Don't Wait Till You're All Bunged Up. Use S. S. S. Now.

If you will go into any first class store and get a bottle of S. S. S. you are on the way to getting rid of Catarrh. But don't let anyone work off that old trick of something "Jules," ruling that many accidents have been due to the practice. S. S. S. is taken into the blood just as naturally as the most nourishing food. It spreads its influence over every organ in the body, comes through all the veins and arteries, enables all mucous surfaces to exchange inflammatory acids and other irritating substances for arterial elements that effectively cleanse the system and thus put an end to all catarrhal pollution. S. S. S. cleans out the stomach of mucous accumulations, enables only pure, blood-making materials to enter the intestine, combines with these food elements to enter the circulation, and in less than an hour is at work throughout the body in the process of purification. The medicinal components of S. S. S. are relatively just as essential to well-

LONGEST SPECIAL SESSION ENDED

Congress Adjourns After Many Months of Labor.

Currency Still in Air—Commerce Court Abolished and Unions Exempt From Trust Law.

Washington, D. C.—The longest continuous extraordinary session in the history of congress came to an end Saturday and the regular session began Monday. Two great projects have held the attention of congress and the country throughout the work of the year. One of these, tariff revision, crystallized into law in September. The currency reform still is the chief subject of legislative interest.

The special session began with a reorganization of party leadership in the senate which brought the so-called Progressive forces into control. Throughout the contests on tariff and currency the session has been marked by solidification of the Democratic ranks. Demands of the Democratic leaders that the currency bill be passed at once brought the extra session to a stirring close, day and night sessions of the Democratic currency conference having marked the last week, and day and night sessions of the senate are promised for the new session until currency legislation is concluded.

Although President Wilson urged congress to hold itself to the two chief projects, tariff and currency, several matters of general importance were considered. One important legislative act was the so-called Newlands law for mediation and conciliation in labor disputes.

The abolishment of the United States Commerce court was accomplished, through an amendment to the deficiency appropriation bill. Another appropriation bill "rider" took out of the classified civil service most of the deputy United States marshals and deputy collectors of internal revenue. Exemption of labor unions from prosecution under the anti-trust laws so far as certain funds were concerned also was accomplished.

The long fight over the proposed tax on cotton futures to prevent "cotton gambling" failed in the final development prior to the passage of the tariff bill. Many bills which underwent preparation in the committee rooms will be pushed to conclusion in the new congress. These include the "seaman's servitude bill," which passed the senate; the Hetch Hetchy bill, to grant San Francisco a water supply right in that valley, which passed the house and is to be voted on by the senate early in the session, and the Alaskan railway bill, which the senate has passed. In December, the Alaskan measure would provide for government railroads to open Alaska's resources.

FURNISH RIFLE CLUBS GUNS AND AMMUNITION

Washington, D. C.—War department officials who have been preparing, with Representative Kahn, a bill to distribute 800,000 Krag-Jorgensen rifles now stored in government arsenals to civilian rifle clubs in order to promote marksmanship throughout the country, have decided to include free ammunition with the rifles. It has been decided that school cadet organizations also will be supplied with free rifles and ammunition.

Kansas Women Want Initiative and Referendum

Topeka, Kan.—Kansas women who met here to formulate a declaration of principles to be placed before the voters, and to organize the various political party organizations of the state as an expression of what the women voters would have included in the platforms in the next campaign, decided the first important and most needed legislation was the submission and adoption of a constitutional amendment providing for the initiative and referendum.

White House Bride Sails.

New York—President Wilson accomplished Saturday the two purposes that brought him to New York from Washington—he said good-by to the White House bride and groom, his daughter and Francis Bowes Sayre, who sailed for Europe on their honeymoon, and as commander-in-chief of the armed land and water forces of the country he attended the army-navy football game at the Polo grounds, where he was a non-partisan but interested spectator. In the evening the President went to the theater.

Union to Fight Strikes.

Kansas City—A new labor organization, bound by its constitution to oppose strikes and uphold the arbitration methods of settling disputes, and also to favor a graduated, rather than a uniform, wage scale, was chartered in the Circuit court here Monday. Founders of the organization, which is known as the National Association of United Building Labor, say it is their plan to extend the association to all parts of the United States in the hope of reducing the number of strikes and otherwise promoting harmony.

Japanese Will Be Aided.

Mexico City—The Japanese minister conferred with Nelson O'Shaughnessy, the American chargé d'affaires, regarding the protection of Japanese subjects on the West Coast. The minister was assured by Mr. O'Shaughnessy that they would receive the same protection as far as the United States was concerned, as other foreigners.

The Value of a Name. The editor of a great magazine sent for a certain author who had submitted an unclassified manuscript. "I am glad to make your acquaintance, sir," said the editor, enthusiastically. "The story you sent us is perfectly splendid. But why use a non-de plume? Let us publish it over your own name and it will make you famous." "I'm not after fame," objected the author. "It's money I want." "But you'll get just as much money in either case." "No, I won't. If I publish it over my own name my wife will get the money."—Cleveland Plain Dealer.

M'ADOO SAYS NO CAUSE TO FEAR

Secretary of Treasury Issues Assurance to Banks.

Restriction of Credits to Meet Impending Currency Laws Entirely Unnecessary, He Says.

Washington, D. C.—Secretary McAdoo issued a statement Saturday declaring that banks throughout the country reported to be restricting credits to meet the provisions of the expected currency law are making a mistake. He announced that the resources in the treasury would be at the disposal of the banks to aid them in complying with the new law when it is put on the statute books.

The secretary expressed the conviction that the new law would impose no hardships on the banks and that the transfer of capital and reserves to the proposed Federal reserve banks would be accomplished with little or no inconvenience to the banks and to general business. The secretary said the Treasury department had large available resources at its command; that he should not hesitate to use them to aid the banks to comply with the new law, and that in his opinion the banks could with perfect safety proceed with the granting of accommodations to their customers in the normal and usual way. The secretary said he did not, of course, assume to advise the banks—he only wished them and the business public to know there was no ground for apprehension; that the attitude of the Treasury department was to be helpful and he thought it could be effectively helpful.

He said if any banks were laboring under the impression that the new law would necessitate or occasion a restriction of credits, they were controlled by error, as no such thing would result.

Militant Chains Herself to Gain Time to Yell

London—Militant suffragettes are returning to their old tactics. One of them fastened herself to a chair in Caxton hall with a chain and padlock, from which point of vantage she shrieked "Votes for women." Right Hon. Joseph Albert Pease, M. P., for the Rotheham division of York, was forced to suspend his speech for several minutes while the stewards endeavored to remove the suffragette. They were forced to smash the chair before this could be done.

STEFANSSON BOAT LOST BUT CREW BELIEVED SAFE

Nome, Alaska—The power schooner Mary Sachs, one of the boats of Vilhjalmur Stefansson's Canadian Arctic exploration expedition, has been wrecked in the ice off the Arctic coast of Alaska. News of the loss of the Mary Sachs was received here in a letter from Peter Bernard, captain of the vessel. The ice crushed the boat into small bits and all the provisions and scientific instruments aboard were lost. The letter gives no details of the mishap. As being in said of any injury to the men on the boat, it is believed all are safe.

Big Plot Revealed to Corner Potato Market

Washington, D. C.—A new phase of the cost of living problem was brought to the attention of the department of agriculture. T. P. Gill, secretary of the Irish board of agriculture, told Secretary Houston that speculators in the large cities of the United States were actively buying up this year's short American potato crop and planning to hold out for high prices, counting on the existing quarantine against potatoes from many foreign countries to aid them in their undertaking. Mr. Gill is here to urge the removal of the embargo on potatoes from his country and has received private advice from various sources on the potato situation in America. He insists that the powdery scab found on potatoes imported from Ireland is no cause for a quarantine, because a similar blemish already is common in the United States, and declares that continuation of the embargo will contribute to the growing cost of living.

"Movie" Tiger Escapes.

Epernon, France—The whole countryside is living in terror of a tigress which escaped from an enclosure where a cinematograph tiger show was in progress here recently, and succeeded in reaching the forest. A detachment of soldiers, a number of forest guards and policemen and a few amateur sportsmen have endeavored to track the animal, but without success. The tigress has occasionally been seen by terror-stricken peasants, but so far it is not known to have injured anyone.

Sultan Loses His Suit.

New York—The sultan of Turkey was a losing litigant in the Appellate division of the Supreme Court of New York recently. His Highness sued to recover \$10,000 from the estate of Hovhannes Tavashjanian, a wealthy Armenian rug dealer murdered in this city in 1907. This sum was left to Tavashjanian's mother, who died before receiving it. Because she died intestate in Constantinople the sultan claimed the money. The suit was decided against him by the Supreme court and the Appellate division affirmed it.

Better English Is Plea. Chicago—"Rag-time writing and speaking underwent a meretricious attack here before the National Council of Teachers of English. More or Less. E. H. Sothern is telling this story about Sir Charles Wyndham: A cherished possession of the London Green-room club is a chair which once belonged to the famous David Garrick. One night Sir Charles Wyndham, who is not so young as he used to be, entered the club after impersonating Garrick at the theater and seated himself wearily in the Garrick chair. An admiring friend immediately remarked: "Sir Charles, you fit more like David Garrick every day." To which Wyndham replied: "And less like him every night."—Philadelphia Record.
