Bought, sold and exchanged: engines, boilers, sawmills, etc. Send for Stock List and Prices. THE J. M. MARTIN CO., 83 1st St., Portland, Ore.

THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Try it! Hair gets soft, fluffy and beautiful—Get a 25 cent bottle of Danderine.

If you care for heavy hair that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive scrub rids the hair of its lustre, its strength and its very life, and if not overcome, it produces a feverishness and itching of the scalp; the hair roots fatten, loosen and die; then the hair falls out fast. Surely get a 25-cent bottle of Knowlton's Danderine from any drug store and just try it.

Bad Bachelor Hippos.
Sir John Kirk and Livingstone were attacked by a hippopotamus that was, no doubt, a "bachelor." Speaking of the hippopotamus of the Chobe, Livingstone says that "as certain elderly males are expelled from the herd they become sour in their temper and so misanthropic as to attack every canoe that comes near them. The herd is never dangerous except when a canoe passes into the midst of it when all are asleep, and some of them may strike the canoe in terror. As a rule, these animals flee the approach of man. The 'solitaires,' however, frequent certain localities well known to the inhabitants on the banks and, like the rogue elephants, are extremely dangerous." Livingstone learned that when attacked by one you should dive to the bottom and keep there a few seconds, since the hippo soon moves off if he finds nobody on the surface.—London Sphere.

Peril in "White" Australia.
Colonization offers serious problems for the advocates of a "white Australia." North Queensland is within that boundary of 20 degrees north and south of the equator in which white men may live, but they cannot take their wives there and found families. So the doctor says. And the doctor has noted that whereas the first generation of whites does well, the second and the third lead down to the failure of the fourth.—London Standard.

Gas Found in Trees.
Professor J. A. Ferguson of the Pennsylvania state college, reports a curious phenomena connected with the cutting of hardwood trees in the Ozark mountains. Cavities near the base of the trees are often found to contain gas. When these cavities are cut into by the oak tree cutters of the region gas escapes with a whistling sound, showing it to be under pressure, and if lighted it will burn with a faint yellow flame. The sides of the cavities containing gas are in all cases darkened and look as though they were charred. The popular belief of the district is that these trees are connected through their roots with a subterranean supply of natural gas, and the land on which they grow is valued accordingly. An examination of the gas collected from a cottonwood tree was made by Professor Ferguson of the university of Kansas, and it was found to be substantially the same as natural gas with the addition of some free hydrogen. Professor Ferguson believes, however, that this gas is the product of decomposition of the heartwood of the trees.—Pittsburg Dispatch.

Work and the Weather.
The restless days are here. All outdoors invites us and our work becomes a conscious effort and a bore. It is the time when we are most in sympathy with Jerome K. Jerome in his collection, as follows: "I like work; it fascinates me. I can sit and look at it for hours. I love to keep it by me; the idea of getting rid of it nearly breaks my heart."—Boston Transcript.

Explained.

ANARCHY RULES RUBBER COLONY

Washington, D. C.—Following is the text of the new Indian war pension bill introduced by Representative Hawley, which, if passed, will grant a pension of \$20 a month to all Indian war veterans in Western and Pacific Coast states:

Refugee Reports 137 Murders in Venezuelan Settlement.

That the secretary of the interior be, and he is hereby authorized and directed to place on the pension roll the names of the officers and soldiers of the Indian wars of the United States which occurred prior to the year 1880 at the rate of \$20 per month, upon making proof of the fact of such service, according to such rules and regulations as the secretary of the interior may provide.

Section 2. That where there is no record of enlistment or muster into the service of the United States in any of the wars covered by the provisions of this act the record of pay by the United States or the record of such service, enlistment, or muster in the War department of the United States or on file in the office of any adjutant general of any of the states or territories shall be accepted as full satisfactory proof of such enlistment and service; and further, where there is no record of enlistment or muster into the service of the United States or in the office of the adjutant general of any state or territory where the service was performed, then other adequate proof may be made of the performance of such service; Provided, That each such officer or soldier shall have served at least 30 days in such Indian wars; Provided, further, That nothing in this act shall be construed as to effect a reduction in the amount of pension now received by any such officer or soldier.

The latest crimes include the murder of eight women and four young girls in the rubber territory between San Fernando de Atabapo, on the Orinoco, and San Carlos de Rio Negro. It is believed here that these women and girls were put to death because it was feared that they would escape and spread to the world news of the horrors being committed in the colony. It is believed they were members of the families of men who already had been murdered.

This condition of anarchy and murder has been brought to the attention of President Gomez, of Venezuela, but no troops have been sent to oppose the rebels.

The most atrocious murder was that on May 8 last, of General Roberto Pulido and 26 men and boys at San Fernando. Mr. Gilleran tells a thrilling story of this butchery.

General Pulido was appointed governor by President Gomez a few weeks before," he said. "The traders waited on him and tried to make terms, but he told them he would accept no bribery, that he would not be paid and that lawlessness must cease. From that minute he was a marked man, as was General Antonio Varella, whom President Gomez had sent to the colony in charge of customs.

The traders gathered about 60 men into a house in San Fernando and filled them with rum and at 7 o'clock in the evening armed them with rifles, revolvers and knives and turned them loose. The house in which General Pulido had taken quarters was attacked and the governor and 26 others were murdered in the butchery that followed.

"The house was plundered of all valuables and late that night a trench was dug and the 27 bodies thrown into it and covered. Among the murdered was the governor's brother."

380 MEN APPLY FOR \$150 A MONTH POSITION

San Francisco—Three hundred and eighty applicants for a single position as wharfinger at \$150 a month put in an appearance at the Lowell High school and took the examination held by the state civil service board. It was the biggest examination yet held by the state.

Fifteen applicants came more than 200 miles to take the test. The aspirants included half a dozen policemen, sea captains, marine engineers, politicians and a sprinkling from all the ordinary occupations.

Juvenile Judge Lindsay Marries Working Girl

Chicago—Judge Ben B. Lindsay, founder of the Juvenile Court at Denver, Colo., and one of the most noted leaders in juvenile work in the United States, and Miss Henrietta Brevoort, stepdaughter of Dr. F. J. Clippert, of Detroit, Mich., were married here Sunday.

Judge Lindsay met his bride several months ago at a sanitarium at Battle Creek, Mich. She is a Socialist and is referred to by her husband as "The little rebel." She has been a student in a local firm of interior decorators and Judge Lindsay spoke of her proudly as a "working girl."

The marriage was performed at a hotly a Methodist minister, and the word "obey" was omitted from the ceremony.

Car Afire; Train Speeds.
New London, Conn.—An express car, heavily laden with packages, caught fire while passing through East Lyme Monday. The express messenger was driven to the outside of the car, where he clung, unable to notify the engineer, and near collapse, until the train reached the New Haven railroad station here. Virtually all the merchandise in the car was damaged. The loss is estimated at \$75,000. A coffin within the car, containing the body of David Lonergan, of New York, was badly charred.

English Dockyards Burn.
Portsmouth, England.—A fierce fire which, though restricted to a limited area in the dockyard here, taxed to the utmost all the available resources of the port to cope with it. The conflagration started in a sail loft and then spread to a huge semaphore tower used for signalling warships and to adjacent buildings. For a time the new battleship cruiser Queen Mary, which was moored alongside the jetty, was in jeopardy from burning brands falling on her deck, but she was towed out of the danger zone.

Ruler's Death Confirmed.
Rome—That Emperor Menelik, of Abyssinia, died on December 12 is confirmed in the latest dispatches received here from Addis Ababa, the Abyssinian capital. Although official announcement of the emperor's death is lacking, this is due probably to the necessity of taking precaution to insure the succession to the throne.

Indian War Pensions Provided by New Bill

Washington, D. C.—Following is the text of the new Indian war pension bill introduced by Representative Hawley, which, if passed, will grant a pension of \$20 a month to all Indian war veterans in Western and Pacific Coast states:

That the secretary of the interior be, and he is hereby authorized and directed to place on the pension roll the names of the officers and soldiers of the Indian wars of the United States which occurred prior to the year 1880 at the rate of \$20 per month, upon making proof of the fact of such service, according to such rules and regulations as the secretary of the interior may provide.

Section 2. That where there is no record of enlistment or muster into the service of the United States in any of the wars covered by the provisions of this act the record of pay by the United States or the record of such service, enlistment, or muster in the War department of the United States or on file in the office of any adjutant general of any of the states or territories shall be accepted as full satisfactory proof of such enlistment and service; and further, where there is no record of enlistment or muster into the service of the United States or in the office of the adjutant general of any state or territory where the service was performed, then other adequate proof may be made of the performance of such service; Provided, That each such officer or soldier shall have served at least 30 days in such Indian wars; Provided, further, That nothing in this act shall be construed as to effect a reduction in the amount of pension now received by any such officer or soldier.

The latest crimes include the murder of eight women and four young girls in the rubber territory between San Fernando de Atabapo, on the Orinoco, and San Carlos de Rio Negro. It is believed here that these women and girls were put to death because it was feared that they would escape and spread to the world news of the horrors being committed in the colony. It is believed they were members of the families of men who already had been murdered.

Women Help Enforce Cold Storage Rules

New York—Members of the Housewives' League will help the state health department enforce the new cold storage regulations by acting as volunteer inspectors. The department has accepted their services because, it was said, the law failed to provide enough inspectors for its enforcement. The volunteers will serve without compensation.

Four women, led by Mrs. Julian Heath, head of the league, have promised their services.

In accordance with the new law the state health department has notified all persons and firms retailing cold storage products that they must display prominently a card inscribed: "Note to consumers. Cold storage food is sold here. It is a misdemeanor to sell cold storage food without representing it as such. Consumers are advised to inquire of the salesman in each case in reference to the character of the goods and to report in cases of misrepresentation to the state commissioner of health."

Suit Filed Against Alleged Lemon Trust

New York—Charges that a lemon trust exists in New York and has maintained a lobby in Washington to reduce the tariff on lemons are made in a suit filed here by William S. Armstrong, receiver for the Mercantile-Regan company, importers of lemons.

Armstrong seeks to recover damages from the Sicilia American Steamship company, which, he says, entered into an agreement in 1911 with the Fruit Importers' union and other importers of lemons, to add two pence, English money, to the freight rate on every box of lemons brought here by the line. The Mercantile-Regan company, which failed in 1912, was not a member of the union on a par with the agreement. Armstrong relates but was compelled to use the steamers of the Sicilia American company and pay the extra rate.

The plaintiff alleges that this extra tax was to be used to lobby for a reduction of the tariff on Italian lemons in opposition to the efforts of the California lemon growers, who wanted the tariff retained.

To Pocket Villa Is Plan.

Juarez, Mex.—Advices were received here that the federal army now at Ojingo, on the border, will soon march west to cut General Francisco Villa's rebel army off at Chihuahua. At some point south of Juarez, it is said, the federal commanders plan to destroy the telegraph and railroad lines and thus leave Villa in a pocket. Villa has about 5000 men at Chihuahua. He has had to maintain a guard along 225 miles of railroad which connects him with 2000 soldiers whom he left to garrison his base at Juarez.

Rate Fight Is Abandoned.
Rock Island, Ill.—The executive council of the Modern Woodmen of America announced that it had abandoned its fight for increased rates and that the question would not be proposed at the National head camp meeting to be held in June at Toledo. This ends a bitter fight that has been waged within the society since the increased rates ordered at the head camp meeting in Chicago two years ago. Several months ago the society was enjoined by the courts from enforcing the new rates.

Suffragettes Burn House.
Bath, England.—An arson squad of the militant suffragettes early Sunday burned down a valuable house situated in extensive grounds in the vicinity of this city. The place was unoccupied. A quantity of suffrage literature was found strewn about the grounds.

Border Fence Meant for Cattle.
Washington, D. C.—Senator Asst. Hurst told the senate that his bill for a barbed wire fence along the Mexican boundary was not designed to stop incursions of rebels into American territory, but to keep out Mexican cattle infected with ticks.

ALLEGED TRUST YIELDS TO LAWS

Telephone & Telegraph Company Will Dissolve.

American Disposes of All Western Union Stock—Long Distance Service Given to Rivals.

Washington, D. C.—Attorney General McElroy made public Saturday details of an agreement for reorganization of the American Telephone & Telegraph company, the "telephone trust," which will prevent litigation to dissolve that corporation under the anti-trust act and under which competitive conditions would be restored in the telephone service of the entire country and the combine will dispose of its holdings in the Western Union Telegraph company.

The reorganization plan originated with the company, although it followed in reported in a suit against it might be filed. It was regarded by the department of justice officials as the most striking indication offered in a decade that "big business" has come to the conclusion that it is better to follow the Sherman law than fight it.

The plan met not only the approval of the attorney general and his chief "trust buster," G. C. Todd, and officials of the subsidiaries of the combine, but was heartily approved by President Wilson. In a letter to Mr. McElroy the President expressed his admiration for the attitude of the telephone company and his conviction that such conduct on the part of business men meant a building up of business on sound and permanent lines.

Coming on the heels of the announcement that Postmaster General Burleson is interested in government ownership of telephone lines, the action of the department of justice took an added significance and some officials went so far as to express the opinion that it indicated legislation to acquire the country's telephone business would not be pressed by the administration at the present session.

Currency Reform Bill Is Passed By Senate

Washington, D. C.—The administration currency reform bill proposing a revision of the financial system of the United States and the creation of regional reserve banks to act as strengthening elements in the banking and financial world passed the senate by a vote of 54 to 34.

Forces that had fought together for improvement and amendment of the measure to the last divided when the final vote came.

Following are the main features of the proposed law:

Issue of currency, guaranteed by the government, based on notes and bills representing commercial transactions and backed by a gold reserve. The new currency is expected to contract and expand to meet the varied demands of trade.

Concentration of the bank reserves of the country in regional institutions capitalized by the banks and controlled by directors elected by the banks.

Creation of a market for negotiable commercial paper which forms the bulk of the assets of the banks, where, in time of stress, those assets may be without loss transformed into cash.

Establishment of from eight to twelve regional banks, which will issue currency, rediscount paper and centralize and mobilize the reserves of the local banks.

Formation of a federal reserve board of seven members appointed by the President, with final powers of control and supervision over the entire system.

English Courts Decide Woman Is Not "Person."

London—The appeal of Miss Gwyneth Marjorie Webb from the decision of the Incorporated Law Society, denying her admission to the bar because of her sex was rejected by the High Court.

The court adhered to the view that a woman is not a "person within the meaning of the solicitors' act of 1843," gracefully adding the words: "Doubtless the applicant is of superior education and intelligence to many males, but the court has nothing to do with that."

Miss Webb is a graduate of Girton College, Cambridge.

Slang Finds High Friend.

Los Angeles, Cal.—A warm endorsement of the use of slang, not only by pupils, but by teachers as well, was given by M. Vincent O'Shea, professor of education at the University of Wisconsin, in addressing the California Teachers' association. "Slang is the natural development in the method of expression of the human race and it should be used by teachers as well as by pupils," he said. Prof. O'Shea also spoke in favor of football, and declared that every boy should be taught how to box.

Wilson Picks Place to Rest.

Gulfport, Miss.—That President Wilson intends to spend a part of his winter vacation at Pass Christian, Miss., is indicated in a telegram received here by Judge Harby, from Senator Vardaman, in Washington, requesting the judge to secure a furnished cottage at Pass Christian suitable for occupancy by the President. The telegram further said that the President intended to spend his vacation on the Gulf coast and urged that he not be asked to make any addresses, as he was in need of rest.

Epidemic's Cause Found.

Providence, R. I.—The epidemic of typhoid fever among the Rhode Island delegation to the Perry celebration at Put-in-Bay, O., has been traced by the government health service to drinking water on board a Lake Erie steamer, the cook of which was suffering from the disease three days before he was taken to a hospital.

A Valuable Suggestion.

"We must do something," said the president of the great railroad system, "to increase our revenues. Can you suggest anything?"

"I don't know of any way," replied the treasurer, "unless you and the chairman of the board are willing to go into vaudeville or report the world's championship games and turn your salaries in as gross earnings."—Chicago Record-Herald.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Can't Escape Him.

On a recent examination paper in civics was this question: "If the president, vice-president and all the members of the cabinet should die, who would officiate?"

Robert, a boy of 12, thought for some time, trying in vain to recall who came next in succession. At last a happy inspiration came to him and he answered: "The undertaker."—Chicago Daily News.

In New Zealand every man out of work has the right to demand employment on work of public improvement at the prevailing rate of wages.

A famous optical works in Austria is using ultra-violet rays produced by arc lights, the carbons of which are impregnated with the salts of iron, for examining the purity of materials with which it deals.

IN GIRLHOOD WOMANHOOD OR MOTHERHOOD

The women who have used **Dr. Pierce's Favorite Prescription** will tell you that it freed them from pain—helped them over painful periods in their life—and saved them many a day of anguish and misery. This tonic, in liquid form, was devised over 40 years ago for the womanly system, by R. V. Pierce, M. D., and has been sold ever since by dealers in medicine to the benefit of many thousand women.

Now—if you prefer—you can obtain Dr. Pierce's Favorite Prescription tablets at your druggist at \$1 per box, also in 50¢ size or send 50 cent stamps to Dr. R. V. Pierce, Buffalo, N. Y. for trial box.

Assist Nature now and then, with a gentle cathartic Dr. Pierce's Pleasant Pellets tone up and invigorate liver and bowels. Be sure you get what you ask for.

GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm tender little stomach, liver and bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad, has sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bits gently moves out of its little bowels without griping, and you have a well, playful child again. Ask your druggist for a 50-cent bottle of "California Syrup of Figs" which contains full directions for babies, children of all ages and for grown-ups.

Our "Earliest Memories." How far back in one's life can one remember? Herbert Spencer used to recall faint pictures of playing in the garden with a sister, a year his junior, who died at 2 years old. His most vivid recollection, however, "worth mentioning because of its psychological interest, is that of certain results caused in me by being left alone for the first time." The nurse went out and locked him up alone in the house. It was the evening of the week when the bells of All Saints' Derby were rung, and they were going all the time the child suffered in loneliness. "All through the early part of my life, and even in adult years, I never heard these bells without a feeling of sadness coming over me."—London Pall Mall Gazette.

An Unreliable Doctor. Mr. Seabury came home from the office one night and told his wife he had been to see the doctor. "He said I was all tired out," said Seabury, "and he thinks I ought to go away on a fishing trip." "That's all right," said his wife, "but don't believe him." "Why not?" queried Seabury, in surprise. "Well," said Mrs. Seabury, "you didn't have any confidence in him when he told me I ought to go to Europe."—New York Times.

The £12,000,000 worth of linen which is the average yearly output of the United Kingdom would wrap the earth at the equator seven times.

When a man is sick he sends for a doctor, when he is ill he summons a physician.—Chicago News.

COMFORTS IN GUEST-ROOMS.

Dickens, who suffered much and suffered many bedrooms, gave special regard to the equipment of the guests' sleeping apartments in his famous home, Gad's Hill, in "Charles Dickens as I Knew Him," Charles Dolby records: "Each of these rooms contained the most comfortable of beds, a sofa, an easy chair, cane-bottomed chairs—in which Mr. Dickens had great belief, always preferring to use one himself—a large-sized writing-table, profusely supplied with paper and envelopes of every description, and an almost daily change of new quill pens. There was a miniature library of books in each room, a comfortable fire in winter, with shining copper kettle in each fireplace, and, on a side table, cups, saucers, tea caddy, teapot, sugar and milk."—London Tit-Bits.

10 CENT "CASCARETS" IF BILIOUS OR COSTIVE

For Sick Headache, Sour Stomach, Sluggish Liver and Bowels—They work while you sleep.

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which soured and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret tonight will give you constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months.

Young Women Join Sodality.

A class of young women were received into the young ladies' sodality of Our Lady of Lourdes Catholic church last night and the feast of the immaculate conception will be observed in the church today. Masses will be celebrated at 6, 7 and 8 a. m., with solemn high mass at 9 a. m. The Very Rev. A. Verhagen will be celebrant, the Rev. Robert Armstrong, deacon, and the Rev. J. Cronin, sub-deacon.

This year there are 3213 young women enrolled at the German universities; 2900 of them are German young women.

The California oil product in 1913 was \$7,000,000 barrels, which was 6,000,000 barrels more than the previous year.
