay the subscription, guilty of felony and as liable to arrest as any other who defrauds the Olympia Independent.

The following is a synopsis of the U. S. supreme court decision regarding delinquent subscriptions and is published as a matter of information for all those who are subscribers to newspapers:

1. Subscribers who do not give express notice to the contrary are considered as wishing to renew their subscription.

2. Subscribers ordering the discontinuance of their periodical the publisher may continue to send it until all arrearage has been paid.

3. If subscribers neglect or refuse to take their periodical from the postoffice, they are responsible until they settle their bill and order their paper discontinued.

4. If subscribers move to other places without informing the publisher and papers are sent to former address, subscribers are responsible.

5. Courts have decided that refusing periodicals from the office or moving and leaving them uncollected is prima facie evidence of intention to defraud.

6. If subscribers pay in advance they are bound to give notice at the end of time if they do not want to continue taking it, otherwise the publisher is authorized to send it and the subscriber will be responsible until an express notice with payment is sent to the publisher.
